Riverside County Transportation Commission (RCTC)

Mayor Gutierrez provided an update on the Riverside County Transportation Commission (RCTC):

At the November 28 Western Riverside County Programs and Projects Committee meeting, the Board approved an amendment to the 91 Express Lanes Facility agreement with the Orange County Transportation Authority (OCTA) to allow the allocation of funding to reimburse OCTA and to pay for costs administered by the toll service provider.

Also, the Board approved an agreement with the California Highway Patrol (CHP) to provide enforcement on the 91 Express Lanes set to open in 2017. A key element to ensuring that the toll revenue goals of the project are achieved is the enforcement of toll policies and toll violations. The agreement provides for the CHP to be present during peak periods to observe motorists as they drive through the High Occupancy Vehicle (HOV) 3+ lane and issue citations to those that do not meet the minimum occupant requirement.

Western Riverside Council of Governments (WRCOG)

Council Member Giba provided an update of items covered at the WRCOG Executive Committee meeting on December 5, 2016:

Transportation Uniform Mitigation Fee (TUMF) Program Activities Update

The WRCOG Executive Committee is authorizing the Executive Director to execute a TUMF Reimbursement Agreement to the City of Moreno Valley for the Nason Street/SR-60 Interchange Project in an amount not to exceed \$11,261,500. The purpose of the SR60/Nason Street project was to alleviate congestion, enhance

freeway access, and increase vertical clearance for the interchange. The project achieved the purpose by realigning ramps, adding auxiliary lanes, and replacing the overcrossing structure.

Analysis of Fees and Their Potential Impact on Economic Development in Western Riverside County

WRCOG recently conducted a study to analyze fees collected by jurisdictions. Fee comparisons were conducted for five key land use categories including single-family residential, multi-family residential, retail, office and industrial development. Key findings include:

- TUMF represents 20 percent of development impact fees collected for new residential development in Western Riverside County.
- Residential development fees are modestly below those collected in San Bernardino County, but above those in Coachella Valley.
- Non-residential development fees are modestly below those collected in San Bernardino County with the exception of retail development, but above those in Coachella Valley.
- TUMF fees represent between 1.3 percent and 3.5 percent of total project development costs.
- Between 2002 and the present, overall construction costs have increased more than the overall increases in TUMF for all categories.
- TUMF supports substantial output, wages, and jobs in the County.

Environmental Department Activities Update

The used oil and filter exchange program has educated and facilitated proper recycling of used motor oil and filters in various jurisdictions. The event also offers a place to drop-off other automotive and household hazardous products free of charge. The latest event occurred on November 19th in the City of Riverside. Upcoming used oil events will be provided on December 10th at the AutoZone in the City of Eastvale, January 7th at the AutoZone in the City of Murrieta, and January 28th at the AutoZone in the City of Lake Elsinore.

G.3. CITY MANAGER'S REPORT (Informational Oral Presentation - not for Council action)

City Manager Michelle Dawson provided an update as follows:

- Last Monday, doing business in Moreno Valley became even simpler for developers as well as residents who undertake home improvements.

What we call the "SimpliCITY" system will automate processes for planning applications, permits, inspections, code compliance, cashiering, and many other aspects of the development and municipal code compliance process.

This streamlined system will provide staff with cloud-based access to project and permit information to speed review and approval processes.

We're grateful for the staff's diligent work over the past two years, and to the Council for approving this important \$2 million investment. Last week's launch went extremely well. Now we're looking ahead to a subsequent phase of the system that will ultimately allow customers to complete many of their requests, inquiries, and transactions online.

- Moreno Valley's first annual holiday tree lighting ceremony was a tremendous success. Nearly a thousand residents were on hand for this community event, which capped a day featuring the ever-popular Snow Day for local kids

Minutes Acceptance: Minutes of Dec 12, 2016 6:00 PM (CONSENT CALENDAR-CITY COUNCIL)

and lighting of the “M” on Box Springs. I’d like to thank the community for coming out, the hardworking Parks & Community Services staff for making the event happen, and our Council Members for participating in the festivities. It will continue to be a wonderful way to kick off the Holiday season.

- A news release was sent out today announcing the launch of an interactive online tool that will allow residents to try their hand at creating a balanced City budget. Called “Balancing Act,” this program can be accessed through the City website. We will be providing additional detail at the next Council meeting.
- I’ll be returning regularly with updates on the staff’s progress in achieving the Council’s strategic priorities, via the *Momentum MoVal* plan. Tonight, I’d like to share something that really shouldn’t wait until the next formal report.

The Business Visitation Program is already in full swing. Staff members from Community Development, Economic Development and MVU visit at least one key employer each month. The program allows the City to build relationships, determine business needs, develop new support industries, promote incentive programs such as Hire MoVal, and to identify industry and employer specific educational and training. I’d like to share some recent news with you:

- Supreme Truck Bodies is participating in the Hire MoVal program. They’re expanding their workforce and recruiting for as many as 100 jobs. And the City is an active partner, hosting job fairs at the Employment Resource Center.
- In the recent meeting with Deckers Outdoor, our Team confirmed that employment at the site has grown to 240 employees and that Internet sales - - with local proceeds - - have now begun.

It’s exciting to see quick progress on *Momentum MoVal*, and I appreciate the opportunity to brag about the amazing work underway in all of our operating departments. On behalf of the staff, we’d like to wish the Council and our community a wonderful Holiday season.

G.4. CITY ATTORNEY’S REPORT (Informational Oral Presentation - not for Council action)

Mayor Gutierrez opened the agenda item for public comments, which was received from Roy Bleckert.

The City Attorney provided clarification on the incumbent issue. Per Municipal Code Section 2.0.025 (Term Limits), any person, whether elected or appointed, who serves less than two years would not be considered an “incumbent” at the next election. He wished everyone a Happy Holiday and New Year.

TITLE: SELECTION OF VOTING DELEGATES FOR THE CALIFORNIA LEAGUE OF CITIES 2017 ANNUAL CONFERENCE

RECOMMENDED ACTION

1. Adopt A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF MORENO VALLEY, CALIFORNIA, APPOINTING DELEGATES AND ALTERNATES TO THE LEAGUE OF CALIFORNIA CITIES AS OFFICIAL REPRESENTATIVES OF THE CITY OF MORENO VALLEY; and
2. Direct staff to submit to the League a Certified copy of the Resolution appointing Mayor Pro Tem Victoria Baca as the Delegate and Council Member Ulises Cabrera as the Alternate before September 1, 2017.

SUMMARY

The City of Moreno Valley is a member of the League of California Cities. The League's Annual Legislative Conference is scheduled for September 13, 2017 through September 15, 2017. Member cities are encouraged to send a city representative as a delegate to represent the city and cast their vote on League policy. Each city is allowed one vote.

DISCUSSION

An important part of the Annual Conference is the conducting of the Annual Business Meeting at the General Assembly. The Annual Business Meeting is scheduled for noon on Friday, September 15, 2017, at the Sacramento Convention Center. For Moreno Valley to be able to vote at the Annual Business meeting, a Voting Delegate must be determined. In addition, two alternate voting delegates may be appointed in the

absence of the voting delegate (only one of the two will be allowed to vote).

Consistent with League bylaws, the city's voting delegate, and up to two alternates, must be designated by the City Council. Designating the voting delegate and alternates must be done by City Council action. In addition, the voting delegate and alternates must be registered to attend the conference. If the voting delegate cannot attend the complete conference, they may register for Friday only. To be able to cast a vote, at least one voter must be present at the Business Meeting in possession of the voting delegate card and a Voting Delegate sticker. In addition, the voting delegate and each alternate must be knowledgeable of the 2017 Annual Conference Voting Procedures.

The League of California Cities has requested attending cities to submit before September 1, 2017, a Resolution designating the voting delegate and two alternates. Adoption of the attached Resolution will satisfy League requirements and enable the City of Moreno Valley to participate in the League's Annual Business Meeting, scheduled for September 15, 2017. Mayor Gutierrez, Mayor Pro Tem Baca and Council Members Marquez, Cabrera and Giba will all be attending the Annual Conference representing the City of Moreno Valley.

FISCAL IMPACT

The fiscal impact for this League of California Cities trip is approximately \$4,000 and was included in the recently adopted budget. The total City Council training and travel budget (1010-10-01-10010-620510) for FY 2017/18 is \$14,600.

TO: Mayors, City Managers and City Clerks

**RE: DESIGNATION OF VOTING DELEGATES AND ALTERNATES
 League of California Cities Annual Conference – September 13 – 15, Sacramento**

17 MAY 15 PM 3:11
 CITY COUNCIL
 MORENO VALLEY
 RECEIVED

The League's 2017 Annual Conference is scheduled for September 13 – 15 in Sacramento. An important part of the Annual Conference is the Annual Business Meeting (during General Assembly), scheduled for 12:30 p.m. on Friday, September 15, at the Sacramento Convention Center. At this meeting, the League membership considers and takes action on resolutions that establish League policy.

In order to vote at the Annual Business Meeting, your city council must designate a voting delegate. Your city may also appoint up to two alternate voting delegates, one of whom may vote in the event that the designated voting delegate is unable to serve in that capacity.

Please complete the attached Voting Delegate form and return it to the League's office no later than Friday, September 1, 2017. This will allow us time to establish voting delegate/alternate records prior to the conference.

Please note the following procedures that are intended to ensure the integrity of the voting process at the Annual Business Meeting.

- **Action by Council Required.** Consistent with League bylaws, a city's voting delegate and up to two alternates must be designated by the city council. When completing the attached Voting Delegate form, please attach either a copy of the council resolution that reflects the council action taken, or have your city clerk or mayor sign the form affirming that the names provided are those selected by the city council. Please note that designating the voting delegate and alternates **must** be done by city council action and cannot be accomplished by individual action of the mayor or city manager alone.
- **Conference Registration Required.** The voting delegate and alternates must be registered to attend the conference. They need not register for the entire conference; they may register for Friday only. To register for the conference, please go to our website: www.cacities.org. In order to cast a vote, at least one voter must be present at the

Annual Conference Voting Procedures

1. **One City One Vote.** Each member city has a right to cast one vote on matters pertaining to League policy.
2. **Designating a City Voting Representative.** Prior to the Annual Conference, each city council may designate a voting delegate and up to two alternates; these individuals are identified on the Voting Delegate Form provided to the League Credentials Committee.
3. **Registering with the Credentials Committee.** The voting delegate, or alternates, may pick up the city's voting card at the Voting Delegate Desk in the conference registration area. Voting delegates and alternates must sign in at the Voting Delegate Desk. Here they will receive a special sticker on their name badge and thus be admitted to the voting area at the Business Meeting.
4. **Signing Initiated Resolution Petitions.** Only those individuals who are voting delegates (or alternates), and who have picked up their city's voting card by providing a signature to the Credentials Committee at the Voting Delegate Desk, may sign petitions to initiate a resolution.
5. **Voting.** To cast the city's vote, a city official must have in his or her possession the city's voting card and be registered with the Credentials Committee. The voting card may be transferred freely between the voting delegate and alternates, but may not be transferred to another city official who is neither a voting delegate or alternate.
6. **Voting Area at Business Meeting.** At the Business Meeting, individuals with a voting card will sit in a designated area. Admission will be limited to those individuals with a special sticker on their name badge identifying them as a voting delegate or alternate.
7. **Resolving Disputes.** In case of dispute, the Credentials Committee will determine the validity of signatures on petitioned resolutions and the right of a city official to vote at the Business Meeting.

Agency Report of: Public Official Appointments

California
Form **806**

A Public Document

Background

This form is used to report additional compensation that officials receive when appointing themselves to positions on committees, boards, or commissions of another public agency or to a committee or position of the agency of which the public official is a member.

This form is required pursuant to FPPC Regulation 18702.5. Each agency must post on its website a single Form 806 which lists all the paid appointed positions to which an official will vote to appoint themselves. When there is a change in compensation or a new appointment, the Form 806 is updated to reflect the change. The form must be updated promptly as changes occur.

Instructions

This form must be posted prior to a vote (or consent item) to appoint a governing board member if the appointee will participate in the decision and the appointment results in additional compensation to the appointee.

FPPC Regulation 18702.5 provides that as long as the public is informed prior to a vote, an official may vote to hold another position even when the vote results in additional compensation.

Part 1. Agency Identification

Identify the agency name and information on who should be contacted for information.

Part 2. Appointments

Identify the name of the other agency, board or commission. List the name of the official, and an alternate, if any.

List the appointment date and the length of term the agency official will serve. Disclose the stipend provided per meeting and the estimated annual payment. The annual salary is an estimate as it will likely vary depending upon the number of meetings. It is not necessary to revise the estimate at the end of the calendar year.

Part 3. Verification

The agency head or his/her designee must sign the verification.

Frequently Asked Questions (FAQs)

1. When does an agency need to complete the Form 806?

A Form 806 is required when an agency's board members vote to appoint a board member to serve on another governmental agency or position of the agency of which the official is a member and will receive additional compensation.

2. The city council votes to serve as the city's housing authority, a separate entity. Will the Form 806 be required?

If the council members receive additional compensation for serving on the housing authority, the Form 806 is required.

3. Are appointments made by a governing board to appoint one of its members to serve as an officer of that board for additional pay (e.g., mayor) required to be disclosed on Form 806?

No. FPPC Regulation 18702.5(b)(6) exempts from this requirement decisions to fill a position on the body of which the official is a member (such as a councilmember being appointed as mayor) despite an increase in compensation.

4. In determining the income, must the agency include mileage reimbursements, travel payments, health benefits, and other compensation?

No. FPPC Regulation 18702.5 requires only the amount of the stipend or salary to be reported.

5. Which agency must post the Form 806?

The agency that is voting to appoint a public official must post the Form 806 on its website. The agency that the official will serve as a member is not required to post the Form 806. The form is not sent to the FPPC.

6. When must the Form 806 be updated?

The Form 806 should be amended promptly upon any of the following circumstances: (1) the number of scheduled meetings is changed, (2) there is a change in the compensation paid to the members, (3) there is a change in membership on the board or commission, or (4) there is a new appointment to a new agency.

7. If officials choose to recuse themselves from the decision and leave the room when a vote is taken to make an appointment, must the Form 806 be completed?

No. The Form 806 is only required to identify those officials that will vote on an appointment in which the official will also receive additional compensation.

RECOMMENDED ACTION

Recommendation:

1. Receive and file the Fiscal Year 2016/2017 Council Discretionary Expenditure Report as of July 1, 2016 through June 30, 2017.

SUMMARY

This staff report is prepared at the request of the City Council to provide transparency with respect to the expenditure of City funds from City Council Discretionary Expenditure Accounts. These reports are for each Council Member's year to date expenditures for Fiscal Year 2016/2017, as of July 1, 2016 through June 30, 2017. Each Council District and the Mayor receives an annual budget allocation of \$3,000. The reports include each transaction with a clear description of the expenditure.

These new reports are to be posted to the City's website after Council approval. The reports are also included routinely in the City Council agenda as an additional means of distributing the report to the Council and public. These reports will continue to be provided on a monthly basis, posted to the City's website, and included on the City Council agenda for the first regular meeting of each month. The reports will follow the same cycle, and will appear with the monthly payment register on City Council agendas in the future.

Report to City Council

TO: Mayor and City Council

FROM: Marshall Eyerman, Chief Financial Officer

AGENDA DATE: August 15, 2017

TITLE: AUTHORIZATION TO AWARD CONTRACT TO HINDERLITER, DE LLAMAS AND ASSOCIATES FOR SALES TAX AUDIT AND RECOVERY SERVICES

RECOMMENDED ACTION

Recommendations:

1. That the City Council award a contract to Hinderliter, De Llamas and Associates (HdL) to provide sales tax audit and recovery services
2. Authorize the City Manager to execute the Agreement, subject to approval as to form by the City Attorney, and subsequent amendments to the Agreement including the authority to approve purchase orders in accordance with the terms of the Agreement, provided sufficient funding appropriations have been approved by the City Council

SUMMARY

Sales tax revenues account for approximately 18% of the total General Fund budget. Because this revenue source is one of the primary revenue streams the City utilizes the services of contractors to perform audit and recovery services to identify misallocated revenues that rightly belong to the City. The service provided by HdL includes two key components, the audit of sales tax data to identify misallocations or other reporting errors and the reporting of city-wide sales tax data utilized in revenue projections and to aid in the economic development efforts of City staff.

According to the provisions of the Bradley-Burns Uniform Sales and Use Tax law the City is entitled to receive 1% of the 7.75% sales tax captured by businesses located in town or when a purchase from an out of town vendor is delivered to an address in town. It is not uncommon that somewhere in the process from the sale of the product to remitting the sales tax to the Board of Equalization (BOE) to the final allocation to the

City that errors and misallocations occur. The audit and recovery services utilize various analytical tools to identify potential misallocations and to initiate corrective action which generates additional revenue for the City. During the past ten years HdL has identified allocation errors which have resulted in an average of \$200,000 of additional revenue per year to the City.

DISCUSSION

With over 34 years of experience of revenue management HdL is the leading provider to California agencies of sales tax audit and recovery services and they are recognized as experts in the California sales tax collection and allocation system. HdL has provided this service to the City of Moreno Valley for nearly twenty years and is very familiar with the business community in Moreno Valley. With this vast database of over 400 California clients to draw on HdL is able to apply their analytical tools to identify anomalies and potential errors that need to be resolved. Upon the identification of an issue they initiate corrective action with the BOE. Over the past ten years these audit and recovery efforts have resulted in an average \$200,000 per year in additional revenue to the City. In addition HdL works with new businesses locating in town with complex sales tax issues to assist them in correctly applying the sales and use tax rules.

HdL utilizes their expertise to analyze the City's tax data in detail to provide relevant, useful and timely information to support the financial strategies and business retention/expansion efforts implemented by the City Council and staff. Because of the timeliness of the sales tax information this data generally provides early indications of financial trends and issues that are impacting the overall economy and the City's revenue streams.

The City currently contracts with HdL for these vital services. This action would approve a new five year contract with a total not to exceed amount of \$75,600. Based on an estimated annual cost of \$15,000 and the vast historical knowledge working with the City, staff is recommending the new contract, which is in line with their competitors proposed costs.

ALTERNATIVES

1. Award the contract to Hinderliter, de Llamas and Associates for sales tax audit and recovery services and authorize the City Manager to execute the contract and any additional amendments. *This alternative is recommended since this will allow our current sales tax recovery efforts to continue.*
2. Do not award the contract and provide staff with additional direction. *This alternative is not recommended since it would stop our current sales tax recovery program.*

FISCAL IMPACT

Costs for this service have already been included in the two-year budget adopted by the City Council. The actual fees are broken into two categories the Sales Tax Audit and Economic Analysis fee and the Audit and Sales Tax Recovery fee.

The Sales Tax Audit and Economic Analysis fee is a fixed fee which supports the financial modeling and business retention/expansion programs.

| FY 18 | FY 19 | FY 20 | FY 21 (est) | FY 22 (est) |
|---------|---------|---------|-------------|-------------|
| \$6,000 | \$6,000 | \$6,000 | \$6,200 | \$6,400 |

The Audit and Sales Tax Recovery fee is a contingent based fee of 15% that is only paid as new revenues are generated through the audit process. The contract has set aside **\$45,000** over the life of the agreement to address these costs.

I. LETTER OF TRANSMITTAL

April 24, 2017

Mr. Brooke McKinney
 Treasury Operations Division
 City of Moreno Valley

 Moreno Valley, California 92553

RE: Sales and Use Tax Services

Dear Mr. McKinney,

As President of Hinderliter, de Llamas and Associates (HdL), I currently have over 24 years of experience working with local agencies on proactive programs for revenue enhancement, business cooperation, revenue forecasting and analyzing legislative proposals that would impact local agencies receipts of taxes and fees.

Founded in 1983, HdL has 34 years' experience providing revenue management services to California local governments. We currently serve over 400 local government agencies in six states and have recovered more than \$2 billion in revenue for our clients. Our team has extensive finance, economic development, and local government experience. We use this expertise to analyze the City's tax data in detail and provide relevant, useful and timely information to support your financial strategies and business retention/expansion programs. Our highly focused and accurate budget forecasts have proven to be particularly valuable for financial planning.

HdL's approach to maximizing local revenues offers the following advantages:

- HdL maintains the largest and most complete sales tax database in California organized and structured in a manner to allow more thorough revenue audits, accurate budget forecasts and identification of emerging economic trends and opportunities.
- HdL's advanced audit methodology identifies and recovers allocation errors often missed by other systems. Its solid documentation and continuous follow-up results in faster revenue recovery and fewer appeals which results in lower recovery fees.
- HdL's approach to maximizing revenues goes beyond just recovery of misallocated revenues. Its quarterly analysis and staff support is done in context with the surrounding market region to better identify retail trends, voids and opportunities. The service includes a custom non-confidential newsletter that can be shared with the Council and community.
- The included web-based sales tax application and PDF reports provide HdL clients with immediate and convenient access to the most up-to-date tax information available.
- All audit staff are selected and trained for their abilities to maintain positive relations with the business community. The Company's dealings with local businesses are strictly positive and educational in nature, with complete emphasis on protection of confidentiality, cooperation and assistance. This produces the desired gain in City revenues while maintaining positive relations with the City's businesses.

In addition to audit recovery services which are billed on a contingency fee basis of **15%** of revenue recovered for eight consecutive reporting quarters, we are pleased to offer our management services which include management reports, sales tax software and consulting services to the City of Moreno Valley. This includes access to the City's sales tax database through our web-based software and quarterly meetings with one of our principals. In preparation for each meeting, a principal of the firm analyzes the City's data in detail and meets with appropriate City officials to review trends, point out businesses that should be contacted as part of the City's business retention program and discuss and make recommendations regarding the economic and budget implications of the quarter's data. Also included is a non-confidential newsletter that can be shared with your council and the public. The price for this option is **\$650** per month.

Nearby agencies that use HdL's sales tax program include:

II. QUALIFICATIONS

1. Company History and Qualifications

Founded in 1983, HdL Companies is a consortium of three companies established to maximize local government revenues by providing a variety of audits, analytical services and software products. Hinderliter, de Llamas and Associates (HdL), a 100% employee owned company, provides audit and consulting services for sales, use and transaction taxes. The firm developed California's first computerized sales tax management program and was responsible for securing legislation (AB 1611) that allowed independent verification of state allocations. In 1990, HdL Coren & Cone was established to provide audit and information services related to property taxes. The third affiliated company, HdL Software, was formed in 1996 to provide a variety of enterprise software processing tools for business licensing, code enforcement, animal control, building permits and tracking/billing of false alarms. HdL's systematic and coordinated approach to revenue management and economic data analysis is currently being utilized by over 400 agencies in six states.

Many of HdL's key staff have extensive local government experience having previously held positions in municipal management, finance, planning, economic development or revenue collection. This close understanding of local government needs coupled with extensive databases and advanced audit methodologies provides for the most relevant, productive and responsive, revenue recovery, forecasting and economic services available. The team that would serve Moreno Valley has decades of experience in managing budgets, developing and implementing economic strategies and tracking sales and use tax revenues.

HdL maintains the largest privately held sales, property and business tax databases in California. The firm constantly improves and enhances the Board of Equalization's (BOE) raw registration data by correcting addresses and business names, differentiating brick and mortar retailers from business to business and online taxpayers and adding new business classifications to better identify emerging trends and economic opportunities. This highly enhanced database includes 27 years of the City of Moreno Valley's sales tax history and serves as the base for identifying emerging economic trends and developing budget projections that take those trends into account.

The database also includes constantly updated registration data for every seller in California, allocation data for 502 of the state's 538 agencies and 99 transactions tax districts, business license data for 668,000 businesses, property tax data for every jurisdiction in the 38 largest counties, a constantly updated automated telephone directory for all of California and thousands of business contacts developed through three decades of audit and business development activity.

HdL monitors an annual sales tax base of \$4.9 billion on behalf of clients that includes some of the most complex industrial, e-commerce, inventory/delivery, and out-of-state sales and use tax issues in California. The Company submits an average of 6,000 errors for correction each year with total values generally ranging from \$40 million to \$50 million. To date, HdL has recovered a cumulative total of \$2 billion in new sales and use tax revenues for client agencies.

Hinderliter, de Llamas and Associates is proud to have served local governments and special districts for over 34 years. During that span of time, HdL has grown from one employee to over 60 employees. In 2007, HdL's employees purchased the corporation from the founding partners and the company is now 100% employee owned. This structure provides each and every employee a personal investment in servicing our clients. Rather than focusing on short-term quarterly profits to appease stock market investors, our employee-owners believe in a long-term strategy of continually investing in new technology, databases and service upgrades to support our client's needs for precise auditing, budgeting and economic information. This approach has led to the steady long-term growth, financial stability, capacity and resources that Moreno Valley requires from its vendors.

The Company goes beyond audits by using its databases and expertise to help clients expand their revenues by identifying economic voids; finding local companies that can restructure the way orders are taken to increase local tax revenues; ascertaining opportunities for expanding use tax from construction projects; seeking prospects for direct payment permits and purchasing corporations and by providing staff expertise to support a proactive and effective approach to short and long term fiscal and economic planning.

HdL is a Corporate Partner of the League of California Cities and California State Association of Counties, and works extensively with the State Association of County Auditors, California Society of Municipal Finance Officers (CSMFO) and California Municipal Revenue and Tax Association (CMRTA) on anticipation and planning of programs to strengthen local government revenues.

The firm will employ a series of analyses, comparisons with other data sources and physical canvassing the City to find, document and submit for correction all taxpayer errors that result in lost City revenue or could result in lost revenue in the future. When errors are found, HdL staff will promptly file claims for their correction following BOE procedures and regulations. Thereafter, HdL will diligently work with the BOE to ensure the prompt recovery of all escaped revenues. Documentation of errors will be regularly provided to the City.

In conducting these activities on behalf of the City, HdL will provide reports that accurately depict the City's sales tax base, use tax collections and revenues. All reports, graphs, tables and revenue forecasts are designed to enhance the City's capacity to plan for, expand and manage its various sales use and district tax revenues. Reports identifying and comparing the retail composition of various sub-geographic-areas of the City will also be provided.

To achieve the highest audit and recovery results, HdL employs the following audit techniques and programs:

A. Identification of Errors and Revenue Maximization Opportunities

1. Field Surveys: Field inventories of the City's business and industrial areas are conducted every 10-12 months to identify businesses located within the City that appear to be under-reporting revenues or are not on the BOE allocation rolls. Specially trained field auditors, using the latest in mapping, GPS and digital recording technology, document not only the existence of sales tax producing businesses but also any relevant factors such as size, presence of a large stock of goods, will-call windows and any specific references to sales activity. This process identifies a wide range of registration errors including erroneous consolidation of multiple outlets, misreporting of point of sale from an erroneous location and delays in reporting new outlets.
2. Tax Area Code (TAC) Review: HdL reviews every active account on the BOE's allocation rolls reporting \$50 or more in local tax to ensure proper TAC assignment. Government and private sector mapping and GIS databases are used extensively in this process. These programs are important because physical canvassing will not reveal businesses with missing or incomplete signage, or those that are home-based. A complete TAC review is performed at least once every 9-12 months.
3. Deviation Assessment: HdL applies proprietary queries and analyses to its statewide allocation database to identify *all* accounts for which there has been a substantial change in allocation pattern. HdL's database, unmatched in size, comprises over 98.5% of all sales and use tax transactions in California and allows for the most comprehensive audits in the state. The deviation review is performed every three months and is far more sophisticated and thorough than a review of the BOE's published Quarterly Distribution Report. The review is applied to direct allocations and to the county pools, and allows for a much broader view and understanding of what has happened in any given quarter. Well-founded leads are quickly culled from this

process, often without the need for time-consuming manual reviews of taxpayer files. This allows for faster processing and less time used for preparing submittals. This in turn lowers recovery fees by reducing the amount of prior quarter revenue requiring redistribution.

4. Use Tax Errors and Opportunities: HdL analyzes the use tax allocation pools of the 58 counties and the state each quarter to identify instances where a taxpayer may have misidentified a transaction as use tax rather than sales tax. Further specialized reviews and techniques are employed to identify direct allocation opportunities of local use tax. State Board of Equalization Regulation 1802(d) allows for direct allocation of local use tax on qualifying individual sales or purchases over \$500,000. Out-of-state and foreign-based companies in particular often have large transactions that meet the criteria for direct allocation under this section. Under Regulation 1699.6, businesses and organizations (including local government agencies) with aggregate purchases subject to use tax of least \$500,000 per year can apply for a Use Tax Direct Payment Permit, allowing for direct allocation of the corresponding local share. Finally, under a resolution adopted by BOE in December 1994, a construction contractor who enters into a contract equal to or greater than \$5,000,000 may elect to obtain a sub-permit for the jobsite resulting in a direct allocation of local use tax to the jurisdiction where the jobsite is located.
5. Regulation 1699 Evaluations: BOE Regulation 1699 controls when and where a permit should be issued to a given business location. Wholesalers, contractors, processors, manufacturers, and other non-retail businesses that do not normally sell merchandise often conduct occasional sales, self-accrue use tax or are levied deficiency assessments by the state. HdL uses proprietary methods for finding companies that should be taking out permits so that those revenues are allocated to the City.

B. Recovery of Misallocated Revenue

1. Development of Correction Data: Preliminary lead lists developed through any of the aforementioned audit programs are further culled using a variety of programs and databases to reduce the need for taxpayer contact. Companies remaining in the audit database are then contacted by a specialized audit unit whose members are specifically selected and trained to interview tax preparers and marketing, warehouse and management staff. ***Taxpayer interviews are always conducted in a business friendly, non-intrusive manner that emphasizes cooperation and protection of confidentiality.***
2. Documentation: Telephone contacts are often accompanied by a written follow-up questionnaire concerning business activities, a specific one-time transaction or a written confirmation of our findings. This documentation is always filed with the petition to minimize BOE processing time. Solid documentation and follow-up lowers client fees by reducing the number of quarters requiring retroactive adjustment and ensures faster recovery of misallocated revenues.
3. City Review: To avoid potential conflicts with a City's in-house audit efforts, HdL prepares a list of misallocated or under-reporting businesses for City officials to review and authorize prior to any invoicing. This line item, account-level approval process is an important step in eliminating any misunderstandings or disagreements regarding what may be considered a valid audit "find."

4. Preparation and Submittal of Corrections: Petitions are prepared (BOE Form 549-S or 549-L) that notify the BOE the existence and nature of the misallocation. All relevant and available supporting documentation is included. Copies of all transmittal forms and correspondence with the BOE and taxpayers are sent to City staff.
5. Continuous Follow-up: HdL employs a full-time case manager whose responsibility is to monitor and follow-up on case inventory. An aging report is updated and reviewed on a monthly basis and the appropriate follow-up is initiated on cases that are taking an inordinate amount of time to correct. This follow-up emphasizes partnership and cooperation with BOE Allocation Group staff. HdL's continuous efforts to check on the status of submittals are made to ensure that corrections are being pursued. Timely follow-up on cases reduces the time it takes for the City to recover its revenue.
6. Appeals: HdL cases are thoroughly researched, vetted and documented *prior to* submittal. This ensures the fastest possible processing times, and reduces the number of cases that are initially disclaimed and must be further researched and defended through a very lengthy BOE appeals process. Nearly all HdL cases are resolved favorably at either the first or second levels of the BOE petition process described in Regulation 1807. HdL has cultivated close working relationships with the BOE Appeals Division and with each of the elected Board Members. When an appeal is required, HdL has the necessary expertise and access to competently and aggressively represent client interests. Having a large number of cases on appeal may be presented by some vendors as evidence of a more sophisticated and aggressive audit program. It should be viewed, however, as an indication that inadequate supporting documentation tends to require more case appeals and lead to otherwise unnecessary procedural delays.

C. Track Record

HdL is effective in recovering misallocated revenue for client agencies in 97% of all cases submitted to the BOE. In the roughly 3% of cases that are initially disclaimed, HdL is able to achieve positive results by successfully appealing cases. The small amount of cases that do to appeal is evidence of HdL's thorough research and the quality of the factual information included to support claims.

Only 5% of HdL's case submittals are unresolved after two quarters with an average for all cases of 186 days. The company's backlog of cases requiring retroactive adjustments for any lengthy period of time is one-fifth that of other companies submitting claims to the BOE.

2. Management Services

A. HdL Database, Reports and Training

HdL maintains Moreno Valley's detailed sales tax data back to 1993 and will provide City staff with unlimited access to its quarterly updated web-based sales tax system to facilitate "in-house" analysis and printing of reports. The system allows City staff to search, print and export their sales tax data for a variety of financial, management and planning functions. The system provides the ability to search all sales tax producers in the City by business name, address, BOE account number and current or historical sales tax allocations. The web application also provides access to the City's archived quarterly sales tax reports. Data is easily queried and exported to either comma delimited or native Excel formats, allowing for convenient use with standard applications such as the Microsoft Office suite. The web application is accessible from all major operating systems, internet browser platforms, and device types (laptop, tablet, PC, mobile). The City's archived quarterly sales tax reports can also be accessed through the online sales tax application.

HdL's geo-area feature supports use of address ranges, which ensures the inclusion of all appropriate BOE registrations and also allows City staff to create and modify geo-areas without a separate GIS system. HdL also supports interfacing with the City's GIS by including accurately geocoded latitude and longitude for each business. This data can include all data fields including historical allocation information and can be quickly exported by City staff on demand using HdL's Sales Tax Web Application. Additionally, City created shape files can be used to define a Geo-area, which would identify related businesses by latitude and longitude.

Training on use of the software and ongoing upgrades is provided at no additional charge.

Quarterly sales tax reports are provided on both a cash and adjusted basis. Cash reports reconcile to BOE payments and are necessary for any revenue sharing agreements that the City might have in place. The adjusted reports shift payment aberrations (double-up payments, BOE audit adjustments, etc.) into the quarter where the sales occurred to accurately show the City's true economic trends. The quarterly sales tax data will be presented in reports for major sales tax producers by both rank and category, analysis of sales tax activity by category, business or areas specified by the City.

HdL's quarterly sales tax reports include a listing of top sales tax producers and comparisons with both regional and statewide trends. Retailer information is provided in grouped form or in business by business detail. Quarterly information will also include tables that track year-to-date receipts and show comparisons with past periods to measure progress toward achieving the City's annual budgeted revenue amount. HdL staff also prepares sales and use tax projections for proposed development projects, responds to technical questions relating to BOE processes and regulations, and monitors revenue sharing agreements.

HdL's services are superior to other vendors because the firm provides data analysis instead of bound stacks of raw data printouts. The analysis is done in context with regional market areas, countywide and statewide trends to better monitor and compare the City's economic performance by business category and geographical area. A non-confidential newsletter is included to support management's efforts to inform and engage the public.

Analysis of sales and use tax data and presentations to City staff are led by seasoned professionals, whose experience and knowledge adds value by identifying emerging retail trends, business retention needs, leveraging of economic clusters and reviewing successes in client jurisdictions with similar characteristics. HdL staff also prepares sales and use tax projections for proposed development projects, responds to technical questions relating to BOE processes and regulations, and monitors revenue sharing agreements.

B. Budget Projections and Monitoring

HdL has developed a comprehensive, detail-oriented method for projecting and monitoring client sales and use tax revenues that has proved to result in estimates that fall within 1% of actual receipts two-thirds of the time. Initial and mid-year projections are made by factoring out payment aberrations that skew the base revenue and factoring in known changes such as new or closed businesses. HdL also incorporates information from over 90 economic sources as well as information gathered from client meetings to develop economic factors to apply to individual retail business segments; the results are combined into a single estimate of anticipated revenue. HdL further enhances its projections by contacting builders of large-scale development projects to better time and estimate the value of potential use tax payments into its estimates. *Five year forecasts are also provided.*

C. Use Tax Maximization Program

Major construction projects and even ongoing business operations often generate significant use tax revenues from purchases of machinery, equipment and other fixed assets. HdL has worked with numerous clients to ensure that use tax from manufacturing and assembly plants, food processing, cold storage facilities, power/energy projects, medical, research and technical facilities, oil fields/refineries and extraction/mining industries are properly allocated to the host jurisdiction.

HdL's sales tax team includes a staff of specialists who review new business startups that might present potential self-assessed use tax opportunities, meets with contractors to advise on sub-permits and reporting procedures and provides materials and advice on purchasing companies and direct payment permits. The firm monitors major construction projects to make sure that any use tax generated is properly allocated to the job site's host jurisdiction.

When brought into a project early, HdL assists clients with inserting provisions in conditional use permits and development agreements to guarantee that use tax maximization procedures are followed and monitors projects and subcontractors to make certain that sales tax is properly allocated back to the client jurisdiction. Direct payment permits and purchasing corporations can sometimes be utilized where conditions offer mutual opportunities for the client agency to capture additional sales tax revenues and the participating company can increase control of sales and use tax liabilities.

D. Economic Development Benefits

When properly refined and organized, sales tax data analysis is an important tool for strengthening and expanding local economies. The data shows companies that are growing and may need expansion space and should be contacted as part of an agency's business retention program. When broken out geographically, the data produces patterns

of industries that potentially share common customers, suppliers, technology and labor and therefore offer opportunities for attracting new businesses. The data further exposes retail areas that may be over saturated in some retail segments while also identifying voids and opportunities for additional retail development

Although numerous companies and agencies use the BOE's published data as a basis for analysis, the results are usually inaccurate and misleading due to address and business categorization errors in the data. To correct those deficiencies, HdL performs data validation and scrubbing techniques on an ongoing basis, fixing business addresses and re-categorizing merchants to differentiate brick and mortar retailers from "business to business" suppliers and on-line retailers.

The company further creates and groups businesses into additional categories and classifications, not provided by the BOE, to better track new and emerging economic trends. Samples include the breaking out of biotech/medical suppliers, online fulfillment centers, alternate energy and utility providers, wineries and marijuana dispensaries. This focused approach to data management allows agencies to more accurately compare the impact of trends in their jurisdiction with state and regional trends. On a regional basis, it also allows for the identification of true economic voids and opportunities to expand the City's tax base.

Accurate addressing allows for improved performance monitoring and comparison of specific economic areas such as shopping centers, downtown districts and auto malls with similar projects throughout California.

In addition to using our large database, HdL's principals leverage their experience analyzing client data throughout California to identify new trends and developments that might help other clients. The service includes analyses to identify retail voids and opportunities and an annual publication of retailers seeking expansion in the region and state.

E. Legislative Updates

HdL prepares Legislative Updates for clients to keep them informed on any changes that may impact local revenues. The firm also provides Issue Updates which are similar in nature but deal with specific issues such as Sales Tax Participation Agreements. Each issue is presented in detail so that Agency staff is better equipped to handle questions on that topic from their community leaders.

The firm also retains Johan Klehs as a lobbyist to represent client interests in matters before the BOE and the state legislature. Mr. Klehs is respected as an expert in budget, fiscal, taxation, and business issues affecting California and its economy. He maintains a wide range of ties with the executive and legislative branches of state and federal government. In statewide office, Klehs served as Chair and a Member of the California State Board of Equalization (1995-2003) and a Member of the Franchise Tax Board. He also served 14 years as a Member of the California State Assembly.

F. Consultation

Each quarter, a principal of the firm analyzes the City's data in detail and meets with appropriate City officials to review trends, and discuss and make recommendations regarding the budget implications of the quarter's data.

HdL also serves as "on-call" staff to provide sales tax estimates for proposed projects, assist with budget projections and answer sales and use tax questions related to economic development, budgeting and related revenue collection. When requested by the City, principals also meet with committees of the City Council and other groups to explain sales tax regulations and their importance to the City's tax base.

HdL will, when requested by the City, conduct technical seminars for City personnel on California sales and use tax processes. To support in-house efforts to maximize use tax, the seminars will cover the fundamentals of direct payment permits, purchasing corporations and maximizing "use tax" from construction projects.

HdL maintains close and positive relationships with members of the BOE and staff to quickly resolve policy issues unique to individual clients. The firm also advocates regulation and legislative changes when they are of benefit to all clients. Examples are the Company's work in the change of allocation of "use tax" for major construction projects, securing an Executive Order from the Governor to allow publishing of top taxpayers in public documents and the introduction of the problem of "point of sale" for warehouses to the BOE.

VI. FEE PROPOSAL

1. Sales and Use Tax Audit Services

HdL proposes a fee of **15%** of all new sales and use tax revenue received by the City (including reimbursement from the sales and use tax compensation fund outlined in Section 97.68 of the Revenue and Taxation Code) as a result of audit and recovery work performed by the firm. This audit fee applies to monies received in the first eight consecutive reporting quarters beginning with the receipt of the audit revenue and includes retroactive back quarter adjustments obtained by HdL.

Audit fees are billed only after completion of the audit, submittal of corrections to the BOE and receipt of revenues by the client. 100% of all new revenue generated by HdL flows to the City after the completion of the eight quarters. The fee constitutes the full reimbursement to HdL and covers all direct and indirect costs incurred by the firm under this contract. This includes all salaries of our employees, travel expenses and service contracting costs as well as the software to be delivered to the City of Moreno Valley under this proposal.

Invoices are submitted only for recoveries previously approved by the City. HdL does not bill for audit revenues until the client has actually received said monies. Further, if during the billing cycle, a taxpayer receives a refund for overpayment of taxes generated during that cycle, HdL credits back any proportionate share of the fee that may have been levied.

Invoices are submitted quarterly after the City has received the revenue from the audit correction. The invoice includes a printout showing the name, address, and sales tax registration number of each company, and the specific amount of revenue allocated by the BOE to the City for those businesses.

If a misallocation correction involves additional revenue from a company that had already been partially allocating revenues to the City, the City and HdL will agree in a Work Authorization, prior to billing, the methodology for identifying the incremental revenue attributable to HdL's work.

2. Sales and Use Tax Management Services, Quarterly Delivery Meetings and Web-Based Application

This includes access to the City's sales tax database through our web-based software and quarterly meetings with one of our principals. In preparation for each meeting, a principal of the firm analyzes the City's data in detail and meets with appropriate City officials to review trends, point out businesses that should be contacted as part of the City's business retention program and discuss and make recommendations regarding the economic and budget implications of the quarter's data. Also included is a non-confidential newsletter that can be shared with your council and the public. The price for this option is **\$650 per month**.

EXHIBIT B**CITY RESPONSIBILITIES**

Report to City Council

TO:

FROM: Marshall Eyerman, Chief Financial Officer

AGENDA DATE: August 15, 2017

TITLE: AUTHORIZE THE AMENDMENT TO THE CONTRACT WITH TYLER TECHNOLOGIES FOR THE PURCHASE AND IMPLEMENTATION OF THE CASHIERING MODULE AND AUTHORIZE THE CITY MANAGER TO SIGN THE AMENDMENT

RECOMMENDED ACTION

Recommendations: That the City Council

1. Authorize the amendment to the contract with Tyler Technologies for the purchase and implementation of the Tyler Cashiering module.
2. Authorize the City Manager to sign the amendment.
3. Authorize the transfer of \$50,000 from the Equipment Replacement Reserve Fund to the Technology Services Asset Fund for the replacement project.
4. Authorize the expenditure of \$50,000 for the purchase and implementation of the replacement software.

SUMMARY

This report recommends the authorization of the amendment to the contract with Tyler Technologies to purchase and implement the new Tyler Cashiering module along with the transfer of funds between the Equipment Replacement Reserve Fund and the Technology Services Asset Fund to fund the replacement project. The City has been using software developed by ActiveNetwork since 2004 but this software has been retired and is no longer being supported by the vendor. This has resulted in staff reviewing different software firms to find a replacement. During the past year Tyler Technologies, who is the software provider for City's primary financial systems, has developed a dedicated cashiering module. This module integrates directly with other

Tyler products that have already been implemented in the City, and will allow staff to process customers more quickly and efficiently while improving the internal controls at the cashier counter at the same time. The purchase and implementation will cost approximately \$50,000 which will be funded through the Equipment Replacement Reserve which has accumulated sufficient funds from the depreciation of the previous software. If approved the implementation project is expected to be completed by January 2018.

DISCUSSION

In 2004 the City implemented the “Point of Sale” software from CLASS/ActiveNetwork. Point of Sale (POS) software is the general term used to describe software developed to accommodate the receipt of payments similar to a cash register. In 2015 the City was notified that CLASS/ActiveNetwork was planning to retire that product so staff began researching replacement alternatives. At the same time the credit card and banking industries implemented new security rules which have changed how the City processes credit card and check transactions. Staff reviewed POS modules which were available from New World, who was the City’s vendor for the other key financial functions, and determined that the products they offered for cashiering at that time were insufficient to meet the needs of the City. In 2016 it was determined that software purchased for the Simplicity project had a cashiering tool and while it was limited in its capability and would require a separate system for processing credit cards and did not provide for the remote deposit of checks the cashiers would migrate over to this new software. While the Accela software is able to perform basic cashiering tasks the inefficiencies of the software, related to payment processing, has resulted in significant increase in the processing times experienced by customers at the counter as well as in the time it takes staff to process payments received through the mail or other back-office sources.

During 2016 New World was purchased by Tyler Technologies. Tyler Technologies has since developed a dedicated cashiering module and has been installing the product with customers over the past year. The Tyler Cashiering module is a robust POS system designed specifically for the cashiering process and addresses both “customer present” transactions as well as “back-office” transactions. This module has been developed to interact directly with the other financial modules that the City has already implemented and will allow staff to leverage these resources more fully and to achieve increased levels of efficiency.

Some of the benefits that we expect to achieve from the implementation of this new module include:

- Faster customer processing at the counter
- Improved workflow for the cashier
- Integrated processing of credit card transactions
- Integrated processing of checks through remote deposit (Check 21)
- Improved internal controls
- Integration with the Logos financial software suite

The implementation schedule is expected to take approximately six weeks. Based on our preliminary discussions with Tyler Technologies we anticipate having the Tyler Cashiering module fully implemented before January 2018; however this timeline will depend on the availability of Tyler resources.

ALTERNATIVES

1. Authorize the amendment to the Tyler Technologies contract, authorize the City Manager to sign the amendment, authorize the transfer of \$50,000 from the Equipment Replacement Reserve to the Technology Services Asset Fund and authorize the expenditure of \$50,000 from the Technology Services Asset Fund for the replacement project. *This alternative is recommended since this will provide the authorization to begin the implementation project to replace the current cashiering software and improve the level of customer service.*

2. Do not authorize the amendment to the Tyler Technologies contract and provide staff with additional direction. *This alternative is not recommended since this will result in the continued use of the current software which has inhibited staff's ability to provide good customer service due to inefficiencies in the software.*

FISCAL IMPACT

The purchase and implementation of the Tyler Cashiering module will cost approximately \$50,000 and will be funded from the Equipment Replacement Reserve Fund. Funds have been accumulated in the Equipment Replacement Reserve Fund to replace the Class Point of Sale software which has been the primary system utilized for the recording and processing of payments at City Hall since 2004. This action will also authorize the transfer of funds from the Equipment Replacement Reserve and the Technology Services Asset Fund and will authorize the expenditure of the funds from the Technology Services Asset fund as outlined in the following table.

| Description | Fund | GL Account No. | Type (Rev/Exp) | FY 17/18 Budget | Proposed Adjustments | FY 17/18 Amended Budget |

Report to City Council

TO: Mayor and City Council

FROM: Marshall Eyerman, Chief Financial Officer

AGENDA DATE: August 15, 2017

TITLE: APPROVE AMENDMENT NO. 1 TO THE POWER PURCHASE AGREEMENT AMONG RE ASTORIA 2 LLC (AS SELLER) AND SOUTHERN CALIFORNIA PUBLIC POWER AUTHORITY (SCPPA), THE POWER AND WATER RESOURCES POOLING AUTHORITY (PWRPA), AND THE CITIES OF LODI, CORONA, MORENO VALLEY, AND RANCHO CUCAMONGA (TOGETHER, AS BUYERS)

RECOMMENDED ACTION

Recommendation:

1. Approve Amendment No. 1 to the Power Purchase Agreement among RE Astoria 2 LLC (as Seller) and the Southern California Public Power Authority (SCPPA), the Power and Water Resources Pooling Authority (PWRPA), and the Cities of Lodi, Corona, Moreno Valley, and Rancho Cucamonga (together, as Buyers).
2. Authorize the City Manager to execute the Amendment.

SUMMARY

On June 24, 2014, the City Council approved a Power Purchase Agreement (PPA) through which Moreno Valley Utility will purchase renewable energy from the RE Astoria 2 LLC Solar Project, a wholly owned subsidiary of Recurrent Energy. The City of Moreno Valley is one of several buyers in the project; the other buyers include SCPPA, PWRPA, and the Cities of Lodi, Corona, and Rancho Cucamonga (collectively the Buyers).

During discussions about the procedure for scheduling the energy produced by Astoria 2 into the energy market, the Buyers determined that potential cost savings could be achieved if the Buyers had control over this process rather than the Seller. Amendment

No. 1 is the result of several months of negotiations with the Seller to obtain control of the scheduling responsibilities. This report recommends approval of Amendment No. 1 to the PPA.

This item was presented to the Utilities Commission on July 26, 2017.

DISCUSSION

The RE Astoria 2 LLC Solar Project is owned and maintained by Recurrent Energy, and is the second phase of a larger project that was developed for Pacific Gas & Electric. It is sited on approximately 793 acres located in Kern County, just north of Los Angeles County. This second phase is 75 MW in size and went into commercial operation on December 9, 2016.

The output of the project is allocated as follows:

- SCPPA 45 MW
 - City of Azusa 2 MW
 - City of Banning 8 MW
 - City of Colton 5 MW
 - City of Vernon 30 MW
- City of Corona 2 MW
- City of Lodi 10 MW
- City of Moreno Valley 2 MW
- City of Rancho Cucamonga 6 MW
- PWRPA 10 MW

MVU's allocation in this project counts towards the renewable energy requirement as defined in the Renewable Energy Procurement Plan adopted by the City Council on June 11, 2013, pursuant to Senate Bill 2-1X.

Under the existing PPA, Recurrent Energy serves as the Scheduling Coordinator (SC) for the facility, and as such pays a third party to perform the scheduling duties. The SC is responsible for scheduling the energy produced by the power plant into the California Independent System Operator's (CAISO) energy markets. Additional duties include relaying instructions for plant operations between the CAISO and the plant operator and performing all settlement activities. Settlement activities involve the calculation and verification of CAISO charges and payments associated with scheduling the energy produced by the facility.

Prior to the completion of commissioning the Solar Project in December 2016, the Buyers and Sellers discussed in detail the procedures surrounding scheduling activities. The Buyers determined that a reduction in total CAISO charges could be achieved if the Buyers assumed the role of SC rather than Recurrent Energy. Buyers and Seller negotiated Amendment No. 1 to the PPA to give the Buyers responsibility to schedule the energy into the CAISO market. Terms under Amendment No. 1 include a commencement date of September 1, 2017 for the Buyers to assume the role of SC and clarification of the responsibility of the Buyers and Seller regarding scheduling activities.

The Seller has agreed to pay the Buyers a Scheduling Coordinator Performance Fee of \$44,700 per year (escalating at 2.5% per year) plus certain applicable CAISO fees for assuming SC duties.

ALTERNATIVES

1. Approve Amendment No. 1 to the PPA among RE Astoria 2 LLC (Seller), SCPPA, PWRPA, and the Cities of Lodi, Corona, Moreno Valley, and Rancho Cucamonga (together as Buyers). *This will allow the Buyers to achieve potential savings on the power costs for the Project.* Staff recommends this alternative.
2. Do not approve Amendment No. 1 to the PPA among RE Astoria 2 LLC (Seller), SCPPA, PWRPA, and the Cities of Lodi, Corona, Moreno Valley, and Rancho Cucamonga (together as Buyers). *This will prevent the Buyers from assuming the role of SC and realizing savings on power costs.* Staff does not recommend this alternative.

FISCAL IMPACT

It is anticipated that the Buyers will realize a reduction in total costs paid to the Recurrent Energy by assuming the role of Scheduling Coordinator. The projected annual cost for the RE Astoria 2 LL Solar Project is \$398,400, based on anticipated Project output, and is budgeted in account 6010-30-80-45510-710148.

For the avoidance of doubt, it is intended that the CAISO Settlement Price for any settlement will be based on the market price at which such settlement occurred. For example, for any settlement occurring in the Integrated Forward Market (as defined by CAISO), the CAISO Settlement Price would be the LMP in the Integrated Forward Market (as defined by CAISO) and for any settlement occurring in the Fifteen Minute Market (as defined by CAISO), the CAISO Settlement Price would be the LMP in the Fifteen Minute Market (as defined by CAISO).

Section 7.2 Scheduling Coordinator; CAISO Cost Allocation.

(a) Through midnight on August 31, 2017, Seller shall continue to perform Scheduling of the Facility Energy and any Replacement Product pursuant to the APX MSA. Commencing as of the Commencement Date, the APX MSA shall terminate and Buyers or Buyers’ designee shall act as Scheduling Coordinator to cause the Scheduling of all Facility Energy, Capacity, and/or Replacement Product at the Point of Delivery, including performing (or causing the performance of) Scheduling and related services, including CAISO SCID Scheduling, Settlement and Payment and Operations Support Services (as defined in the APX MSA). (c) Seller shall pay the CAISO Forecasting Service Fee (CC701) (currently an amount equal to \$0.10/MWh), and the CAISO Scheduling Coordinator Identification Charge (CC4575) (currently an amount equal to \$1,000/month) on all CAISO invoices, as such fees and charges may be adjusted by the CAISO from time to time. Buyers shall offset such amounts that are the responsibility of Seller against amounts owed by Seller to Buyers in the monthly invoice to be delivered by Buyers hereunder.

(d) Each Party shall be obligated to either pay to the CAISO or reimburse the other Party for any and all costs or charges under a Settlement Statement incurred by such other Party because of the reimbursing Party's failure to perform any covenant or obligation set forth in this Agreement.

- H. The terms "CAISO Integration Amounts" and "CAISO Integration Amounts Cost Cap" are hereby deleted in their entirety from Section 1.1 of the Agreement. Appendix N is hereby also deleted from the Agreement.
- I. Effective as of 00:01 PPT on September 1, 2017, Section 7.3(a) of the Agreement shall be amended and restated in its entirety as follows:

Section 7.3 Forecasting and Scheduling of Energy.

(a) Except upon the occurrence of a curtailment under Section 7.4, Buyers shall (or shall cause their applicable designee to) Schedule all Facility Energy and Replacement Product in a reasonable and prudent manner in accordance with the CAISO Tariff, NERC and WECC operating policies and criteria, and any other applicable guidelines or requirements. Seller, at its own cost, shall install metering, telemetry and control equipment so as to be able to provide Facility Energy and capacity to the Point of Delivery and respond to CAISO, Transmission Provider, or reliability coordinator's dispatch orders.

- J. Section 7.4(b) of the Agreement shall be amended and restated in its entirety as follows:

(b) Seller may direct Buyers to cause Scheduling Coordinator to reduce the Scheduling of deliveries of Facility Energy to the Point of Delivery during the Initial Negative Intervals

as directed by Seller, provided that Buyers shall pay Seller for any Facility Energy actually delivered during the Initial Negative Intervals in accordance with Section 6.5(a)(ii). If Seller directs Buyers to cause Scheduling Coordinator to reduce deliveries of Facility Energy in accordance with this Section 7.4(b), then Buyers shall not be obligated to pay Seller for the amount of reduced Facility Energy arising during such a curtailment, but Seller shall receive credit for the amount of Deemed Generated Energy for reductions of deliveries of Facility Energy arising hereunder for purposes of determining Seller's compliance towards its Guaranteed Generation.

K. Section 7.4(c) of the Agreement shall be amended and restated in its entirety as follows:

(c) In addition to the curtailments described in Section 7.4(a) and Section 7.4(b), each Scheduler may curtail deliveries of the Applicable MW Share of its respective Buyers or SCPPA's Participating Members, as applicable, at any time and for the duration specified by such Scheduler, including in accordance with Section 6.5(a)(iii). Each Scheduler (acting through the Scheduling Coordinator) shall provide a minimum of ten (10) minutes' notice to Seller of a request for curtailment under this Section 7.4(c), and Seller shall comply with such request in accordance with Prudent Utility Practices. In its curtailment notice to Seller, such Scheduler (acting through the Scheduling Coordinator) shall indicate the duration of the curtailment period, which shall be for a minimum of thirty (30) minutes, and the time at which such Scheduler requests Seller to resume delivery of the Facility Energy to such Scheduler, in accordance with the Applicable MW Share of its respective Buyers or SCPPA's Participating Members, as applicable. To the extent a Scheduler (acting through the Scheduling Coordinator) requests any change in the duration of the requested curtailment period, Seller shall effectuate any such change no later than ten (10) minutes following notice from such Scheduler's notification to Seller of the proposed change to curtailment. Seller shall respond to any Scheduler's curtailment notices (including the end of such curtailment periods) in accordance with Prudent Utility Practices. Each applicable Buyer shall pay Seller for any Deemed Generated Energy during any curtailment under this Section 7.4(c) in an amount equal to the Fixed Rate; *provided, however*, Seller shall use commercially reasonable efforts to sell any such Deemed Generated Energy to third parties at a positive price to the extent permitted under the CAISO Tariff. To the extent such Deemed Generated Energy is sold to a third party, (i) the obligation to pay the amounts set forth above for a curtailment by a Scheduler under this Section 7.4(c) shall be reduced accordingly by an amount equal to the net proceeds Seller receives from such sales of Deemed Generated Energy (after subtracting any Scheduling fees, wheeling charges, and other associated costs, fees, and reasonable expenses incurred in connection with such sales), and (ii) any Environmental Attributes not sold with such Deemed Generated Energy shall be delivered in proportion with the Applicable MW Share, at no additional cost to such Buyers.

L. The last sentence of Section 10.4 of the Agreement shall be amended by replacing the term "Seller, as Scheduling Coordinator" therein with the term "Buyers (or their designee), as Scheduling Coordinator".

M. The first sentence of Section 11.2 of the Agreement shall be amended by adding the

following clause (e) to the end thereof:

(e) To support invoicing by Seller, Buyers through the Scheduling Coordinator shall deliver to Seller a copy of each CAISO Settlement Statement (and other available statements reasonably requested by Seller) promptly after such statements become available so as to allow Seller to invoice Buyer for the Uncontracted Products in accordance with the invoicing procedures set forth in this Section 11.2.

N. Section 11.5 of the Agreement shall be amended and restated in its entirety as follows:

Section 11.5 Records and Audits. Seller shall maintain, and the Authorized Auditors of Buyers shall have access to, all records and data pertaining to the performance and management of this Agreement (including compliance with the Requirements) and related Subcontracts, and as necessary to properly reflect all costs claimed to have been incurred hereunder and thereunder, including (a) in their original form, all (i) documents provided to Seller in the ordinary course of business for the Facility, (ii) documents for billing, costs, metering, and Environmental Attributes, (iii) books, records, documents, reports, deliverables, employee time sheets, accounting procedures and practices, and (iv) records of financial transactions, and (b) other evidence, regardless of form (for example, machine readable media such as disk or tape, etc.) or type (for example, databases, applications software, database management software, or utilities). If Seller is required to submit cost or pricing data in connection with this Agreement, Seller shall maintain all records and documents necessary to permit adequate evaluation of the cost or pricing data submitted, along with the computations and projections used. Buyers shall, or shall cause Buyers' designee, to maintain, and the Authorized Auditors of Seller shall have access to, all records and data pertaining to the Scheduling of Facility Energy, Capacity, and Replacement Product. In the event of a Dispute, records that relate to the Agreement, Dispute, litigation or costs, or items to which an audit exception has been taken, shall be maintained. Each Party, including with respect to Buyers, Buyers' Agent, and the Authorized Auditors of the Parties may discuss such records with the other Party's officers and independent public accountants (and by this provision each Party authorizes said accountants to discuss such billings and costs), all at such times and as often as may be reasonably requested. All such records shall be retained, and shall be subject to examination and audit by the Authorized Auditors, for a period of not less than four (4) years following final payment made by a Buyer hereunder, the expiration or termination date of this Agreement, or final settlement of all disputes, claims, or litigation, whichever is later. Each Party shall make said records or, to the extent accepted by the Authorized Auditors, photographs, micro-photographs, or other authentic reproductions thereof, available to the Authorized Auditors at the Party's principal business office or any other of a Party's offices as mutually agreed upon by the Parties, at all reasonable times and without charge. The Authorized Auditors may reproduce, photocopy, download, transcribe, and the like any such records. Any information provided by a Party on machine-readable media shall be provided in a format accessible and readable by the Authorized Auditors. Neither Party shall, however, be required to furnish the Authorized Auditors with commonly available software. Either Party shall be subject at any time with fourteen (14) days prior written notice to audits or examinations by Authorized Auditors, relating to, with respect

to Seller, all billings and required to verify compliance with all Agreement requirements relative to practices, methods, procedures, performance, compensation, and documentation and, with respect to Buyers, the Scheduling data and information. Examinations and audits shall be performed using generally accepted auditing practices and principles and applicable governmental audit standards. If Seller utilizes or is subject to Federal Acquisition Regulation, Part 30 and 31, et seq. accounting procedures, or a portion thereof, examinations and audits shall utilize such information. To the extent that an Authorized Auditor’s examination or audit reveals inaccurate, incomplete or non-current records, or records are unavailable, the records shall be considered defective. Consistent with standard auditing procedures, a Party shall be provided fifteen (15) days to review an Authorized Auditor’s examination results or audit and respond to the other Party prior to the examination’s or audit’s finalization and public release. If an Authorized Auditor’s examination or audit indicates a Party has paid (or been paid) an incorrect amount under a previous payment application, the identified payment error shall be corrected by payment from the overpaying Party or the underpaying Party, as applicable, to the other Party within fifteen (15) days following notice by either Party of the identified payment error. If an Authorized Auditor’s examination or audit reveals that such Party’s overpayment is more than five percent (5.0%) of the billings reviewed, the overpaid Party shall pay all expenses and costs incurred by the Authorized Auditors arising out of or related to the examination or audit, which examination or audit expenses and costs shall be paid within fifteen (15) days of notice to the overpaid Party. Seller shall contractually require all Subcontractors performing services under this Agreement to comply with the provisions of this Section 11.5 by inserting this Section 11.5 into each Subcontract.

Section 1.2 Amendments to Contract Price Provisions.

- A. The following term shall be added to Section 1.1 of the Agreement in the appropriate alphabetical order:

“**Buyers’ Percentage of Total Capacity**” has the meaning set forth in Section 10.3(c).

- B. Commencing as of September 1, 2017, Section 6.5(a) through (d) of the Agreement shall be amended and restated in its entirety as follows:

Section 6.5 Payment of Contract Price.

(a) The amount payable to Seller for each Settlement Timeframe shall be, for each Buyer, an amount equal to:

(i) in each Settlement Timeframe in which the CAISO Settlement Price is zero or positive, the product of (A), (B), and (C), where: (A) is the amount (in MWh) of Facility Energy generated during such Settlement Timeframe, (B) is the Buyers’ Percentage of Facility Output, and (C) is the Fixed Rate;

(ii) for the first three-hundred (300) Settlement Timeframes in any Contract Year (or such other number of Settlement Timeframes as would be equal to twenty-

Attachment: Astoria PPA Amendment (Execution Copy) (2711 : APPROVE FIRST AMENDMENT TO POWER PURCHASE AGREEMENT)

five (25) hours in the event that CAISO changes the number of minutes in a Settlement Timeframe as of the Effective Date) in which the CAISO Settlement Price is negative (the “**Initial Negative Intervals**”), for each Settlement Timeframes, the product of (A), (B), and (C), where: (A) is the amount (in MWh) of Facility Energy generated during such Settlement Timeframe, (B) is the Buyers’ Percentage of Facility Output, and (C) is the Fixed Rate plus the CAISO Settlement Price for such Initial Negative Intervals; and

(iii) for each Settlement Timeframe in which the CAISO Settlement Price is negative other than the Initial Negative Intervals, the product of (A), (B), and (C), where: (A) is the amount (in MWh) of Facility Energy generated during such Settlement Timeframe, (B) is the Buyers’ Percentage of Facility Output, and (C) is the Fixed Rate; and

(iv) if any Buyer (including, in the case of SCPPA, any of its Participating Members), exercises its right to curtail per Section 7.4(c), the amount to be paid by such Buyer for Deemed Generated Energy shall be the product of (A), (B), and (C), where (A) is the amount of Deemed Generated Energy calculated during such period of curtailment, (B) is the Buyers’ Percentage of Facility Output, and (C) is the Fixed Rate.

(b) The Parties acknowledge that the foregoing payment formulas reflect both the Contract Price agreed upon by the Parties and the payments to be received from the CAISO under current market design. Seller shall invoice each Buyer for the amounts calculated hereunder in accordance with Article XI. If the amount determined to be payable by a Buyer is negative, then Seller shall pay such Buyer such amount.

(c) For purposes of this Section 6.5, a “negative” CAISO Settlement Price occurs when the CAISO Settlement Price for a Settlement Timeframe is negative and the Facility Energy (or Deemed Generated Energy, as applicable) for that Settlement Timeframe is positive, and a “zero or positive” CAISO Settlement Price occurs when the CAISO Settlement Price for a Settlement Timeframe is zero or positive and the Facility Energy (or Deemed Generated Energy, as applicable) for that Settlement Timeframe is positive.

(d) For purposes of illustration only, sample calculations are provided in Schedule 6.5.

C. Schedule 6.5 shall be replaced in its entirety with the following:

SCHEDULE 6.5
SAMPLE CALCULATION OF CONTRACT PRICE

Fixed Rate: Section 6.5(a)(i)

Facility Energy = 7 MWh

Buyers’ Percentage of Facility Output = 8.0%

Fixed Rate = \$63 / MWh

Then, the amount payable to Seller = 7 MWh * 8.0% * \$63 / MWh = \$35.28

Fixed Rate: Section 6.5(a)(ii)

If the CAISO Settlement Price = -\$25 / MWh, and:

The current Settlement Timeframe is an Initial Negative Interval, and:

Facility Energy = 7 MWh

Buyers' Percentage of Facility Output = 8.0%

Fixed Rate = \$63 / MWh

Then the amount payable to Seller = 7 MWh * 8.0% * (\$63 / MWh + (- \$25 / MWh)) = \$21.28

Fixed Rate: Section 6.5(a)(iii)

If the CAISO Settlement Price = -\$25 / MWh, and:

The current Settlement Timeframe is not an Initial Negative Interval, and:

Facility Energy = 7 MWh

Buyers' Percentage of Facility Output = 8.0%

Fixed Rate = \$63 / MWh

Then the amount payable to Seller = 7 MWh * 8.0% * \$63 / MWh = \$35.28

Section 1.3 Amendment to Section 10.3(c) Calculation of RA Deficiency.

A. Section 10.3(c) of the Agreement, the calculation of the RA Deficiency amount, shall be amended and restated in its entirety as follows:

(c) For each Buyer, the RA Deficiency Amount shall be equal to the product of (v), (w), (x), (y) and (z) where: (v) is the RA Value, (w) is the Applicable Contract Capacity, (x) is the Solar NQC Factor, (y) is the Buyers' Percentage of Total Capacity as listed in Appendix M, and (z) is one (1.0) minus the Partial RA Factor, which is defined below. The RA Deficiency Amount for each Buyer is represented by the following equation:

RA Deficiency Amount (\$/Month) = RA Value (\$/MW/Month) * Applicable Contract Capacity (MW) * Solar NQC Factor * Buyers' Percentage of Total Capacity as listed in Appendix M * [1.0 - Partial RA Factor]

where the "Partial RA Factor" is equal to (a) the Net Qualifying Capacity (in MW) divided by (b) the Qualifying Capacity (in MW), and

“Buyers’ Percentage of Total Capacity” means the percentage of Facility Output allocated to each Buyer as set forth in Appendix M, as may be adjusted due to any withdrawal, termination or other change to the interest of a Buyer in the Facility as permitted or required by this Agreement, subject to the right, but not the obligation, of the remaining Buyers to take all or any portion of such partially terminated or withdrawn Buyer’s share of the Total Capacity.

B. Schedule 10.3 of the Agreement is hereby replaced in its entirety with the following:

Report to City Council

TO: Mayor and City Council

FROM: Thomas M. DeSantis, Assistant City Manager

AGENDA DATE: August 15, 2017

TITLE: APPROVAL OF CONTRACTS WITH ACCELA AND TRUEPOINT SOLUTIONS FOR DEVELOPMENT SERVICES SUPPORT AND PROFESSIONAL SERVICES

RECOMMENDED ACTION

Recommendations:

1. Authorize the City Manager or her designee to execute contract additions to the initial contract with Accela for software support and professional services related to Development Services software for an amount not to exceed \$43,904.
2. Authorize the City Manager or her designee to execute a contract with TruePoint Solutions, LLC for software support and professional services related to Development Services software for an amount not to exceed \$111,950.
3. Authorize the City Manager or her designee to execute any subsequent related change orders to the contracts with these vendors up to, but not exceeding, a 10% contingency amount of \$15,585.

SUMMARY

This report recommends approval of support and enhancement contracts for Accela Civic Platform (ACP) and Accela Citizen Access (ACA) from both Accela and TruePoint. Additions to the Accela contract provide support for major issues. The support and enhancement contract with TruePoint provides day-to-day support for issues and for enhancements that maximize the functionality of the City's Development Services software system.

Funds are available within the project budget for these requests, no additional funding is requested. Authority to spend project funds with these two vendors is requested for the new fiscal year.

BACKGROUND

On March 10, 2015 the City Council approved the Development Services software replacement project. The project replaced the existing Permits Plus system with the Accela Civic Platform (ACP) system. Because the ACP system supports all Development Services processes, it also expands the City's ability to automate several additional functions. Adding enhancements to the system ensures that citizen and developer transactions are completed quickly, allows the City to refine the system to meet changing demands, and maximizes the benefits of the City's investment in the new system in a highly cost effective way possible.

The proposed contract with Accela provides:

- Customer Success Hours to automatically escalate support calls for direct interaction with software developers to assist with major issues or enhancements; and
- Intensive Training, Analysis, and Certification training so that the City can maximize its own ability to work in ACP and ACA.

The proposed contract with TruePoint provides:

- Continued task support at a lower cost;
- ACA enhancements including:
 - a. Record Information
 - Expand record data displayed for contacts, license professionals and owners
 - Work with staff on best practices for creating registered users and attaching contacts, license professionals and owners
 - Configure registered user security, display pages and any customization
 - Work with staff on best practices for using delegates
 - b. Web Portal Design
 - Enhance ACA functionality with Community Development web pages
 - Configure registered user pages
 - c. Online Payments
 - Deploy Civic Pay or PayPal; and
 - Provide thirty hours per month of on-call support for routine needs.

Full funding for the recommended actions is available within the Council-approved project budget; no additional funding is requested. The expanded functionality can be

achieved without additional appropriations.

ALTERNATIVES

1. Authorize the City Manager or her designee to execute contract additions to the initial contract with Accela for software support and professional services related to Development Services software for an amount not to exceed \$43,904, to execute a contract with TruePoint Solutions, LLC for software support and professional services related to Development Services software for an amount not to exceed \$111,950 and to execute any subsequent related change orders to the contract up to, but not exceeding, a 10% contingency amount of \$15,585. *Staff recommends this action as the best and most expedient path to maximize the functionality of the City’s new Development Services software system.*
2. Do not approve the contract additions with Accela or the contract with TruePoint. *Staff does not recommend this action as it would preclude further development of the Development Services system to maximize the functionality of the system.*

FISCAL IMPACT

Funding for these professional services is available in the ACP project budget. No additional funding is necessary.

Report to City Council

TO: Mayor and City Council

FROM: Thomas M. DeSantis, Assistant City Manager

AGENDA DATE: August 15, 2017

TITLE: APPROVAL OF CONTRACT AMENDMENT AND NEW CONTRACT WITH LIBRARY SYSTEMS AND SERVICES FOR LIBRARY SERVICES

RECOMMENDED ACTION

Recommendations:

1. Approve and authorize the City Manager or her designee to execute a contract with Library Systems and Services (LS&S) for provision of services at Moreno Valley's two library branches consistent with terms outlined in this report, with approval of the City Attorney.
2. Authorize the City Manager or her designee to execute a contract amendment to provide library services and furniture to a satellite library branch with (LS&S) for an amount not to exceed \$285,126 (\$151,265 for start-up costs and \$133,861 for operations).
3. Authorize the City Manager or her designee to execute any subsequent related change orders to the contracts up to, but not exceeding, a 10% contingency amount of \$182,320 annually.

SUMMARY

This report recommends a successor to the contract through which the City of Moreno Valley Library has been operated by Library Systems & Services since 2013. Since inception of this outsourcing Agreement, the level of services provided to Moreno Valley residents has expanded significantly - while also achieving projected annual cost savings.

This report also recommends approval of an amendment to the existing contract with LS&S to assist in opening the City's first branch library later this year as well as operate

it through the balance of the current fiscal year.

The recommended actions are fully funded in the FY 2017/18 Budget as adopted by the City Council; no additional appropriations are requested.

DISCUSSION

On June 23, 2013, the City Council approved a 5-year contract with Library Systems and Services (LS&S) to provide library services at the City's main library.

Significant service enhancements have been achieved throughout the contract period. This innovative agreement has:

- Increased public service hours by 25%
- Restored 7-day service
- Reduced City costs by more than \$300,000 annually
- Tripled program attendance
- Added bilingual programs components
- Expanded collection of DVDs to serve adults & children
- Purchased books on CD
- Broadened the collection's Spanish language books
- Replaced outdated and damaged books
- Added math, science, and history books to serve elementary students
- Enhanced the scope of materials for young children
- Increased community outreach via a dedicated staff person
- Enhanced public engagement by increasing participation by public volunteers
- Introduced new e-books and software for patrons

To meet residents' evolving needs, the City has also been able to allocate a significant amount for purchases of new Library materials. These annual allocations reflect a 200% increase above levels seen prior to the City's agreement with LS&S.

The City's initial 5-year contract with LS&S expires on June 30, 2018; consistent with terms of the contract, renewal is recommended prior to the final six months of the current term of service. Key provisions are consistent with the existing contract, which include:

- Provision of all Information Technology Services required for Library support
- 5-Year Term, renewable at the City's option
- Severance Provisions consistent with initial contract (uncured breach as well as discretionary)
- Incorporation of State-mandated Minimum Wage increases
- Annual cost adjustments limited to regional Employment Cost Index (as published by the U.S. Department of Labor's Bureau of Labor Statistics) for the immediately preceding 12-month period or 2.5%, whichever is greater

The renewal terms also reflect addition of the City’s branch library at the Moreno Valley Mall, as discussed below.

In adopting the *Momentum MoVal* strategic plan in August 2016, the City Council set the goal of opening a satellite branch Library by December 2017. The recommended amendment to the existing contract will ensure that operation of the City’s main and branch library remains fully integrated, while capturing operational and service efficiencies. The amendment will also leverage LS&S’s specialized procurement processes to reduce costs and timelines to obtain furniture, fixtures, and equipment necessary for the satellite branch library.

The recommended authorization for 10% Contingency funding would allow the City to move quickly if the Council later wishes to expand programs, service hours, or service offerings at the satellite branch library. This funding will also provide flexibility in adjusting the new satellite service model to meet the needs of patrons who utilize the new Moreno Valley Mall library location.

ALTERNATIVES

1. Approve and authorize the City Manager or her designee to execute a contract with Library Systems and Services (LS&S) for provision of services at Moreno Valley’s two library branches consistent with terms outlined in this report, with approval of the City Attorney; authorize the City Manager or her designee to execute a contract amendment to provide library services and furniture to a satellite library branch with (LS&S) for an amount not to exceed \$285,126 (\$151,265 for start-up costs and \$133,861 for operations); and authorize the City Manager or her designee to execute any subsequent related change orders to the contracts up to, but not exceeding, a 10% contingency amount of \$182,320 annually. *Staff recommends this action as the most effective expedient path to expand library services while maintaining the cost efficient delivery of high quality library services.*

2. Do not approve the new contract or contract amendment with LS&S. *Staff does not recommend this action as it would terminate the City’s successful partnership to further develop and provide City Library services at the end of the current contract.*

FISCAL IMPACT

Funding for library services as recommended is fully supported by the FY 2017/18 Budget as adopted by the City Council. No additional funding is necessary. Tenant improvements for the satellite branch library are fully supported by Capital Improvement Project funds earmarked for City facility projects.

LS&S and Customer are each sometimes referred to herein as a “Party” and collectively, the “Parties”.

The Parties agree as follows:

1. Services and Goods.

(a) *Services.* LS&S will (i) during the term of this Agreement provide the labor and administrative services described on Schedule A; and (ii) provide the labor and Information Technology (I.T.) services described on Schedule B (collectively, “Services”).

(b) *Provision of Goods.* LS&S may purchase goods (“Goods”) for use in the management and operation of the Library (as defined below). At LS&S’s sole discretion, LS&S may select the sources of the Goods. Title to all items purchased by LS&S shall at all times reside in Customer. If LS&S furnishes any goods to Customer, LS&S will use good faith efforts to extend the manufacturer’s warranty, if any, to Customer.

2. Term and Termination.

(a) *Term.* This Agreement shall be in effect for a period of five (5) years commencing on July 1, 2018 (“Effective Date”), and continues in force until June 30, 2023 (“Expiration Date”), unless sooner terminated in accordance with this Section 2.

(b) *Termination for Convenience.* Either Party may terminate this Agreement after twelve (12) calendar months from the Effective Date with or without cause by giving the other Party six (6) months written notice of termination.

(c) *Termination for Default.* If either Party breaches any material provision of this Agreement and fails to correct the breach within thirty (30) days after receiving written notice specifying the breach (or, if the breach cannot be corrected within thirty (30) days, fails to progress diligently towards correction), then the other Party may terminate this Agreement by giving written notice to the breaching Party, except that LS&S shall have the right to terminate this Agreement if Customer fails to pay any amount due LS&S and such failure continues for ten (10) days after written notice thereof.

(d) *Renewal.* This Agreement may be renewed, at Customer’s option, for successive renewal periods equal in duration to the original term of this Agreement, with such option to be exercised at least six (6) calendar months prior to the Expiration Date.

(e) *Effect of Termination.* Upon any termination of this Agreement, each Party shall (i) immediately discontinue all use of the other Party’s Confidential Information; (ii) delete the other Party’s Confidential Information from its computer storage or any other media, including, but not limited to, online and off-line libraries; (iii) shall return to the other Party or, at the other Party’s option, destroy, all copies of such other Party’s Confidential

Information then in its possession (including the Documentation); and (iv) shall promptly pay all amounts due and remaining payable hereunder.

(f) *Survival of Obligations.* The provisions of Sections 5, 8(b), 9, and 10-12, as well as Customer's obligations to pay any amounts due and outstanding hereunder, shall survive termination or expiration of this Agreement.

3. *Price and Payment.*

(a) *Price.* LS&S shall provide the Services for the Charges (exclusive of any current or future taxes on services) set forth in Section E of Schedule A.

(b) *Payments.* LS&S shall invoice Customer prior to each month's service for the monthly amount set forth in Section E of Schedule A. Customer shall pay all invoices, without offset or deduction, by bank wire transfer or Automated Clearing House (ACH) direct debit to a bank account designated by LS&S on or before the fifth (5th) day of such month (the "Due Date") and shall bear interest at the rate of one and one quarter percent (1¼%) per month if not paid in full by the Due Date. If LS&S has not received payment by the Due Date, it may suspend performance contemplated under this Agreement until full payment has been received.

(c) *Taxes.* LS&S shall add to its invoices any current or future taxes (other than LS&S's income tax) payable by LS&S on account of this Agreement, the Services, or Customer's payments hereunder, except to the extent Customer furnishes in advance a valid certificate of exemption from such taxes. This Agreement does not include charges for any sales or use tax that now, or in the future, may be deemed by a taxing authority to be applicable to the Services. In the event a taxing authority determines now or in the future that the Services are subject to such tax, LS&S shall invoice such taxes to the Customer and the Customer shall pay same simultaneously with the payment to which such taxes relate. In the event the Customer is not subject to or liable for such taxes, the Customer shall not be required to pay such taxes, shall provide LS&S with the legal basis of such exemption and shall agree to indemnify LS&S with respect to the nonpayment by LS&S of any such taxes to the extent permitted by the laws of California.

4. *Insurance.*

(a) *Insurance.* During the term of this Agreement, LS&S shall maintain in force at its own expense commercial general liability insurance coverage of at least one million dollars (\$1,000,000) each occurrence and two million dollars (\$2,000,000) annual aggregate. LS&S also shall maintain workers compensation insurance providing the statutory benefits required by law.

(b) *Property Insurance.* Customer will keep its buildings and their contents insured against loss, cost, damage or expense resulting from fire, explosion or any other casualty in an amount equal to the full replacement cost thereof ("Casualty Insurance"). If any loss, cost, damage or expense resulting from fire, explosion, or any other casualty or occurrence is incurred by Customer in connection with its buildings or their contents, then Customer hereby releases LS&S, its owners, officers, employees, agents and volunteers from any liability it may have on account of such loss, cost, damage or expense to the extent of any amount receivable by reason of such Casualty Insurance, and waives any right of subrogation which might otherwise have existed or accrued to any person on account thereof.

5. *Confidential Information and Intellectual Property.*

(a) *Confidential Information.* In the performance of this Agreement, LS&S may be exposed to information regarding the identity of Customer's patrons, Customer may be exposed to information regarding LS&S's proprietary library management techniques, and either Party may be exposed to other written or oral information, disclosed by either Party to the other, related to either Party or a third party that has been identified as confidential or that by the nature of the circumstances surrounding disclosure ought reasonably to be treated as confidential (collectively, "Confidential Information"). Each Party shall: (1) use the same care to protect the other Party's Confidential Information from disclosure that such Party uses to protect its own information of like importance; (2) limit duplication of Confidential Information to the extent needed to perform this Agreement; and (3) disclose Confidential Information only to employees having a need to know in connection with performance of this Agreement, and who are informed of the contents of this provision prior to disclosure. This provision shall survive termination or expiration of this Agreement; and, on such termination or expiration, each Party shall return all Confidential Information, including all copies, to the owner of such information and, if requested, shall certify in writing that all such information has been returned. Because the damage resulting from a breach of this provision would be difficult or impossible to quantify and remedy at law, in case of such breach, or the threat of such breach, the Party whose Confidential Information is threatened to be disclosed shall be entitled to injunctive or other equitable relief.

(b) *Exceptions.* Notwithstanding the foregoing, the provisions of Section 5(a) above, shall not apply to Confidential Information that (i) is publicly available or in the public domain at the time disclosed; (ii) is or becomes publicly available or enters the public domain through no fault of the recipient; (iii) is rightfully communicated to the recipient by persons not bound by confidentiality obligations with respect thereto; (iv) is already in the recipient's possession free of any confidentiality obligations with respect thereto at the time of disclosure; (v) is independently developed by the recipient; or (vi) is approved for release or disclosure by the disclosing Party without restriction. Notwithstanding the foregoing, each Party may disclose Confidential Information to the limited extent required (x) in order to comply with the order of a court or other governmental body, or as otherwise necessary to comply with applicable law, provided that the Party making the disclosure pursuant to the order shall first have given written notice to the other Party and made a reasonable effort to obtain a protective order; or (y) to establish a Party's rights under this Agreement, including to make such court filings as it may be required to do.

(c) *Intellectual Property.* Subject to the terms and conditions of this Agreement, LS&S hereby grants to Customer a limited, non-exclusive, non-transferable, non-sublicensable right and license to use the Documentation, as provided by LS&S, during the term of this Agreement, solely for Customer's internal business purposes. Customer shall not use the Documentation for any purposes beyond the scope of the license granted in this Agreement. Without limiting the generality of the foregoing, Customer shall not (i) market or distribute the Documentation; (ii) make any copies of the Documentation; (iii) assign, sublicense, sell, lease, or otherwise transfer or convey, or pledge as security or otherwise encumber, Customer's rights under the license granted in this Section 5(c); or (iv) modify the Documentation, except with prior written consent of LS&S. The Parties acknowledge and agree that if Customer modifies or improves the Documentation, all such modifications or improvements shall be considered part of the Documentation, and shall be owned by LS&S, and Customer hereby assigns to LS&S all right and title to such modifications or improvements. Other than as set forth in this paragraph, nothing in this Agreement confers any license or right to use any trademark, service mark,

copyright or other intellectual property right, whether now owned or hereafter developed, of either Party. For the purposes of this Agreement, "Documentation" means the standard user manuals, instructions and related documentation made available by LS&S to Customer.

6. Customer's Obligations.

- (a) *Facilities, etc.* Customer shall make available to LS&S without charge, solely for LS&S's use in performing the Services, all properties, facilities, furniture, furnishings, equipment, collections, supplies, records, files and data used or useful in the operation of the Library that are in Customer's possession, custody or control as of the date hereof. Report to City Council

TO: Mayor and City Council Acting in its Capacity as President and Members of the Board of Directors of the Moreno Valley Community Services District (CSD)

FROM: Rick C. Hartmann, Acting Public Works Director

AGENDA DATE: August 15, 2017

TITLE: APPROVE AN INDEPENDENT CONTRACTOR AGREEMENT FOR TREE TRIMMING AND REMOVAL SERVICES

RECOMMENDED ACTION

Recommendations:

1. Approve the Independent Contractor Agreement with West Coast Arborists, Inc., 2200 E. Burton Street, Anaheim, CA 92806, in substantially the form attached hereto, to provide tree trimming and removal services in landscape maintenance districts.
2. Authorize the City Manager to execute the Independent Contractor Agreement with West Coast Arborists, Inc.
3. Authorize the issuance of purchase orders to West Coast Arborists, Inc. in the not-to-exceed amount totaling \$198,295 for fiscal year 2017/18.
4. Authorize the City Manager to execute subsequent amendments to the Agreement, including the authority to authorize purchase orders in accordance with the terms of the agreement, provided sufficient funding appropriations and program approvals have been granted by the City Council/CSD Board, which may include potential contingencies for unanticipated work.

SUMMARY

This report recommends approval of an Independent Contractor Agreement with West Coast Arborists, Inc. ("Contractor") to provide tree trimming and removal services in the City's landscape maintenance districts ("Agreement") through June 30, 2020. An Independent Contractor Agreement was awarded for fiscal year (FY) 2015/16 with the option to extend it for four additional one-year terms ("Original Agreement"). This Agreement combines the remaining available extensions and includes the scope of work and compensation for FY 2017/18. Amendments to the Agreement to allow services for FY 2018/19 and FY 2019/20 shall only be entered into provided sufficient funding appropriations and program approvals have been granted by the City Council/CSD Board and the Contractor has provided satisfactory performance of the services.

Funding for tree trimming and removal services comes from property owner approved parcel charges collected as part of the property tax bill to provide landscape maintenance of public parkways and medians. Only those properties receiving benefit from the public landscaping pay the parcel charge.

DISCUSSION

The City and CSD established landscape maintenance districts to fund the cost of maintaining public landscaping. Property owners within the landscape districts pay a parcel charge as part of their annual property tax bill to fund the ongoing maintenance of the public landscaping. Revenue collected from the parcel charge is restricted and can only be used for landscape maintenance services in the area for which it is collected.

On January 19, 2016, the City Council approved the Original Agreement with the Contractor to provide tree trimming and removal services in the City's landscape maintenance districts. The scope of the maintenance services for the Agreement is categorized as Base Work or Additional Work:

Base Work includes trimming of designated trees on a scheduled basis, generally on a rotation of 5-7 years as funding permits; removal of identified trees which are dead or diseased or that pose a potentially hazardous condition and stump grinding; and all other work related to clean-up and removal of tree debris from the tree site. Typically, the cost for this service is a set cost per tree for trim or removal.

Additional Work includes tree trims and removals that are not included as part of the annual trimming and removal list and are emergency in nature (e.g. storm related). The cost of these services varies based on unanticipated needs of the area during the term of the Agreement and the Additional Work unit prices included in the Original Agreement.

Terms of the Original Agreement allow up to four one-year extensions, provided sufficient funding appropriations and program approvals have been granted by the City Council/CSD Board, the Contractor has provided satisfactory performance of the

services, and both parties agree to the extension. The Original Agreement was extended for FY 2016/17 and subsequently amended to add to the scope of work.

The Contractor is sufficiently providing the services and has accepted the City's invitation to extend the agreement. Rather than extending the term each fiscal year, it's proposed to combine the remaining available extensions and extend the agreement through June 30, 2020. The Agreement will be amended to include the scope of work and compensation amount for each FY after the appropriate funding levels and program approvals have been granted by the City Council. This action does not extend the term beyond what was originally approved by the City Council.

To ensure the services can be provided within all landscape maintenance districts, staff is seeking approval from the CSD Board to authorize the City Manager to approve the Agreement. This approval includes associated purchase orders and amendments, in accordance with the terms of the Original Agreement, as may be amended, and subject to the approval of the City Attorney.

This action meets the Strategic Plan Priorities by managing and maximizing Moreno Valley's public infrastructure to ensure an excellent quality of life, develop and implement innovative, cost effective infrastructure maintenance programs, public facilities management strategies, and capital improvement programming and project delivery.

ALTERNATIVES

1. Approve the Agreement for tree trimming and removal services with West Coast Arborists, Inc. and related recommended actions as presented in this staff report. *By selecting this alternative, tree trimming and removal services will be performed throughout the landscape maintenance districts in a timely manner.*
2. Do not approve the Agreement. *By selecting this alternative, tree trimming and removal services will not be performed throughout the landscape maintenance districts as an agreement to perform the necessary work will not be in place.*
3. Do not approve the Agreement but rather continue the item to a future meeting. *By selecting this alternative, tree trimming and removal services may not be performed throughout the landscape maintenance districts in a timely manner.*

FISCAL IMPACT

Administration and maintenance costs to provide public landscape maintenance services is funded through a property owner approved parcel charge, which is levied on the property tax bills. Revenue from the parcel charge can only be used for landscape maintenance services associated with the public landscaping in the respective landscape maintenance districts. Costs for FY 2017/18 services are included in the FY 2017/18 Adopted Budget and are allocated in the amounts as shown in the following table.

AGENDA DATE: August 15, 2017

TITLE: APPROVAL OF PROPOSED RESOLUTION FOR A SUMMARY VACATION OF THE OLD RECHE VISTA DRIVE FROM HEACOCK STREET TO 1228 FEET NORTH WITHIN PARCEL B OF ASSESSOR'S PARCEL NUMBER 471-201-011

RECOMMENDED ACTION

Recommendations:

1. Approve and adopt the proposed resolution, summarily vacating the Old Reche Vista Drive from Heacock Street to 1228 feet north within Parcel B of Assessor's Parcel Number (APN) 471-201-011.
2. Direct the City Clerk to certify said resolution and transmit a copy of the resolution to the County Recorder's office for recording.

SUMMARY

This report recommends approval of a resolution to summarily vacate the Old Reche Vista Drive from Heacock Street to 1228 feet north within Parcel B of Assessor's Parcel Number (APN) 471-201-011. Vacation of Old Reche Vista Drive was conditioned as part of public right-of-way dedication for Reche Vista Drive Realignment and is to be completed once Reche Vista Drive has been ultimately realigned.

DISCUSSION

The Capital Projects Division of the Public Works Department has recently completed the construction of the Reche Vista Drive Realignment project from the intersection of Heacock Street and Perris Boulevard to Country Road at the northern City limit. This project replaced the old narrow and winding Reche Vista Drive with a new, straight roadway alignment to enhance safety for commuters using this road as well as for City

workers who will be routinely maintaining the road.

A one hundred-twenty (120) foot wide right-of-way was dedicated to the public in 1966 for the purpose of constructing the ultimate alignment of Reche Vista Drive. The terms of dedication included a condition that the Old Reche Vista Drive was to be vacated once the construction of the new, ultimate alignment of Reche Vista Drive was completed. The construction of the Reche Vista Drive realignment project has been completed and the new road was opened to traffic in November 2016. Staff is recommending the City Council adopt the proposed resolution to vacate the Old Reche Vista Drive that is within Parcel B of the APN 471-201-011.

Approval of the recommended actions would support Objective 4 of the *Momentum MoVal* Strategic Plan: “Manage and maximize Moreno Valley’s public Infrastructure to ensure an excellent quality of life, develop and implement innovative, cost effective infrastructure maintenance programs, public facilities management strategies, and capital improvement programming and project delivery.”

ALTERNATIVES

1. Approve and direct the recommended actions as presented in this staff report. *This alternative will allow for the completion of the vacation of Old Reche Vista Drive to fulfill the condition of right-of-way dedication for public road purposes.*
2. Do not approve and direct the recommended actions as presented in this staff report. *This alternative will delay the vacation of Old Reche Vista Drive, and the City would remain responsible for the potential maintenance of Old Reche Vista Drive.*

FISCAL IMPACT

The recommended actions have no fiscal impacts to the City. However, if not vacated, the City would remain responsible for the potential maintenance of Old Reche Vista Drive.

AGENDA DATE: August 15, 2017

TITLE: AUTHORIZATION TO AWARD PROFESSIONAL CONSULTANT SERVICES AGREEMENT TO NCE TO PROVIDE UPDATES TO THE PAVEMENT MANAGEMENT SYSTEM

RECOMMENDED ACTION

Recommendations:

1. Award a Professional Consultant Services agreement to NCE to provide updates to the Pavement Management System (PMS).
2. Authorize the City Manager to execute a Professional Consultant Services agreement with NCE.
3. Authorize the issuance of a Purchase Order for NCE in the amount of \$123,800 when the agreement has been signed by all parties.
4. Authorize a budget adjustment set forth in the Fiscal Impact section of this report.

SUMMARY

This report recommends approval of an agreement with NCE to provide updates to the City's current Pavement Management System (PMS). It is recommended that the PMS be continuously updated to ensure the City will have the most current information on its pavement conditions. This information is used in management decision making for allocating limited funds and prioritizing streets for rehabilitation. In addition, the Federal Highway Administration and the state require that the PMS be updated once every three to five years in order for the City to be eligible to receive federal and state funding for pavement rehabilitation.

DISCUSSION

The City of Moreno Valley's maintained street network contains approximately 490 miles of roadways with three classifications: arterial, collector and local streets. To better maintain the network, the City developed the PMS in 1995 which provided the City with the necessary tools to inventory the street network, to evaluate and analyze pavement conditions, and to prioritize streets for pavement rehabilitation. The PMS has been a very effective tool in assisting the decision making process in reference to the allocation of limited funds for street maintenance.

As the City continues to show dynamic growth with its population, infrastructure and maintenance needs, the PMS has been continuously updated, with the last update in 2014, to inventory the changes in the street network. It is recommended that the PMS should again be updated to capture latest changes in pavement conditions as well as to inventory new streets that have been added to the street network in the last three years.

On March 30, 2017, Request for Proposal for professional consulting services was advertised on the City's online bid portal. On April 28, 2017, seven (7) consultants submitted their proposals for the project. City staff reviewed and rated the proposals according to the consultant's ability to complete the project requirements. The proposal from NCE was selected as the most qualified for the project.

The selected consultant will be responsible for updating the PMS database and street network, performing field surveys to collect and record all pavement conditions and distresses for all street segments, performing an analysis of the street network with the field data to produce an updated Pavement Condition Index (PCI), and preparing a comprehensive report that includes current PCI, work history, pavement rehabilitation recommendations for all streets, and budget recommendations.

ALTERNATIVES

1. Approve and authorize the recommended actions as presented in this staff report. *This alternative will allow for the much needed updates to the City's PMS and meet the Federal Highway Administration and state requirements for eligibility for federal funding.*
2. Do not approve and authorize the recommended actions as presented in this staff report. *This alternative will delay the much needed updates to the City's PMS and potentially disqualify the City from receiving federal and state funding.*

FISCAL IMPACT

This project will be funded by Measure A. Staff is recommending the City Council to authorize a budget adjustment to reallocate \$64,623 budgeted for Pavement Rehabilitation (Project 801 0017 70 78-2001-99) to account 2001-70-77-45230-620299. The project was rolled over to FY 17/18, but has since been eliminated. Staff is also recommending the City Council to authorize an appropriation of an additional \$60,377

from Measure A Fund Balance as expense to the Measure A Capital Projects Operating Budget. There is no impact to the General Fund.

II. PROJECT INFORMATION AND SCOPE OF SERVICES

1. Project Information

The City is seeking a qualified consultant firm with in-depth experience to perform updates to its current PMS. The City desires to maintain an updated PMS to be eligible for applying and receiving federal and state funding for pavement rehabilitation and maintenance. The City uses the PMS to prioritize streets for rehabilitation and preventive maintenance, as well as formulating and forecasting future budgets and developing plans to maximize the utilization of limited available public funds in maintaining the street network.

The City completed a PMS Update in 2014, and a copy of the PMS report is on file with the Capital Projects Division and available for review by contacting Quang Nguyen at

(951) 413-3159. The City's network consists of approximately 133 street centerline miles of arterials, 34 miles of collectors, and 323 miles of local streets. The City is currently using MicroPaver Version 6.5 to manage approximately 3,400 segments of street network.

2. Scope of Services

This project is to evaluate current conditions for all City-maintained streets in the City's network that includes arterials, collectors and local streets; update the MicroPaver database; generate a new pavement condition index (PCI); generate a comprehensive PMS report; and update the City's GIS pavement layer. The general tasks include but are not limited to:

Project Meetings: Upon receiving a Notice to Proceed, the Consultant shall hold a kick-off meeting to discuss project details and expectations with the City project manager and other entities involved. A project schedule should be generated and submitted for quality control purposes that will include the Consultant periodically meeting with the city project manager for reviewing project status and resolving any issues that may arise.

Work History Updates: A list of all maintenance and repair work completed since the last PMS Updates will be provided by the City. The Consultant shall enter this information into the database.

Street Condition Survey: A field survey shall be conducted on all City-maintained streets to collect all pavement distresses (type, extent, and severity) to include, but not be limited to, longitudinal and transverse cracking, alligator cracking, raveling, rutting/corrugation, patching, block cracking, edge cracking, bleeding/flushing, etc. in accordance with MicroPaver guidelines and accepted industry standards. The Consultant shall also verify the length and width of each street segment to obtain an accurate pavement surface area and make corrections as required.

The City is interesting in hiring a consultant who could use certain survey and data collection methods and procedures that are cost-effective while provide the most accurate PCI value for each street segment.

Through the use of field data collection, the Consultant shall explain the method(s) that is/are being proposed, how the data is collected and analyzed, and what quality control measures are used to obtain accurate field data. City staff reserves the right to ride along with Consultant field inspectors to verify pavement collection methods and data accuracy. All field operations shall be in accordance with OSHA safety standards.

Inventory: The City's MicroPaver database has a street inventory, which stores such information as street widths, segment and lane lengths, number of lanes, classification, date and type of construction, date and type of last known surface treatment, etc. The Consultant shall update any missing and/or obviously incorrect information in the database as a result of their field survey and review of work history records. The

Request for Proposal
2018 Pavement Management System Updates

Consultant shall review the existing street segment database and modify the database (breaking up long segments or combining small segments together) as necessary to obtain a more manageable street segment inventory. The Consultant shall verify the existing street lengths and pavement widths during the field survey and update the database for consistency. In addition, all streets shall be classified in the database to be consistent with the City's circulation plan as included in the General Plan.

MicroPaver Database Update and Analyses: After the field survey is complete, the data shall be entered into the City's current MicroPaver database and analyzed to provide necessary information for the creation of the pavement performance curves and decision models. The Pavement Condition Index (PCI) shall be calculated for each pavement section of the streets. The Consultant shall also include a provision in the proposal for quality control checks throughout the data entry process, as well as an explanation of the benefits of the quality control method that is employed.

The Consultant shall identify the type of maintenance or rehabilitation treatments required for each street segment and the estimated cost of these treatments.

Reporting and Submittals: A comprehensive report shall be prepared to include an executive summary suitable for an audience of managers or City Council members, a short discussion of the City's network and the PMS and methods of collecting and analyzing data, a PCI report, an inventory/condition analysis report, a work history report, an action forecast/maintenance report based on available budget and budget recommendations to maintain and improve existing overall PCI rankings, and all exhibits, tables, and maps supporting these reports. A draft report shall be submitted to the City for review and quality control prior to submitting the final report.

The final report shall be signed and sealed by a registered civil engineer. Three hard (3) copies and one (1) digital copy of the final comprehensive report shall be submitted to the City.

The Consultant shall submit the updated MicroPaver database and all related files to the City once it has been finalized.

PMS-GIS Layer Update: The Consultant shall make necessary modifications to the City's existing PMS/GIS layer to reflect updated PCI values and corrections/updates to the City's network. Roads not already present on the City's existing PMS/GIS layer shall be identified and included as a part of this update. The final deliverable for this task shall be a PMS/GIS shapefile (.shp) that is compatible with ESRI's ArcView 10 software. The Consultant is required to coordinate with the City's GIS Division for other requirements on the format of the electronic files/submittals.

Technical Support: The Consultant shall provide technical support to City staff in the preparation of the budget and Capital Improvement Plan, as well as responding to questions and inquiries related to the PMS Updates project or in making PMS

Re: City of Moreno Valley - Proposal for 2018 Pavement Management System Update

Dear Members of the Selection Committee:

Pavement networks are often the most valuable asset that an agency owns. This asset is not only expensive to replace, but it is an essential component to the traveling public's safety. Agencies are looking for more cost-effective ways to perform engineering, maintenance, management, and rehabilitation of roadways more than ever before to stretch funding allocations. An essential tool to assist in cost-effective roadway maintenance planning is a current and comprehensive pavement management system.

This is particularly true as Senate Bill 1 to provide transportation funding for local streets and road systems and the state highway system was recently passed in Sacramento. It is estimated that the City of Moreno Valley may receive as much as \$4.7 million annually over the next 10 years. However, additional funds may come with requirements on how streets are selected and transparency reporting requirements. These are easily accomplished with an updated Pavement Management System (PMS).

NCE, as a nationally recognized pavement specialty firm with broad capabilities and expertise in the areas of pavement management, is well equipped to assist the City on this project. We have completed similar projects for over 200 public agencies throughout California and nationwide. Our team comprises more than 80 years of combined experience with pavement management systems such as PAVER™, StreetSaver® and Cartegraph.

The NCE team's key differentiators include:

-  Familiarity with the **City's** Roadway Network – NCE has worked with the City in the past on a slurry seal project; we are familiar with the City's roadway network which allows an efficient project start-up.
-  Depth of experience with PAVER™ - Our team has worked with the various aspects of PAVER™ for more than 20 years including performing condition surveys, developing maintenance and rehabilitation strategies, performing budgetary or funding analyses and developing multi-year work plans. NCE's key personnel, Lisa Senn and Margot Yapp, are industry leaders in the field of PMS.
-  Successfully completed more than 30 PMS projects in Southern California - NCE has performed dozens of similar PMS projects for clients such as Anaheim, Bakersfield, Buena Park, Carson, Chula Vista, Commerce, Corona, Chula Vista, Cudahy, Diamond Bar, El Centro, Fullerton, Highland, La Habra, Lemon Grove, Manhattan Beach, Mission Viejo, Orange, Poway, San Clemente, San Dimas, San Gabriel, Santa Monica, Stanton, Thousand Oaks, Torrance, West Covina, and Whittier, as well as the Counties of Orange, Riverside, San Diego, Santa Barbara and Ventura.

- ❏ Extensive knowledge and expertise with current conditions - NCE has worked with more than 200 public agencies nationwide and with more than 150 local agencies in California on similar projects. This experience combined with NCE’s quality control and assurance measures will provide the City with the confidence that the data collected is accurate and reliable, and that the PMS output and results are practical and realistic.
- ❏ Real-life knowledge of local agency needs - NCE understands the types of challenges frequently encountered by Cities, such as lack of trained personnel or funds, budgetary concerns, and other institutional issues inherent in the use of PMS. Furthermore, we are tracking the legislature’s activities for bills that impact transportation.
- ❏ Expertise in pavement engineering design - NCE has a five PhD, Professional Engineers that are pavement experts specializing in asphalt and concrete materials. We develop practical and economical solutions for maintenance and rehabilitation as part of the budget analyses.
- ❏ Trained and certified inspectors - NCE’s field inspectors are certified through both the Metropolitan Transportation Commission (MTC) and Orange County Transportation Authority (OCTA) Inspector Certification Programs. Revised Technical Proposal – May 31, 2017

Project Understanding

NCE understands that the City of Moreno Valley is seeking proposals from consulting firms with expertise in Pavement Management Systems to update the City's PMS. The City has utilized the PAVER™ software (version 6.5) for many years. The most current PMS update was completed in 2014/15, and the entire network was updated at that time.

The present-day street network is composed of approximately 490 miles based on the project information provided in the RFP and it is shown in the table below. This translates to approximately 3,400 pavement sections in the database.

| Functional Classification | Centerline Miles |
|---------------------------|------------------|
| Arterials | 133 |
| Collectors | 34 |
| Locals | 323 |
| Total | 490 |

The City wants to update the PAVER™ PMS which includes:

- Upgrade to the most current version of PAVER™ (version 7.x);
- Verify lengths and widths of the current City-maintained streets, including adding new streets;
- Perform pavement condition surveys as per ASTM D6433 protocols (also known as PAVER distress protocols);
- Provide rigorous quality control (QC);
- Determine Pavement Condition Index (PCI);
- Update the work history in the database based on information provided by the City on maintenance and repair work performed since the last PMS update;
- Update the maintenance strategies, including unit costs;
- Perform funding analysis to determine impacts of different funding levels;
- Develop a multi-year capital improvement plan (CIP);
- Update the GIS linkage as needed;
- Prepare a final report and presentations to City Council; and
- Provide training and technical support.

Approach and Scope of Work

The following tasks describe in more detail the approach NCE will pursue to meet the City's needs and objectives for this project.

Task A – Kick-off and Project Meetings

NCE will first meet with City staff to kick-off the project by reviewing the technical approach and discuss administrative matters that may be necessary. As a minimum, the items to be discussed will include the following:

- Scope of work, project schedule, budget and invoicing requirements
- Points of contact
- Field work
 - New streets to be added

Revised Technical Proposal – May 31, 2017

- Scheduling and access requirements
- Public safety concerns, requirements and procedures
- QC Plan
- FHWA classifications
- Maintenance and rehabilitation (M&R) practices, history and costs
- Maintenance budgets
- GIS shapefiles
- Other issues as appropriate

Prior to the kick-off meeting, NCE will prepare a detailed agenda which will be sent to City staff for review. During this meeting NCE will need to obtain the most recent copies of the City's PAVER™ database and GIS shapefiles. Examples of the questions we anticipate discussing include:

- New streets that need to be added.
- Are there any streets included in the National Highway System (NHS)? If so, they will need to comply with the MAP-21 performance measures.

In addition to the kick-off meeting, NCE will schedule 2 additional meetings with City staff at appropriate milestones to review the work performed, inspection progress, and to address questions or issues that arise.

Deliverables:

- Agenda and summary of action items
- Draft QC Plan

Task B – Street Condition Surveys & PCI Calculations

Typically, there are three types of distress inspections that agencies have used for Pavement Management Systems, and each has its advantages and disadvantages.

- **Windshield Inspections:** These are performed with two-person crews in a vehicle traveling at low speeds (under 15 mph). The major advantage is that 100% of the roadway is inspected, and it can be accomplished very quickly, safely and inexpensively. However, the disadvantage is that the data collected tends to be of variable quality. In particular, low-severity distresses are typically not visible from a moving vehicle. This results in a higher than expected condition rating of the streets, and consequently, a lower estimate of the backlog and pavement maintenance and rehabilitation (M&R) needs.
- **Walking Inspections:** These are performed with one-person crews (for high volume streets like expressways or major arterials, two-person crews may be needed for safety). The major advantage of this inspection method is that it is highly accurate, since cracks and other pavement distresses are measured and recorded. However, walking inspections are more labor-intensive, and therefore more expensive than windshield inspections.
- **Automated Inspections:** These are typically performed with a customized vehicle that is equipped with a video or digital camera and/or laser bars. The major advantage is that they are equipped to perform inspections very quickly and safely. However, post-processing time can offset cost-savings in the field, and the quality of the data can be variable depending on light conditions (e.g., tree-lined streets with contrasts in light and dark) because shadows can mask some distresses. Typically, only the outer travel lanes are inspected, and for most residential streets, only one lane is inspected. No parking lanes are included, which eliminates distresses such as tree root distortions, edge cracking, oil spots from parked cars, etc.

NCE recommends walking inspections for the following reasons:

1. Walking inspections are more accurate.
2. Walking inspections can be easily taught to City staff.

Revised Technical Proposal – May 31, 2017

It should also be noted, that **the inspections utilized should be consistent with the City’s past practices, i.e., if walking inspections were utilized in the past, they should continue to be used for consistency.** For the purposes of the cost proposal, NCE will conduct walking inspections.

NCE will perform pavement condition inspections in accordance with the established standards as per ASTM D6433-11 (also known as the PAVER distresses). A minimum of one sample unit per section will be inspected. One sample unit will be inspected for each 1,000 lineal feet of roadway. A variation from the established procedure will be to accommodate unique local conditions, e.g., gap-graded texture of rubberized asphalt concrete overlays, chip seals over Portland cement concrete pavements, bleeding, edge cracking, etc. These conditions typically exhibit unique distresses that may not be reflected in any distress manual, so special exceptions will need to be made. Any areas which are not typical of the entire section will be inspected and recorded as a special sample unit.

Please note that NCE’s scope of work and condition inspections do not address issues including, but not limited to traffic, safety and road hazards, geometric issues, road shoulders, drainage issues or short term maintenance that should be performed.

NCE’s field technicians have passed the OCTA’s Inspector Certification test. This includes a rigorous field test where approximately twenty sites are selected to test the inspector’s knowledge of the ASTM D6433 distress procedures. Only those inspectors who have passed the exam can perform pavement condition inspections for agencies in Orange County.

NCE will be responsible for providing all equipment necessary for performance of this task. Should City personnel wish to observe NCE’s crews during the inspections, we can include the City. Individual city staff may also accompany NCE’s field crews for up to a ½ day each – to gain hands-on training **at no additional cost to the City.** We have found that this is the most effective training method for agency staff, as they become part of the data collection crew, rather than just an observer.

NCE will conduct our field operations in accordance with OSHA safety standards.

PCI Calculations

NCE will enter the condition inspection data into the PAVER™ database. This task will be performed at our office in order to provide quality control of data entered into the system. The database will be reviewed for errors and the errors will be corrected prior to performing the Pavement Condition Index (PCI) calculations.

Quality Control

The importance of accurate and reliable data cannot be overstated, as this leads directly to planning decisions (what roads to repair?), as well as funding decisions (how much money is really needed?). NCE’s goal is to provide the highest quality work product for our clients. In order to meet this goal, a quality assurance/quality control (QA/QC) component is incorporated into our projects. For this project, Ms. Margot Yapp, as the proposed QC Manager, will have the responsibility for incorporating the following QA/QC steps into our work:

- Reviewing field activities, including spot checks on the field crews
- Reviewing field procedures, making changes, as needed
- Comparing the field data collected with on-site conditions
- Reviewing data entry functions, including spot checks
- Reviewing reports generated and analyses performed to ensure high quality deliverables

Attachment: NCE Agreement (2661 : AUTHORIZATION TO AWARD PROFESSIONAL CONSULTANT SERVICES AGREEMENT TO NCE TO

Revised Technical Proposal – May 31, 2017

NCE's QA/QC Plan provides for a minimum of 5% of the field data to be re-inspected by a different inspector. A comparison of the distresses (type, severity and quantity) will be made and at least 95% of re-inspected sections must be in compliance.

Ms. Yapp will work directly with the Project Manager, Ms. Senn, who will have overall responsibility for this project. In addition to the checks required by software, NCE has developed a series of procedures to review the consistency and accuracy of the data collected in the field. Prior to the field inspections, NCE will prepare a draft QC plan. This will be provided to City staff for review during the kickoff meeting. NCE will incorporate comments and return to City prior to the field data collection.

A sample QC plan is included in Appendix D.

Deliverables:

- Final QC plan
- PCI Report

Task C – Inventory Assessment

The following inventory attributes will be checked (concurrently with Task B):

- Number of travel lanes
- Section widths
- Section lengths (see below)
- Functional classification

For the section lengths, NCE proposes a two-step process. The first is a comparison of lengths in the PAVER™ database with the GIS shapefile; this assumes that the GIS shapefile attributes are from topographically corrected aerial photographs. As a field check, approximately 10% will be randomly selected and measured to determine accuracy. If they are within $\pm 10\%$ of the original length, this will be considered acceptable. If the lengths greater than $\pm 10\%$, then NCE will notify the City to discuss additional options. Our cost proposal assumes that only 10% of the section lengths will be field verified.

Deliverable:

- Street inventory report

Task D – Work History Updates

Populating the PMS database with recent historical data is extremely useful for determining future treatments and predicting performance of the various pavement sections. This includes overlays, reconstructions and surface seals. Therefore, we highly recommend collecting this information and entering it into the PMS database. NCE will enter the maintenance and rehabilitation historical treatments since the last update in 2014. The City will provide the historical records in the following format to NCE via spreadsheets:

- Street Name, Branch and Section IDs
- Begin and ending limits of work
- Type of treatment
- Date of treatment
- Cost of treatment (optional)

Deliverables:

- Work History report (electronic)

Task E – Maintenance and Rehabilitation (M&R) Strategies & Decision Tree

The development of the M&R Decision Tree is a critical step in any PMS implementation as it has a direct and significant impact on the final work plan that is developed, as well as the budgeting consequences. Therefore, NCE proposes to meet with City staff

Revised Technical Proposal – May 31, 2017

to provide a brief overview of different treatments available, and their applicability to Moreno Valley. This meeting may be conducted via video conferencing as a cost savings. This will include:

- Pavement preservation activities, e.g., chip, scrub, slurry and cape seals (conventional as well as with rubber), microsurfacing, crack filling and sealing, ultrathin bonded overlays
- Rehabilitation, e.g., cold in-place recycling, full depth reclamation, foam asphalt, warm mix technology, asphalt rubber overlays

Given the rising costs of construction and the shortfall in revenues, this will also be an appropriate time to review the use of new treatments or materials and discuss the advantages and disadvantages of each treatment or materials. NCE's experience in pavement engineering and design, as well as familiarity with local conditions, allows our staff to be able to provide the City with solutions that are innovative, practical and workable.

The M&R alternatives are used to determine effective treatments for each street section based upon criteria such as condition, pavement type, and functional class. Once these M&R alternatives are defined, a treatment unit cost will be determined for each alternative. These alternatives and costs will then be entered into the PAVER™ database for budgetary analyses. The modifications will be noted and summarized in a report to the City.

Deliverables:

- M&R decision tree

Task F – Database Update and Analyses

NCE will perform a Budget Needs analysis using an analysis period to be determined by the City (may be as long as 30 years). This will identify M&R requirements for each road section and determine the total maintenance and rehabilitation requirements over the entire analysis period. The Needs Analysis identifies road sections that need treatment and applies the M&R decision trees to each section. The costs are then summed for the entire period.

The Budget Needs Analysis answers the questions: “If I have unlimited funding for street maintenance and repair, which streets should I fix? When should I fix them? What treatments should I apply? How much will it cost?”

This forms the basis for performing Budget Scenario evaluations, which optimize the street sections for repair under constrained budgets.

Simply put, this module answers the question: “If I only have limited funds for street maintenance and repair, which streets have the highest priority for repairs, when should I perform the repairs, and how much will it cost?”

The Budget Scenarios evaluation prioritizes sections for repair under constrained, realistic, budgetary assumptions. Multiple funding scenarios may be performed to answer “what-if” questions (the real “meat” of any PMS).

NCE will perform the three budget scenarios on both the streets and alleys:

- Recommended budget to maintain the existing PCI
- Recommended budget to improve existing PCI
- Impacts with existing budget
- Impacts of changes in funding e.g. SB1 revenues will be available in 2020

Task G – Reports and Submittals

NCE will prepare a report that summarizes the overall condition of the City's pavement network, the M&R strategies used by the City, the results of budgetary analyses, different budget scenarios and recommendations on the recommended scenario with selected street sections for maintenance and rehabilitation.

In addition to the above, NCE will provide the following:

- Inventory reports for the entire database
- Priority listing of all streets by PCI
- Work History from the previous years
- Budget reports summarizing network needs, costs and conditions for the analysis period

Revised Technical Proposal – May 31, 2017

- Prioritized list of recommended streets for maintenance and rehabilitation for each scenario, including costs

Upon receipt of the City’s comments on the draft report, NCE will make appropriate revisions and corrections and will submit the Final Report to the City. The final report will be signed and sealed by a registered Civil Engineer.

Deliverables:

- Draft report (electronic copy)
- Final report (3 hard copies and 1 electronic copy)

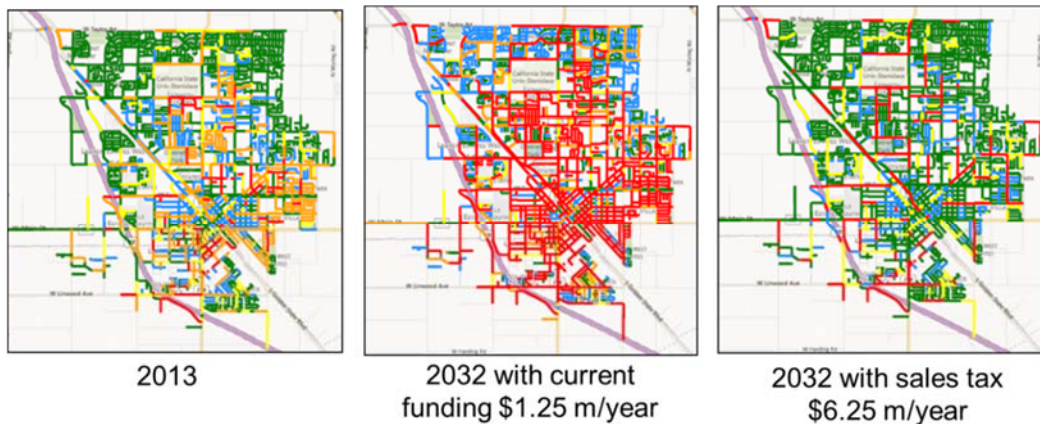

Task H – PMS GIS Layer Update

In this task, NCE will work with the City’s GIS staff to assure that the City’s current base map/shapefile to PAVER™ is up to date. This process will include a 10% verification check on linkages. The linkage typically consists of matching segments in the base map based on road name, type and/or direction. Each section can be linked to a segment or segments in the base map. Should any major discrepancies be identified NCE will notify the City’s GIS staff. The GIS Settings Screen is used to create the link between the database and the base map.

Built-in queries are available to generate maps or exported to shape files. Standard Queries include:

- PCI Range by road section
- Future PCI by road section
- Maintenance Treatment History
- Impacts of different budget scenarios
- Sections Selected for Treatment

GIS maps can be powerful tools for both planning and informational items. For example, the maps below show the impacts of a sales tax measure.

Deliverables:

- PCI color coded maps to be included in final report
- Updated GIS shapefile linked to ArcGIS

Task I – Technical Support

NCE will provide up to 40 hours of technical support to City staff in the preparation of the budget and Capital Improvement Plan, as well as respond to any questions or inquiries related to this project. In addition, NCE will, if desired, prepare and present to City Council. This may be a short (15 to 20 minutes) informational item, or could be a longer (1-2 hours) educational/advocacy workshop, depending on the City’s needs. NCE has recently completed similar presentations to the Cities of Whittier, San Gabriel and Commerce.

Pavement Management Plan Update (2017), Anaheim, CA

NCE updated the City of Anaheim's PAVER™ PMS in compliance with OCTA's Measure M requirements in 2014 and is currently performing the 2017 update. The street network consists of approximately 584 centerline miles of pavement including 155 miles of Arterial Highway System (AHS) and 429 centerline miles of Local Street System (LSS).

NCE's scope of work for 2017 include the following tasks:

- Performing distress/condition surveys as per the most current version of ASTM D6433.
- Collecting both ride quality (International Roughness Index) and digital images of the pavements.
- Identify missing sidewalk gaps.
- Implementing a rigorous QC plan for data control and delivery.
- Updating the maintenance and rehabilitation (M&R) history since 2015.
- Creating shapefiles and KML files with the pavement condition information.
- Performing funding scenarios:
 - Maintain current PCI: AHS PCI of 73 and LSS PCI of 69 (based on 2015 results)
 - Maintain the current backlog of streets, i.e., PCI<40 or 12% (whichever is lower)
 - Target 7-year network average AHS PCI of 75 and PCI 71 for LSS with no more than a 12% backlog
 - Target 7-year network average AHS PCI of 75 and PCI 71 for LSS with backlog below 12 %
- Perform Budget Scenarios per OCTA guidelines (these are different from preceding scenarios and are required).
- Prepare all reports and submittals to OCTA.

Pavement Management System Updates (2009 - 2020), Orange County, CA

The County and its contracted cities have a road network of approximately 674 centerline miles or approximately 3,604 pavement sections. The County road network consists of approximately 378.4 centerline miles, Dana Point has approximately 93.5 centerline miles and Lake Forest has approximately 192.2 centerline miles.

NCE's scope of work consists of:

- Converting the PAVER™ databases to StreetSaver® in 2016
- Verifying road inventory, i.e., lengths, widths and locations.
- Surveying roads using ASTM D6433-11 protocols.
- Updating the maintenance history
- Developing maintenance strategies and updating the decision tree
- Performing multiple budget scenarios
- Linking the database to a GIS shapefile
- Developing a seven-year work plan
- Preparing reports for OCTA certification

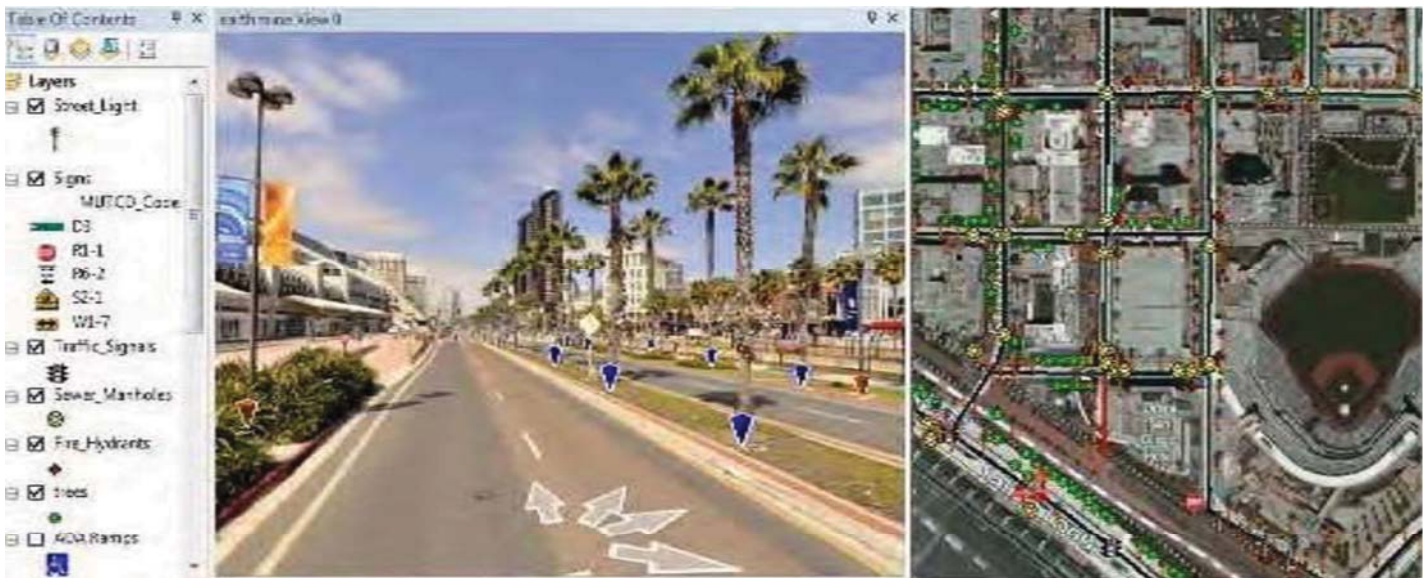

In addition, data on various non-pavement assets were collected and stored using the Earthmine software. Concurrent with the pavement condition survey, mobile data collection units gathered high-resolution 360 degree geo-referenced right-of-way street level digital imagery along with 3D point cloud data. This mobile mapping system gives the ability to visualize, measure, edit, and validate infrastructure assets (such as pavements, markings, lanes, surface areas, shoulders, signs, and drainage features) with a high level of accuracy.

Pavement Management Implementation, GIS Linkage, and System Update (2005-2015), Chula Vista, CA

In 2005, NCE implemented the City’s PMP (converted from a custom PMP to StreetSaver®) and GIS linkage then performed updates in 2009, 2011, 2014 and 2016. The City’s street network consists of 443 centerline miles. NCE provided PMP software selection recommendations, created the pavement database, performed condition surveys and PCI calculations, identified maintenance and rehabilitation historical data, provided budgetary analyses and final reports, and developed customized GIS interface links to the City’s enterprise-wide GIS. NCE also provided presentations to City Council and provided training and technical support to the City’s staff.

In 2012, NCE performed a Cool Pavement Study as part of the investigation into innovative energy efficient opportunities. Traditional asphalt pavements produce dark impervious surfaces that easily absorb and retain heat from solar radiation resulting in higher temperatures. NCE’s study provided the City with a qualitative assessment that rated the UHI impact for selected cool pavement technologies and a two-tiered implementation plan for incorporating cool pavement technologies on future pavement projects.

California Statewide Local Streets & Roads Needs Assessment (2008-2018)

NCE performed a Statewide needs assessment study of 539 cities and counties in California in 2008 and has updated it biennially since then. We have just recently completed the 2016 update. The scope of work includes collecting data on over 143,000 miles of local streets and roads, or over 80% of the state’s publicly maintained roadways. The results of this study answers commonly asked questions:

- What are the existing conditions of local streets and roads and non-pavement assets?
- How much does it cost to bring them up to a good condition?
- How much will it cost to keep them in good condition over the next 25 years?
- What is the projected available revenue in the next 25 years?
- Is there a funding shortfall, and if so, what is it?

Non-pavement assets include elements such as curbs and gutters, sidewalks, storm drains and traffic signals, street lights, etc. This portion of the study is particularly challenging since few agencies collect this information in a systematic fashion. At best, agencies have limited inventory data. Data on replacement costs or service life are virtually non-existent.

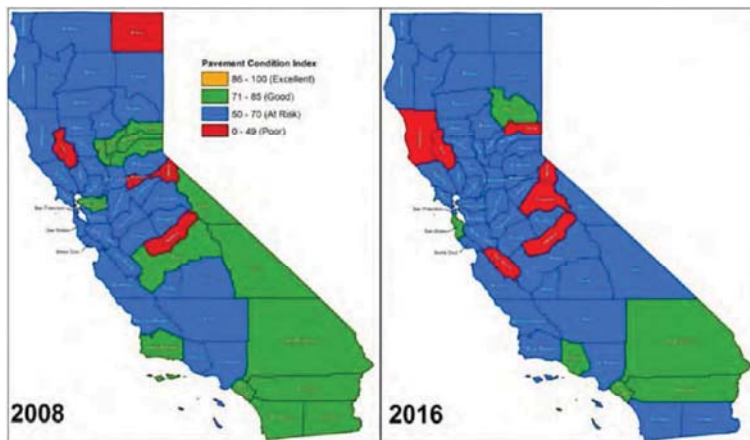

The major tasks in this study include data collection from all 539 cities and counties. These will be reviewed, summarized and evaluated. A methodology for standardizing the comparison process (converting all “apples” and “oranges” to “strawberries”) was developed in 2008 and continues to be utilized. This considers of agencies with old data, missing data or no data.

Finally, the results were presented to a variety of audiences including the California Transportation Commission, the State Legislature, Regional Transportation Planning Agency Planning Group and industry representatives. The information was used successfully by CSAC and the League to advocate for additional funding, which resulted in passage of SB1.

“The Local Streets and Roads Needs Assessment and your continued analysis is playing a critical role for us. Thank you for your dedication and commitment to the effort over the past years.”

Ms. Senn is NCE's proposed Project Manager and has 17 years of experience on a wide range of pavement management and transportation projects. She has managed many Pavement Management Program (PMP) projects and has been responsible for the field training of all PMP personnel, conducted training on various aspects of pavement management in addition to overseeing field surveys and QC procedures for various cities and counties throughout California. She has trained engineers and technicians on both StreetSaver® and PAVER™.

Ms. Senn developed and conducted the on-going PAVER™ training workshops for OCTA, which includes computer and field distress training. Ms. Senn is an active member of MTC's Software Development team and has assisted with beta testing of new modules and enhancements for StreetSaver®.

PROFESSIONAL EXPERIENCE

Pavement Evaluation Services

Ms. Senn has managed numerous deflection testing projects. These projects included using deflection testing to measure a pavement's structural properties by applying a load on the pavement and measuring the resulting deflection. In connection with deflection testing, coring was completed to measure existing pavement thicknesses to determine pavement structural capacity. Used in conjunction with deflection testing and visual observations of current cracking conditions and roadside draining, core testing provides the necessary data to provide sound repair or maintenance recommendations.

Pavement Management Program Update - Mission Viejo, CA | Project Manager

The City has approximately 178 centerline miles of local and collector streets and 52 miles of arterial highways (approximately 1,082 pavement sections). Ms. Senn has managed a number of the recent biennial updates for the City. Surveys were performed with either 'walking surveys' or 'windshield surveys' and the PAVER™ database was updated with the pavement condition data. Pavement maintenance and rehabilitation historical records for the past 2 years were also entered into the database. As part of the project, the Maintenance and Rehabilitation (M&R) decision tree was updated with new treatments and unit costs re-evaluated prior to performing any budgetary analyses. In addition, the City's projected 20-year pavement budget was analyzed and a 7-year workplan prepared. Numerous custom reports were prepared for the City, and finally, an executive summary was submitted to OCTA for the Measure M2 program.

Pavement Management Program Updates & StreetSaver® Conversion - Corona, CA | Project Manager

Ms. Senn has managed the City's annual PMP updates, which included pavement condition surveys and budgetary analyses. In 2012 and 2013, she assisted the County as they made a change in their PMP software, from PAVER™ to StreetSaver®. This included a review of current functional classifications, generating a list of roads needing surveys prior to conversion and helping to define information migrated. She collaborated with City's GIS department to obtain a current shapefile for GIS integration for StreetSaver®. Once complete, she trained City staff on the use of StreetSaver®, including database entry and how to generate GIS Maps.

Pavement and Asset Management Program - County of Orange, CA | Project Manager

Ms. Senn is the project manager for the current 5-year contract with the County of Orange and its contract Cities of Lake Forest and Dana Point. She sets requirements for quality control of collected pavement distress data, updating maintenance and rehabilitation decision trees and the treatment unit costs, and the development of budget scenarios and summary reports. Ms. Senn is working with County and City staff for determining unit costs, applicable treatments for the 7-year budgeting scenarios and developing the respective street sections slated for rehabilitation over the next seven years.

Pavement Management Program Update - Fullerton, CA | Project Manager

Ms. Senn is the project manager for the City's biennial pavement management condition surveys and budget analyses. The condition surveys cover the City's entire pavement network, over 290 centerline miles. She worked with the City to update preventative maintenance and rehabilitation strategies and treatment unit costs to more accurately reflect the effects of different multiple-year budgets on the pavement network's condition and the backlog of work. She also coordinated the migration of the City's GIS shapefiles to PAVER™ in order to provide a visual linkage to sections in the City's pavement network.

El Cerrito, Richmond, Mountain View, Walnut Creek), counties (Orange, San Bernardino, San Mateo, Marin, Stanislaus, and Monterey) and federal agencies (US Forest Service, Presidio of San Francisco, and Barbers Point NAS). Ms. Yapp has been involved in all aspects of PMP implementation, from collecting field data, performing condition surveys, performing analyses, preparing reports, presenting results to decision makers, and managing projects. Ms. Yapp has worked with the following PMP software: MTC's StreetSaver®, PAVER™ and Cartograph.

Currently, she works with both regional and local agencies to use their PMP data for developed work plans and also to project long-term needs for sales tax or bond measures. She has used PMP data to develop performance prediction models, to monitor performance of projects constructed with new pavement materials such as crumb rubber, and to develop new specifications. Ms. Yapp recently prepared a long-term regional pavement needs analysis for all 34 cities in Orange County for the Orange County Transportation Authority.

Pavement Management Program Update - West Covina, CA

NCE updated the Pavement Management Program (PMP) for the City of West Covina in 2011. The scope of work included performing all the condition surveys for the City, calculating the PCI and training City staff.

Pavement Management Program - Corona, CA

NCE implemented a Pavement Management Program (PMP) for the City of Corona using the PAVER™ PMP in 1999 and has performed annual updates on portions of the City's network since then. In 2011, the City requested NCE to convert their PMP data to MTC's StreetSaver® software. As part of the conversion NCE trained City staff on the use of the program and assisted with linking the City's GIS shapefile to StreetSaver®'s GIS Toolbox. The City has approximately 400 centerline miles (3100 roadway sections). NCE continues to provide annual services and updates to the City.

Pavement Management Program - Torrance, CA

NCE installed and operated a pilot project to implement a PMP in 2003 using StreetSaver®. NCE identified the needs of the pavement network, established cost effective priorities for making improvements, and developed a long-range program for use in planning, implementing, coordinating, and budgeting for the street maintenance and rehabilitation program. NCE prepared an executive summary report, which met OCTA's required format within the specified time frame. NCE continues to provide annual services and updates to the City.

Various PMS Studies - Orange County Transportation Authority, CA

NCE has worked with OCTA since 1997 on various projects related to pavement management systems. There are over 6,500 centerline miles of paved streets and roads in Orange County, which serves a population of almost 3 million. In 2010, NCE assisted OCTA in developing countywide guidelines for the pavement management program. This was to ensure consistent data collection procedures for all 35 jurisdictions, so that funding allocations may be made on an "apples to apples" comparison. Since 2011, NCE has developed and conducted training workshops on the PMP software as well as conducted field surveys as per ASTM D6433. To date, over 12 workshops have been delivered to all 35 local agencies in Orange County.

Pavement and Asset Management System, County of Orange, CA

Ms. Yapp is the QA/QC Manager for the current 3-year contract with the County of Orange in its contract Cities of Lake Forest and Dana Point. Ms. Yapp oversaw the quality control of collected pavement distress data, updated maintenance and rehabilitation decision trees and treatment unit costs, and developed budget scenarios and summary reports. The project entailed working with County and City staff for determining unit costs, applicable treatments for the 7-year budgeting scenarios and developing the respective street sections slated for rehabilitation over the next 7 years.

Training & Technical Support, Metropolitan Transportation Commission, CA

NCE has been involved in numerous projects related to the development, implementation, and training of the StreetSaver® program. NCE implemented the StreetSaver® PMP in over 150 agencies since 1994. NCE has been a P-TAP consultant since Round 1 in 1998-1999. NCE's technicians and engineers are also certified in MTC's rater certification program. NCE has been involved with the beta testing of different versions of the StreetSaver® software since 1994 and has been a member of the Software Development Team. NCE has trained users on the StreetSaver® software since 1997 including the development of the training materials, ensuring interaction in the training, as well as conducting the training.

Report to City Council

TO: Mayor and City Council

FROM: Rick C. Hartmann, Acting Public Works Director

AGENDA DATE: August 15, 2017

TITLE: APPROVE THE GRANT OF EASEMENT TO RIVERSIDE COUNTY FLOOD CONTROL AND WATER CONSERVATION DISTRICT (RCFC&WCD) FOR THE HEACOCK CHANNEL PROJECT NO. 804 0001

RECOMMENDED ACTION

Recommendations:

1. Approve the Grant of Easement to Riverside County Flood Control and Water Conservation District for the Heacock Channel project.
2. Authorize the City Manager to execute the Grant of Easement to Riverside County Flood Control and Water Conservation District.
3. Authorize the City Clerk to transmit the executed Grant of Easement to the Riverside County Recorder's Office for recordation.

SUMMARY

This report recommends approval of the Grant of Easement to Riverside County Flood Control and Water Conservation District (District) to allow for the construction and maintenance by the District of the Heacock Channel. The Heacock Channel will include sections of rectangular concrete channels, and trapezoidal concrete channel with a 15-foot wide maintenance road on both sides. A Grant of Easement is needed for the portion of the channel and maintenance road within Heacock Street right of way from Cactus Avenue to the Heacock Street Bridge over Perris Valley Storm Drain (PVSD) Lateral A.

DISCUSSION

The existing Heacock Channel, westerly of Heacock Street between Cactus Avenue

and the Heacock Street Bridge over PVSD Lateral A (just south of Krameria Avenue) currently functions poorly because it was not designed or constructed to handle the large drainage tributary area and it has a history of frequent flooding during moderate to heavy storm events. The proposed Heacock Street Channel project will construct a fully lined concrete flood control channel that will provide 100-year flood protection to residential, commercial, federal, public and privately owned properties within the vicinity of the project site.

On November 27, 2012, the City Council approved the execution of the Cooperative Agreement between the City of Moreno Valley, Riverside County Flood Control and Water Conservation District (District), and March Joint Powers Authority (MJPA) for the Sunnymead Master Drainage Plan (MDP) – Line B, Stage 3, also known as the Heacock Channel Project. This agreement stipulates that the City will use its Sunnymead MDP Area Drainage Fees (ADF) of \$1.25 million, collected by the District, to fund the environmental and design phases. MJPA committed to appropriate approximately \$8 Million toward environment permitting and construction, they will be taking the lead on the administrative aspects of the environmental and design phases. RCFC&WCD committed to appropriating approximately \$7.7 Million for the construction and will maintain the improvements.

In December of 2014, the MJPA Commission approved a conceptual design for the full improvement of the Heacock Street Channel, and certified the Project Environmental Impact Report (EIR) for the implementation of the Project. The Design was completed in February of 2017. Project was advertised for construction in June of 2017. The Heacock Channel project is approximate 10,000 linear feet in length, located on the west side of Heacock Street along properties belonging to the MJPA, Moreno Valley Community Services District, and March Air Reserve Base.

Per the Cooperative Agreement, the City will grant the easement to the District to construct and maintain the portion of the channel and access road within the Heacock Street public right-of-way.

Approval of the recommended actions would support Objective 4 of the Momentum MoVal Strategic Plan: “Manage and maximize Moreno Valley’s public Infrastructure to ensure an excellent quality of life, develop and implement innovative, cost effective infrastructure maintenance programs, public facilities management strategies, and capital improvement programming and project delivery.”

ALTERNATIVES

1. Approve and authorize the recommended actions as presented in this staff report. *This alternative will grant the easement to the District for construction and maintenance of the Heacock Channel providing flood protection to residential, commercial, federal, public and privately owned properties within the vicinity of the project site.*
2. Do not approve and authorize the recommended actions as presented in this

staff report. *This alternative will not grant the easement to the District for construction and maintenance of the Heacock Channel, and will not provide flood protection to residential, commercial, federal, public and privately owned properties within the vicinity of the project site.*

FISCAL IMPACT

The City remains the underlying owner of the easement and right of way. Therefore, no costs are associated with the recommended actions. There is no impact to the City General Fund.

NOTIFICATION

All utilities, adjacent property owners, business owners, law enforcement, fire department, and other emergency services responders in the area will be notified in a timely manner prior to the start of construction work. Changeable message signs to notify commuters will be strategically placed to provide adequate advanced notice.

Report to City Council

TO: Mayor and City Council

FROM: Rick C. Hartmann, Acting Public Works Director

AGENDA DATE: August 15, 2017

TITLE: AMENDMENT NO. 1 TO THE PURCHASE AND SALE AGREEMENT FOR SOUTHERN CALIFORNIA EDISON STREET LIGHTS

RECOMMENDED ACTION

Recommendations: That the City Council:

1. Approve Amendment No. 1 to the Purchase and Sale Agreement with Southern California Edison, in substantially the form attached hereto, to acquire approximately 9,411 street lights and authorize the City Manager to execute the necessary documents.

SUMMARY

This report recommends approval of Amendment No. 1 to the Purchase and Sale Agreement with Southern California Edison (SCE) (the "Amendment") to purchase approximately 9,411 street lights. The Amendment authorizes an increase of \$20,324 in the purchase price to a not-to-exceed of \$4,970,324. After the final Purchase and Sale Agreement (the "Agreement") was approved on March 21, 2017, SCE provided the City with updated costs for transition services. The transition services are completed by SCE's contractor. The agency purchasing the street lights pays the costs for the transition services pursuant to the terms of the Agreement.

DISCUSSION

The City funds operation of its street lights from revenue received from parcel charges levied on the property tax bills. For the last several years, expenditures to operate the street lights have exceeded revenues, creating a shortfall. The General Fund has been bridging the shortfall to continue operation of the street lights. The fiscal year (FY) 2017/18 combined projected shortfall is \$825,000.

In an effort to control street lighting costs, the City opted to purchase approximately 9,411 street lights from SCE and approved the final Agreement on March 21, 2017. After the City takes ownership of the street lights, it will pay SCE a lower rate for utility service and will assume responsibility for their operation and maintenance (O&M). It is anticipated the City can provide the O&M at a lower cost, will realize cost savings by retrofitting the street lights to energy efficient lighting, and may be able to use the street lights for smart city applications (e.g. monitoring traffic mobility, sensing vehicular movement on streets, detecting ground shifts, etc.).

Prior to SCE executing the Agreement, they increased the purchase price (Attachment 3) by \$20,324 for increased costs to transition ownership of the street lights. SCE's contractor increased its cost from \$30 to \$32.15 per street light to provide transition services. The transition costs are a direct expense which is paid by the agency acquiring the street lights. The transition costs are for services to transfer ownership of the street lights and include adjustments to SCE's mapping, updates to its billing system, and an in-field analysis of each street light. SCE stated the cost will not change again while transitioning ownership of the street lights to the City. The new purchase price for 9,411 street lights is \$4,970,324.

ALTERNATIVES

1. Approve Amendment No. 1 to the Purchase and Sale Agreement with Southern California Edison to acquire the street lights. *Staff recommends this alternative. Acquiring the SCE street lights will increase the City's ability to control operation and maintenance costs, reduce the funding shortfall, allow for a greater cost savings through conversion to energy efficient lighting, and provide opportunities to use street lights for emerging technologies.*
2. Do not approve Amendment No. 1 to the Purchase and Sale Agreement. *Staff does not recommend this alternative as it may minimize the City's ability to control costs in its street lighting program and limit its ability to use street lights for emerging technologies.*
3. Do not approve Amendment No. 1 to the Purchase and Sale Agreement but rather postpone the item to a future meeting. *Staff does not recommend this alternative since SCE is awaiting execution of the Amendment so this item can be taken to the Public Utilities Commission for approval.*

FISCAL IMPACT

The \$20,324 increase in the purchase price is not anticipated to significantly impact the City's ability to control street lighting costs and reduce the General Fund subsidy.

(b) State and local personal property Taxes relating to the Facilities for the tax year (ending June 30) will be prorated between Buyer and SCE on the following basis: SCE is to be responsible for all such Taxes for the period up to the Phase Closing Date for such Facilities; and Buyer is responsible for all such Taxes for the period on and after the Phase Closing Date for such Facilities. All Taxes assessed on an annual basis will be prorated on the assumption that an equal amount of Taxes applies to each day of the year, regardless of how many payments are billed or made, except that Buyer will bear all supplemental or other state and local personal property Taxes with arise out of change in ownership of the Facilities. In addition, Buyer acknowledges that the Facilities are assessed by the California State Board of Equalization as of January 1 of each year, and, if the Phase Closing Date occurs between January 1 and June 30, SCE must pay personal property taxes arising out of the ownership of the Facilities for the subsequent fiscal year. If the Phase Closing Date occurs between January 1 and June 30, Buyer will deposit with SCE the full amount to pay personal property taxes for the tax year beginning on July 1, in addition to the prorated amount of personal property taxes for the current tax year (ending June 30), and SCE will pay the personal property taxes for these tax years before they become delinquent; provided however, SCE may pay such taxes in installments as permitted by law. If the personal property tax amounts owing for the tax year beginning on July 1 are not available as of the Phase Closing Date, then the amount due from Buyer to SCE for such tax year will be estimated on the basis of the prior year's personal property taxes and such amount will be subject to adjustment after the Phase Closing Date. If the Phase Closing Date occurs between July 1 and December 31, Buyer will deposit with SCE the prorated amount of personal property taxes for the tax year in which the Phase Closing Date occurs and SCE will pay the personal property taxes for such tax year before they become delinquent; provided however, SCE may pay such taxes in installments as permitted by law.

(c) SCE will be entitled to any refunds or credits of Taxes relating to the Facilities that are allocable to the period prior to the Phase Closing Date. Buyer

will promptly notify and forward to SCE the amounts of any such refunds or credits to SCE within five (5) Business Days after receipt thereof. Buyer will be entitled to any refund or credit of Taxes relating to the Facilities that are allocable to the period on and after the Phase Closing Date. SCE agrees to reasonably cooperate with Buyer's efforts to obtain such refund or credit.

(d) After each Phase Closing Date, Buyer will notify SCE in writing, within five (5) Business Days after Buyer's receipt of any correspondence, notice or other communication from a taxing authority or any representative thereof, of any pending or threatened tax audit, or any pending or threatened judicial or administrative proceeding that involves Taxes relating to the Facilities for the period prior to the Phase Closing Date, and furnish SCE with copies of all correspondence received from any taxing authority in connection with any audit or information request with respect to any such Taxes relating to the Facilities for the period prior to the Phase Closing Date.

(e) Notwithstanding any provision of this Agreement to the contrary, with respect to any claim for refund, audit, examination, notice of deficiency or assessment or any judicial or administrative proceeding that involves Taxes relating to the Facilities for the period either entirely prior to the Phase Closing Date or both prior to and after the Phase Closing Date (collectively, "**Tax Claim**"), the Parties will reasonably cooperate with each other in contesting any Tax Claim, including making available original books, records, documents and information for inspection, copying and, if necessary, introduction as evidence to any such Tax Claim contest and making employees available on a mutually convenient basis to provide additional information or explanation of any material provided hereunder with respect to such Tax Claim or to testify at proceedings relating to such Tax Claim. SCE will control all proceedings taken in connection with any Tax Claim that pertains entirely to the period prior to the Phase Closing Date, and SCE and Buyer will jointly control all proceedings taken in connection with any Tax Claim pertaining to the period both prior to and after the Phase Closing Date. Buyer has no right to settle or otherwise compromise any Tax Claim which pertains entirely to the period prior to the Phase Closing Date; and neither Party has the right to settle or otherwise compromise any Tax Claim which pertains to the periods both prior to and after the Phase Closing Date without the other Party's prior written consent.

(f) The obligations of the Parties pursuant to this Section 3.3 shall survive the termination of this Agreement.

4. **CONDITIONS PRECEDENT**

- 4.1 **Conditions to Buyer's Obligations.** Buyer's obligation under this Agreement to purchase the Facilities is subject to the fulfillment or waiver of each of the following conditions precedent:

(a) SCE shall have performed or complied in all material respects with all covenants, agreements and conditions contained in this Agreement to be performed or complied with by SCE at or prior to the Commencement Date and each Phase Closing Date.

(c) No suit, action or other proceeding shall be pending before any court or Governmental Authority which seeks to restrain or prohibit any of the transactions contemplated by this Agreement or to obtain material damages or other material relief in connection with this Agreement or the transactions contemplated hereby.

4.2 Conditions to SCE's Obligations SCE's obligation under this Agreement to sell the Facilities to Buyer is subject to the fulfillment or waiver of each of the following conditions precedent:

(a) Buyer shall have performed or complied in all material respects with all covenants, agreements and conditions contained in this Agreement to be performed by Buyer at or prior to the Commencement and each Phase Closing.

(b) No suit, action or other proceeding shall be pending before any court or Governmental Authority which seeks to restrain or prohibit any of the transactions contemplated by this Agreement or to obtain material damages or other material relief in connection with this Agreement or the transactions contemplated hereby.

4.3 CPUC Approval. The obligation of each Party to consummate the purchase and the sale of the Facilities is conditioned upon obtaining CPUC Approval. SCE agrees to make reasonable efforts to draft and file an application seeking CPUC approval within ninety (90) days following the Effective Date of this Agreement. Buyer agrees to cooperate with SCE's efforts to obtain CPUC Approval, including by promptly reviewing and commenting on the application for CPUC Approval. Buyer acknowledges and agrees that SCE makes no representation or warranty with respect to the likelihood of obtaining CPUC Approval, and Buyer hereby waives all Claims against SCE that may arise as a result of the need for CPUC Approval or SCE's failure to obtain CPUC Approval.

4.4 Satisfaction or Waiver of Conditions Precedent. Buyer may waive in writing any of the conditions precedent set forth in Section 4.1, and SCE may waive in writing any of the conditions precedent set forth in Section 4.2. Neither Party shall have the right to waive the condition precedent set forth in Section 4.3. Subject to the foregoing, in the event that any of the conditions precedent set

forth in Section 4.1 or Section 4.2 have not been satisfied or waived on or before the Commencement Date or any Phase Closing Date (as the same may be extended), then the Party whose obligations are subject to such condition precedent shall have the right to rescind this Agreement ab initio upon written notice to the other Party, and SCE and Buyer shall thereupon return to the other Party all performances received from the other Party (except for the Severance Costs actually paid), and each Party shall be released from all other obligations under this Agreement, except those which expressly survive termination.

5. CONDITION OF FACILITIES AND LAND RIGHTS

5.1 Compliance with Applicable Requirements and Governmental Approvals.

Except for CPUC Approval, Buyer is solely responsible for complying, at Buyer's sole expense, with all Applicable Requirements and obtaining all authorizations, consents, licenses, permits and approvals of Governmental Authorities and third persons in connection with the consummation of the transactions contemplated by this Agreement and with Buyer's operation of the Facilities, whether as result of the PCB content or otherwise. Without limiting the foregoing, Buyer is responsible for any costs of complying with the California Environmental Quality Act ("CEQA"), if and to the extent applicable to the sale and transfer of the Facilities, and satisfying, at Buyer's sole expense, any and all mitigation measures under CEQA that may apply to Buyer's acquisition or operation of the Facilities. Buyer shall promptly notify SCE of any and all mitigation measures that may affect SCE. If SCE determines in good faith that any such mitigation measures may adversely affect SCE, SCE shall have the right without liability to Buyer to terminate this Agreement upon written notice to Buyer. In the event of such termination, SCE and Buyer shall each be released from all obligations under this Agreement, except those that expressly survive termination. Buyer's obligations under this Section 5.1 shall survive the termination of this Agreement.

5.2 Disclosure Regarding Hazardous Substances.

SCE hereby discloses to Buyer that Potential Environmental Hazards and Hazardous Substances, including PCBs, may be present at, in, on, under, about, contained in, or incorporated in the Facilities. Buyer represents that it is purchasing the Facilities for Buyer's own use, and not for resale (provided that Buyer contemplates that Buyer may transfer title to the Facilities in connection with financing and/or refinancing of the Facilities). If Buyer sells the Facilities, or any part thereof, it shall disclose, in writing, to all potential Buyers, prior to the sale, that Potential Environmental Hazards and Hazardous Substances, including PCBs, may be present at, in, on, under, about, contained in, or incorporated in the Facilities, or portions thereof. Further, in the event the Facilities (or any portion thereof) are sold, conveyed or transferred in any manner to a person other than SCE, Buyer shall incorporate in the agreement effectuating such transfer, language substantially in the same form as this paragraph. Buyer's obligations under this Section 5.3 shall survive the termination of this Agreement. Notwithstanding anything to the contrary set forth in this Agreement, SCE approval shall not be

required for any conveyance of the Facilities, whether or not such conveyance is made in connection with a financing or refinancing of the Facilities or any part thereof.

SCE further discloses the following PROPOSITION 65 WARNING: The Safe Drinking Water and Toxic Enforcement Act of 1986, commonly referred to as Proposition 65, requires the governor to publish a list of chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. It also requires California businesses to warn the public of potential exposures to these chemicals that result from their operations. Some of the facilities to be transferred include wooden poles that have been treated with chemical preservatives. These chemicals include pentachlorophenol, which is known to the State of California to cause cancer, and petroleum products such as diesel fuel, which contains chemicals including toluene and benzene that are known to the State of California to cause cancer and birth defects or other reproductive harm. Buyer specifically acknowledges these warning and disclosure and understands that it is responsible for ensuring appropriate personal protective equipment is used by Buyer's employees, agents or contractors coming into contact with wooden poles.

5.3 Disclaimers Regarding the Facilities and the Land. BUYER ACKNOWLEDGES THAT IT IS RELYING UPON ITS OWN INDEPENDENT INVESTIGATION IN DECIDING TO PURCHASE THE FACILITIES. BUYER EXPRESSLY DISCLAIMS RELIANCE ON ANY REPRESENTATIONS, WARRANTIES OR GUARANTIES, EITHER EXPRESS OR IMPLIED, BY SCE, ITS OFFICERS, DIRECTORS, COUNSEL, REPRESENTATIVES OR AGENTS. WITHOUT LIMITING THE GENERALITY OF THE FOREGOING, SCE EXPRESSLY DISCLAIMS ANY REPRESENTATIONS OR WARRANTIES OF ANY KIND OR NATURE, EXPRESS OR IMPLIED, AS TO THE CONDITION, VALUE OR QUALITY OF THE FACILITIES, THE PROSPECTS (FINANCIAL AND OTHERWISE) OF THE FACILITIES, THE QUALITY OF WORKMANSHIP OF THE FACILITIES, OR THE ABSENCE OF ANY DEFECTS THEREIN, WHETHER LATENT OR PATENT. SCE FURTHER SPECIFICALLY DISCLAIMS ANY REPRESENTATION OR WARRANTY REGARDING POTENTIAL ENVIRONMENTAL HAZARDS, THE PRESENCE OF HAZARDOUS SUBSTANCES, COMPLIANCE OF THE FACILITIES OR THE LAND WHERE THE FACILITIES ARE LOCATED WITH ENVIRONMENTAL REQUIREMENTS, OR LIABILITY OR POTENTIAL LIABILITY ARISING UNDER ENVIRONMENTAL REQUIREMENTS. NO SCHEDULE OR EXHIBIT TO THIS AGREEMENT, NOR ANY OTHER MATERIAL OR INFORMATION PROVIDED BY OR COMMUNICATIONS MADE BY SCE, WILL CAUSE OR CREATE ANY REPRESENTATION OR WARRANTY, EXPRESS OR IMPLIED. WITHOUT LIMITING THE GENERALITY OF THE FOREGOING, SCE EXPRESSLY DISCLAIMS: (A) ANY IMPLIED OR EXPRESS WARRANTY OF MERCHANTABILITY; (B) ANY IMPLIED OR EXPRESS WARRANTY OF

FITNESS FOR A PARTICULAR PURPOSE; AND (C) ANY IMPLIED OR EXPRESS WARRANTY OF CONFORMITY TO MODELS OR MATERIALS.

- 5.4 **“AS IS” SALE.** THE FACILITIES ARE BEING TRANSFERRED “AS IS, WHERE IS, AND WITH ALL FAULTS” IN THEIR EXISTING CONDITION, WITHOUT ANY REPRESENTATIONS OR WARRANTIES OF ANY KIND BY SCE, EXPRESS, IMPLIED OR STATUTORY, AND WITHOUT RECOURSE AGAINST SCE.
- 5.5 **Specific Disclaimer Regarding Land Rights.** BUYER SPECIFICALLY ACKNOWLEDGES AND AGREES THAT SCE IS NOT ASSIGNING OR OTHERWISE TRANSFERRING ITS RIGHT, TITLE AND INTEREST IN AND TO ANY LAND RIGHTS (OR ANY CLAIM, RIGHT OR BENEFIT ARISING UNDER OR RESULTING FROM SUCH LAND RIGHTS) IN CONNECTION WITH ITS SALE OF THE FACILITIES TO BUYER, AND BUYER ASSUMES ANY AND ALL RISKS AND LIABILITIES IN CONNECTION WITH THE ABSENCE OF ADEQUATE OR APPROPRIATE LAND RIGHTS.
- 5.6 **Maintenance of Facilities Pending Commencement.** From the Effective Date until the Phase Closing Date, SCE will, at its expense, operate and maintain the Facilities in accordance with SCE’s rate “Schedule LS-1 LIGHTING - STREET AND HIGHWAY - UNMETERED SERVICE COMPANY-OWNED SYSTEM,” and consistent with SCE’s custom and past practices.
- 5.7 **New Facilities.** Until the Commencement Date, SCE may continue to install new streetlights in the City of Moreno Valley in accordance with SCE’s standard practices and tariffs and CPUC rules and regulations.
6. **COMMENCEMENT AND POST-COMMENCEMENT ACTIVITIES.**
- 6.1 **Commencement Date.** The “**Commencement Date**” shall be the date that is sixty (60) days after the CPUC Approval Date or after the approval of a financing plan by the City Council, whichever occurs later. The application seeking CPUC Approval will request such approval within six months of the date the application is filed. SCE makes no representations as to when or in what manner the CPUC will act on the application.
- 6.2 **The Phases.** The first Phase shall commence on the Commencement Date (“**Commencement**”), and each successive Phase shall follow consecutively thereafter or on such earlier date as mutually agreed by the Parties as to the Facilities identified for each Phase in **Exhibit C**. The Parties shall take the following actions during each Phase for the Facilities to be transferred to Buyer in such Phase:
- (a) For a period not to exceed four (4) months following the commencement of each Phase (each, an “**Inventory, Planning and Inspection Period**”), the Parties will perform their respective Inventory, Planning and Inspection

- Activities set forth in **Exhibit D**, including identifying any Reconfigured Facilities. For each Phase, SCE's Local Service Planning office shall provide written notice to Buyer before the expiration of the Inventory, Planning and Inspection Period identifying any potential Reconfigured Facilities and stating the work necessary to reconfigure such facilities for sale to Buyer and the estimated time and cost to complete the work ("Reconfigured Facilities Notice").
- (b) For a period of ten (10) Business Days following Buyer's receipt of the Reconfigured Facilities Notice, Buyer shall have the right to accept or reject the Reconfigured Facilities described in the Reconfigured Facilities Notice, which acceptance or rejection shall be evidenced by a written notice delivered to SCE's Local Service Planning Office.
 - (c) At any time prior to the applicable Phase Closing Date, each Party shall perform and complete its respective Severance Activities for all Facilities in the applicable Phase, excepting only the Reconfigured Facilities identified in the Reconfigured Facilities Notice for that Phase, which Reconfigured Facilities shall be added to the final Phase. Prior to or during the final Phase, each Party shall perform and complete its respective Severance Activities for any Reconfigured Facilities.
 - (d) Not later than thirty (30) days prior to each Phase Closing Date, SCE shall deliver to Buyer an original Bill of Sale duly executed by SCE. The Parties agree that delivery of the Bill of Sale shall be effective upon the earlier of (i) delivery to Buyer by hand of an original Bill of Sale or (ii) Buyer's receipt of a facsimile or other electronic transmission of the Bill of Sale. If delivery is made by facsimile or other electronic transmission, SCE shall concurrently send the original Bill of Sale to Buyer by registered or certified mail or overnight courier.
 - (e) At any time prior to any Phase Closing Date, Buyer may elect at its sole and absolute discretion to remove any of the Facilities (except for Reconfigured Facilities) from any Phase and deduct on a pro rata basis the value of such Facilities from the Purchase Price.
 - (f) By each Phase Closing Date, Buyer shall pay to SCE in U.S. dollars the Purchase Price, Severance Costs, and the Taxes (but not Excluded Taxes) for the Facilities to be transferred to Buyer in such Phase.
 - (g) After completion of the final Phase, SCE's Local Service Planning Office will invoice Buyer separately for any Reconfigured Facilities.
- 6.3 Assumption of Liabilities.** On each Phase Closing Date, Buyer will assume all obligations and liabilities of any kind or nature whatsoever related to, arising

from, or associated with ownership or possession of the Facilities transferred to Buyer in such Phase.

6.4 Post-Phase Activities.

- (a) Within ninety (90) days after each Phase Closing Date, but effective as of each such Phase Closing Date, SCE will change the charge for electricity furnished to the Facilities transferred to Buyer in such Phase from the Streetlight Rate Schedule LS-1 to the Streetlight Rate Schedule "LS-2 LIGHTING - STREET AND HIGHWAY CUSTOMER-OWNED INSTALLATION - UNMETERED SERVICE" Multiple Service – Rate B and provide written notice to Buyer of such change ("Notice of Rate Change").
- (b) Within ninety (90) days after each Phase Closing Date, SCE shall provide an updated map and inventory of the Facilities transferred pursuant to such Phase to Buyer.

6.5 Prohibition on Connecting Non-Conforming Load. Buyer acknowledges and agrees that Buyer's purchase of the Facilities does not entitle Buyer to connect non-conforming load to the Facilities or supporting circuits beyond SCE's initial point of connection. If Buyer wishes to connect such non-conforming load, Buyer agrees to comply with SCE's applicable filed tariffs.

7. RELEASE.

7.1 Release. Buyer, for itself, and for any future owners of all or a part of the Facilities, and each of their respective predecessors, successors, assigns, licensees, officers, directors, employees, agents, partners, shareholders, transferees, parent and subsidiary corporations, legal representatives, heirs, beneficiaries, executors and administrators hereby fully and forever releases, discharges and covenants not to sue the SCE Parties of, from or for any and all losses (including diminution in the value of the Land) and all other costs, claims, demands, actions, suits, orders, causes of action, obligations, controversies, debts, expenses, accounts, damages (including consequential or direct damages), judgments and liabilities of whatever kind or nature (including fines and civil penalties), and by whomsoever asserted, in law, equity or otherwise, whether known or unknown, (each a "**Claim**" and, collectively, "**Claims**") arising from or in any way connected with the Facilities, Claims relating to Potential Environmental Hazards, and Claims relating to the presence of PCBs or any other Hazardous Substances in the Facilities, and/or in, on or about the Land.

7.2 Waiver of Civil Code § 1542. With respect to the matters being released in Paragraph 7, and as to those matters only, Buyer does knowingly, after having first obtained the advice of its attorneys, waive all of the provisions of California Civil Code § 1542 ("Section 1542"). Section 1542 reads as follows:

“A general release does not extend to claims which the creditor does not know or suspect to exist in his or her favor at the time of executing the release, which if known by him or her must have materially affected his or her settlement with the debtor.”

Buyer acknowledges and agrees that: (a) the releases set forth in Paragraph 7 are intended to extend to and extinguish all claims, causes of action, etc. that are encompassed within the terms of the releases, including those that are not presently known to or suspected by Buyer and (b) it may hereafter discover facts in addition to or different from those which it now believes concerning the subject matter of this Agreement, and that notwithstanding any such new or different facts, the releases contained herein will remain effective. Buyer further acknowledges and agrees that the foregoing waiver of Section 1542 is an essential and material term of this Agreement, without which said consideration would not have been given. Buyer has been advised by its legal counsel regarding this release and waiver and understands and acknowledges the significance and consequences of this release and waiver of Section 1542.

8. INDEMNITY. Buyer shall, at its sole cost and expense, indemnify, protect, defend and hold the SCE Parties harmless, to the fullest extent permitted by law, from and against any and all Claims (including the payments of damages, both actual and consequential, the payment of penalties and fines, the payment of the actual fees and expenses of experts, attorneys and others, and the payment of the cost of environmental investigations, monitoring, containment, abatement, removal, repair, cleanup, restoration, remedial work and other “response costs” under CERCLA or any other Environmental Requirements) arising from or in any way connected with: (a) any activities or failures to act in connection with this Agreement by Buyer, its employees, agents, or contractors; or (b) the ownership, possession, use or operation of the Facilities transferred to Buyer from and after the Phase Closing Date applicable to such Facilities; or (c) Potential Environmental Hazards relating to the Facilities or the presence, disposal, dumping, escape, seepage, leakage, spillage, discharge, emission, pumping, emptying, injecting, leaching, pouring, release or threatened release of PCBs or any other Hazardous Substances in connection with the Facilities, to the extent such Hazardous Substances were present or affecting the Facilities and/or in, on, or about the Land as of the applicable Phase Closing Date; or (d) the failure of the Facilities to comply with any Applicable Requirements; or (e) Buyer’s breach of any of its obligations under this Agreement. In no event shall Buyer be required to indemnify SCE for any claims to the extent related to the gross negligence or willful misconduct of SCE. If any action or proceeding is brought against any one or more SCE Parties for any Claim against which Buyer is obligated to indemnify or provide a defense hereunder, Buyer, upon written notice from SCE, shall defend the SCE Parties. Buyer’s obligation to defend includes the obligation to defend claims and participate in administrative proceedings, even if they are false or fraudulent. The indemnity, defense and other obligations of Buyer in this Section 8 shall survive the termination of this Agreement.

9. MISCELLANEOUS.

- 9.1 Time of Essence.** Time is of the essence of this Agreement and each and every provision hereof.
- 9.2 Force Majeure.** Except for the payment of money when due, performance by either Party hereunder shall not be deemed to be in default, or considered to be a default, where delays or defaults are due to force majeure events beyond the control of such Party, including, without limitation, war, insurrection, strikes, lockouts, riots, floods, earthquakes, fires, casualties, acts of God, acts of the public enemy, epidemics, quarantine restrictions, government imposed moratorium legislation, actions or failures to act by any regulatory authority with jurisdiction over SCE (including the CPUC), freight embargoes, lack of transportation, weather-caused delays, inability to secure necessary labor, materials or tools, delays of any contractor, subcontractor or supplier, that are not attributable to the fault of the Party claiming an extension of time. An extension of time for any such force majeure cause shall be for the period of the enforced delay and shall commence to run from the date of occurrence of the delay; provided, however, that the Party claiming the existence of the delay first provides the other party with written notice of the occurrence of the delay, within ten (10) days of the commencement of such occurrence of a force majeure event and, thereafter, takes prompt and reasonable action within its control to remedy such force majeure event.
- 9.3 Further Assurances.** Each Party hereto agrees to execute and deliver to the other Party such further documents or instruments as may be necessary or appropriate in order to carry out the intentions of the Parties as contained in this Agreement.
- 9.4 Binding Effect; Assignment.** This Agreement shall be binding upon, and shall inure to the benefit of, the heirs, successors and assigns of the Parties hereto. Notwithstanding the foregoing, Buyer shall have no right to assign this Agreement or any of its rights or obligations under this Agreement.
- 9.5 Severability.** If any provision of this Agreement shall be unenforceable or invalid, the same shall not affect the remaining provisions of this Agreement and the provisions of this Agreement are intended to be and shall be severable.

Any Party may change its address for notice by giving notice to the other Party in accordance with this Section 9.7.

9.10 Limitation on Liability. Buyer expressly agrees that the obligations and liabilities of SCE under this Agreement and any document referenced herein shall not constitute personal obligations of the officers, directors, employees, agents, affiliates, members, representatives, stockholders or other principals or representatives of SCE. SCE expressly agrees that the obligations and liabilities of Buyer under this Agreement and any document referenced herein shall not constitute personal obligations of the officers, directors, employees, agents, affiliates, members, representatives, stockholders or other principals or representatives of Buyer. 6. ATTACHMENT

a. Licensee shall be allowed to install Future Attachments at additional locations under this Agreement upon written approval of Licensor which shall not be unreasonably withheld provided however, ten (10) business days’ notice has been provided to Licensor; provided, however, Licensor may disapprove proposed Future Attachments in the event Licensor reasonably determines the proposed Future Attachments may interfere with any existing or planned municipal operations or Licensor equipment. Licensee shall provide Licensor the structure number and address or location description where the Attachment will be installed. For purposes of this paragraph, “planned” shall mean that the City has taken steps towards the identification of future municipal needs relating to attachments on light poles as evidenced by (1) City Council adoption of a plan, program or budget, (2) active negotiations with third parties for the implementation of an administrative plan or program, or (3) expenditure of City resources towards the implementation of any plan or program. City plans or programs that are merely conceptual and for which the City has not expended City resources shall not be considered “planned” for purposes of this paragraph.

b. Licensee shall use commercially reasonable efforts to perform any Work in a manner which will not cause any interruption of Licensor’s street-lighting services or

Attachment: Lightpole License Agreement (2712 : AMENDMENT NO. 1 TO THE PURCHASE AND SALE AGREEMENT FOR SOUTHERN

other equipment, or damage Light Poles or Licensor's existing Light Pole attachments or equipment, or damage or interfere with any existing third party Light Pole attachments.

c. All Work shall be performed at Licensee's sole risk and cost and shall be performed in a good and workmanlike manner and Licensee shall indemnify, defend and hold harmless Licensor, its elected officials, staff, directors, invitees, employees, agents, contractors, successors and assigns, from any and all costs, liabilities, claims and expenses, including those from death or injury to any person or from a loss or damage to any real, personal or other property, to the extent arising out of or pertaining to any Work, or any act or failure to act by any of Licensee's employees, agents, or contractors in relation to the Upgraded Attachments and Future Attachments.

d. The performance of any Work shall comply with the requirements for such Work as contained in applicable industry standards, specific work requirements imposed by Licensor or a third party, or in any Applicable Requirements associated with the Work.

e. Upon written notification from Licensor or a government authority that the Attachment or any Equipment is out of compliance with any Applicable Requirement or is unsafe or hazardous, Licensee shall promptly take whatever actions are necessary to come into full compliance with such Applicable Requirements or to remedy the unsafe or hazardous condition, as the case may be. Notwithstanding any other provision of this Agreement, if at any time, in Licensor's sole judgment, an unsafe or dangerous condition exists, Licensor shall immediately notify Licensee and Licensee shall have twenty-four (24) hours from such notice to remedy the unsafe or dangerous condition. If Licensee does not remedy the unsafe or dangerous condition within such twenty-four (24) hour period, then Licensor may correct such condition and notify Licensee of such correction within three (3) business days. If at any time, in Licensor's sole judgment, an imminent threat to human life or safety exists, Licensor may correct such condition and notify Licensee of such correction within three (3) business days.

f. Licensee shall not drill, burn or punch any holes in a Light Pole, without first obtaining written consent from Licensor, which consent shall not be unreasonably withheld. Licensee shall reimburse Licensor for any damage to any Licensor Light Pole in connection with the use, repair, restoration or replacement of a Light Pole by Licensee.

g. Licensee shall follow Licensor's established procedures to request Licensor to replace a Licensor Light Pole with a Custom Light Pole, and Licensee shall be solely responsible for all costs of such request and any resulting replacement.

7. REMOVAL OF AN ATTACHMENT FROM A LIGHT POLE

a. Licensee may at any time remove an Attachment from any Light Pole. Notice of any such removal shall be provided to Licensor within sixty (60) business days after such removal and Licensor's Light Pole shall be repaired and restored to its original condition.

b. Nothing in this Agreement shall be construed to limit Licensor's rights, at any time, to remove a Light Pole from service or to require Licensee to remove its Attachment from a Light Pole that is being removed from service. In the event Licensor requires Licensee to remove its Attachment from a Light Pole that is being removed from service, then Licensor will notify Licensee ninety (90) days prior to the removal and use reasonable efforts to supply Licensee with an alternative Light Pole for such Attachment. Licensee shall complete removal of its Attachment within ninety (90) days of Licensor's request to do so.

c. Whenever Licensee removes an Attachment, Licensee shall restore the Light Pole to its original condition, reasonable wear and tear excepted, except where Licensor notifies Licensee that restoration is unnecessary because the Light Pole is being removed from service or Licensor agrees otherwise.

d. When a Light Pole that contains an existing Attachment is relocated or replaced by Licensor, and there is a suitable other location for a new Light Pole or an existing Light Pole which could be used by Licensee for its Attachment, then Licensor and the Licensee may agree that Licensee may so use the other location or Light Pole and amend Exhibit A to reflect the transfer of Licensee's Attachment Rights. Except in emergency situations, Licensor will notify Licensee ninety (90) days prior to relocation or replacement of Light Pole.

8. RISK OF LOSS; RESTORATION OR REPAIR OF LIGHT POLE

In the event a Light Pole is damaged or destroyed, restoration of Licensor's use of a Light Pole shall take priority over Licensee's restoration of its use; provided, however, that Licensor shall not unreasonably delay Licensee's opportunity to restore the use of its Attachment. Licensor shall permit Licensee to make repairs to restore use of the Attachment, as long as such restoration efforts do not interfere with Licensor's restoration activities. In addition, Licensee shall fully cooperate with Licensor if Licensor performs any repairs or other work on the Light Pole, which work may require a temporary shutdown of Licensee's Attachment. The Licensor shall notify the Licensee at least 48 hours prior to planned repairs that will require a shutdown of the Licensee's Attachment.

9. REGULATORY MATTERS

To the extent that this Agreement is subject to the jurisdiction of any regulatory authority, Licensor and Licensee acknowledge that this Agreement may be subject to such changes, modifications or termination as that regulatory authority may direct from time to time in the exercise of its jurisdiction.

10. INDEMNIFICATION AND LIMITATION OF LIABILITY

a. Licensee shall indemnify, defend and hold harmless Licensor, its elected officials, staff, directors, invitees, employees, agents, contractors, successors and assigns, from any and all costs, liabilities, claims and expenses, including those from death or

injury to any person or from a loss or damage to any real, personal or other property, to the extent arising from any negligent act or omission by Licensee, or by any of Licensee’s employees, agents, or contractors in performing this Agreement.

b. Intentionally Omitted.

c. Licensor shall promptly notify the Licensee of the existence of any matters to which Licensee’s indemnity obligations apply. Upon demand by Licensor, the Licensee shall defend at its own expense with mutually acceptable counsel any such matter; provided that Licensor shall at all times also have the right to fully participate in the defense and consent to any settlement or compromise.

d. IN NO EVENT SHALL EITHER PARTY BE LIABLE TO THE OTHER PARTY FOR ANY INCIDENTAL, INDIRECT, SPECIAL, CONSEQUENTIAL, OR PUNITIVE DAMAGES (INCLUDING LOSS OF THE OTHER PARTY’S CUSTOMERS OR GOOD WILL, OR LOST REVENUE OR PROFITS), FOR ANY CAUSE OF ACTION, WHETHER IN CONTRACT OR TORT, ARISING IN ANY MANNER FROM THIS AGREEMENT OR THE PERFORMANCE OR NON -PERFORMANCE OF OBLIGATIONS HEREUNDER, REGARDLESS OF THE CAUSE OR FORESEEABILITY THEREOF.

11. TITLE AND RISK OF LOSS

a. Licensor shall have and retain sole and exclusive ownership of all Light Poles, and Licensor’s ownership shall not be affected by Licensee’s Attachment to the Light Pole.

b. Except as otherwise provided for herein, Licensee shall retain its ownership of the Attachment and any Equipment at all times.

12. INSURANCE

At all times during the term of this Agreement, Licensee shall maintain and shall require its subcontractors that perform any Work pursuant to this Agreement to maintain insurance coverage as described below:

a. Worker's Compensation Insurance with statutory limits, in accordance with the laws of the State of California, and Employer's Liability Insurance with limits of not less than one million dollars (\$1,000,000). Licensee shall require its insurer to waive all rights of subrogation against Licensor, its officers, agents and employees.

b. Commercial General Liability Insurance, including coverage for bodily injury, property damage, products/completed operations liability and contractual liability, with a per occurrence limit of not less than two million dollars (\$2,000,000). Such insurance shall (i) name the City of Moreno Valley, Community Services District of Moreno Valley (“CSD”) and the Moreno Valley Housing Authority, its officers, agents, and employees as

Attachment: Lightpole License Agreement (2712 : AMENDMENT NO. 1 TO THE PURCHASE AND SALE AGREEMENT FOR SOUTHERN

additional insureds, but only for Licensee’s negligent acts or omissions; (ii) be primary for all purposes; and (iii) contain standard cross-liability provisions.

c. Liability and Property Damage Insurance coverage for owned and non-owned automotive equipment operated on City of Moreno Valley/CSD/Moreno Valley Housing Authority premises. Such coverage limits shall not be less than \$1,000,000 combined single limit.

Written proof of compliance with the requirements of this Section, consisting of Certificates of Insurance and a copy of the Additional Insured Endorsement for the Commercial General Liability insurance policy, in a form acceptable to Licensor, shall be provided to Licensor prior to any Attachment or the installation of any Equipment upon an Light Pole and prior to the expiration of each policy year thereafter. The Certificates of Insurance shall provide that this insurance shall not be terminated, canceled or reduced except on thirty days’ prior written notice to Licensor. Failure to provide and maintain such insurance shall constitute a default under this Agreement. Licensee may self-insure any and all of the above insurance requirements.

13. REMEDIES IN THE EVENT OF DEFAULT

If either Party fails to comply with a material term or condition of this Agreement, the non-breaching party shall provide written notice to the defaulting party of such non-compliance. The breaching party shall then have thirty (30) days (except in the case of health and safety issues, which shall require cure within forty-eight (48) hours) from receipt of such notice to reasonably cure such non-compliance. If such a cure is not completed within the thirty (30) day period (or 48 hour period as provided above), or if a cure is not possible within such period and the breaching party has not taken steps to effect such cure, then the non-breaching party may pursue its legal remedies relating to such non-compliance.

14. DISPUTE RESOLUTION

a. Except as may otherwise be set forth expressly herein, all disputes arising under this Agreement shall be resolved as set forth in this Section 14.

b. Licensor and Licensee shall attempt in good faith to resolve any dispute arising out of or relating to this Agreement promptly by negotiations between an authorized representative of each of the Parties. Any dispute which cannot be resolved between the authorized representative shall be referred to an officer or designee of Licensee and Licensor. Licensor or Licensee shall give the other Party written notice of any dispute following expiration of the applicable cure period pursuant to Section 13. Within twenty (20) days after delivery of such notice, the designated parties shall meet at a mutually acceptable time and place, and thereafter as often as they reasonably deem necessary to exchange information and to attempt to resolve the dispute. If the matter has not been resolved within thirty (30) days of the first meeting, the Parties will consider and decide whether the dispute should be submitted to mediation. The Parties will

cooperate with one another in selecting the mediator ("Mediator") from the panel of neutrals from Judicial Arbitration and Mediation Services, Inc. ("JAMS"), its successor, or any other mutually acceptable non-JAMS Mediator, and in scheduling the time and place of the mediation.

c. To the extent allowable by law, all negotiations and any mediation conducted pursuant to this Section 14 shall be confidential and shall be treated as compromise and settlement negotiations, to which Section 1152 of the California Evidence Code shall apply, which section is incorporated in this Agreement by reference.

d. Notwithstanding the foregoing provisions, either Licensor or Licensee may seek immediate equitable relief, a preliminary injunction or other provisional judicial remedy.

e. Licensor and Licensee shall continue to perform their obligations under this Agreement pending final resolution of any dispute arising out of or relating to this Agreement.

f. If Licensor and Licensee, after good faith efforts to resolve a dispute under the terms of this Agreement (as provided in Subpart b above), cannot agree to a resolution of the dispute, either party may pursue whatever legal remedies may be available to such party, at law or in equity, before a court of competent jurisdiction and with venue in Riverside County, California.

15. TAXES AND LIENS

Licensee shall pay when due any and all taxes or assessment resulting from any Attachment on any Light Pole including, but not limited to, special assessments and governmental fees of any kind whatsoever which may be levied or assessed upon any personal property which Licensee has caused to be placed or maintained upon Licensor's facilities, or against Licensee's business and shall keep Licensor's property and facilities, including any Light Poles, free from all liens, including but not limited to mechanics liens, and encumbrances by reason of the use, occupancy, or maintenance of Licensor's facilities or property by Licensee or by any person claiming under Licensee. It is further agreed that in the event Licensee fails to pay the above-mentioned taxes, assessments, or liens when due, Licensor shall have the right to pay the same and invoice Licensee for the amount thereof and Licensee shall pay the same upon demand together with interest at the maximum rate allowed by law from the date of such expenditure by Licensor.

Report to City Council

TO: Mayor and City Council

FROM: Ahmad R. Ansari, P.E., Public Works Director/City Engineer

AGENDA DATE: March 21, 2017

TITLE: FINAL PURCHASE AND SALE AGREEMENT FOR SOUTHERN CALIFORNIA EDISON STREET LIGHTS

RECOMMENDED ACTION

Recommendations: That the City Council:

1. Approve the final Purchase and Sale Agreement, including the Light Pole License Agreement, with Southern California Edison to acquire approximately 9,411 street lights and authorize the City Manager to execute the necessary documents.

SUMMARY

This report recommends approval of the final Purchase and Sale Agreement with Southern California Edison (SCE), which includes a Light Pole License Agreement for Wireless Attachment (collectively the "Agreement") included as Attachments 1 and 2. The Agreement is for the acquisition of approximately 9,411 SCE owned street lights for a purchase price of not-to-exceed \$4,950,090. Buying the street lights will transition them from SCE's LS-1 (utility owned and maintained) tariff to its LS-2 (city owned and maintained) tariff. The Light Pole License Agreement provides SCE with an existing and future easement on the street lights for existing and future wireless communicating devices. SCE uses the wireless communication to collect and relay data from meters, and to collect, relay and communicate with SCE distribution equipment. Final approval of the Agreement and the sale of the street lights are subject to approval from the California Public Utilities Commission (CPUC) and approval of a financing plan by the City Council.

The Agreement was approved in substantial form during the October 18, 2016 City Council meeting (see Attachment 4 for staff report). Since that time negotiations continued on non-substantive changes. The October 2016 Agreement includes a provision which limits the placement of SCE attachments to a maximum of 3% of the

street lights. On February 10, 2017, SCE advised it would no longer execute agreements with a limitation on the number of street lights it can place its attachments on. As a material change, staff is requesting the City Council consider approval of the Agreement in its final form with elimination of the number of street lights SCE may place its attachments on in the future. On March 1, 2017, SCE advised the City must provide an executed copy of the Agreement on or before April 1, 2017 if it wants to purchase the street lights.

Acquisition of the SCE street lights provides the City with an opportunity to control certain costs and potentially reduce the projected funding shortfall in the street light program. Projections for tariff increases (based on historical increases) were included in the financial analysis. However, the City does not have control over SCE's proposed increases to the tariffs in the future. If the actual increases exceed the projected increases, it will negatively impact the projected savings.

DISCUSSION

As street lights are installed in the City, they are currently dedicated to the utility provider. The utility provider owns the street lights and is responsible for operations and maintenance, risk management, knock-down replacements, and energizing the street lights. The two utility providers, SCE and Moreno Valley Utility (MVU), charge the City a monthly tariff to maintain and illuminate approximately 11,500 street lights. Street lights within Moreno Valley are designated under the LS-1 (SCE) or SL-1 (MVU) tariff. This tariff is for utility owned and maintained street lights.

For the past several years, costs to operate the City's street light program have increased. Revenue for the program is collected through parcel charges applied to the property tax bills. Twice the property owners have opposed an increase in the parcel charge to support the increase in costs. The General Fund has been subsidizing the program since fiscal year 2010/11 to ensure the street light program continues to operate.

In March 2012, SCE introduced a program to sell the street lights to its local agencies. SCE closed the program in March 2015. In an effort to control operating costs, the City requested and received a sales price to purchase the street lights. On October 18, 2016, the City Council approved the Agreement in substantial form and directed staff to provide a recommendation on financing alternatives at a subsequent meeting. Since that time, negotiations have continued related to non-substantive terms of the Agreement.

The Light Pole License Agreement (Exhibit F of the Purchase and Sale Agreement), allows SCE to maintain an easement on the street lights for wireless communication devices. The communication devices are used for the collection and relay of data from meters and for the collection, relay, and communication to SCE distribution equipment. SCE will have the ability to install additional attachments for these purposes at no charge.

The Agreement approved by the City on October 18, 2016 limited placement of the attachments to 3% of the street lights. On February 10, 2017, SCE notified the City it will no longer execute agreements which have a limitation on the number of street lights it will be allowed to place future attachments on. This may impact the City's ability to use the street lights for emerging technology applications. However, if the future attachment interferes with the City's existing or planned municipal operations, the location can be disapproved.

In addition, the City has learned the energy efficiency rebates offered through the CPUC may be expiring on December 31, 2017. These rebates have been included in the financial analysis agencies have used to determine whether to proceed with the purchase of the street lights and conversion to LED technology. There are several groups working to see if there will be exceptions or opportunities to grandfather in those cities in the process of acquiring their street lights. In the event those efforts are unsuccessful, the impact will reduce Moreno Valley's original estimated savings of street light ownership and conversion to LED by \$1.5 million, reducing the City's estimated potential savings from \$8 million to \$6.5 million over a 20-year time period.

On November 3, 2016, the Utilities Commission was updated on the City Council's approval of the Agreement. The Energy Network (non-profit established by CPUC) made a presentation on LED lighting to the Utilities Commission on December 14, 2016.

SCE was asked to execute the Agreement prior to final Council action, but they refused requesting that the City take action on it first. Consequently until the Agreement is executed by SCE, other changes may be proposed by them. If those changes are consequential, the Agreement will be brought back to City Council for another consideration.

As part of its regional street light program, the Western Regional Council of Governments (WRCOG) has developed a financing vehicle for street light acquisition and conversion to LED technology. PFM (WRCOG's financial advisor) made a presentation on the program to the Finance Subcommittee on December 7, 2016. After discussing alternative financing options during its February 2, 2017 meeting, the Finance Subcommittee directed staff to pursue WRCOG's street light financing and to return to the Finance Subcommittee with the financing terms.

ALTERNATIVES

1. Approve the final Purchase and Sale Agreement, including the Light Pole License Agreement, with Southern California Edison to acquire the street lights and related recommended actions as presented in this staff report. *Staff recommends this alternative. Acquiring the SCE street lights will enhance the City's ability to control operations and maintenance costs, reduce the funding shortfall, and allow for a greater cost savings through conversion to emerging energy efficiency technologies.*
2. Do not approve the Purchase and Sale Agreement with Southern California Edison. *Staff does not recommend this alternative as it may minimize the City's ability to*

control costs in its street lighting program and limit its ability to use street lights for emerging technologies.

FISCAL IMPACT

The not-to-exceed purchase price of the street lights is \$4,950,090. At the Finance Subcommittee's direction, staff is working with WRCOG's financing team to finance the purchase of the street lights.

Although the purchase of the lights may reduce operation costs, it is highly likely the General Fund will still be required to provide annual funding for the operation of the street lights.

In addition, Buyer acknowledges that the Facilities are assessed by the California State Board of Equalization as of January 1 of each year, and, if the Phase Closing Date occurs between January 1 and June 30, SCE must pay personal property taxes arising out of the ownership of the Facilities for the subsequent fiscal year. It also requires California businesses to warn the public of potential exposures to these chemicals that result from their operations. Some of the facilities to be transferred include wooden poles that have been treated with chemical preservatives. These chemicals include pentachlorophenol, which is known to the State of California to cause cancer, and petroleum products such as diesel fuel, which contains chemicals including toluene and benzene that are known to the State of California to cause cancer and birth defects or other reproductive harm. Buyer specifically acknowledges these warning and disclosure and understands that it is responsible for ensuring appropriate personal protective equipment is used by Buyer's employees, agents or contractors coming into contact with wooden poles.

Report to City Council

TO: Mayor and City Council

FROM: Ahmad R. Ansari, P.E., Public Works Director/City Engineer

AGENDA DATE: October 18, 2016

TITLE: PURCHASE AND SALE AGREEMENT FOR SOUTHERN CALIFORNIA EDISON STREET LIGHTS

RECOMMENDED ACTION

Recommendations: That the City Council:

1. Approve the Purchase and Sale Agreement, including the Light Pole License Agreement, in substantially the form attached hereto, with Southern California Edison to acquire approximately 9,411 street lights and authorize the City Manager to execute the necessary documents subject to City Attorney final approval.
2. If the Agreement is approved, direct staff to bring financing options, energy efficient conversion options and review of the street light standards back to the City Council for consideration.

SUMMARY

This report recommends approval of a Purchase and Sale Agreement with Southern California Edison (SCE), which includes a Light Pole License Agreement for Wireless Attachment (collectively the "Agreement"), in substantially the form included as Attachments 1 and 2. The Agreement is for the acquisition of approximately 9,411 SCE owned street lights for a purchase price of not-to-exceed \$4,948,472. Buying the street lights will transition them from SCE's LS-1 (utility owned and maintained) tariff to its LS-2 (city owned and maintained) tariff. The Light Pole License Agreement provides SCE with an existing and future easement on the 9,411 poles for existing and future wireless communicating devices. SCE uses the wireless communication to collect and relay data from meters, and to collect, relay and communicate with SCE distribution equipment. Final approval of the Agreement and the sale of the street lights are subject to approval from the California Public Utilities Commission (CPUC) and approval of a financing plan by the City Council.

During the July 12, 2016 Study Session, staff was directed to negotiate the terms of the Agreement with SCE and to determine whether or not the Edgemont Community Services District (ECSD) had an interest in acquiring street lights within its district and under its control. The Council requested the Agreement be brought back to the City Council for consideration.

If the Agreement is approved, options for financing the purchase, conversion of the street lights to Light Emitting Diode (LED) technology, operations and maintenance (O&M) and a review of the City's street light standards will be brought back to the Council at subsequent meetings. Any future street light installations will be dedicated to the City and added to SCE's billing under the LS-2 tariff.

Acquisition of the SCE street lights provides the City with an opportunity to control certain costs and reduce the projected funding shortfall in the street light program. Projections for tariff increases (based on historical increases) were included in the financial analysis. However, the City does not have control over SCE's proposed increases to the tariffs. If the actual increases exceed the projected increases, it will negatively impact the projected savings.

DISCUSSION

As street lights are installed within the City, they are currently dedicated to the utility provider. The utility provider owns the lights and is responsible for O&M, risk management, knock-down replacements, and energizing the street lights. The two utility providers, SCE and Moreno Valley Utility (MVU), charge the City a monthly tariff to maintain and illuminate approximately 11,500 street lights. Street lights within Moreno Valley are designated under the LS-1 (SCE) or SL-1 (MVU) tariff. This tariff is for utility owned and maintained street lights.

The City (and the Moreno Valley Community Services District) levies a parcel charge and/or parcel tax ("parcel charge") on the annual property tax bills. Revenue received from the parcel charge funds a portion of the street lighting program. The City does not levy street lighting parcel charges against those parcels located within the ECSD. Street light service to the ECSD is provided by an independent special district, which levies parcel charges to pay for the street lights within its boundaries. Street lights located within the ECSD are not included within the City's street lighting program. A map of the ECSD is attached to this report.

As utility costs have increased over the years, parcel charge revenue received to support the street light program has not kept pace, creating a funding shortfall. The General Fund has been funding the shortfalls since fiscal year (FY) 2010/11. The FY 2015/16 unaudited shortfall is estimated at \$400,000. Based on SCE's past practice of continuing to increase its monthly tariff, the annual shortfall is anticipated to grow to an estimated \$1,800,000 by FY 2035/2036. Unless new revenue sources or cost saving measures can be identified, the General Fund will have a liability to continue meeting the funding shortfall.

Over the years, a number of alternatives to reduce expenditures have been explored to include removing street lights, turning off street lights, and converting the street lights to energy efficient lighting (e.g. LED). None of these options provide enough of a cost savings to warrant implementation.

In 2011, the City spearheaded the formation of the Coalition for Affordable Street Lights to jointly participate in SCE's 2012 General Rate Case (GRC). The Coalition includes other cities also served by SCE. The GRC is the process SCE goes through every three years to modify its tariff. During the 2012 GRC settlement discussions, the Coalition expressed concern over the rising costs to provide street lighting services and cities' inability to control costs. In response, SCE announced a street light purchase program in March of 2012. Three years later, SCE announced the end of the program, but agreed to honor the program with those cities that requested a purchase price prior to August 2015 and entered into SCE's Purchase and Sale Agreement within 1-year of receiving the purchase price. On October 27, 2015, SCE provided a purchase price of \$4,948,472 for Moreno Valley's 9,411 street lights. Moreno Valley's deadline to enter into a Purchase and Sale Agreement is October 27, 2016. SCE has agreed to extend the deadline to December 31, 2016 provided Moreno Valley is actively negotiating the terms of the Purchase and Sale Agreement (Attachment 3).

If the City elects to purchase the SCE street lights, the monthly tariff will change from the LS-1 tariff to the lower LS-2 tariff. The LS-2 tariff will cover the SCE's cost to transmit the energy to the street lights and the cost of the energy. Ownership costs (e.g. O&M, risk management, knock-down replacements, and customer service) will become the responsibility of the City. By owning the street lights, the City could realize a potential cumulative cost savings of up to \$3,600,000 over a 20-year period. These savings include estimated ownership and acquisition costs.

Ownership of the street lights provides the City with greater control over O&M costs. If the City elects to upgrade the street lights to an energy efficient lighting system (e.g. LED) there will be additional savings in energy costs. Converting to energy efficient lighting is estimated to provide an additional potential cumulative cost savings of up to \$4,400,000 or a total of \$8,000,000 in savings (net of costs to convert to LED) over a 20-year period when compared to the projected funding shortfall of the current, SCE ownership scenario.

WESTERN REGIONAL COUNCIL OF GOVERNMENTS

In December 2014, the Executive Committee of the Western Regional Council of Governments (WRCOG) directed WRCOG staff to develop a regional street light program on behalf of its member jurisdictions. WRCOG's regional program includes an inventory of the street lights, acquiring the street lights and retrofitting them to LED technology, and providing the ongoing O&M of the street lights. Because Moreno Valley has its own utility, it has not been party to WRCOG's efforts. However, WRCOG and Moreno Valley have been working cooperatively together as each navigates simultaneously through the analysis process. Moreno Valley has the ability to opt-in to

WRCOG's regional program at any point and for any portion of WRCOG's program.

Financing

On September 12, 2016, the Executive Committee approved WRCOG staff's recommendation to select Bank of America Public Capital Corporation ("BofA") to provide financing for the acquisition and retrofit of street lights to LED technology. The BofA option provides a "direct placement lease" which is secured by the street lights. BofA was selected after WRCOG conducted a competitive bidding process. A copy of WRCOG's staff report is attached to this report.

Operation and Maintenance

O&M of street lights included as part of WRCOG's regional program will be provided by a contractor selected via a competitive procurement process. The contractor will provide routine O&M and will handle customer service related calls on behalf of those cities participating in the regional program. WRCOG anticipates issuing a request for proposal in October.

LED Regional Demonstration Area

WRCOG selected the City of Hemet as a location for a Regional Demonstration Area to test LED street lights. Five different locations within Hemet, which include multiple land use types (e.g. residential, commercial, industrial, etc.), were identified. Various LED types from 12 vendors have been installed for the public to view and provide input. WRCOG plans to conduct multiple educational tours in October and November. The public will be invited to complete surveys indicating their preference of LED type based on the type of land use. WRCOG will distribute a media kit to its member jurisdictions outlining the specifics of the survey process in early October. The survey period will run from mid-September through the end of January 2017.

PURCHASE AND SALE AGREEMENT

The attached Agreement, in substantially the form included as Attachments 1 and 2, specifies a \$4,948,472 not-to-exceed purchase price of the approximate 9,411 street lights in Moreno Valley. The actual amount may be less depending upon the number of street lights actually available for sale. Street lights which have any equipment used for SCE's distribution system attached to them are not available for sale. SCE will only sell the street lights if all of the eligible street lights are purchased. The City cannot elect to purchase a portion of the lights. The Agreement is subject to SCE having complied with the terms of the Agreement and the City Council approving a structured financing plan. The Agreement is silent on timing to approve the structured financing plan, but it must occur prior to the acquisition process moving forward. The street lights are sold "as is" and generally includes the pole, light and mastarm, wiring within marbelite poles and the base. Ownership of wiring on wood poles will be retained by SCE.

The Light Pole License Agreement (Exhibit F of the Purchase and Sale Agreement),

allows SCE to maintain an easement on the street lights for wireless communication devices. The communication devices are used for the collection and relay of data from meters and for the collection, relay, and communication to SCE distribution equipment. SCE will also have the ability to install additional attachments for these purposes at no charge and under certain terms. SCE is limited to attachments allowed on up to 3% of the street lights. SCE estimates there are currently 10 attachments in place or less than 0.01% on the existing street lights. The Light Pole License Agreement has an initial term of 10 years, with automatic 3-year renewal terms. The City can terminate the agreement during the initial 10-year term between year 8 and 9 1/2 or during the first year of the 3-year renewable terms. There is no cost to the City to terminate the Light Pole License Agreement during these periods.

The estimated 9,411 street lights are for those included on the City of Moreno Valley's monthly SCE bills. It excludes those street lights whose monthly utility bill is paid by other agencies (e.g. HOAs, ECSD). Staff met with the ECSD on July 27, 2016 to gauge its interest in purchasing street lights within its district and under its control. On August 29, 2016, the ECSD Board advised the City it wants to maintain its current ownership arrangement with SCE (Attachment 6).

Process

SCE estimates transition of ownership for all the street lights may take up 17 months. This timeline may be shortened as more cities enter into the process and the CPUC and SCE streamline the transition processes.

| SCE Estimate of Transfer of Ownership Timeline | |
|---|--|
| 2 months after City approval | SCE files with Advice Letter with CPUC |
| 3-6 months | CPUC approves Advice Letter |
| 1-2 months after CPUC Approval | Transition of ownership begins |
| 5-7 months | In Field transfer (1,500-2,000/month) |

Operation and Maintenance

Four alternatives have been initially identified to provide the ongoing O&M of the street lights should the City elect to proceed: 1) City crews who currently service traffic signals and safety lighting could provide the O&M; 2) MVU's contract with ENCO could be amended to include O&M of the SCE street lights (MVU has a public-private partnership with ENCO to maintain the MVU owned street lights); 3) the City could conduct a competitive procurement process; or, 4) the City could partner with WRCOG for O&M. These options will be presented for City Council consideration in more detail during a future meeting.

Additional Opportunities

Ownership of the street lights also provides an opportunity to take advantage of emerging technologies. The network of real estate the street lights provide enables their use for additional services that can benefit our community and can create opportunities to generate additional revenue. For example, the City of Los Angeles

Attachment: City Council Staff Report, March 21, 2017 (2712 : AMENDMENT NO. 1 TO THE PURCHASE AND SALE AGREEMENT FOR

uses street lights for electric vehicle charging stations while other communities use them to create a wireless mesh network of radio nodes. The nodes are used for smart cities applications and position a city for developing a communication network. Examples of these applications include the ability to collect data on traffic mobility, sense movement on the streets, turn off streetlights when sidewalks and roads are empty, detect ground shifts and send earthquake warnings, and act as WiFi hotspots.

ALTERNATIVES

1. Approve the Purchase and Sale Agreement, including the Light Pole License Agreement, with Southern California Edison to acquire the street lights and related recommended actions as presented in this staff report. *Staff recommends this alternative based on the financial projections. Acquiring the SCE street lights will provide the City with control over Operations and Maintenance costs, reduce the funding shortfall, allow for a greater cost savings for conversion to energy efficient technology and opportunities to take advantage of emerging technologies.*
2. Delay approval of the Purchase and Sale Agreement, including the Light Pole License Agreement, with Southern California Edison and continue the item to a future meeting. *Staff does not recommend this alternative as it may delay meeting SCE's deadline to enter into the Agreement.*
3. Do not approve the Purchase and Sale Agreement with Southern California Edison. *Staff does not recommend this alternative as it minimize the City's ability to control costs in its street lighting program and limit its ability to use street lights for emerging technologies.*

FISCAL IMPACT

The not-to-exceed purchase price of the street lights is \$4,948,472. Multiple options for the financing of the purchase are being explored to include:

Option 1: Participate with WRCOG through its approved financing structure or examine our own independent structure with BofA. If the City chooses to proceed under the WRCOG agreement, the terms of the financing structure will be determined at that time.

Option 2: Use the City's Financing Team to seek an independent bond financing structure. This option would allow us to proceed independently from WRCOG under a similar structure, with terms to be determined.

Option 3: Borrow from the General Fund, with terms to be determined.

In addition to the potential savings from the purchase of the street lights, additional savings may be realized by converting the street lights (SCE and MVU) to LED technology. The conversion cost is estimated to be \$4,250,000. The project may be eligible for energy rebates provided through SCE for approximately \$1,500,000, leaving an estimated conversion cost of just over \$2.7 million. The conversion cost may be

funded through options similar to the options for financing the purchase of the street lights. The conversion cost does not include those street lights within and under control of the ECSD

Financial Estimate Assumptions

The current financial modeling projects the City could save \$3.6 million over 20 years if it acquires the street lights. Additionally, with conversion to LED technology, the City may save a total amount of \$8 million over the same 20-year time period. Based on the estimated savings in the tariff with the purchase (LS-1 to LS-2) and energy costs with LED conversion, the City's General Fund will still be required to subsidize the street light program between \$400,000 to \$1 million annually for an estimated total amount of \$13.2 million over the 20-year time period. The shortfall increases through year 15 (term of projected debt service) and decreases the remaining five years of the 20-year period. If the street lights are not purchased the projected shortfall ranges from \$400,000 to \$1.8 million annually for an estimated total amount of \$21.6 million over the 20-year time period.

The annual shortfall includes costs for those street lights (22%) currently located on arterial streets, 22%. The remaining 78% of the street lights are located within residential neighborhoods. The arterial street lights benefit the general population while the residential street lights provide the most benefit to those residents.

The current modeling was developed based on the initial work by WRCOG and their consultants, and the City's historical data. The results of the model are based on multiple assumptions including, but not limited to, the following items:

- Estimates are based on historical knowledge. Although prior results may provide an indicator for future results, there is no guarantee that these or similar results may be experienced.
- The not-to-exceed purchase price is \$4,948,472. The actual price may be adjusted based on the final inspection of each individual street light prior to transition.
- Total acquisition costs are estimated at \$5,577,277 which includes the purchase price (\$4,948,472), initial replacement reserves (\$303,000), transition costs (\$100,000), and cutover costs (\$125,000).
- Transition of the street lights and change in the tariff occurs on day one. The actual timing for the transition of the lights is phased and will be dependent on SCE meeting key dates of delivery. Any delays in transition will reduce the cumulative savings.
- The financing structure is estimated based on a 15 year term at an interest rate of not-to-exceed 4%.
- SCE utility rate tariffs will not increase greater than 5% on an annual basis.
- SCE energy costs will not increase greater than 3% on an annual basis.
- Maintenance costs are estimated based on historical activities and do not account for any major unforeseen costs, including but limited to additional knockdowns or natural disasters. A repair cost per knockdown is estimated at

- \$6,500 per pole with a knockdown rate of 0.47% of inventory.
- Property taxes are assumed to increase at the maximum 2% annually based on the limitation of Proposition 13.
- Overhead operation and administration costs will increase based on an annual inflation rate of 3%.
- LED conversion costs assume an installation cost of \$4,250,000 (SCE and MVU street lights) and energy rebates of \$1.5 million. Many credits are limited and are not guaranteed. If any credits are not received, this could have an impact on the final financial projections.
- Assumes MVU street lights are converted to LED technology.
- LEDs are still an emerging technology and do not have a historical track record of meeting the projected life span and maintenance requirements. LED maintenance is estimated based on projected estimates.
- There may be certain intangible benefits from the ownership of the lights which are not determined at this time. Based on future technology, there may be financial and non-financial benefits to have key infrastructure located throughout the City to allow for the attachment of new technology.
- Street lights under control of ECSD are excluded from the financial modeling.

Although the purchase of the lights may reduce operation costs, under these assumptions the General Fund will still be required to provide annual funding for the operation of the street lights.

2. **PURCHASE AND SALES OF FACILITIES.**

2.1 Purchase and Sale. Subject to the terms and conditions of this Agreement, SCE agrees to sell, convey, assign, transfer and deliver to Buyer, and Buyer agrees to purchase and acquire from SCE, all of SCE's right, title and interest in the Facilities.

2.2 Description of Facilities. The "Facilities" consist of Nine Thousand, Four Hundred Eleven (9,411) electric streetlight facilities owned by SCE and located within the Buyer's service territory. A detailed description and listing of the Facilities to be purchased and sold is provided **Exhibit A**. The Parties believe that **Exhibit A** contains a reasonably accurate inventory and map of the LS-1 streetlight facilities owned by SCE within the Buyer's service territory that are considered for sale.

3. **PURCHASE PRICE AND OTHER COSTS.**

3.1 Purchase Price. Subject to adjustment as provided in this Section 3.1, the total purchase price for all Facilities described in **Exhibit A** ("**Purchase Price**") is Four Million, Nine Hundred Forty Eight Thousand, Four Hundred Seventy Two Dollars (\$4,948,472).

(a) The Parties shall mutually agree on the Purchase Price, Severance Costs and any additional costs for any Reconfigured Facilities transferred to Buyer in the final Phase in accordance with Section 6.2(b).

(b) If, within thirty (30) days after the Phase Closing Date for the final Phase, the Parties determine that the number of Facilities that have been transferred to Buyer pursuant to this Agreement does not equal [insert # of Facilities the first Recital of the Agreement says are to be transferred] then, within sixty (60) days after the Phase Closing Date for the final Phase, the Parties will amend the Bill of Sale for the final Phase to increase or decrease the Purchase Price, as appropriate, using the dollar amount of SCE's average price for each type of streetlight facility in the Buyer's municipality (concrete poles will be valued at SCE's average price for concrete poles, steel poles will be valued at SCE's average price for steel poles, wood poles will be valued at SCE's average price for wood poles, and fiberglass poles will be valued at SCE's average price for fiberglass poles).

3.2 Severance Costs. In addition to the Purchase Price, Buyer shall pay to SCE, SCE's good faith estimate of the cost of SCE's Severance Activities with respect to the Facilities, which the parties agree is equal to a total amount of \$282,330 ("**Severance Costs**"). Buyer shall pay the Severance Costs in nine (9) equal installments, as invoiced by SCE in each Phase.

3.3 Taxes.

(a) Except for any Excluded Taxes for which Buyer will have no liability, Buyer shall pay all Taxes arising in connection with the sale and transfer of the Facilities, this Agreement or the transactions contemplated herein, or the receipt of the Purchase Price or other amounts hereunder, which Taxes are levied or imposed on or with respect to SCE, Buyer or all or any part of the Facilities or any use thereof on or after the applicable Phase Closing Date.

(b) State and local personal property Taxes relating to the Facilities for the tax year (ending June 30) will be prorated between Buyer and SCE on the following basis: SCE is to be responsible for all such Taxes for the period up to the Phase Closing Date for such Facilities; and Buyer is responsible for all such Taxes for the period on and after the Phase Closing Date for such Facilities. All Taxes assessed on an annual basis will be prorated on the assumption that an equal amount of Taxes applies to each day of the year, regardless of how many payments are billed or made, except that Buyer will bear all supplemental or other state and local personal property Taxes with arise out of change in ownership of the Facilities. In addition, Buyer acknowledges that the Facilities are assessed by the California State Board of Equalization as of January 1 of each year, and, if the Phase Closing Date occurs between January 1 and June 30, SCE must pay personal property taxes arising out of the ownership of the Facilities for the subsequent fiscal year. If the Phase Closing Date occurs between January 1 and June 30, Buyer will deposit with SCE the full amount to pay personal property taxes for the tax year beginning on July 1, in addition to the prorated amount of personal property taxes for the current tax year (ending June 30), and SCE will pay the personal property taxes for these tax years before they become delinquent; provided however, SCE may pay such taxes in installments as permitted by law. If the personal property tax amounts owing for the tax year beginning on July 1 are not available as of the Phase Closing Date, then the amount due from Buyer to SCE for such tax year will be estimated on the basis of the prior year's personal property taxes and such amount will be subject to adjustment after the Phase Closing Date. If the Phase Closing Date occurs between July 1 and December 31, Buyer will deposit with SCE the prorated amount of personal property taxes for the tax year in which the Phase Closing Date occurs and SCE will pay the personal property taxes for such tax year before they become delinquent; provided however, SCE may pay such taxes in installments as permitted by law.

(c) SCE will be entitled to any refunds or credits of Taxes relating to the Facilities that are allocable to the period prior to the Phase Closing Date. Buyer will promptly notify and forward to SCE the amounts of any such refunds or credits to SCE within five (5) Business Days after receipt thereof. Buyer will be entitled to any refund or credit of Taxes relating to the Facilities that are allocable to the period on and after the Phase Closing Date. SCE agrees to reasonably cooperate with Buyer's efforts to obtain such refund or credit.

(d) After each Phase Closing Date, Buyer will notify SCE in writing, within five (5) Business Days after Buyer's receipt of any correspondence, notice or other communication from a taxing authority or any representative thereof, of any pending or threatened tax audit, or any pending or threatened judicial or administrative proceeding that involves Taxes relating to the Facilities for the period prior to the Phase Closing Date, and furnish SCE with copies of all correspondence received from any taxing authority in connection with any audit or information request with respect to any such Taxes relating to the Facilities for the period prior to the Phase Closing Date.

(e) Notwithstanding any provision of this Agreement to the contrary, with respect to any claim for refund, audit, examination, notice of deficiency or assessment or any judicial or administrative proceeding that involves Taxes relating to the Facilities for the period either entirely prior to the Phase Closing Date or both prior to and after the Phase Closing Date (collectively, "Tax Claim"), the Parties will reasonably cooperate with each other in contesting any Tax Claim, including making available original books, records, documents and information for inspection, copying and, if necessary, introduction as evidence to any such Tax Claim contest and making employees available on a mutually convenient basis to provide additional information or explanation of any material provided hereunder with respect to such Tax Claim or to testify at proceedings relating to such Tax Claim. SCE will control all proceedings taken in connection with any Tax Claim that pertains entirely to the period prior to the Phase Closing Date, and SCE and Buyer will jointly control all proceedings taken in connection with any Tax Claim pertaining to the period both prior to and after the Phase Closing Date. Buyer has no right to settle or otherwise compromise any Tax Claim which pertains entirely to the period prior to the Phase Closing Date; and neither Party has the right to settle or otherwise compromise any Tax Claim which pertains to the periods both prior to and after the Phase Closing Date without the other Party's prior written consent.

(f) The obligations of the Parties pursuant to the Section 3.3 shall survive the termination of this Agreement.

4. CONDITIONS PRECEDENT

4.1 Conditions to Buyer's Obligations. Buyer's obligation under this Agreement to purchase the Facilities is subject to the fulfillment or waiver of each of the following conditions precedent:

(a) SCE shall have performed or complied in all material respects with all covenants, agreements and conditions contained in this Agreement to be performed or complied with by SCE at or prior to the Commencement Date and each Phase Closing Date.

(b) The City Council shall have identified and approved a structured financing plan to pay the Purchase Price and Severance Costs. The terms of a feasible financing shall be determined solely by the City Council.

(c) No suit, action or other proceeding shall be pending before any court or Governmental Authority which seeks to restrain or prohibit any of the transactions contemplated by this Agreement or to obtain material damages or other material relief in connection with this Agreement or the transactions contemplated hereby.

4.2 Conditions to SCE's Obligations SCE's obligation under this Agreement to sell the Facilities to Buyer is subject to the fulfillment or waiver of each of the following conditions precedent:

4.3 CPUC Approval. The obligation of each Party to consummate the purchase and the sale of the Facilities is conditioned upon obtaining CPUC Approval. SCE agrees to make reasonable efforts to draft and file an application seeking CPUC approval within ninety (90) days following the Effective Date of this Agreement. Buyer agrees to cooperate with SCE's efforts to obtain CPUC Approval, including by promptly reviewing and commenting on the application for CPUC Approval. Buyer acknowledges and agrees that SCE makes no representation or warranty with respect to the likelihood of obtaining CPUC Approval, and Buyer hereby waives all Claims against SCE that may arise as a result of the need for CPUC Approval or SCE's failure to obtain CPUC Approval.

4.4 Satisfaction or Waiver of Conditions Precedent. Buyer may waive in writing any of the conditions precedent set forth in Section 4.1, and SCE may waive in writing any of the conditions precedent set forth in Section 4.2. Neither Party shall have the right to waive the condition precedent set forth in Section 4.3. Subject to the foregoing, in the event that any of the conditions precedent set forth in this Section 4.1 or Section 4.2 have not been satisfied or waived on or before the Commencement Date or any Phase Closing Date (as the same may be extended), then the Party whose obligations are subject to such condition precedent shall have the right to rescind this Agreement ab initio upon written notice to the other Party, and SCE and Buyer shall thereupon return to the other Party all performances received from the other Party (except for the Severance Costs

actually paid), and each Party shall be released from all other obligations under this Agreement, except those which expressly survive termination.

5. **CONDITION OF FACILITIES AND LAND RIGHTS**

5.1 **Compliance with Applicable Requirements and Governmental Approvals.**

Except for CPUC Approval, Buyer is solely responsible for complying, at Buyer's sole expense, with all Applicable Requirements and obtaining all authorizations, consents, licenses, permits and approvals of Governmental Authorities and third persons in connection with the consummation of the transactions contemplated by this Agreement and with Buyer's operation of the Facilities, whether as result of the PCB content or otherwise. Without limiting the foregoing, Buyer is responsible for any costs of complying with the California Environmental Quality Act ("CEQA"), if and to the extent applicable to the sale and transfer of the Facilities, and satisfying, at Buyer's sole expense, any and all mitigation measures under CEQA that may apply to Buyer's acquisition or operation of the Facilities. Buyer shall promptly notify SCE of any and all mitigation measures that may affect SCE. If SCE determines in good faith that any such mitigation measures may adversely affect SCE, SCE shall have the right without liability to Buyer to terminate this Agreement upon written notice to Buyer. In the event of such termination, SCE and Buyer shall each be released from all obligations under this Agreement, except those that expressly survive termination. Buyer's obligations under this Section 5.2 shall survive the termination of this Agreement.

SCE hereby discloses to Buyer that Potential Environmental Hazards and Hazardous Substances, including PCBs, may be present at, in, on, under, about, contained in, or incorporated in the Facilities. Buyer represents that it is purchasing the Facilities for Buyer's own use, and not for resale (provided that Buyer contemplates that Buyer may transfer title to the Facilities in connection with financing and/or refinancing of the Facilities). If Buyer sells the Facilities, or any part thereof, it shall disclose, in writing, to all potential Buyers, prior to the sale, that Potential Environmental Hazards and Hazardous Substances, including PCBs, may be present at, in, on, under, about, contained in, or incorporated in the Facilities, or portions thereof. Further, in the event the Facilities (or any portion thereof) are sold, conveyed or transferred in any manner to a person other than SCE, Buyer shall incorporate in the agreement effectuating such transfer, language substantially in the same form as this paragraph. Buyer's obligations under this Section 5.3 shall survive the termination of this Agreement. Notwithstanding anything to the contrary set forth in this Agreement, SCE approval shall not be required for any conveyance of the Facilities, whether or not such conveyance is made in connection with a financing or refinancing of the Facilities or any part thereof.

5.3 Disclaimers Regarding the Facilities and the Land. BUYER ACKNOWLEDGES THAT IT IS RELYING UPON ITS OWN INDEPENDENT INVESTIGATION IN DECIDING TO PURCHASE THE FACILITIES. BUYER

EXPRESSLY DISCLAIMS RELIANCE ON ANY REPRESENTATIONS, WARRANTIES OR GUARANTIES, EITHER EXPRESS OR IMPLIED, BY SCE, ITS OFFICERS, DIRECTORS, COUNSEL, REPRESENTATIVES OR AGENTS. WITHOUT LIMITING THE GENERALITY OF THE FOREGOING, SCE EXPRESSLY DISCLAIMS ANY REPRESENTATIONS OR WARRANTIES OF ANY KIND OR NATURE, EXPRESS OR IMPLIED, AS TO THE CONDITION, VALUE OR QUALITY OF THE FACILITIES, THE PROSPECTS (FINANCIAL AND OTHERWISE) OF THE FACILITIES, THE QUALITY OF WORKMANSHIP OF THE FACILITIES, OR THE ABSENCE OF ANY DEFECTS THEREIN, WHETHER LATENT OR PATENT. SCE FURTHER SPECIFICALLY DISCLAIMS ANY REPRESENTATION OR WARRANTY REGARDING POTENTIAL ENVIRONMENTAL HAZARDS, THE PRESENCE OF HAZARDOUS SUBSTANCES, COMPLIANCE OF THE FACILITIES OR THE LAND WHERE THE FACILITIES ARE LOCATED WITH ENVIRONMENTAL REQUIREMENTS, OR LIABILITY OR POTENTIAL LIABILITY ARISING UNDER ENVIRONMENTAL REQUIREMENTS. NO SCHEDULE OR EXHIBIT TO THIS AGREEMENT, NOR ANY OTHER MATERIAL OR INFORMATION PROVIDED BY OR COMMUNICATIONS MADE BY SCE, WILL CAUSE OR CREATE ANY REPRESENTATION OR WARRANTY, EXPRESS OR IMPLIED. WITHOUT LIMITING THE GENERALITY OF THE FOREGOING, SCE EXPRESSLY DISCLAIMS: (A) ANY IMPLIED OR EXPRESS WARRANTY OF MERCHANTABILITY; (B) ANY IMPLIED OR EXPRESS WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE; AND (C) ANY IMPLIED OR EXPRESS WARRANTY OF CONFORMITY TO MODELS OR MATERIALS.

- 5.4 **“AS IS” SALE.** THE FACILITIES ARE BEING TRANSFERRED “AS IS, WHERE IS, AND WITH ALL FAULTS” IN THEIR EXISTING CONDITION, WITHOUT ANY REPRESENTATIONS OR WARRANTIES OF ANY KIND BY SCE, EXPRESS, IMPLIED OR STATUTORY, AND WITHOUT RECOURSE AGAINST SCE.
- 5.5 **Specific Disclaimer Regarding Land Rights.** BUYER SPECIFICALLY ACKNOWLEDGES AND AGREES THAT SCE IS NOT ASSIGNING OR OTHERWISE TRANSFERRING ITS RIGHT, TITLE AND INTEREST IN AND TO ANY LAND RIGHTS (OR ANY CLAIM, RIGHT OR BENEFIT ARISING UNDER OR RESULTING FROM SUCH LAND RIGHTS) IN CONNECTION WITH ITS SALE OF THE FACILITIES TO BUYER, AND BUYER ASSUMES ANY AND ALL RISKS AND LIABILITIES IN CONNECTION WITH THE ABSENCE OF ADEQUATE OR APPROPRIATE LAND RIGHTS.
- 5.6 **Maintenance of Facilities Pending Commencement.** From the Effective Date until the Phase Closing Date, SCE will, at its expense, operate and maintain the Facilities in accordance with SCE’s rate “Schedule LS-1 LIGHTING - STREET AND HIGHWAY - UNMETERED SERVICE COMPANY-OWNED SYSTEM,” and consistent with SCE’s custom and past practices.

5.7 New Facilities. Until the Commencement Date, SCE may continue to install new streetlights in the City of Moreno Valley in accordance with SCE's standard practices and tariffs and CPUC rules and regulations.

6. COMMENCEMENT AND POST-COMMENCEMENT ACTIVITIES.

6.1 Commencement Date. The "**Commencement Date**" shall be the date that is sixty (60) days after the CPUC Approval Date or after the approval of a financing plan by the City Council, whichever occurs later. The application seeking CPUC Approval will request such approval within six months of the date the application is filed. SCE makes no representations as to when or in what manner the CPUC will act on the application.

6.2 The Phases. The first Phase shall commence on the Commencement Date ("**Commencement**"), and each successive Phase shall follow consecutively thereafter or on such earlier date as mutually agreed by the Parties as to the Facilities identified for each Phase in **Exhibit C**. The Parties shall take the following actions during each Phase for the Facilities to be transferred to Buyer in such Phase:

- (a) For a period not to exceed four (4) months following the commencement of each Phase (each, an "**Inventory, Planning and Inspection Period**"), the Parties will perform their respective Inventory, Planning and Inspection Activities set forth in **Exhibit D**, including identifying any Reconfigured Facilities. For each Phase, SCE's Local Service Planning office shall provide written notice to Buyer before the expiration of the Inventory, Planning and Inspection Period identifying any potential Reconfigured Facilities and stating the work necessary to reconfigure such facilities for sale to Buyer and the estimated time and cost to complete the work ("**Reconfigured Facilities Notice**").
- (b) For a period of ten (10) Business Days following Buyer's receipt of the Reconfigured Facilities Notice, Buyer shall have the right to accept or reject the Reconfigured Facilities described in the Reconfigured Facilities Notice, which acceptance or rejection shall be evidenced by a written notice delivered to SCE's Local Service Planning Office.
- (c) At any time prior to the applicable Phase Closing, each Party shall perform and complete its respective Severance Activities for all Facilities in the applicable Phase, excepting only the Reconfigured Facilities identified in the Reconfigured Facilities Notice for that Phase, which Reconfigured Facilities shall be added to the final Phase. Prior to or during the final Phase, each Party shall perform and complete its respective Severance Activities for any Reconfigured Facilities.
- (d) Not later than thirty (30) days prior to each Phase Closing Date, SCE shall deliver to Buyer an original Bill of Sale duly executed by SCE. The Parties

- agree that delivery of the Bill of Sale shall be effective upon the earlier of (i) delivery to Buyer by hand of an original Bill of Sale or (ii) Buyer's receipt of a facsimile or other electronic transmission of the Bill of Sale. If delivery is made by facsimile or other electronic transmission, SCE shall concurrently send the original Bill of Sale to Buyer by registered or certified mail or overnight courier.
- (e) At any time prior to any Phase Closing, Buyer may elect at its sole and absolute discretion to remove any of the Facilities (except for Reconfigured Facilities) from any Phase and deduct on a pro rata basis the value of such Facilities from the Purchase Price.
 - (f) By each Phase Closing Date, Buyer shall pay to SCE in U.S. dollars the Purchase Price, Severance Costs, and the Taxes (but not Excluded Taxes) for the Facilities to be transferred to Buyer in such Phase.

6.4 Post-Phase Activities.

- (a) Within ninety (90) days after each Phase Closing Date, but effective as of each such Phase Closing Date, SCE will change the charge for electricity furnished to the Facilities transferred to Buyer in such Phase from the Streetlight Rate Schedule LS-1 to the Streetlight Rate Schedule "LS-2 LIGHTING - STREET AND HIGHWAY CUSTOMER-OWNED INSTALLATION - UNMETERED SERVICE" Multiple Service – Rate B and provide written notice to Buyer of such change ("Notice of Rate Change").
- (b) Within ninety (90) days after each Phase Closing Date, SCE shall provide an updated map and inventory of the Facilities transferred pursuant to such Phase to Buyer.

6.5 Prohibition on Connecting Non-Conforming Load. Buyer acknowledges and agrees that Buyer's purchase of the Facilities does not entitle Buyer to connect non-conforming load to the Facilities or supporting circuits beyond SCE's initial point of connection. If Buyer wishes to connect such non-conforming load, Buyer agrees to comply with SCE's applicable filed tariffs.

7. RELEASE.

7.1 Release. Buyer, for itself, and for any future owners of all or a part of the Facilities, and each of their respective predecessors, successors, assigns, licensees, officers, directors, employees, agents, partners, shareholders, transferees, parent

7.2 Waiver of Civil Code § 1542. With respect to the matters being released in Paragraph 7, and as to those matters only, Buyer does knowingly, after having first obtained the advice of its attorneys, waive all of the provisions of California Civil Code § 1542 (“Section 1542”). Section 1542 reads as follows:

“A general release does not extend to claims which the creditor does not know or suspect to exist in his or her favor at the time of executing the release, which if known by him or her must have materially affected his or her settlement with the debtor.”

Buyer acknowledges and agrees that: (a) the releases set forth in Paragraph 7 are intended to extend to and extinguish all claims, causes of action, etc. that are encompassed within the terms of the releases, including those that are not presently known to or suspected by Buyer and (b) it may hereafter discover facts in addition to or different from those which it now believes concerning the subject matter of this Agreement, and that notwithstanding any such new or different facts, the releases contained herein will remain effective. Buyer further acknowledges and agrees that the foregoing waiver of Section 1542 is an essential and material term of this Agreement, without which said consideration would not have been given. Buyer has been advised by its legal counsel regarding this release and waiver and understands and acknowledges the significance and consequences of this release and waiver of Section 1542.

8. INDEMNITY. Buyer shall, at its sole cost and expense, indemnify, protect, defend and hold the SCE Parties harmless, to the fullest extent permitted by law, from and against any and all Claims (including the payments of damages, both actual and consequential, the payment of penalties and fines, the payment of the actual fees and expenses of experts, attorneys and others, and the payment of the cost of environmental investigations, monitoring, containment, abatement, removal, repair, cleanup, restoration, remedial work and other “response costs” under CERCLA or any other Environmental Requirements) arising from or in any way connected with: (a) any activities or failures to act in connection with this Agreement by Buyer, its employees, agents, or contractors; or (b) the ownership, possession, use or operation of the Facilities transferred to Buyer from and after the Phase Closing Date applicable to such Facilities; or (c) Potential Environmental Hazards relating to the Facilities or the presence, disposal, dumping,

In no event shall Buyer be required to indemnify SCE for any claims to the extent related to the gross negligence or willful misconduct of SCE. If any action or proceeding is brought against any one or more SCE Parties for any Claim against which Buyer is obligated to indemnify or provide a defense hereunder, Buyer, upon written notice from SCE, shall defend the SCE Parties. Buyer's obligation to defend includes the obligation to defend claims and participate in administrative proceedings, even if they are false or fraudulent. The indemnity, defense and other obligations of Buyer in this Section 8 shall survive the termination of this Agreement.

("JAMS"), its successor, or any other mutually acceptable non-JAMS Mediator, and in scheduling the time and place of the mediation.

c. To the extent allowable by law, all negotiations and any mediation conducted pursuant to this Section 14 shall be confidential and shall be treated as compromise and settlement negotiations, to which Section 1152.5 of the California Evidence Code shall apply, which section is incorporated in this Agreement by reference.

Candace – Thank you and we will work hand in hand to meet your goals. Thank you also for formalizing the request and as discussed, I am glad to grant the extension for the street light acquisition opportunity through the end of the calendar year. Remember that the requirement is to have an executed agreement and we don't have to complete the filing etc... Beyond the extension to the end of the year, I will need to seek senior management concurrence if we are still working to finalize an agreement. Thanks again...JCK

Hi John – thanks for the return call. The City Manager has directed this item be scheduled for the October 18th Council Agenda. We are hopeful the Agreement will be finalized on Monday (September 26th) and we will have the final Purchase and Sale Agreement by the end of next week (September 30th). This will enable us to meet our Agenda publishing deadline (we publish 12 days in advance).

As a back-up only, Moreno Valley is requesting an extension through the end of the calendar year to enter into the Agreement.

We appreciate the consideration and value our relationship with SCE. Please let me know if you have any questions.

Staff Report

Subject: Regional Streetlight Program Activities Update

Contact: Tyler Masters, Program Manager, masters@wrcog.cog.ca.us, (951) 955-8378

Date: September 12, 2016

Requested Action:

1. Recommend, for those jurisdictions interested in using financing for the acquisition and retrofitting of streetlights, that they utilize Bank of America Public Capital Corporation (which was deemed the most responsive during the bid process by WRCOG staff and its Financial Advisor, Public Financial Management, for being able to provide the most competitive financing for the Regional Streetlight Program).

WRCOG's Regional Streetlight Program will assist member jurisdictions with the acquisition and retrofit of their Southern California Edison (SCE)-owned and operated streetlights. The Program has three phases, which include 1) streetlight inventory; 2) procurement and retrofitting of streetlights; and 3) ongoing operations and maintenance. The overall goal of the Program is to provide significant cost savings to the member jurisdictions.

Program Update

At the direction of the WRCOG Executive Committee, WRCOG is developing a Regional Streetlight Program that will allow jurisdictions (and Community Service Districts) to purchase the streetlights within their boundaries that are currently owned / operated by SCE. Once the streetlights are owned by the member jurisdiction, the lamps will then be retrofitted to Light Emitting Diode (LED) technology to provide more economical operations (i.e., lower maintenance costs, reduced energy use, and improvements in public safety). Local control of its streetlight system allows jurisdictions opportunities to enable future revenue generating opportunities such as digital-ready networks, and telecommunications and IT strategies.

The goal of the Program is to provide cost-efficiencies for local jurisdictions through the purchase, retrofit, and maintenance of streetlights within jurisdictional boundaries, without the need of additional jurisdictional resources. As a regional Program, WRCOG is working with each of the jurisdictions to move through the acquisition process, develop financing recommendations, develop / update regional and community-specific streetlight standards, and manage the regional operations and maintenance agreement that will increase the level of service currently being provided by SCE.

Cash-flow meeting update: WRCOG staff has conducted streetlight cash-flow meetings with the Cities of Calimesa, Eastvale, Hemet, Lake Elsinore, Menifee, Murrieta, Norco, Perris, San Jacinto, Temecula, Wildomar, the County of Riverside, and with the Rubidoux and Jurupa Community Services Districts. Meetings with remaining jurisdictions are being scheduled.

The purpose of the cash-flow meetings is to provide jurisdictional staff (i.e., Finance Director, City Manager, senior staff, etc.) with the financial information needed for staff to make a recommendation on whether it is feasible to move forward with the acquisition and retrofit of the streetlights currently owned by SCE.

On a regional basis, WRCOG is identifying a 50-60% reduction in utility bills after streetlight acquisition and retrofit to LED fixtures. These savings are due primarily to reductions in maintenance and energy costs. Additionally, WRCOG has developed a feasibility model that includes a variety of financial sensitivities, including utility cost reductions, energy cost reductions, operations and maintenance costs (including pole knockdown replacement costs), debt service of ownership, and LED retrofit for each jurisdiction's streetlight system, and also includes a re-lamp reserve. The re-lamp reserve is a reserve to set aside funds to ensure that in 15 years (when the LED streetlights are projected to wear out) each jurisdiction will have funds to retrofit to the next generation of energy efficient street lighting, without negatively impacting the jurisdiction's general fund. This model has been provided to each member jurisdiction for their review. This tool will allow City staff to toggle variables (interest rates, re-lamp reserve, number of poles, etc.) to quantify how cash flows are impacted in various scenarios.

Financing Update: On August 18, 2016, (WRCOG Technical Advisory Committee), August 10, 2016, (WRCOG Administration & Finance Committee), and July 28, 2016, (WRCOG Finance Director's Committee), Public Financial Management (PFM), consultant on this Program, provided presentations on the financing strategies being proposed. Each of the Committees have approved the requested action provided in this staff report. A copy of PFM's recommendation memo, which also outlines the bid process that was undertaken, is attached.

WRCOG and PFM staff considered numerous financing options. These options included WRCOG-pool financing, individual city-issues bonds, California Infrastructure bank loans, California Energy Commission, and direct placement lease financing options. Member jurisdictions have expressed interest in the WRCOG-pool and direct placement lease options as potential financing structures. The WRCOG-pool option would allow WRCOG to set up a single transaction and release the funds to jurisdictions on a needed basis; however, this structure could potentially encounter timing challenges given the fact that each jurisdiction will be moving through the acquisition and retrofit processes at different times. The alternative structure (Direct placement lease) would allow for additional flexibility on timing, and allow for slightly differentiated jurisdictional interest rates given credit ratings. Upon Executive Committee authorization, staff will begin to work with Bank of America to develop a financing structure for acquisition and retrofit of the streetlights.

Background on the bid process: On March 7, 2016, WRCOG released a Request for Bids (RFB) to select a financing vendor that would provide capital to member jurisdictions for the acquisition process at a competitive rate. WRCOG staff and PFM have been working with Bank of America, which was deemed the most responsive and best option during the bid process and meets the needs of the Program. Bank of America has proven to have the following:

1. Ability to provide financing to all participating jurisdictions in the Program
2. Provide financing for both purchase and LED retrofit
3. Streetlights accepted as sole collateral
4. Able to finance as either taxable or tax-exempt debt
5. Smart City usage permitted
6. The qualifications and experience of the proposing firm
7. Competitive fee proposal for all jurisdictions

Regional Demonstration Area Update: During the week of August 29 through September 2, 2016, WRCOG is creating a Regional Streetlight Demonstration Area in five different locations throughout the City of Hemet to showcase various LED streetlights from 11 different vendors. The Demonstration Areas incorporate multiple land use types (residential, commercial, industrial, etc.) that jurisdictional leaders, staff, and members of the public will be able to view and provide feedback.

To gain additional input, staff will coordinate multiple educational tours in October / November 2016. The use of electronic and physical surveys will be used to gain feedback from the public. Results from the surveys will be used to assess preferences of the LED lights and rank the selection of viable LED lights to use for the Program. The Streetlights will be marked with a designated pole tag to help stakeholders identify which lights are or are not part of the Program.

A media kit is being developed and will include sample press releases, brochures and informational items, a “frequently asked questions” sheet, signage, social media language, and a map of the Demonstration Areas. The media kit will be available for all member jurisdictions to distribute to their community within the next week.

The following is a map depicting Demonstration Area locations and a sample of the streetlight pole identification tag that will be used.

Prior WRCOG Actions:

August 18, 2016: The WRCOG Technical Advisory Committee recommended, for those jurisdictions interested in using financing for the acquisition and retrofitting of streetlights, that they utilize Bank of America Public Capital Corporation (which was deemed the most responsive during the bid process by WRCOG staff and its Financial Advisor, Public Financial Management, for being able to provide the most competitive financing for the Regional Streetlight Program).

WRCOG Fiscal Impact:

Activities for the Regional Streetlight Program are included in the Agency's adopted Fiscal Year 2016/2017 Budget under the Energy Department.

Re: Western Riverside County of Governments:
 RFP # S-727, Financing for Streetlight Acquisition & Retrofit

On behalf of Western Riverside Council of Governments (“WRCOG”), Public Financial Management, Inc. (“PFM”) has been pleased to assist with the solicitation, evaluation and additional consideration of funding partner selection for the Regional Streetlight Program. Based on the offers received and questioning of the respondents, we recommend the appointment of Bank of America Public Capital Corporation (“BAPCC”) to serve as funding partner for WRCOG’s Regional Streetlight Program (the “Program”).

On March 7, 2016, WRCOG solicited Requests For Bids from the 56 firms identified in the following table. The table indicates which of the solicited firms responded.

| Lender | Response | Lender | Response | Lender | Response |
|-------------------------------------|----------|---------------------|----------|-------------------------------------|----------|
| Banc of America Public Capital Corp | ✓ | GE Capital | - | Siemens Financial Services | - |
| Bank of Marin | - | Hannon Armstrong | - | Signature Bank | x |
| Bank of the West | - | Holman Capital | - | Solano First Credit Union | - |
| Barclays | - | IBEW | - | SolarMax | ✓ |
| BB&T | - | I-Bank | x | Sovereign Bank | - |
| BBVA Compass | ✓ | JP Morgan Chase | x | State Street Bank and Trust Company | - |
| BMO Harris | - | KeyBank | - | Stifel | - |
| BNY Mellon | - | Lance Capital | - | STRS | - |
| California Bank and Trust | - | Mitsubishi | - | Sumitomo Mitsui Banking Corporation | - |
| CapitalOne Public Funding | - | Mizuho | - | Suntrust Bank | - |
| Citi | - | NECA | - | TD Bank | - |
| Citizens Bank | - | New Resource Bank | - | Travis Credit Union | - |
| City National Bank | - | Northern Trust | - | Umqua Bank | - |
| Comerica Leasing Corp | - | Oppenheimer | - | Union Bank | - |
| Duetsche Bank | - | PNC Bank | x | Wells Fargo Bank | - |
| Eas West Bank | - | RBC | - | Western Alliance Equipment Finance | - |
| First Republic Bank | - | Rockfleet Financial | - | Wulff, Hansen & Co. | ✓ |
| First Security Leasing | - | Rosemawr Management | - | Zion's Bank/NSB | - |
| Fremont Bank | - | Santander | - | | |

In evaluating the responses received, the primary considerations were:

- (1) Provide financing for all participating jurisdictions in the Program
- (2) Provide financing for both purchase and LED retrofit
- (3) Streetlights accepted as sole collateral
- (4) Able to finance as either taxable or tax-exempt debt
- (5) Smart City usage permitted
- (6) The qualifications and experience of the proposing firm
- (7) Competitive fee and interest rate proposals for all jurisdictions

After receiving the proposals, telephone interviews were scheduled with the respondents. Through these interviews PFM discerned that one of the firms was not proposing a compliant structure to serve as funding partner:

- SolarMax suggested a structure that would not be viable under the regulatory framework for streetlight acquisition. The structure suggested would require that SolarMax become the purchaser of the streetlights from Southern California Edison (“SCE” or “Edison”) and then sell the streetlights to the jurisdictions after retrofitting. In addition to the financial structuring concerns, SolarMax indicated a requirement for use of their equipment, and a significantly higher borrowing rate than the other respondents. WRCOG’s evaluation team discussed these concerns with SolarMax during the verbal evaluation and no additional information or follow up was provided by the bidder.

Of the remaining bidders, it was determined that BBVA was qualified but lacked the depth of specific streetlight experience of the other two bidders. Wulff, Hansen initially provided a vague level of specificity in their response; and after several conversations, provided a formal bid from an investor, Hannon Armstrong, who would actually provide capital for the transactions. Wulff, Hansen's representative is a former energy service company finance professional with experience in this type of project finance; and, Hannon Armstrong, is a real estate investment trust that specifically invests in energy-related improvements. Wulff, Hansen and Hannon Armstrong provide a reasonable alternative, but the coordination between the two firms relative to the timing of providing their bid raised concerns on their ability to meet the Program's schedule and conform to timely processing needs. The remaining bidder, Bank of America, provided a complete and timely bid, was able to respond to questions relative to the content of that bid, has demonstrated experience with other streetlight financing; and, upon request, and was able to verbally indicate pricing levels that were in the range expected by the evaluation team.

Given their experience, understanding of Program needs and competitive pricing, it is PFM's opinion and recommendation that the Program appoints Bank of America as the funding partner for the WRCOG Streetlight Program. We appreciate your consideration of this recommendation, and we are available to provide additional information or answer any questions you have.

In addition to the responses detailed above, California I-Bank and Signature Public Funding indicated an interest in future opportunities, though likely on a city-by-city basis.

Re: City of Moreno Valley's proposed purchase of street lights from Southern California Edison

Dear Ms. Dawson,

It has come to the attention of Edgemont Community Services District ("Edgemont") that the City of Moreno Valley is contemplating purchasing from Southern California Edison ("SCE") street light poles within the City. Edgemont has been unable to ascertain whether or not this proposed purchase would include poles which were requested and installed at the District's request. Edgemont has 248 street light poles which have been installed and are maintained by SCE.

The District does not want to change that arrangement. If the contemplated purchase of street light poles by the City includes poles requested by Edgemont, Edgemont objects to the inclusion in the purchase of such poles and requests that those poles be excluded from the purchase.

Sincerely,

Jessica Pfalmer

Report to City Council

TO: Mayor and City Council

FROM: Rick C. Hartmann, Acting Public Works Director

AGENDA DATE: August 15, 2017

TITLE: PURSUANT TO A LANDOWNER PETITION, ANNEX ONE PARCEL INTO COMMUNITY FACILITIES DISTRICT NO. 2014-01 (MAINTENANCE SERVICES) - AS AMENDMENT NO. 23

RECOMMENDED ACTION

Recommendation:

1. Acting as the legislative body of Community Facilities District No. 2014-01 (Maintenance Services), adopt Resolution No. 2017-___, a Resolution of the City Council of the City of Moreno Valley, California, ordering the annexation of territory to City of Moreno Valley Community Facilities District No. 2014-01 (Maintenance Services) and approving the amended map for said district.

SUMMARY

Approval of the proposed resolution will certify annexation of one parcel into Community Facilities District (CFD) No. 2014-01 (Maintenance Services) ("District"). This action affects one property owner, not the general citizens or taxpayers of the City.

The City requires property owners of new development projects to mitigate the cost of certain impacts created by the proposed development (i.e. the cost of operation and maintenance of public landscaping and/or street lights). As a condition of approval, the property owners are required to provide a funding source to maintain those improvements. The City created CFD No. 2014-01 to provide the development community with a financing mechanism to assist in satisfying the requirement. After a property owner elects to annex their property into the District, the City can levy a special tax on the property tax bill(s) of the annexed parcel(s). Revenue generated by the District provides an ongoing funding source to operate and maintain only those improvements within the District.

As a condition of approval of its development project, Supreme West Property, Inc. (“Property Owner”) has elected to annex their parcel into the District. Annexing into the District will satisfy the condition to provide a funding source for the maintenance and operation of public improvements (landscape maintenance). The Property Owner submitted a Landowner Petition approving the annexation. The City Clerk has confirmed the petition is valid.

DISCUSSION

District Formation

The District was formed by adoption of Resolution No. 2014-25 to provide an alternative financing tool for the development community. It provides a mechanism to fund the operation and maintenance of street lighting services and maintenance of public landscaping. After a landowner approves annexation of their property into the District and the City Council approves the annexation, the City is authorized to levy a special tax onto the annual property tax bill(s). Residential Tract 31618 (southwest corner of Moreno Beach Dr. and Bay Ave.) formed the original boundaries of the District. Since formation of the District, 21 additional landowners have authorized annexation of their properties into the District.

The Rate and Method of Apportionment of Special Tax (RMA) for the District describes the different special tax rate areas, services provided, and the formula to calculate the special tax rate for each of the tax rate areas. Several special tax rate layers were created to accommodate a variety of scenarios to ensure costs are fairly shared between property owners. For example, there is a tax rate layer for “single-family residential street lighting” and one for “street lighting for property other than single-family residential” (e.g. commercial, industrial, or multifamily projects). Different tax rate layers are needed for street lighting because the spacing and size/type of lights differ based on the type of development. Likewise, there are several tax rate areas for maintenance of public landscaping. A property owner’s proportionate share of landscape maintenance costs will vary depending upon the total square footage of landscaping to be maintained for that development and the number of properties sharing in the cost.

Annexation to the District

On February 10, 2015, the City Council adopted Ordinance No. 889, which designated the entire territory of the City as a future annexation area for the District. Adoption of the Ordinance provides a simplified process for the development community to annex into the District. Annexations can occur without an additional public hearing as long as the annexing landowner provides unanimous consent. Once annexed, parcels are subject to the annual special tax to fund the service(s) they are receiving.

The Property Owner is approved to develop a prefabricated metal building at the existing facility. As a condition of approval, the project is required to provide a funding source for maintenance of the median landscaping on Alessandro Blvd. Information for the

parcel(s) under development (“Subject Property”) is shown in the following table:

| Property Owner/Project | Assessor’s Parcel Number(s) | Location | Amendment No. |
|---|-----------------------------|--|---------------|
| Supreme West Property, Inc. PEN17-0050 | 297-130-065 | South side of Alessandro Blvd. at Grant St. | 23 |

The Property Owner has two options to satisfy the condition of approval:

- 1) Submit a Landowner Petition approving annexation of the Subject Property into the District. Approval of the petition and special tax rate allows the City to annually levy the special tax on the property tax bill(s) of the Subject Property. This option is only available if there are fewer than 12 registered voters living within the proposed annexation area. The Office of the Riverside County Registrar of Voters confirmed there were no registered voters residing at the Subject Property allowing for a special election of the landowner to be conducted; or
- 2) Establish a homeowner or property owner association to provide the ongoing maintenance and operation of the improvements.

The Property Owner elected to annex the Subject Property into CFD No. 2014-01 and have the special tax applied to the annual property tax bill. The City Clerk received and reviewed the Property Owner’s Landowner Petition and confirmed the Property Owner unanimously approved the annexation of the Subject Property into the District (Attachment 3). Adoption of the attached resolution (Attachment 1) adds the Subject Property to the tax rate area(s) identified in the table in the Fiscal Impact section of this report and directs the recordation of the boundary map (Attachment 2) and amended notice of special tax lien for Amendment No. 23.

Successful completion of the annexation process satisfies the project’s condition of approval to provide a funding source for the maintenance of public landscaping.

ALTERNATIVES

1. Adopt the proposed resolution. *Staff recommends this alternative as it will annex the Subject Property into CFD No. 2014-01 at the request of the Property Owner and satisfies the condition of approval for the proposed development.*
2. Do not adopt the proposed resolution. *Staff does not recommend this alternative as it is contrary to the Property Owner’s request, will not satisfy the condition of approval, and may delay development of the project.*
3. Do not adopt the proposed resolution but rather continue the item to a future City Council meeting. *Staff does not recommend this alternative as it will delay the Property Owner from satisfying the condition of approval and may delay development of the project.*

FISCAL IMPACT

Revenue received from the special tax is restricted and can only be used to fund the services for each tax rate area. If the revenue received from the maximum special tax will exceed what is necessary to fund the services within each tax rate area, a lower amount will be applied to the property tax bills for all properties within the affected tax rate area. The special tax can only be applied to a property tax bill of a parcel wherein the property owner has previously provided approval. The maximum estimated special tax revenue which can be generated from this project is detailed below:

| Property Owner | Service/ Tax Rate Area | No. of Parcels ¹ | FY 2017/18 Maximum Special Tax | Estimated FY 2017/18 Maximum Special Tax for the Project ² |
|---|--|--------------------------------|-----------------------------------|---|
| Supreme West Property, Inc. | Landscaping for Property Other than Single-Family Residential LM-02B | 1 | \$6.32/linear foot | \$3,131.93 |
| ¹ Based on proposed parcel configuration. The special tax calculation will be based on final development of the project. ² The special tax applied to the property tax bill will be based on the needs of the District, which can be lower than but cannot exceed the maximum special tax. | | | | |

The maximum special tax rates are subject to an annual inflation adjustment based on the change in the Consumer Price Index (CPI) or five percent (5%), whichever is greater. Each year, the City Council must authorize any proposed CPI adjustment prior to the levy of the special tax onto the property tax bills. The increase to the maximum special tax rate cannot exceed the annual inflationary adjustment without a 2/3^{rds} approval of the qualified electors (landowners or registered voters depending upon the number of registered voters) within the affected tax rate area.

NOTIFICATION

Annexation materials were mailed to the Property Owner on June 29, 2017. A cover letter, Landowner Petition, RMA, and an envelope to return the completed petition were included.

Report to City Council

TO: Mayor and City Council

FROM: Rick C. Hartmann, Acting Public Works Director

AGENDA DATE: August 15, 2017

TITLE: PA04-0108 (TR 32515) APPROVE EASEMENT DEED FROM THE CITY OF MORENO VALLEY TO EASTERN MUNICIPAL WATER DISTRICT (EMWD) LOCATED AT PIGEON PASS ROAD, NORTH OF OLD LAKE DRIVE. DEVELOPER: LENNAR HOMES OF CALIFORNIA, INC.

RECOMMENDED ACTION

Recommendations:

1. Approve the Easement Deed, located on the west side of Pigeon Pass Road, north of Old Lake Drive, by and between the City of Moreno Valley and Eastern Municipal Water District.
2. Authorize the City Manager to execute the Easement Deed with Eastern Municipal Water District.
3. Authorize the City Clerk to transmit the executed Easement Deed to the Riverside County Recorder's Office for recordation.

SUMMARY

This report recommends approval of a proposed expansion to an existing water easement held by Eastern Municipal Water District (EMWD). EMWD proposes to install a waterline on the City of Moreno Valley property located on the west side of Pigeon Pass Road, north of Old Lake Drive, located outside of the public street right of way within the paseo area of Hidden Springs. An easement deed is needed to relocate the existing waterline within Pigeon Pass Road to a new location outside of the public right-of-way. This will allow enough clearance between the waterline and the proposed drainage culverts associated with the public improvements required for development of residential housing Tract 32515 (PA04-0108) which is located on the east side of Pigeon Pass Road, north of Old Lake Drive. The proposed drainage culverts will allow

more storm water to flow through the culverts, thereby lowering the potential of flooding to the surrounding areas.

DISCUSSION

Public infrastructure improvements required for the development of residential housing Tract 32515 are currently under way and are expected to be completed in the near future. The improvements include removal of the existing drainage culverts under Pigeon Pass Road and the installation of new, larger drainage culverts at that location. The existing drainage culverts are currently undersized and would not adequately handle large storm flows from the Hidden Springs Area. The proposed drainage culverts are larger and will be installed at the same location as the existing drainage culverts.

A similar easement deed request was approved by the City on May 12, 2015. The current easement request is for a 240 square-foot area (20 feet x 12 feet) which will provide a larger easement area than originally anticipated in 2015. This is largely due to the finalization of engineering drawings of the proposed relocation of a 16-inch waterline and culvert design.

The proposed water easement will allow EMWD to relocate the waterline benefitting the project site and the surrounding areas by allowing the construction of larger drainage culverts. The proposed culverts will allow more storm water to flow through, thereby lowering the potential of flooding to the surrounding area. The proposed water easement also allows EWMD access to construct, repair, and maintain their waterline in perpetuity.

ALTERNATIVES

1. Approve and authorize the recommended actions as presented in this staff report. *Staff recommends this alternative as this will allow an existing waterline to be relocated in order for larger drainage culverts to be installed, lowering the potential of flooding to Tract 32515 and the surrounding areas.*
2. Do not approve and do not authorize the recommended actions as presented in this staff report. *Staff does not recommend this alternative as this will not allow an existing waterline to be relocated so that larger sized drainage culverts can be installed, lowering the potential of flooding to Tract 32515 and the surrounding areas.*

FISCAL IMPACT

The City remains the underlying land owner of the easement. Therefore, no acquisition costs are associated with the recommended actions. There is no impact to the City's General Fund.

Report to City Council

TO: Mayor and City Council

FROM: Rick C. Hartmann, Acting Public Works Director

AGENDA DATE: August 15, 2017

TITLE: APPROVAL OF THE FOURTH AMENDMENT TO AGREEMENT FOR ON-CALL PROFESSIONAL CONSULTANT SERVICES WITH OVERLAND, PACIFIC & CUTLER, INC. FOR CAPITAL IMPROVEMENT PROJECTS

RECOMMENDED ACTION

Recommendations:

1. Approve the Fourth Amendment to Agreement for On-Call Professional Consultant Services (Agreement) with Overland, Pacific & Cutler, Inc. (OPC) to provide Professional Consultant Real Property Services for Capital Improvement projects.
2. Authorize the City Manager to execute the Fourth Amendment with OPC.
3. Authorize the increase to the current OPC Purchase Order in the amount of \$25,000, when the Fourth Amendment has been signed by all parties.
4. Authorize the Public Works Director to execute any subsequent amendments to the Agreement with OPC within the purchase order amount, subject to the approval of the City Attorney.

SUMMARY

This report recommends approval of an increase to the agreement/purchase order for On-Call Professional Consultant Services to provide in-house professional consultant real property services for various projects. As costs are incurred against this purchase order, the expenditures will be transferred to the applicable capital projects for which services were performed.

DISCUSSION

In November 2013, a Request for Proposal (RFP) to provide Professional Consultant Real Property Services for various projects was issued to all five of the Capital Project Division's on-call real property firms. The RFP was issued to fulfill the need for specialized staffing required to achieve project-related real property activities. The City no longer has an in-house full time career-level "Senior Real Property Agent" position due to the lack of sufficient continuous workload, and therefore is utilizing temporary consultant staff on an as-needed basis as a cost savings measure. The City received one proposal in response to the RFP. The sole respondent, OPC, was identified as the most responsive firm to provide the necessary real property services to the City.

Staff recommends executing the Fourth Amendment with OPC for their services. The increase in the agreement/purchase order amount will allow for continued real property services by the in-house consultant staff on an as-needed basis.

Approval of the recommended actions would support Objective 4 of the Momentum MoVal Strategic Plan: "Manage and maximize Moreno Valley's public infrastructure to ensure an excellent quality of life, develop and implement innovative, cost effective infrastructure maintenance programs, public facilities management strategies, and capital improvement programming and project delivery."

ALTERNATIVES

1. Approve and authorize the recommended actions as presented in this staff report. *This alternative will provide resources to assist staff to complete budgeted City capital improvement projects.*
2. Do not approve and authorize the recommended actions as presented in this staff report. *This alternative will delay the design and construction of budgeted City capital improvement projects.*

FISCAL IMPACT

This Fourth Amendment increases the amount of the purchase order by \$25,000, increasing the agreement amount to a total of \$75,000. The current contract expires on December 31, 2017.

The purchase order is encumbered under Gas Tax Account 2000-70-77-45220. As costs are incurred against this purchase order, the expenditures will be transferred to the applicable capital projects, funded in the 2017/18 - 2018/19 Capital Improvement Plan budget, for which services were performed.

These funds are restricted to Capital Improvement Projects and cannot be utilized for operational activities. There is no impact on the General Fund.

Report to City Council

TO: Mayor and City Council

FROM: Rick C. Hartmann, Acting Public Works Director

AGENDA DATE: August 15, 2017

TITLE: AUTHORIZATION TO CONDUCT A FULL ROAD CLOSURE OF FIR AVENUE FROM NASON STREET TO 600 FEET WEST OF NASON STREET FOR THE RECONSTRUCTION OF FIR AVENUE FROM AUGUST 31, 2017 - SEPTEMBER 30, 2017

RECOMMENDED ACTION

Recommendation:

1. Authorize a full Road Closure of Fir Avenue from Nason Street to 600 feet west of Nason Street for the reconstruction of Fir Avenue from August 31, 2017 - September 30, 2017.

SUMMARY

On August 26, 2004, the Planning Commission approved project PA03-0065 (TR 31305). The project is for the development of 87 single-family residential lots on approximately 23 acres located on the west side of Nason Street between Eucalyptus Avenue and Fir Avenue.

RSI Communities LLC has submitted the Agreement and Security for Public Improvements. The developer is required to reconstruct Fir Avenue west of Nason Street which includes demolishing the existing two-lane road.

DISCUSSION

RSI Communities LLC is requesting a full road closure of Fir Avenue from Nason Street to 600 feet west of Nason Street for the reconstruction of Fir Avenue. The road closure will be for thirty (30) days. The request for the road closure is due to major improvement work including, but not limited to, excavation of road and raising the street grade by approximately 10 feet, removal of existing asphalt concrete, the installation of

storm drain laterals, catch basins, street lights, asphalt base, asphalt concrete, sidewalk, curb & gutter, and striping. All of the work will be reviewed by inspectors from the City of Moreno Valley. It is anticipated that the road will be open to traffic on or before September 30, 2017.

The road closure will not adversely impact the ingress or egress of any of the neighboring properties although it does require some detouring. The developer is required to contact/notify all potentially affected property owners and service providers of the closure dates. The developer will coordinate with Moreno Valley Unified School District (MVUSD) concerning parking, school hours, and pedestrian access for Valley View High School and Mountain View Middle School. The road closure/detour plan has been approved by the City Traffic Engineer.

Approval of the recommended actions would support Objective 4 of the *Momentum MoVal* Strategic Plan: "Manage and maximize Moreno Valley's public infrastructure to ensure an excellent quality of life, develop and implement innovative, cost effective infrastructure maintenance programs, public facilities management strategies, and capital improvement programming and project delivery."

ALTERNATIVES

1. Approve and authorize the recommended action as presented in this staff report. *Staff recommends this alternative as this alternative will allow the demolishing of Fir Avenue for major improvement work required, provides for a safer work zone, and will expedite the re-opening of Fir Avenue for public use.*
2. Do not approve and do not authorize the recommended action as presented in this staff report. *Staff does not recommend this alternative as it would result in a prolonged construction schedule, and a potentially less safe work environment.*

FISCAL IMPACT

The contractor will be responsible for all costs associated with this proposal.

NOTIFICATION

The approved traffic control/detour plan requires the contractor to give notification to the Postal Service, Police, Fire Department, Ambulance Services, Riverside Transit Agency, Waste Management, MVUSD, Valley View High School, Mountain View Middle School, and affected businesses and residents. The public will be notified by special roadside signage showing the dates of closure and detour signs.

Report to City Council

TO: Mayor and City Council

FROM: Rick C. Hartmann, Acting Public Works Director

AGENDA DATE: August 15, 2017

TITLE: APPROVAL OF AMENDMENT NO. 1 TO AGREEMENT TO FORM THE LAKE ELSINORE AND CANYON LAKE TOTAL MAXIMUM DAILY LOAD (TMDL) TASK FORCE

RECOMMENDED ACTION

Recommendations:

1. Approve Amendment No. 1 to Agreement to Form the Lake Elsinore and Canyon Lake Total Maximum Daily Load (TMDL) Task Force approved as to form by the City Attorney;
2. Authorize the Mayor to execute Amendment No. 1 to Agreement;
3. Authorize the Public Works Director/City Engineer to execute future amendments to the Agreement; and
4. Direct the City Clerk to attest to the Mayor's signature and transmit the executed Amendment No. 1 to Agreement to the Santa Ana Watershed Project Authority.

SUMMARY

This report recommends the approval of Amendment No. 1 to the Agreement to Form the Lake Elsinore and Canyon Lake Total Maximum Daily Load (TMDL) Task Force. Continuing participation in the Task Force provides the City access to additional professional and fiscal resources for the specific purpose to address common TMDL tasks identified in Recital "B" of the executed Agreement (Attachment No. 2). The TMDL Task Force includes two federal agencies, one Joint Powers Authority, two State agencies, the County of Riverside, eleven cities, three special districts, and one agricultural coalition representing farming interests and dairy interests. The Lake Elsinore San Jacinto Watershed Authority is the Task Force Administrator.

DISCUSSION

A TMDL is the amount of a specific pollutant that can be assimilated by a particular water body without causing impairment to its designated uses, i.e., swimming, fishing, municipal water supply, etc. If a water body cannot assimilate the specific pollutant the water body is determined “impaired” under the federal Clean Water Act. States are required to identify their impaired water bodies, determine the specific pollutant(s) causing impairment and prepare a TMDL. In the 1990’s, the Santa Ana Regional Water Quality Control Board (Board) complied with the Clean Water Act and identified Lake Elsinore and Canyon Lake as water bodies impaired by two nutrients, nitrogen and phosphorous as well as other pollutants.

In 2000, the Board identified the federal, State and local agencies as well as the special districts and private parties, collectively “Stakeholders”, which directly or indirectly discharge nutrients to Canyon Lake and Lake Elsinore. Moreno Valley was named a Stakeholder. At that time, the Board organized a TMDL Stakeholder Workgroup in which the City was an active participant. Subsequently, the Board prepared a nutrient TMDL report and implementation plan.

On December 20, 2004, the Board adopted Resolution No. R8-2004-0037 incorporating the nutrient TMDL into the Santa Ana River Basin Plan (Basin Plan). On May 19, 2005, the TMDL was approved by the State Water Resources Control Board per Resolution NO. 2005-0038 and by the California Office of Administrative Law on July 26, 2005. On September 30, 2005, the United States Environmental Protection Agency (USEPA) Region IX approved the nutrient TMDL. The nutrient TMDL became law based upon the California Water Code and is now enforceable by the State and USEPA.

On February 16, 2006, the Riverside County Flood Control and Water Conservation District (RCFC&WCD) staff briefed the City Managers of the affected cities regarding the proposed development of a task force and to review each city’s cost share if they joined the task force. On February 21, 2006, staff updated City Council on the TMDL progress. Staff presented the concept of participating in the TMDL Task Force as a way for Moreno Valley to comply with the State and federal TMDL mandate.

On July 11, 2006, the City Council agreed the City should participate in the TMDL Task Force and authorized the Mayor to execute the Agreement to Form the Lake Elsinore and Canyon Lake TMDL Task Force. The Agreement was set to terminate on June 30, 2010, unless extended by mutual agreement of the Task Force Agencies. On May 25, 2010, the City Council agreed to continue the City’s participation in the Task Force and extend the Agreement for an additional year. This allowed the Task Force time to complete a pollutant modeling analysis for Stakeholder pollutant allocations. The Agreement extension expired on June 30, 2011.

On September 10, 2012 a new Task Force Agreement (Agreement 2012) was entered into. This Agreement expired on June 30, 2017, unless extended by mutual agreement of the Task Force Agencies.

Amendment No. 1 to Agreement 2012 (Attachment No.1) has been transmitted to the Task Force Agencies for consideration of continued participation in the Task Force for three more years, ending on June 20, 2020. Included in Amendment No. 1 is an option that the Agreement, while still in full force and effect, may be extended an additional two years, to June 30, 2022, by means of Administrative Action by the Task Force Administrator.

The benefits of continued participation in the TMDL Task Force include;

- Having oversight of the Administrator and other water quality professionals hired to manage the various contracts necessary for common TMDL tasks that benefit Moreno Valley;
- Performance goals to ensure the Stakeholders remain in compliance by producing various reports, schedules, and plans by the mandated deadlines that are common to all;
- A greater voice to advocate the city's position to water quality issues affecting the watershed, and;
- Sharing costs for common tasks is sound fiscal management.

ALTERNATIVES

1. Approve and authorize the recommended actions as presented in this staff report. *Staff recommends this alternative as this alternative provides Moreno Valley the opportunity to continue to benefit from a pool of resources to address common TMDL tasks thus reduce overall costs and take credit for in-kind services provided by the RCFC&WCD.*
2. Do not approve and do not authorize the recommended actions as presented in this staff report. *Staff does not recommend this alternative as this alternative would result in the City undertaking the tasks as an individual stakeholder and will substantially increase the city's cost of TMDL compliance.*

FISCAL IMPACT

If the Council approves Alternative One, Moreno Valley's share as a member of the TMDL Task Force is estimated to be \$36,000 for FY 17/18, \$70,000 for FY 18/19 and \$70,000 for FY 19/20. As a member, Moreno Valley will continue to benefit from the shared costs as well as in-kind services provided by the RCFC&WCD for watershed-wide monitoring mandated as part of the National Pollutant Discharge Elimination System (NPDES) Permit. Costs for TMDL compliance are currently budgeted within the General Fund. The budget for these expenditures is held in account 1010-70-29-20453-620320 Agency Services – County.

Additionally, grant monies may become available for water quality projects. The TMDL Task Force Administrator has available staff to seek grant opportunities and as a large scale, collaborative effort, is more likely to be awarded than if the City applied as an individual entity.

If the Council approves Alternative Two, the City would operate as an individual stakeholder performing the required tasks separately from the TMDL Task Force. Moreno Valley's costs are estimated to be \$581,000 for FY 17/18, \$672,000 for FY 18/19 and \$677,000 for FY 19/20. These costs do not include the increased costs associated with the city's storm water program consultant's increase in hours needed to perform the mandated tasks. If this alternative is chosen, an additional budget amendment will be required to cover any cost in excess of Alternative One.

I. RECITALS

A. Whereas, in 1998, the Santa Ana Regional Water Quality Control Board (hereinafter "Regional Board") designated Lake Elsinore and Canyon Lake in the Lake Elsinore and San Jacinto Watersheds (Collectively the "Watersheds") as "impaired water bodies" pursuant to Section 303(d) of the federal Clean Water Act because of high levels of algae in both lakes and low dissolved oxygen in Lake Elsinore, attributed to excess phosphorus and nitrogen (Nutrients). As a result of said Section 303 designation, the Clean Water Act and California's Non-point Source Pollution Control Plan requires that total maximum daily loads (hereinafter "TMDLs") be established by the Regional Board for these waterbodies;

B. Whereas, in response to the Section 303(d) designation, the Regional Board adopted a Resolution R8-2004-0037 on December 20, 2004 amending the Water Quality Control Plan for the Santa Ana River Basin (BASIN PLAN AMENDMENT) to incorporate nutrient TMDLs for Canyon Lake and Lake Elsinore. The Basin Plan Amendment specifies, among other things, an Implementation Plan, which holds specified stake holders (TASK FORCE AGENCIES) individually and/or jointly liable for complying with the TMDLs by means of specific tasks to be completed by specified dates under penalty of law. These tasks include development and implementation of a watershed-wide nutrient water quality monitoring program, development of an in-lake nutrient monitoring program for Canyon Lake and Lake Elsinore, development of a plan and schedule for in-lake sediment nutrient reduction for Lake Elsinore, development of a plan and schedule for evaluating in-lake sediment nutrient strategies for Canyon Lake, updating watershed and in-lake nutrient TMDL water quality models, developing a pollutant trading plan, and reviewing and revising the TMDL to reflect updated data and science;

C. Whereas, the purpose of this AGREEMENT is to form a task force (hereinafter "TASK FORCE") to implement certain tasks identified in the TMDL Implementation Plan and to pursue TMDL related tasks agreed upon by TASK FORCE AGENCIES;

D. Whereas, the TASK FORCE AGENCIES agree that the purpose of this TASK FORCE is to (1) review and develop recommendations to update the TMDL BASIN PLAN AMENDMENT based on the best available scientific information, and (2) implement TMDL Implementation Plan Tasks identified below and jointly assigned to TASK FORCE AGENCIES, and (3) propose appropriate revisions to the TMDL BASIN PLAN AMENDMENT to the Santa Ana RWQCB, and (4) allow watershed stakeholders to participate in efforts to meet appropriate water quality standards so that Canyon Lake and/or Lake Elsinore can be de-listed from the Clean Water Act 303(d) list of impaired water bodies;

E. Whereas, hundreds of individual agricultural and dairy operators are subject to the Canyon Lake and Lake Elsinore TMDLs and its component TMDL Implementation Plan;

F. Whereas, the Western Riverside County Agricultural Coalition(WRCAC) is a non-profit organization representing the interests of participating agricultural and dairy operators within the San Jacinto Watershed;

G. Whereas, WRCAC's membership is open to any and all agricultural and dairy operators within the San Jacinto watershed;

H. Whereas, March Air Reserve Base (MARB) is an installation of the United States Air Force on federal lands and, as an agency of the federal government, is therefore subject to limitations in its ability to comply with every provision stated herein to the same extent that other non-federal TASK FORCE AGENCIES are able to comply. These limitations are based upon, but not limited to, those identified in the federal Clean Water Act, the federal Antideficiency Act, the principle of sovereign immunity and the holdings of the Supreme Court of the United States, and other binding federal court decisions, as they interpret those sources of federal law. The limitations so mentioned include, but are not limited to, the availability of federal funding to pay for participation in this program, and the ability of MARB to participate directly in sampling, research or data gathering activities which are not located on or near MARB lands or a point source of water discharge arising on MARB lands, or other activities not specifically authorized by the Federal Clean Water Act section 313. To the extent that the limitations described herein prevent MARB from fully participating in any aspect of this program, they reserve the right, in their sole discretion, to participate in the program as a matter of comity. By entering into this agreement, MARB does not authorize any of the TASK FORCE AGENCIES to exercise regulatory authority over them. MARB agrees that State and federal regulatory agencies that are or may become members of this TASK FORCE have regulatory authority over MARB only to the extent permitted by State or Federal Law;

I. Whereas, the TASK FORCE AGENCIES acknowledge and agree that the effectiveness of the TASK FORCE may be improved by the inclusion of other agencies as additional TASK FORCE AGENCIES to the TASK FORCE;

J. Whereas, the Riverside County Flood Control and Water Conservation District (RCFC&WCD) serves as the MS4 PRINCIPAL PERMITTEE for the National Pollutant Discharge Elimination System (NPDES) Municipal Separate Storm Sewer System Permit (MS4) for the Santa Ana Region of Riverside County;

K. Whereas, the County of Riverside and Cities of Beaumont, Canyon Lake, Hemet, Lake Elsinore, Moreno Valley, Murrieta, Perris, Riverside, San Jacinto, Menifee, Wildomar are MS4 CO-PERMITTEES for the NPDES MS4 Permit for the Santa Ana Region of Riverside County;

L. Whereas, the MS4 PRINCIPAL PERMITTEE and MS4 CO-PERMITTEES collectively represent the MS4 PERMITTEES within the San Jacinto Watershed;

M. Whereas, the NPDES MS4 Permit for the Santa Ana Region of Riverside County is regulated by the Regional Board and subject to the requirements of the nutrient TMDLs for Canyon Lake and Lake Elsinore;

N. Whereas RCFC&WCD has agreed to provide services on behalf of itself as MS4 PRINCIPAL PERMITTEE and on behalf of the MS4 CO-PERMITTEES for the purposes of this AGREEMENT;

O. Whereas, the TMDL assigned nutrient waste load allocations for Supplemental Water addition to Lake Elsinore to stabilize the Lake's elevation;

P. Whereas, the nutrient waste load allocation for Supplemental Water, which includes Island Well water, EVMWD treatment plant effluent, and other sources of non-stormwater, may reduce the TMDL waste load allocation and TMDL load allocation of other point and non-point sources because in-lake nutrient capacity was not adjusted to account for increased lake levels associated with the addition of Supplemental Water;

Q. Whereas, the assumptions regarding load allocations for Supplemental Water may not be consistent with the actual operation of Supplemental Water sources;

R. Whereas, the City of Lake Elsinore and EVMWD previously entered into an agreement to equally share the cost of Supplemental Water addition to the Lake under the "Lake Elsinore Comprehensive Water Management Agreement",

S. Whereas, for the purposes of this Agreement, the City of Lake Elsinore shall be acknowledged and recognized as a separate and equal contributor with EVMWD for the cost and voting rights accorded under this Agreement attributed to EVMWD for Supplemental Water addition;

T. Whereas, the TASK FORCE AGENCIES agree that certain nutrient dischargers have been either inappropriately named or not named as responsible parties for various tasks in the BASIN PLAN AMENDMENT;

U. Whereas, the TASK FORCE AGENCIES agree that agricultural and dairy lands are converting to urban and open space lands;

V. Whereas, the TASK FORCE AGENCIES agree that an amendment to the TMDL to address, at minimum, the proper naming of responsible parties for various tasks in the TMDL Implementation Plan, to correct the load allocation and waste load allocations to properly address the impacts of Supplemental Water on Lake Elsinore, and to revise the load allocation and waste load allocations to address the ongoing conversion of agriculture and dairy lands to urban and/or open space should be addressed as part of a revision to the TMDL Implementation Plan; and

W. Whereas, MARB agrees to budget for and to participate in the TASK FORCE, provided that sufficient funds are appropriated by the Congress, and on the condition that funding requirements under this AGREEMENT do not violate the Anti-deficiency Act, and provided that the TASK FORCE AGENCIES agree to relocate the proposed monitoring station from Kitching Channel to the Heacock drainage channel, and use any fees provided by MARB, for participation in this program, to establish and monitor this station.

II. COVENANTS

NOW, THEREFORE, in consideration of the foregoing recitals and mutual covenants contained herein, the TASK FORCE AGENCIES agree as follows:

- (6) Possible administrator of future pollutant trading (water quality trading) agreements.

The TASK FORCE AGENCIES hereby appoint the Lake Elsinore and San Jacinto Watersheds Authority as the initial TASK FORCE ADMINISTRATOR.

g. Meetings of the Task Force.

- (i) Frequency and Location. The TASK FORCE shall, by resolution or motion, agree upon the time and place for holding its regular meetings. Special meetings may be called at the request of the TASK FORCE ADMINISTRATOR or by a majority of the TASK FORCE REPRESENTATIVES.
- (ii) Task Force Chair. The TASK FORCE REPRESENTATIVES shall select a chair and a vice-chair. The term of the chair and vice-chair shall be one year and shall be rotated among the TASK FORCE REPRESENTATIVES interested in serving as chair.
- (iii) Quorum. One half or more of the REPRESENTATIVES of the TASK FORCE shall constitute a Quorum.
- (iv) Voting. Actions of the TASK FORCE shall be validly taken only when a Quorum is present and upon the affirmative vote of a MAJORITY of the TASK FORCE REPRESENTATIVES. A MAJORITY of the REPRESENTATIVES shall be determined as follows:

Each TASK FORCE AGENCY shall have one vote assigned for each \$1,000 increment of PRO RATA COST SHARE, as described in Paragraph II.5 below, contributed to the TASK FORCE Budget developed for a given fiscal year. A MAJORITY of the REPRESENTATIVES shall consist of greater than 50% of the total votes based on the Budget for the fiscal year during which the action is taken.

- (v) All meetings of the TASK FORCE or any of its committees shall be conducted as may be required by any applicable provisions of the Ralph M. Brown Act (California Government Code §§54950 et seq.). The provisions contained in the Ralph M. Brown Act shall prevail in the event of any conflict with provisions contained in this Agreement.

The TASK FORCE may adopt such additional rules and regulations as may be required for the conduct of its affairs so long as such rules and regulations do not conflict with this Agreement.

3. Work of the Task Force. The TASK FORCE shall perform the following tasks in accordance with guidelines established by the Regional Board:
 - a. To retain consulting services to review scientific and other assumptions contained within the TMDL. Consultant(s) shall provide a report identifying preliminary TMDL opportunities such as site specific objectives, pollutant trading strategies, and integration strategies. The final scope of work shall be approved by the Task Force. The report shall specifically consider assumptions supporting the TMDL. The report should also provide preliminary analysis of the ability to achieve in-lake nutrient reductions and verify that load assignments are appropriate. Upon completion of the report, Consultant(s) shall also review work described herein, and make

recommendations to ensure that work is specifically designed to resolve any deficiencies, where appropriate. Consultant(s) shall also coordinate development of BASIN PLAN AMENDMENT language, in coordination with the Regional Board, which can be used to revise the TMDLs as part of the Regional Board's Triennial Reviews.

- b. TMDL IMPLEMENTATION PLAN Task 4 - Implement a Watershed-wide Nutrient Monitoring Program. This program shall obtain data necessary to update the Lake Elsinore and Canyon Lake Nutrient TMDL, and to determine compliance with interim and final nitrogen and phosphorus allocations, and compliance with the nitrogen and phosphorus TMDLs. Monitoring and management of monitoring data to update the Lake Elsinore and Canyon Lake Nutrient TMDL shall commence immediately upon approval of this Agreement. An annual report summarizing the data collected for the year shall be submitted to the Regional Board by August 15 of each year.
- c. TMDL IMPLEMENTATION PLAN Task 4 - Implement a Lake Elsinore and Canyon Lake Nutrient Monitoring Program. This program shall obtain data necessary to update the Lake Elsinore and Canyon Lake Nutrient TMDLs, and to determine compliance with interim and final nitrogen, phosphorus, chlorophyll A and dissolved oxygen numeric targets. In addition, the monitoring program shall determine the relationship between ammonia toxicity and the total nitrogen allocation to ensure that the total nitrogen allocation will prevent ammonia toxicity in Lake Elsinore and Canyon Lake. Lake monitoring and management of lake monitoring data shall be deferred based on agreement with the Regional Board. Thereafter, an annual report summarizing the data collected for the year shall be submitted to the Regional Board by August 15 of each year.
- d. TMDL IMPLEMENTATION PLAN Tasks 9 and 10 - Implement a Plan to Reduce Nutrients from sediments in Lake Elsinore and Canyon Lake. The projects will be based on prepared plans shall evaluate the efficacy of various in-lake treatment technologies to prevent the release of Nutrients from lake sediments as a long-term strategy for control of Nutrients in the sediment. The program may also include a sediment nutrient monitoring program to evaluate the effectiveness of any technologies that may be implemented. Target Date for Completion Date: July 1, 2015 (Interim TMDL targets) July 1, 2020 (Final TMDL targets).
- e. TMDL IMPLEMENTATION PLAN Task 11 - Implement a Plan and Schedule for Updating the Existing Lake Elsinore/San Jacinto River Watershed Nutrient Model and the Canyon Lake and Lake Elsinore In-Lake Models. Develop and implement a plan and schedule to update and execute Watersheds and in-lake models to track the progress of TMDL efforts. In-lake models should be analyzed as soon as sufficient data becomes available. Target Date for Completion: December 31, 2018.
- f. TMDL IMPLEMENTATION PLAN Task 12 - Investigate, Develop and Implement a Pollutant (Water Quality) Trading Plan. Investigate the feasibility of pollutant trading in the Watersheds, and develop a feasibility plan for Regional Board review and approval. Target Date for Completion: December 31, 2012.
- g. Investigate Long Term TMDL Implementation Structure, Cost Sharing Formula and Funding Sources. Investigate possible long term administrative structures, cost sharing formulas and funding sources that can be used to obtain compliance with the TMDL requirements. Target Date for Completion: December 31, 2012.
- h. Other Tasks. The TASK FORCE may undertake such other plans, programs and studies as authorized by the TASK FORCE pursuant to II.2.g. of this Agreement.

- i. Limitations on MARB. As described above in Section I.h., MARB is an agency of the federal government and is therefore unable to participate in each and every aspect of Section 3 to the same extent as other TASK FORCE MEMBERS. To the extent that it is unable to participate in any tasks under section 3, it reserves the right, in its sole discretion, to participate to the fullest extent that it is able, as a matter of comity.
4. Budgets. The total Annual Budget, adjusted to remove in-kind services, grant funding and funding credits associated with this Agreement shall not exceed \$800,000, except as authorized by the TASK FORCE via two-thirds approval via votes based on the Budget for the then current fiscal year pursuant to II.2.g. of this Agreement. The TASK FORCE ADMINISTRATOR shall prepare and submit a proposed Budget for each fiscal year of this Agreement to the TASK FORCE AGENCIES by November 30th. The proposed Budget shall include all anticipated costs for the scope(s) of work developed by the TASK FORCE for the next fiscal year. The TASK FORCE Representatives shall approve the Budget by December 31st. Each TASK FORCE AGENCY shall pay its PRO-RATA SHARE of the approved fiscal year's TASK FORCE Budget and arrears by August 31st of the following year. The Budget for the fiscal year 2012- 2013 and estimate for fiscal year 2013- 2014 is included as Attachment A to the Agreement. Approval of this Agreement shall constitute approval of the Budget for fiscal year 2012- 2013. Payment of the fiscal year 2012- 2013 Budget shall be by August 31, 2012, or within 30 days of the approval of this Agreement by each TASK FORCE AGENCY, whichever is sooner.

The TASK FORCE ADMINISTRATOR shall endeavor to minimize carry-over fund balances to those necessary to complete work of the TASK FORCE and to maintain contingencies limited to those necessary to ensure work of the TASK FORCE is not impeded. Excess not necessary to complete budgeted work of the TASK FORCE or maintain adequate reserves shall be credited back to the TASK FORCE AGENCIES in the Budget consistent with the PRO-RATA SHARE methodology described in Paragraph II.5 below. THE TASK FORCE AGENCIES shall agree to a reasonable reserve balance as part of each year's Budget.

After September 30th of each year, the TASK FORCE ADMINISTRATOR shall provide an accounting of all PRO RATA SHARES collected via cash or in-kind contributions. If PRO RATA SHARES collected are less than Budget, the TASK FORCE shall meet with Regional Board staff to determine appropriate priorities for scheduled TASK FORCE work and revise Budget based on available funds.

5. Pro-Rata Share Calculation. The annual PRO-RATA SHARE shall be calculated in the following manner:
 - A. TMDL TASK FORCE costs are identified within the Task Force Budget under Part A: Task Force Regulatory/Administrative Budget (see Exhibit "A") and starting in FY 13-14 shall be shared equally by the TASK FORCE AGENCIES .
 - B. TMDL TASK FORCE costs identified within the Task Force Budget under Part B: TMDL Implementation Project Budget (see Exhibit "A") shall be shared by the TASK FORCE AGENCIES, based upon participation in the individual program or project. The PRO-RATA SHARE for each TASK FORCE AGENCIES under Part B shall be per an amount agreed upon and/or in kind services among the participating parties.
 - C. The PRO-RATA SHARE for additional TASK FORCE AGENCIES shall be per in-kind services and/or an amount agreed upon via written amendment of this AGREEMENT per Section II.2.b.

If the estimated funds collected under the PRO-RATA SHARE calculations exceed the BUDGET, the contributions of MS4 CO-PERMITTEES, EVMWD, City of Lake Elsinore, Agricultural Operators, Dairy and other TASK FORCE AGENCIES contributing in excess of the base amount shall be raised or reduced proportionately based on the percentage of their PRO-RATA SHARE, until the estimated total PRO-RATA SHARES equals the BUDGET.

RCFC&WCD shall provide the TASK FORCE ADMINSTRATOR with annual individual MS4 CO-PERMITTEE cost share distribution of the MS4 CO-PERMITTEES PRO-RATA SHARE for each Fiscal Year. The methodology used by RCFC&WCD to calculate the MS4 CO-PERMITTEE cost share distribution may be amended at the NPDES MS4 Management Steering Committee.

Pro rata cost shares assigned to TASK FORCE AGENCIES who are not PARTIES to this Agreement shall be considered unfunded portions of the BUDGET and are addressed in Section II.4, paragraph 3 of this Agreement.

6. In-Kind Credits. The TASK FORCE shall accept in-kind contributions or credits for TASK FORCE work defined under this AGREEMENT per Section II.3 as agreed to annually by the TASK FORCE. The PRO-RATA SHARE of a TASK FORCE AGENCY shall be reduced by the value of IN-KIND CREDITS provided toward agreed-upon budgeted tasks by, or on behalf, of the TASK FORCE AGENCY(S). Credits shall be applied to each budget period and adjusted at the end of each budget year based on actual verified costs unless deferred to a future budget year among the TASK FORCE AGENCIES with credits.
7. Modifications to the TASK FORCE PRO-RATA SHARE methodology. The methodology deriving the TASK FORCE PRO-RATA SHARE as provided in Section II.5 of this Agreement may be modified upon written approval of all then existing TASK FORCE AGENCIES who's PRO-RATA SHARE would be affected.
8. The TASK FORCE AGENCIES shall cooperate fully with one another to attain the purposes of this Agreement.
9. Nothing in this Agreement, nor the work set forth in this Agreement, nor any activity approved or carried out by the TASK FORCE AGENCIES hereunder, is intended to be nor shall be interpreted as a waiver by TASK FORCE AGENCIES of the "Maximum Extent Practicable" standard set forth in the Clean Water Act (33 U.S.C. Section 1251 *et seq.*).
10. Each TASK FORCE AGENCY shall indemnify, defend, and hold each of the other TASK FORCE AGENCIES, including their special districts, officials, agents, officers, and employees, harmless from and against any and all liability and expense arising from any act or omission of such TASK FORCE AGENCY, its officials, agents, officers, and employees, in connection with this Agreement, including but not limited to defense costs, legal fees, claims, actions, and causes of action for damages of any nature whatsoever, including but not limited to bodily injury, death, personal injury, or property damage; provided, however, that no TASK FORCE AGENCY shall indemnify another TASK FORCE AGENCY for that TASK FORCE AGENCY's own negligence or willful misconduct.

MARB, as an agency of the federal government, is unable to indemnify or hold harmless any other TASK FORCE AGENCY for any liability arising under this agreement. MARB expressly does not indemnify or hold harmless any other TASK FORCE AGENCY for any injuries or liabilities, to itself, to any third party or to MARB, or its employees under this agreement or any activities carried out under authority of this agreement.

11. In light of the provisions of Section 895.2 of the Government Code of the State of California imposing certain tort liability jointly upon public entities solely by reason of such entities being parties to an agreement (as defined in Section 895 of said Code), each of the TASK FORCE

AGENCIES hereto, pursuant to the authorization contained in Sections 895.4 and 895.6 of said Code, shall assume the full liability imposed upon it or any of its officers, agents, or employees by law for injury caused by any act or omission occurring in the performance of this Agreement to the same extent that such liability would be imposed in the absence of Section 895.2 of said Code. To achieve the above stated purpose, each of the TASK FORCE AGENCIES indemnifies, defends, and holds harmless each other TASK FORCE AGENCY for any liability, cost, or expense that may be imposed upon such other TASK FORCE AGENCY solely by virtue of said Section 895.2. The provisions of Section 2778 of the California Civil Code are made a part hereof as if incorporated herein.

MARB, as an agency of the federal government, is unable to indemnify or hold harmless any other TASK FORCE AGENCY for any liability arising under this agreement. MARB expressly does not indemnify or hold harmless any TASK FORCE AGENCY for any injuries or liabilities, to itself, to any third party or to MARB or their employees under this agreement or any activities carried out under authority of this agreement. Tort liability for federal employees, including employees of MARB, is expressly authorized and limited by the Federal Tort Claims Act, which will control liability of MARB and their employees under the terms of this agreement.

12. All obligations of CALTRANS under the terms of this Agreement are subject to the appropriation of the resources by the Legislature and the allocation of resources by the California Transportation Commission. This Agreement has been written before ascertaining the availability of Federal or State legislative appropriation of funds, for the mutual benefit of the TASK FORCE AGENCIES in order to avoid program and fiscal delays that would occur if the Agreement were executed after that determination was made. This Agreement is valid and enforceable as to each of the CALTRANS as if sufficient funds have been made available to CALTRANS by the United States Government or California State Legislature for the purposes set forth in this Agreement. If the United States Government or the California State Legislature does not appropriate sufficient funds for CALTRANS to participate in this Agreement, this Agreement may be amended in writing by the TASK FORCE AGENCIES to reflect any agreed-upon reduction in the percentage of funds contributed by CALTRANS to continue its participation in this Agreement. CALTRANS, however, has the option to withdraw from this Agreement in the event sufficient funds are not appropriated for CALTRANS. Should CALTRANS exercise its option to withdraw from this Agreement, CALTRANS shall remain responsible for its share of liability, if any, incurred while participating in this Agreement.
13. No TASK FORCE AGENCY shall have a financial obligation to any other TASK FORCE AGENCY under this Agreement, except as expressly provided herein.
14. Any notices, invoices, reports, correspondence, or other communication concerning this Agreement shall be directed to the TASK FORCE AGENCY REPRESENTATIVE on file with the TASK FORCE ADMINISTRATOR, except that any TASK FORCE AGENCY may change its name or address by giving the other TASK FORCE AGENCIES at least ten days written notice of the new name or address.
15. The TASK FORCE AGENCIES are, and shall at all times remain as to each other, wholly independent entities. No TASK FORCE AGENCY to this Agreement shall have power to incur any debt, obligation, or liability on behalf of any other TASK FORCE AGENCY unless expressly provided to the contrary by this Agreement. No employee, agent, or officer of a TASK FORCE AGENCY shall be deemed for any purpose whatsoever to be an agent, employee or officer of another TASK FORCE AGENCY.

16. This Agreement shall be binding upon and shall inure to the benefit of the respective successors, heirs, and assigns of each TASK FORCE AGENCY.
17. This Agreement shall be governed by, interpreted under, and construed and enforced in accordance with the laws of the State of California, except as to the March Air Reserve Base to whom federal law is applicable.
18. If any provision of this Agreement shall be determined by any court to be invalid, illegal, or unenforceable to any extent, the remainder of this Agreement shall not be affected and this Agreement shall be construed as if the invalid, illegal, or unenforceable provision had never been contained in this Agreement.
19. Each individual TASK FORCE AGENCY has been represented by its own separate counsel in the preparation and negotiation of this Agreement. Accordingly, this Agreement shall be construed according to its fair language and any ambiguities shall not be resolved against the drafting TASK FORCE AGENCY.
20. Each of the persons signing below on behalf of a TASK FORCE AGENCY represents and warrants that he or she is authorized to sign this Agreement on behalf of such TASK FORCE AGENCY.
21. Duration of Agreement. This Agreement shall terminate **June 30, 2017** (unless extended by mutual agreement of all TASK FORCE AGENCIES), provided that all debts and liabilities of the TASK FORCE are satisfied. Notwithstanding the foregoing, each TASK FORCE AGENCY reserves the right to withdraw from the TASK FORCE at any time, upon sixty (60) days prior written notice to the TASK FORCE. TASK FORCE contingency, projects, and studies underway at the time of withdrawal shall continue to be fully funded by the withdrawing TASK FORCE AGENCY until the end of the fiscal year in which the TASK FORCE AGENCY gave notice to withdraw.
22. Counterparts. This Agreement may be executed simultaneously or in counterparts, each of which shall be deemed an original, and together shall constitute one and the same instrument.
23. Amendment. This Agreement may not be amended except in a writing signed by all the TASK FORCE AGENCIES.

IN WITNESS WHEREOF, the TASK FORCE AGENCIES have executed this AGREEMENT on the date set forth below:

Report to City Council

TO: Mayor and City Council Acting in its Capacity as President and Members of the Board of Directors of the Moreno Valley Community Services District (CSD)

FROM: Betsy Adams, Parks & Community Services Director

AGENDA DATE: August 15, 2017

TITLE: ACCEPTANCE OF GRANT FUNDS FROM THE CALIFORNIA DEPARTMENT OF EDUCATION, CHILD DEVELOPMENT SERVICES, FOR CHILD CARE SERVICES FOR FISCAL YEAR 2017/18 AND ADOPTION OF THE RESOLUTION TO CERTIFY APPROVAL OF THE GOVERNING BOARD

RECOMMENDED ACTION

Recommendations:

1. Authorize the acceptance of grant funds in the amount of \$663,817 and any subsequent adjustments for Fiscal Year (FY) 2017/18 from the California Department of Education, Child Development Division, for the purpose of providing school age child care and development services; and
2. Adopt Resolution No. CSD 2017-____. A resolution of the Moreno Valley Community Services District of the City of Moreno Valley, California, certifying approval of the governing board to enter into this transaction with the California Department of Education for the purpose of providing child care and development services and to authorize designated personnel to sign contract documents for FY 2017/18.

SUMMARY

This report recommends the acceptance of Child Development Grant Funds to continue the Child's Place licensed after school program. This program is supported by grant funds, parent fees, and food program revenue. Grant operating revenue is a combination of federal and state funding.

DISCUSSION

The focus of the grant submitted by the City of Moreno Valley Parks and Community Services Department was based on the high demand assessed by the Department within its own programs. This included the need for after school care during the traditional school year and full day care on school vacation days. The program utilizes five elementary schools: Creekside, Sunnymead, Rainbow Ridge, and Armada during the school year and Red Maple during school breaks. The Child's Place program serves low-income parents who work or go to school, and accommodates up to 142 children between the ages of kindergarten through 12 years of age.

A Child's Place is state licensed and operates under the following conditions. The program utilizes five elementary schools: Creekside, Sunnymead, Rainbow Ridge, Armada and Red Maple. The program serves children between the ages of kindergarten through 12 years of age and has been in effect since January of 1997. The program fosters the healthy social and emotional development of every child by providing activities, schedules, materials, and equipment to ensure that children are both challenged and successful. Programming for the students includes a nutritious daily snack, arts and crafts, indoor and outdoor games, story time, homework time, and social time. The program also includes field trips with bus transportation, parent conferences, and special parenting classes and programs on topics including health issues, substance abuse, nutrition, personal safety, community awareness, literacy, and more. The program works closely with parents and school site staff to incorporate applicable school rules into the program and provide emotional support for children.

A Child's Place operates at school sites under the "modified traditional" school schedule, between the hours of 11:30 a.m. and 6:00 p.m. on school days, and 7:00 a.m. to 6:00 p.m. on school vacation days, Monday through Friday.

As part of the City's policy, the City Council must formally accept this funding from the California Department of Education, Child Development Services and adopt the corresponding resolution.

ALTERNATIVES

1. Authorize the acceptance of grant monies in the amount of \$663,817 for FY 2017/18 from the California Department of Education, Child Development Division for the purpose of providing school age child care and development services; and approve the proposed resolution to certify the approval of the governing board to enter into this transaction with the California Department of Education for the purpose of providing school age child care and development services. ***Staff recommends this alternative as it will allow us to continue to provide child care and development services to school age children.***

2. Do not accept grant funding and eliminate the Child Care Grant Program. **Staff does not recommend this alternative as it will not allow us to continue to provide child care and development services to school age children.**

FISCAL IMPACT

The proposed grant funds program expenditures on a cost reimbursement basis. **The grant funds, as well as program fees and food program revenue, are used to provide licensed school age child care and development services, and are restricted to this program.** There is no impact to the General Fund. This grant is budgeted in the FY 2017/18 Operating Budget (2201-50-58-75011). No budget adjustments are required.

Note - all grant funds are fully expended during each grant year.

Report to City Council

TO: Mayor and City Council

FROM: Marshall Eyerman, Chief Financial Officer

AGENDA DATE: August 15, 2017

TITLE: PUBLIC HEARING TO OPEN 30-DAY PUBLIC COMMENT PERIOD FOR THE ASSESSMENT OF FAIR HOUSING

RECOMMENDED ACTION

Recommendations: That the City Council:

1. Conduct a Public Hearing, in accordance with the U.S. Department of Housing and Urban Development (HUD) requirements, to allow the public an opportunity to comment on the proposed Assessment of Fair Housing process.
2. Approve to open a 30-day public comment period for the Assessment of Fair Housing.

SUMMARY

In the City's effort to affirmatively further fair housing, the City is in the process of analyzing and preparing a Draft Assessment of Fair Housing (AFH). The AFH is designed to improve community planning in order to overcome fair housing issues. The AFH process includes community participation to establish fair housing goals. Ultimately, the fair housing goals and priorities established in the AFH will be used to inform the strategies and actions of the Consolidated Plan, the Annual Action Plan, as well as investments and other decision made in the City's local planning processes.

In accordance with HUD's Final Rule at 24 CFR Part 5 regarding the agencies obligation to affirmatively further fair housing, an extensive public participation plan will be set in motion during the 30-day comment period recommended herein.

DISCUSSION

The U.S. Department of Housing and Urban Development (HUD) in July of 2015 published a Final Rule at 24 CFR Part 5 regarding a grantee's obligation to Affirmatively

Further Fair Housing. The new rule sets forth a meaningful and transparent process to identify and understand local and regional fair housing issues and to set goals for improving fair housing choice and access to opportunity.

HUD has provided the City with an Assessment Tool and a rich set of data within the mapping tool to support development of the Assessment of Fair Housing (AFH), which is replacing the Analysis of Impediments to Fair Housing Choice. The assessment of information on the current state of neighborhood demographics and assets within an open planning process can affect the nature of the conversations, and ultimately, community decisions. The AFH Tool, informed by the community participation process, will guide the City through the identification of fair housing issues and related contributing factors, and result in prioritizing and setting goals for the City's upcoming planning period.

Under the new rule, the citizen participation plan requirements at 24 CFR 91.105 for local governments have been revised to accommodate the new AFH, which includes community participation in the analysis of fair housing data, an assessment of fair housing issues and contributing factors, and an identification of fair housing priorities and goals.

In accordance with the HUD requirements, the Assessment of Fair Housing for the City of Moreno Valley will follow the updated Citizens Participation Plan to encourage participation by residents and other interested parties. The City is encouraging the participation of local and regional institutions, the homeless Continuum of Care, public housing authorities operating in the City's jurisdiction, and other organizations (including businesses, developers, nonprofit organization, philanthropic organizations, and community-based and faith-based organizations).

The City will implement traditional and alternative public involvement techniques. Traditional methods include newspaper notices, public hearings and community meetings. Alternative public involvement includes paper and online community surveys, posting information on the planning process to the City website and reaching out to all residents through the MOVAL AT WORK newsletter. Assistance will be provided to non-English speaking residents of the community including a Spanish translated survey and other reasonable accommodations will be made upon request.

In the development of, and prior to adopting the Assessment of Fair Housing, the City will make the document available for public review for a period of at least 30 days prior to City Council approval to give interested persons an opportunity to review and comment on the document. A public notice will be published in the Press Enterprise, as well as the MoVal At Work Newsletter. Two community meetings will be scheduled during the comment period and copies of the Draft AFH will be available at City Hall and other public counters, as well as electronically on the City's website.

The anticipated Assessment of Fair Housing schedule is recommended as follows:

Public Hearing to Open the 30-day

08/15/2017

Comment Period of the Draft AFH

| | |
|---|---------------------|
| 30-day Comment Period | 08/16/17 – 09/14/17 |
| Public Hearing to Close the Comment Period and Adopt the AFH | 09/19/2017 |
| HUD Deadline to submit the adopted AFH | 10/04/2017 |

ALTERNATIVES

The Council has the following alternatives:

1. Conduct a public hearing, approve the recommended action and open a 30-day public comment period for the Assessment of Fair Housing. *Staff recommends this alternative as it will allow the City to meet the requirements in accordance with HUD's regulations.*
2. Do not conduct a public hearing providing the public with an opportunity to comment on the proposed Assessment of Fair Housing process. *Staff does not recommend this alternative as it will not allow the City to meet the requirements in accordance with HUD's regulations.*

FISCAL IMPACT

The recommended actions will have **NO FISCAL IMPACT TO THE GENERAL FUND.**

NOTIFICATION

Notice of this meeting was published on the City website for public review and comment. Respondents were given the opportunity to provide comments via email, telephone, and mail.

Report to City Council

TO: Mayor and City Council

FROM: Rick C. Hartmann, Acting Public Works Director

AGENDA DATE: August 15, 2017

TITLE: PUBLIC HEARING FOR TWO NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM MAIL BALLOT PROCEEDINGS

RECOMMENDED ACTION

Recommendations: That the City Council:

1. Conduct the Public Hearing and accept public testimony for the mail ballot proceedings for Supreme West Property, Inc. and Moreno Valley Sleep One, LLC to approve the National Pollutant Discharge Elimination System (NPDES) maximum commercial/industrial regulatory rate to be applied to the property tax bill(s).
2. Direct the City Clerk to count the returned NPDES ballots.
3. Verify and accept the results of the mail ballot proceedings as maintained by the City Clerk on the Official Tally Sheet.
4. Receive and file the Official Tally Sheet with the City Clerk's office.
5. If approved, authorize and impose the NPDES maximum commercial/industrial regulatory rate to the Assessor's Parcel Numbers mentioned in this report.

SUMMARY

The action before the City Council is to conduct a Public Hearing for two National Pollutant Discharge Elimination System (NPDES) mail ballot proceedings. The process is to accept two parcels into the City's NPDES funding program affects two (2) property owners, not the general citizens or taxpayers of the City.

The City requires property owners of development projects to mitigate the cost of certain impacts created by the proposed development, such as the cost of complying with the state and federal NPDES requirements. As a condition of approval, the property owner is required to provide a funding source to offset those costs. The City offers a funding program to assist property owners in satisfying the funding requirement. After a property owner approves the City's NPDES rate through a mail ballot proceeding, the City can levy the rate on the property tax bill of the authorized parcel(s). Attachment 1 outlines the steps to participate in the City's NPDES funding program.

The revenue generated by this program provides an ongoing funding source to monitor pollution control of storm water runoff into municipally owned drainage facilities, lessening the financial impact of compliance with the state and federal requirements on the general taxpayer in Moreno Valley.

Supreme West Property, Inc. is approved to construct a prefabricated warehouse (southwest corner of Alessandro Blvd. and Grant St.) and Moreno Valley Sleep One, LLC is approved to construct a new 8,992 sq. ft. retail store (north side of Campus Parkway, east of Day St.) (collectively, the "Property Owners"). The Property Owners have requested the City conduct a mail ballot proceeding, which if approved, will satisfy the condition of approval to provide a funding source for NPDES program.

DISCUSSION

The Clean Water Act of 1987 established requirements for the discharge of Urban Runoff from Municipal Separate Storm Sewer Systems under the NPDES program. The Santa Ana Regional Water Quality Control Board administers the NPDES program through the issuance of a Permit. The NPDES program requires public agencies to obtain coverage under the Permit to discharge urban storm water runoff from municipally owned drainage facilities, including streets, highways, storm drains, and flood control channels. The City's current NPDES Permit requires all new development projects comply with storm water management requirements.

As a condition of approval for development projects, the Land Development Division (Public Works Department) requires property owners to provide a funding source to support activities for the NPDES program requirements. The City Council adopted the NPDES residential regulatory rate on June 10, 2003, and the NPDES commercial/industrial regulatory rate on January 10, 2006. Revenue received from the rate supports the increased compliance activities related to the development. It also reduces the financial impact to the General Fund to maintain compliance with the unfunded requirements of the Permit. The City's storm water management activities include annual and periodic facility inspections for site design, NPDES permit compliance, and implementation of Best Management Practices and maintenance for specified facilities.

The Property Owners are required to provide a funding source for the NPDES program as a condition of approval. Detailed parcel information for the properties subject to the condition of approval is listed in the following table.

| Property Owner/Project | Assessor's Parcel Number(s) | Location | FY 2017/18 NPDES Maximum Rate(s) |
|--|-----------------------------|--|--|
| Supreme West Property, Inc. PEN17-0050 | 297-130-065 | southwest corner of Alessandro Blvd. and Grant St. | \$236.86/parcel commercial/industrial |
| Moreno Valley Sleep One, LLC PEN16-0104 and PA16-0052 | 291-590-038 | north side of Campus Parkway, east of Day St. | \$236.86/parcel commercial/industrial |

The Property Owners have two (2) options to satisfy the condition of approval:

- 1) Approve the NPDES rate and authorize the City to collect the rate on the annual Riverside County property tax bill through participation in a mail ballot proceeding; or
- 2) Fund an endowment.

The Property Owners have decided to have the NPDES rate applied to the annual property tax bill. Before the City can levy the NPDES rate on the annual property tax bill, the Property Owners must first approve it and authorize the City to levy on the annual property tax bill through a mail ballot proceeding. A mail ballot proceeding is a legally required process to approve new charges, or an increase to existing charges, on property tax bills (Proposition 218). The Property Owners were mailed a notice and a ballot to cast their vote (Attachment 2 and 3). The notice provides the purpose and amount of the charge and the potential annual inflationary adjustment. The City is required to provide the Property Owners with 45 days to review the notice and an opportunity to address the City Council. The Property Owners will have an opportunity to address the City Council during the public comment portion of the Public Hearing. The ballots are due to the City Clerk prior to the close of the Public Hearing. At the close of the Public Hearing, the ballots can be opened and counted, and results announced.

A property owner's approval of the NPDES annual rate and authorization for the City to levy it on the annual property tax bill satisfies their condition of approval. In the event a Property Owner does not return their ballot, does not approve the ballot, or returns an invalid ballot (unmarked or unsigned), this condition of approval will remain unsatisfied and may delay the development. The ballot for each mail ballot proceeding will be counted separately to determine if the property owner approved inclusion of their respective properties in the NPDES program.

This action meets the Strategic Plan Priorities by managing and maximizing Moreno Valley's public infrastructure to ensure an excellent quality of life, develop and implement innovative, cost effective infrastructure maintenance programs, public facilities management strategies, and capital improvement programming and project delivery.

ALTERNATIVES

1. Conduct the Public Hearing and upon its close, count and verify the returned ballots and accept the results. *Staff recommends this alternative as it will satisfy each project's condition of approval if the property owner approves their respective ballot.*
2. Open the Public Hearing and continue it to a future regular City Council meeting. *Staff does not recommend this alternative as it will delay announcement of the ballot results and may delay project development.*
3. Do not conduct the Public Hearing. *Staff does not recommend this alternative as it will delay the Property Owners from satisfying the condition of approval and may delay project development. Additional costs will be incurred to restart the 45-day noticing period.*
4. Do not conduct the Public Hearing at this time but reschedule it to a date certain during a regular City Council meeting. *Staff does not recommend this alternative as it may delay project development and will incur additional costs to restart the 45-day noticing period.*

FISCAL IMPACT

The fiscal year (FY) 2017/18 NPDES maximum commercial/industrial regulatory rate is \$236.86 per parcel, and any division thereof. The NPDES maximum regulatory rate for FY 2018/19 and each subsequent fiscal year is subject to an annual inflationary adjustment, provided the City Council approves such increase each year. The annual increase cannot exceed the annual inflationary adjustment without approval of the property owners subject to the charge.

Revenue received from the NPDES rate is restricted and can only be used within the storm water management program. This revenue offsets storm water management program expenses, which reduces financial impacts to the General Fund and maintains compliance with the unfunded requirements of the Permit. The NPDES rate is only applied to the property tax bills of parcels wherein their property owners have previously provided approval.

NOTIFICATION

The ballot documents were mailed to the Property Owners at least 45-days in advance of the Public Hearing. The documents included a notice to the Property Owner, map of the project area, NPDES ballot, NPDES commercial/industrial rate schedule, instructions for marking and returning the ballot, and a postage paid return envelope addressed to the City Clerk.

Newspaper advertising for the August 15, 2017 Public Hearing was published in The Press-Enterprise on July 27, 2017 and again on August 3, 2017.

NOTICE TO PROPERTY OWNER - MAIL BALLOT PROCEEDING FOR THE NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) MAXIMUM COMMERCIAL/INDUSTRIAL REGULATORY RATE FOR APN 297-130-065

******* OFFICIAL BALLOT ENCLOSED *******

Introduction

In November of 1996, California voters passed Proposition 218 (“The Right to Vote on Taxes Act”). As a result, any new or proposed increase in a property-related charge requires approval by the property owner of record. In compliance with Proposition 218 legislation, the City of Moreno Valley Special Districts Division is conducting a mail ballot proceeding to provide the owner of Assessor’s Parcel Number (APN) 297-130-065 the opportunity to express support for or opposition to the approval of the NPDES Maximum Commercial/Industrial Regulatory Rate and services. Approval of the NPDES Maximum Commercial/Industrial Regulatory Rate through a mail ballot proceeding fulfills Land Development Division’s Condition of Approval to provide a funding source for the NPDES financial program.

Background

The Clean Water Act of 1987 established requirements for the discharge of Urban Runoff from Municipal Separate Storm Sewer Systems under the National Pollution Discharge Elimination System (NPDES) Program. The NPDES Program is administered by the Santa Ana Regional Water Quality Control Board through the issuance of a Permit. The City’s current NPDES Permit mandates all new development projects comply with storm water management activities. The NPDES Program requires public agencies to obtain coverage under the Permit to discharge urban storm water runoff from municipally owned drainage facilities, including streets, highways, storm drains, and flood control channels.

Services Provided

In compliance with the Federal Clean Water Act, the City of Moreno Valley shall provide annual and periodic facility inspections for site design, NPDES permit compliance, and Best Management Practices implementation and maintenance for specified facilities.

How is the Amount of the Charge Determined?

Each fiscal year (FY), the City of Moreno Valley determines the type of services necessary to comply with NPDES Permit requirements and levies the rate applicable for that service, not to

Attachment: Supreme West Property, Inc. Ballot Documents (2714 : PUBLIC HEARING FOR TWO NATIONAL POLLUTANT DISCHARGE

exceed the rate previously approved by the property owner.

Proposed Charge

For FY 2017/18, the NPDES Maximum Commercial/Industrial Regulatory Rate is \$236.86 per parcel. The total amount of the NPDES rates levied for FY 2016/17 for the program as a whole was \$460,001.98.

Annual Adjustment

Beginning in FY 2018/19, the NPDES Maximum Commercial/Industrial Regulatory Rate will be subject to an annual adjustment based on the percentage change calculated for the previous year in the Los Angeles-Riverside-Orange County Regional Consumer Price Index for All Urban Consumers, as published by the Department of Labor’s Bureau of Labor Statistics.

Duration of the Charge

Upon approval of the NPDES Maximum Commercial/Industrial Regulatory Rate, the annual levy amount will be assessed to APN 297-130-065 (and any division thereof) and shall be placed on the Riverside County property tax bill or included as a monthly charge on a utility bill. The NPDES Maximum Commercial/Industrial Regulatory Rate will be levied each following year at the proposed rate, which includes an annual inflation adjustment.

Public Hearing

To provide information concerning this mail ballot proceeding the City has scheduled a Public Hearing, which will be held at the **Moreno Valley City Hall Council Chamber located at 14177 Frederick Street, Moreno Valley.**

|--|
| <p style="text-align: center;"><u>Public Hearing</u> Tuesday, August 15, 2017 6:00 P.M. (Or As Soon Thereafter As The Matter May Be Called)</p> |
|--|

Tabulation of the returned ballot will commence after the close of the public testimony portion of the Public Hearing. Any ballot received shall be tabulated under the direction of the City Clerk in compliance with the City’s Policy For Conducting Mail Ballot Proceedings Policy #1.12.

Effect if the Charge is Approved

Approval of the NPDES Maximum Commercial/Industrial Regulatory Rate will be confirmed if the ballot is marked in favor of the NPDES rate. Approving the NPDES Maximum Commercial/Industrial Regulatory Rate through a mail ballot proceeding will fulfill the Land Development Division’s Condition of Approval to provide an ongoing funding source for the NPDES financial program.

Effect if the Charge is Not Approved

Not approving the NPDES Maximum Commercial/Industrial Regulatory Rate to meet state and federally mandated NPDES Permit requirements will not satisfy the Land Development Division’s Condition of Approval to provide a funding source for the NPDES financial program. If the returned ballot is marked “No”, the NPDES rate will not be levied on the property tax bill.

Attachment: Supreme West Property, Inc. Ballot Documents (2714 : PUBLIC HEARING FOR TWO NATIONAL POLLUTANT DISCHARGE

Effect if the Ballot is Deemed Invalid or Incomplete

Not marking the corresponding box on the ballot in support of or opposition to the proposed program and annual rate and/or not signing the ballot will result in an invalid ballot. In order to satisfy the Land Development Division's Condition of Approval by placement of the NPDES rate on the annual property tax bill, the mail ballot proceeding and 45-day noticing period will need to start over. Reinitiating the process will require payment of the mail ballot proceeding fee.

Report to City Council

TO: Mayor and City Council

FROM: Thomas M. DeSantis, Assistant City Manager

AGENDA DATE: August 15, 2017

TITLE: APPROVAL OF LEASE AGREEMENT WITH 2250 TOWN CIRCLE HOLDINGS, LLC FOR SPACE FOR A LIBRARY

RECOMMENDED ACTION

Recommendations:

1. Authorize the City Manager or her designee to sign a lease agreement with 2250 Town Circle Holdings, LLC for space in the Moreno Valley Mall for a Library for an amount not to exceed \$212,454.46.
2. Authorize the City Manager or her designee to execute any subsequent related change orders to the contract up to, but not exceeding, a 5% contingency amount of \$10,623.

SUMMARY

Bringing another key element of the City Council's *Momentum MoVal* strategic vision to reality, this report recommends approval of a lease agreement to create the first branch Library in the City's history. The branch would be located at the Moreno Valley Mall under a proposed 3 year lease agreement, with two 3-year options to extend the lease.

Funding for this initiative was approved by the Council when adopting the City's budget for Fiscal Year 2017/18; no additional funding is required to support the facility lease.

DISCUSSION

In adopting the *Momentum MoVal* strategic plan in August 2016, the City Council set the goal of opening a satellite branch Library by December 2017.

City staff has investigated options for meeting the policy objective set by the Council and has identified the Moreno Valley Mall as the best option to:

- Provide a service location in another heavily populated area of the City;
- Ensure access via public transportation;
- Meet the timeline for opening a satellite Library by leasing space in an established building must be used.

The Moreno Valley Mall appears to be an excellent location for a Library branch. With a 92% occupancy rate, the Mall is already drawing patrons who will benefit from a Library. Addition of this important community service is also anticipated to attract new, more frequent visitors to the mall.

Through negotiations with the mall management company, the City has been able to secure an approximately 5,000 square foot suite near an exterior entrance to the mall and at a reasonable lease rate. Additionally, the Mall offers 12-foot walkways in front of the proposed Library which can also be accessed for program delivery.

Should the Council approve the recommended lease agreement, staff will continue efforts such as tenant improvements, purchasing specialized furniture and equipment, and amending the City's contract with Library Systems & Services to provide service at the additional location. Staff will return to the City Council with recommended contract awards to achieve these important milestones. While the schedule is aggressive, a December 2017 opening date is achievable barring any major disruptions to the schedule.

The lease is structured as equal monthly installments of Five Thousand Seven Hundred Forty-Two and One/00 Dollars (\$5,742.01) plus a security deposit equal to one month's payment. The recommended Contingency budget of 5% provides a modest degree of flexibility to address unknown expenses and preclude minor project delays.

ALTERNATIVES

1. Authorize the City Manager or her designee to sign a lease agreement with 2250 Town Circle Holdings, LLC for space in the Moreno Valley Mall for a Library Branch for an amount not to exceed \$212,454.46 and to execute any subsequent related change orders to the contract up to, but not exceeding, a 5% contingency amount of \$10,623. *Staff recommends this action as the best and most expedient path to expanding the City's Library services as envisioned in the Momentum MoVal strategic plan.*
2. Do not approve the lease agreement at the Moreno Valley Mall. *Staff does not recommend this alternative as it would significantly delay the opening of a Library branch in the City and likely increase costs associated with opening a Library.*

FISCAL IMPACT

Funding for this project is available due to the City Council's adoption of the FY 2017-18

and FY 2018-19 budget. Operating expenses for expanded Library services are available and budgeted in the Library Fund account noted below.

| Description | Fund | GL Account No. | Type (Rev/Exp) | FY 17/18 Budget | Proposed Adjustments | FY 17/18 Amended Budget |

Moreno Valley Mall

Lease Agreement

THIS LEASE AGREEMENT (the "Lease") is made this ____ day of August, 2017, by and between **2250 TOWN CIRCLE HOLDINGS, LLC**, a Maryland limited liability company (hereinafter referred to as "Landlord"); and **CITY OF MORENO VALLEY**, a California municipal corporation, whose mailing address is 14177 Frederick Street, Moreno Valley, California 92553 (hereinafter referred to as "Tenant").

SECTION 1 DEFINITIONS

1.1 Shopping Center. The term "Shopping Center" means all that certain land and all buildings, improvements, equipment and facilities now or hereafter erected thereon known as Moreno Valley Mall located in the City of Moreno Valley, County of Riverside and State of California as depicted on Exhibit A attached hereto and by this reference made a part hereof, as same may be altered, expanded or reduced by Landlord from time to time.

1.2 Lease Year. As used herein, the term "Lease Year" shall mean each year of the term (as same may be extended) commencing (i) with respect to the first Lease Year, on the Commencement Date (as hereinafter defined) and ending at the expiration of the last day of the twelfth (12th) full calendar month thereafter, and (ii) with respect to subsequent Lease Years, on the first day immediately following the end of the first Lease Year, and each subsequent anniversary thereof, and ending at the expiration of the last day of the twelfth (12th) full calendar month thereafter.

1.3 Common Areas. The term "Common Areas" means those on-site and off-site areas, facilities, utilities, improvements, equipment and installations in the Shopping Center which are from time to time designated by Landlord for the nonexclusive use or benefit of Landlord and tenants of the Shopping Center, their employees, agents, customers, licensees and other invitees. Common Areas include, but are not limited to, all parking structures and parking areas (including off-site parking), driveways, sidewalks, landscaped or planted areas, pedestrian areas, lobbies, and walkways. The term "Common Areas" also refers to all on-site and off-site areas and/or related facilities which may not be accessible to Tenant or other persons entitled to occupy space in the Shopping Center, but which are used in conjunction with the operation, management, repair or maintenance of the Shopping Center including, but not limited to, janitorial closets, on-site and/or off-site management offices and maintenance areas.

SECTION 2 DEMISE OF PREMISES AND TERM

2.1 Lease. Landlord hereby leases and demises to Tenant those certain Premises known as #2078 and marked with diagonal lines on the Floor Plan attached hereto as Exhibit B and by this reference made a part hereof, containing approximately 4,795 square feet of floor area (hereinafter referred to as the "Premises") in the Shopping Center, subject to and with the benefit of the terms and provisions of this Lease.

60642-0160.0001/135684434.3

(a) Reserved to Landlord. Landlord reserves the right from time to time to expand, reduce and otherwise change the size and dimensions of the Shopping Center; locate, relocate, alter and change the number and location of buildings and other improvements; change any building dimension, and the number of floors in any of the buildings, parking areas, identity and type of other stores and tenancies, shopping center name and the Common Areas located from time to time in or on the Shopping Center. Landlord further reserves the use of the exterior walls (other than storefronts), the roof, and the right to install, maintain, use, repair and replace pipes, ducts, conduits and wires leading through the Premises in locations which will not materially interfere with Tenant's use thereof and which serve other parts of the Shopping Center. Landlord shall use reasonable efforts to locate such items under the floor, above the suspended ceiling, if any, adjacent to an interior wall other than the storefront and (to the extent reasonably practical) in a non-sales area. Landlord also reserves the right to use the land below and the space above the Premises in any manner and for any purpose which does not materially and permanently interfere with Tenant's use of the Premises.

2.2 Commencement and Expiration Dates of Term. The term of this Lease shall commence on the earlier of (a) December 1, 2017, or (b) the opening by Tenant to the public of its business in the Premises (hereinafter called the "Commencement Date").

This Lease shall expire at midnight on the date which is three (3) full Lease Years from the Commencement Date (the "Expiration Date").

Except for those items set forth as Tenant's obligations upon delivery of possession, Tenant's obligation to pay rent hereunder shall commence on the Commencement Date.

2.3 Expiration/Termination. This Lease shall terminate on the Expiration Date set forth hereinabove or upon the earlier termination as herein provided, or at the end of any extension or renewal period, without the necessity of any notice from either Landlord or Tenant to terminate the same, and Tenant hereby waives notice to vacate or quit the Premises and agrees that Landlord shall be entitled to the benefit of all provisions of law respecting the summary recovery of possession of the Premises from a tenant holding over to the same extent if a statutory notice has been given. Tenant hereby agrees that if it fails to surrender the Premises at the end of the term, or any renewal thereof, Tenant will be liable to Landlord for any and all damages which Landlord shall suffer by reason thereof, in addition to all increased rental payments as specified in Section 13.4 hereunder, and Tenant will indemnify, defend and hold Landlord harmless from and against all liabilities and costs in connection with claims and demands made by any succeeding tenants against Landlord in delivering possession of the Premises to each succeeding tenant, including but not limited to costs of investigation and attorney's fees. The foregoing obligation shall survive the expiration or earlier termination of this Lease.

2.4 CASp Inspection; Condition of Premises; Tenant's Acceptance of Premises.

(a) Tenant acknowledges that the Premises is located in an existing building. It is expressly understood and agreed that Landlord shall have no obligation with respect to construction of the Premises or the performance, procurement and/or installation of those items of work, fixtures or equipment which are to be performed, procured or installed by Tenant.

(b) "Certified Access Specialist" or "CASp" means any person who has been certified pursuant to Section 4459.5 of the California Government Code. Pursuant to Section 1938 of the California Civil Code, the Premises has not undergone inspection by a CASp. California Civil Code Section 1938 provides the following: "A CASp can inspect the Premises and determine whether it complies with all of the applicable construction-related accessibility standards under state law. California Civil Code Section 1938 provides that although state law does not require a CASp inspection of the Premises, Landlord may not prohibit Tenant from obtaining a CASp inspection of the Premises for the occupancy or potential occupancy of the Tenant, if requested by Tenant. Landlord and Tenant shall mutually agree on the arrangements for the time and manner of the CASp inspection, the payment of the fee for the CASp inspection, and the cost of making any repairs necessary to correct violations of construction-related accessibility standards within the Premises." Accordingly, Landlord and Tenant hereby agree that Tenant shall pay for the fee for the CASp inspection and for all costs of making any repairs necessary to correct violations of construction-related accessibility standards within the Premises.

(c) Tenant has inspected the Premises and accepts the same in its current "AS IS" condition and with all faults. Tenant has determined that the Premises may be used for the Permitted Use (as defined in Section 4.1(a) below). Tenant waives the right to make any claim against Landlord for any matter directly or indirectly arising out of the condition of the Premises, appurtenances thereto, the improvements thereon and the equipment thereof. **LANDLORD MAKES NO WARRANTIES, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO ANY IMPLIED WARRANTIES OF FITNESS FOR A PARTICULAR PURPOSE OR HABITABILITY OR COMPLIANCE OF THE PREMISES OR ANY PORTION THEREOF WITH APPLICABLE LAW. TO THE EXTENT PERMITTED BY APPLICABLE LAW, TENANT WAIVES ANY IMPLIED WARRANTIES OF LANDLORD AS TO THE QUALITY OR CONDITION OF THE PREMISES OR THE SHOPPING CENTER, AS TO THE FITNESS OR SUITABILITY OF THE PREMISES OR THE SHOPPING CENTER FOR ANY PARTICULAR USE, OR AS TO COMPLIANCE OF THE PREMISES OR ANY PORTION THEREOF WITH APPLICABLE LAW.**

2.5 Delivery of Possession. Landlord shall use commercially reasonable efforts to deliver the Premises to Tenant promptly after mutual execution of this Lease. Under no circumstances shall Landlord be liable to Tenant for any damages which may be caused by Landlord's failure to deliver the Premises on the date set forth above.

2.6 License to Enter the Premises. At any time prior to delivery of possession of the Premises, Landlord may make the Premises available to Tenant for its work and installations, at

Tenant's sole risk, so long as such work and installation do not interfere with or obstruct any activities being engaged in by Landlord. The foregoing shall in no way be construed as notice that Tenant may open the Premises for business, except in strict accordance with the terms and conditions of this Lease. The license shall be subject to such reasonable restrictions and conditions as may be imposed by Landlord from time to time and Tenant shall coordinate all activities on and about the Premises with Landlord's designated representatives. Tenant's right to enter onto the Premises and Shopping Center pursuant to the license shall not trigger the Commencement Date, as long as Tenant complies with the reasonable restrictions and conditions required by Landlord; provided, however, that the remaining terms and provisions of this Lease (including, without limitation, the insurance requirements) shall automatically become effective and apply to all activities of Tenant and Tenant's employees, agents, contractors and licensees in, about, or relating to the Premises or Shopping Center. Notwithstanding anything herein to the contrary and without limiting the generality of the foregoing, Landlord may require Tenant and any of its agents, contractors or licensees to sign a separate indemnification and hold harmless instrument and provide appropriate evidence of insurance coverage as a condition to entering onto the Premises and the Shopping Center.

2.7 Tenant's Work. Upon delivery of possession of the Premises by Landlord, Tenant will proceed with due diligence, at its own expense, to perform all work and supply all installations described as Tenant's Work (the "Tenant's Work") in Exhibit C attached hereto and made a part hereof, and to fully equip the Premises with all trade fixtures, lighting fixtures, furniture, furnishings, floor and wall coverings, exterior signs, and special equipment and other items of construction and personal property necessary for the completion of the Premises and the proper operation of Tenant's business therein. The Tenant's Work shall be performed with materials of good quality and in a proper workmanlike manner, and, unless Landlord gives its prior written consent otherwise, all items installed by Tenant in the Premises shall be new. Tenant shall secure any and all governmental permits, approvals and authorizations required in connection with any such work, and all Tenant's Work shall be performed in strict compliance with local, state, and federal laws, regulations, orders, or directives. Tenant shall not do any construction work or alterations, nor shall Tenant install any equipment other than trade fixtures and personal property without first obtaining Landlord's written approval of the plans and specifications therefor in accordance with Exhibit C. The approval by Landlord of such plans and specifications shall not constitute the assumption of any liability on the part of Landlord for their accuracy or their conformity with requirements of any building code, or other municipal or governmental regulation or ordinance. Prior to commencement of any work upon the Premises by Tenant, Tenant shall deliver to Landlord a certificate of public liability and property damage insurance of a type and with the limits as shall be reasonably acceptable to Landlord, naming Landlord as additional insured, and evidence of Workers' Compensation and Builder's Risk coverage in such amounts as are required by law and are acceptable to Landlord. Landlord may require Tenant to erect a barricade that complies with Shopping Center standards at the start of Tenant's Work, at Tenant's expense. In the event Landlord has previously erected a barricade or if Tenant fails to erect a barricade and Landlord elects to erect a barricade on Tenant's behalf, Tenant shall pay Landlord the reasonable cost thereof. Tenant's barricade may not be dismantled without Landlord's prior approval. From and after the date of delivery of possession of the Premises, Tenant shall observe and perform all of its obligations under this Lease, including without limitation, payment of all utility charges, but excluding its obligations to pay Minimum Rental and Additional Rental, which are payable from and after the Commencement Date.

2.8 Certification of Commencement and Tenant Estoppel Certificate. Upon establishment of the Commencement Date, Landlord will deliver to Tenant and Tenant will execute a stipulation acknowledging said date in the form attached hereto as Exhibit D, which shall be attached to this Lease and made a part hereof but failure to execute and deliver the form shall not delay the Commencement Date. In addition, from time to time and within ten (10) days after written request by Landlord, Tenant will execute, acknowledge and deliver to Landlord or to such other party as may be designated by Landlord, a certificate, in a form acceptable to Landlord, stating, among other things, that this Lease is in full force and effect and has not been modified, supplemented or amended in any way, except as indicated in such certificate; that all conditions and agreements hereunder to be performed by Landlord have been satisfied or performed, except as set forth in said certificate; that Tenant is not in default in the payment of rent or any of the other obligations required of Tenant hereunder; and that Tenant has paid Minimum Rental, Additional Rental and any other amounts to be paid by Tenant as set forth hereunder as of the date set forth in the certificate. It is intended that all statements delivered pursuant to this paragraph may be relied upon by prospective purchasers of Landlord's interest, Landlord's lenders and other designees of Landlord and Landlord's lenders. If Tenant fails to respond within ten (10) days after Tenant's receipt of a written request by Landlord as herein provided, such failure shall be a material default under this Lease. In addition, Tenant shall be deemed to have given such certificate as above provided without modification and shall be deemed to have admitted the accuracy of any information supplied by Landlord to a prospective purchaser or mortgagee, that this Lease is in full force and effect, that there are no uncured defaults in Landlord's performance, that the security deposit is as stated in the Lease and that no more than one month's Minimum Rental has been paid in advance.

2.9 Options to Extend. Tenant shall have the option to extend the term for two additional periods of three (3) years each (each option herein referred to as an "Option", and each extension period herein referred to as an "Extension Period") upon all terms and conditions of this Lease, except that Tenant, after the second Extension Period, shall have no further right to extend the term, and the Minimum Rental shall be increased to the amounts provided for herein. Each Option may be exercised only by Tenant giving Landlord irrevocable and unconditional written notice thereof no later than three hundred sixty-five (365) days before the commencement of the Extension Period for which the Option applies. Said exercise shall, at Landlord's election, be null and void if Tenant has failed to faithfully, diligently and consistently comply with all obligations under this Lease during the term, or if Tenant is in default under this Lease at the date of said notice or at any time thereafter and prior to commencement of said Extension Period to which the Option applies.

If Tenant shall fail to exercise an Option in accordance with the terms hereof, said Option shall terminate and be null and void, and if the first Option shall be null and void, the second Option shall automatically become null and void. Tenant's exercise of an Option shall not operate to cure any default by Tenant of any of the terms or provisions in this Lease, nor to extinguish or impair any rights or remedies of Landlord arising by virtue of such default. If this Lease or Tenant's right to possession of the Premises shall terminate in any manner whatsoever before Tenant shall exercise an Option herein provided, or before the commencement of an Extension Period, or if Tenant shall have assigned this Lease or subleased all or any portion of the Premises before Tenant shall have exercised an Option, then immediately upon such termination, sublease or assignment, the Option shall simultaneously terminate and become null and void. If the term

of this Lease shall terminate for any reason prior to the expiration of the initial term, then the Options shall become null and void, whether or not any have been previously exercised, and if the term of this Lease shall terminate for any reason prior to the expiration of the first Extension Period, then the second Option, whether or not previously exercised, shall become null and void. Time is of the essence of this provision.

The Extension Period shall be upon all the same terms and conditions of this Lease except the Minimum Rental for each Extension Period shall be adjusted to equal the Fair Market Rental Rate. "Fair Market Rental Rate" shall mean the annual minimum rental rate that Landlord should reasonably be able to obtain for the Premises effective the first day of such Extension Period. Fair Market Rental Rate shall be based upon the prevailing rental rate for space comparable to the Premises in terms of size, location, condition and other relevant factors, and taking into account the term of the Extension Period, the Permitted Use and the other provisions of this Lease. Landlord shall provide notice to Tenant of its determination of the Fair Market Rental Rate within sixty (60) days after Tenant exercises its right to extend the term. Within ten (10) days after receiving such determination ("Tenant's Review Period"), Tenant shall irrevocably elect, in writing, to do one of the following: (i) accept Landlord's determination, or (ii) object to Landlord's determination and with such objection set forth Tenant's determination of the Fair Market Rental Rate. If Tenant so objects, Landlord and Tenant shall use good faith to agree upon such Fair Market Rental Rate. If Landlord and Tenant fail to reach agreement within fifteen (15) days following Tenant's Review Period, then the matter shall be submitted to arbitration in accordance with the Commercial Arbitration Rules of the American Arbitration Association (or its successor or, if none, a like organization) then in effect. Such determination shall be final and binding upon the parties. If Tenant fails to so accept or object in writing within Tenant's Review Period, Tenant shall conclusively be deemed to have approved of the Fair Market Rental Rate determined by Landlord. If Tenant objects to Landlord's determination of Fair Market Rental Rate in accordance with the above, during any period of the Extension Period that the Fair Market Rental Rate is being determined as per the above, Tenant shall pay annual Minimum Rental equal to 150% of the annual Minimum Rental at the highest rate during the preceding term and, after the Fair Market Rental Rate is determined, if Tenant has underpaid Minimum Rental for said period, Tenant shall pay Landlord the amount due within thirty (30) days after demand, and if Tenant overpaid Minimum Rental, a credit shall be given Tenant against the next Rent coming due under this Lease.

Without limitation, all provisions contained in this Lease for annual or other adjustment to charges shall remain in full force and effect during the Extension Periods.

SECTION 3 RENT

3.1 Minimum Rental.

(a) During the full term of this Lease, Tenant shall pay to Landlord, without notice, demand, reduction, setoff or any defense whatsoever, a minimum annual rental (the "Minimum Rental") payable in equal monthly installments each in advance on or before the first day of each month. Each such payment shall be accompanied by all applicable state and local rental, sales or use taxes. No monthly installment, however, will be paid more than one

month in advance. The Minimum Rental for any partial calendar month during the term hereof shall be prorated on a per diem basis. If the Commencement Date is a day other than the first day of a calendar month, the prorated amount due shall be paid on the Commencement Date.

(b) From the Commencement Date through the end of the initial term, the annual Minimum Rental shall be Sixty Thousand Thirty-Three and Forty/00 Dollars (\$60,033.40), payable in equal monthly installments of Five Thousand Two and Seventy-Eight/00 Dollars (\$5,002.78).

(c) The Minimum Rental, as adjusted, is referred to as the "Minimum Rental".

(d) "Additional Rental" or "Additional Rent" means all sums of money required to be paid by Tenant under the terms of this Lease with the exception of Minimum Rental, including without limitation Tenant's proportionate share of Taxes, together with all applicable state and local rental, sales and use taxes.

3.2 Taxes. Tenant shall pay to Landlord, as Additional Rental, without deduction or set off of any kind, its proportionate share of the total amount by which all Taxes (defined below) for each Comparison Year (as defined below) exceeds the amount of Taxes for the Base Year (as defined below); provided, however, that Tenant's obligation to pay an increase in the Tenant's proportionate share of Taxes shall not commence until after the Base Year. Landlord shall provide Tenant with a good faith estimate of the total amount of Taxes for each calendar year during the Term. On or before the first day of each month, Tenant shall pay to Landlord a monthly installment equal to one-twelfth of Tenant's Pro Rata Share of Landlord's estimate of the total amount of Taxes. If Landlord determines that its good faith estimate was incorrect by a material amount, Landlord may provide Tenant with a revised estimate. After its receipt of the revised estimate, Tenant's monthly payments shall be based upon the revised estimate. If Landlord does not provide Tenant with an estimate of the total amount of Taxes by January 1 of a calendar year, Tenant shall continue to pay monthly installments based on the previous year's estimate until Landlord provides Tenant with the new estimate. Upon delivery of the new estimate, an adjustment shall be made for any month for which Tenant paid monthly installments based on the previous year's estimate. Tenant shall pay Landlord the amount of any underpayment within thirty (30) days after receipt of the new estimate. Any overpayment shall be refunded to Tenant within thirty (30) days or credited against the next due future installment(s) of Additional Rental. In addition, the amount of Taxes may be adjusted according to the results of any appeal Landlord may make with regard to the Taxes.

"Base Year" means calendar year 2017. "Comparison Year" means each calendar year during the Term of this Lease subsequent to the Base Year.

As soon as is practical following the end of each calendar year, Landlord shall furnish Tenant with a statement of the actual amount of Taxes for the prior calendar year and Tenant's proportionate share of the actual amount of Taxes for the prior calendar year. If the estimated amount of Taxes for the prior calendar year is more than the actual amount of Taxes for the prior

calendar year, Landlord shall apply any overpayment by Tenant against the Taxes due or next becoming due, provided if the term of this Lease expires before the determination of the overpayment, Landlord shall refund any overpayment to Tenant after first deducting the amount of Rent due. If the estimated amount of Taxes for the prior calendar year is less than the actual amount of Taxes for such prior year, Tenant shall pay Landlord, within thirty (30) days after its receipt of the statement of Taxes, any underpayment for the prior calendar year.

“Taxes” shall mean all real property taxes and assessments which may be levied or assessed against the Shopping Center during the Term by any lawful authority for each calendar year including, without limitation, the total costs of paying all taxes, public charges and assessments of whatsoever nature directly or indirectly assessed or imposed upon the land, buildings, equipment and improvements constituting the Shopping Center and the rents therefrom, including but not limited to all real property taxes, rates, duties and assessments, contractual or statutory payments in lieu of taxes under any tax increment financing agreement, abatement agreement, agreement to construct improvements, or other agreement with any governmental body or agency or taxing authority, assessments for special improvement districts and building improvement districts, local improvement taxes, transfer taxes, taxes, assessments or reassessments due to a transfer of the Shopping Center or any portion thereof, import charges or levies, whether general or special, that are levied, charged or assessed against the Shopping Center by any lawful taxing authority whether federal, state, county, municipal, school or otherwise (other than income, inheritance and franchise taxes thereon); taxes and assessments levied in substitution or supplementation in whole or in part of any such taxes and assessments and the Landlord’s share of any real estate taxes and assessments under any reciprocal easement agreement, common area agreement or similar agreement affecting the Shopping Center; and the cost of seeking a reduction in any governmental levies, charges or assessments, including but not limited to attorney fees or consultant fees.

Tenant’s proportionate share of Taxes shall be computed by multiplying Taxes by a fraction, the numerator of which shall be the number of rentable square feet in the Premises (herein deemed conclusively to be the number of square feet set forth in Section 2.1 above) and the denominator of which shall be the number of rentable square feet in the Shopping Center that are occupied by tenants and open for business for each calendar month (calculated as of the first day of the applicable calendar month), excluding, at Landlord’s option, (x) square footages of the Shopping Center leased or used by other parties as Majors (as hereinafter defined), theatres, restaurants, kiosks, storage areas, or any other premises in the Shopping Center where such parties are not required to pay a full prorata share of Taxes, pursuant to a lease or other agreement with Landlord, and (y) areas of the Shopping Center for which separate tax bills are received and which are the sole responsibility of separate parties pursuant to a lease or other agreement with Landlord; provided, Landlord shall also deduct from Taxes, as the case may be, all amounts received from such excluded parties for Taxes. For purposes hereof, “Major” shall mean any space of any type in excess of 15,000 square feet of rentable area in, or at Landlord’s election from time to time adjoining, the Shopping Center, whether in buildings or on parcels owned by Landlord or other parties. Tenant shall pay its proportionate share of Taxes in monthly installments, without demand, deduction or setoff, along with monthly payments of Minimum Rental in such amounts as are, from time to time, estimated by Landlord. Estimates shall be revised not less than annually on the basis of actual Taxes for the preceding year of operations. Should Taxes be underestimated, Tenant shall pay any deficiency along with the payment of Minimum Rental next due and thereafter pay its adjusted proportionate share of Taxes in equal

monthly installments as herein provided. Any excess payments shall be credited against the payments of Taxes next due.

Tenant is aware that Landlord, by itself or in combination with other persons, may further expand and develop the Shopping Center in one or more additional phases. In the event one or more of such phases are completed during the term of this Lease, any additional real estate taxes attributable to such other phases may be included in the Taxes at Landlord's discretion.

Tenant shall pay, or cause to be paid, before delinquency, any and all taxes levied or assessed during the term of this Lease upon Tenant's equipment, furniture, inventory, and any other personal property located in the Premises. If any or all of Tenant's equipment, furniture, inventory and other personal property are assessed and taxed with the real property, Tenant shall pay to Landlord its share of such taxes within ten (10) days after delivery to Tenant by Landlord of a statement in writing setting forth the amount of such taxes applicable to Tenant's property.

For property tax purposes, to the extent allowable by law, Tenant waives all rights to protest or appeal the appraised value of the Premises, as well as the Shopping Center, and all rights to receive notices of reappraisalment.

3.3 Advance Rental. Landlord acknowledges receipt from Tenant of an amount equal to Five Thousand Seven Hundred Forty-Two and One/00 Dollars (\$5,742.01) as "Advance Rental", the same to be held as security for the performance by Tenant of all obligations imposed under this Lease which Tenant is required to perform prior to the Commencement Date. If Tenant shall fail to perform such obligations, Landlord shall be entitled to apply this Advance Rental, pro tanto, against any damages which it may sustain by reason of Tenant's failure to perform such obligations, but such application shall not preclude Landlord from recovering greater damages if the same can be established. Otherwise, if Tenant shall have faithfully performed all such obligations as of the Commencement Date, then the Advance Rental shall be applied, pro tanto, by Landlord against the Minimum Rental first becoming due hereunder. No right or remedy available to Landlord as provided in this paragraph shall preclude or extinguish any other right or remedy to which Landlord may be entitled.

3.4 Security Deposit. Tenant has concurrently with the execution of this Lease deposited with Landlord the sum of Five Thousand Seven Hundred Forty-Two and One/00 Dollars (\$5,742.01) (hereinafter referred to as the "Security Deposit") as security for the full performance of every provision of this Lease by Tenant. Landlord may (but shall not be obligated to) apply all or any part of the Security Deposit to cure any default by Tenant hereunder or for the payment of any amount which Landlord may spend or become obligated to spend by reason of Tenant's default, or to compensate Landlord for any other loss or damage which Landlord may suffer by reason of Tenant's default, and Tenant shall restore to the Security Deposit all amounts so applied within ten (10) days of invoice. Landlord shall not be required to keep the Security Deposit separate from its general funds and Tenant shall not be entitled to interest on the Security Deposit. If Tenant shall fully perform each provision of this Lease and no amounts are or may become payable to Landlord by Tenant after the expiration or termination of this Lease, any portion of the Security Deposit which has not been appropriated by Landlord in accordance with the provisions hereof shall be returned to Tenant within thirty (30) days after the expiration of the full stated term

of this Lease. No trust relationship is created hereby between Landlord and Tenant with respect to the Security Deposit.

3.5 Rent. As used herein, the term “rent” or “rental” shall include Minimum Rental, Additional Rental, Advance Rental and all other additional charges or sums payable to Landlord hereunder. With each payment of rent due hereunder, Tenant shall pay to Landlord any and all sales or rental taxes from time to time imposed by any governmental authority in connection with rents paid by Tenant under this Lease.

3.6 Place of Payment; Application of Payment. Tenant shall pay all rentals and other charges and render all statements herein prescribed to Landlord at the following address: 2250 Town Circle Holdings, LLC c/o Spinoso Management Group, PO Box 956393, St. Louis, Missouri 63195-6393, or to such other person and at such other place as shall be designated by Landlord. Landlord may, in its sole discretion, apply payments made by Tenant to accrued charges, interest, and rent in the following order or in any other order Landlord elects in its sole discretion: (i) late charges, (ii) interest, (iii) past due Minimum Rental, Additional Rental and/or Advance Rental, and (iv) any balance remaining to current Minimum Rental, Additional Rental and/or Advance Rental.

3.7 Late Charges. If Tenant fails to pay when due any rent or other amounts or charges which Tenant is obligated to pay under the terms of this Lease, then Tenant shall pay Landlord a late charge equal to five percent (5%) of each such installment if any such installment is not received by Landlord within five (5) days from the date it is due, and Tenant agrees that this late charge represents a reasonable estimate of such costs and expenses and is fair compensation to Landlord for its loss and expenses suffered by such nonpayment by Tenant. Acceptance of any late charge shall not constitute a waiver of Tenant’s default with respect to such nonpayment by Tenant nor prevent Landlord from exercising any other rights or remedies available to Landlord under this Lease. Late charges are deemed Additional Rent. In no event shall this provision for the imposition of a late charge be deemed to grant to Tenant a grace period or an extension of time within which to pay any rent due hereunder or prevent Landlord from exercising any right or remedy available to Landlord upon Tenant’s failure to pay such rent when due.

SECTION 4 USAGE

4.1 Use.

(a) Tenant shall use, occupy, and operate in the Premises solely for the purpose of a satellite library location (the “Permitted Use”) and for no other purpose whatsoever. Tenant shall not conduct any business in the Premises under any trade name other than the Permitted Trade Name set forth in Section 4.3 below.

(b) Tenant covenants to continuously operate during the entire term of this Lease (including any applicable extensions or renewals hereof) upon the whole of the Premises during business hours of 11:00 a.m. through 6:00 p.m. on Monday through Friday, 10:00 a.m. through 5:00 p.m. on Saturday and 12:00

p.m. through 5:00 p.m. on Sunday, or other such hours as are from time to time imposed by Landlord and required of a majority of the other tenants in the Shopping Center (the "Store Hours"). Tenant shall cause its business to be conducted and operated in good faith and in such manner as shall assure the transaction of the maximum volume of business in and at the Premises. Tenant covenants and agrees to remain open for business at least during the Store Hours and such additional hours as shall be determined by Landlord. Tenant shall only open for business outside of the Store Hours with Landlord's prior written approval. If Tenant shall request Landlord's approval of the opening of the Premises for business for periods exceeding those specified as Store Hours, and Landlord shall approve such request, Tenant shall pay for any additional costs incurred by Landlord in connection with Tenant's opening the Premises for business during such additional hours. A vacation of premises or cessation of operations by any other tenant(s) in the Shopping Center shall not in any way release Tenant from Tenant's obligations under this Lease, such obligations being independent covenants of this Lease. The parties agree that Tenant's obligations under this Section 4.1(b) go to the essence of the parties' agreement hereunder, and that any failure to perform such obligations will result in damages to Landlord that are extremely difficult and impractical to determine and for which Landlord's remedies at law will not be adequate. Accordingly, as a fair and reasonable estimate and liquidation of Landlord's damages and not a penalty, if Tenant fails to perform any obligations under this Section 4.1(b) during any portion of any day of the term of this Lease, Tenant shall pay Landlord as additional rent an amount equal to fifty percent (50%) of the Minimum Rental then in effect prorated on a per diem basis. Acceptance by Landlord of such liquidated damages shall not be deemed permission for Tenant to continue such violation, and shall not preclude Landlord from seeking any other remedy (other than damages) for such violation including, without limitation, specific performance or termination of this Lease or Tenant's right to possession as described in Section 10.

(c) Tenant, at its sole cost and expense, shall comply with and shall cause the Premises to comply with (i) all federal, state, county, municipal and other governmental statutes, laws, rules, orders, regulations affecting the Premises or any part thereof, or the use thereof, including, but not limited to, those which require the making of any structural, unforeseen or extraordinary changes, whether or not any such statutes, laws, rules, orders, regulations or ordinances which may be hereafter enacted involve a change of policy on the part of the governmental body enacting the same, and (ii) all rules, orders and regulations of the National Board of Fire Underwriters or Landlord's fire insurance rating organization or other bodies exercising similar functions in connection with the prevention of fire or the correction of hazardous conditions which apply to the Premises.

(d) Tenant shall not do, permit or suffer to be done anything in or about the Premises or the Shopping Center which will in any way obstruct or interfere with the rights of other tenants or occupants of the Shopping Center or

injure or annoy them, their customers or clients, nor shall Tenant use or allow the Premises to be used for any purpose which is objectionable or offensive in Landlord's reasonable judgment or which may be unlawful. In no event shall Tenant use the Premises in any manner which violates any recorded restriction applicable to the Premises or the Shopping Center. In no event shall Tenant use the Premises for the purpose of offering for sale food or food items, either sit-down or take-out, without Landlord's prior written consent.

(e) If Tenant permits or engages in any activity which, in Landlord's reasonable judgment, is objectionable, offensive or otherwise constitutes a nuisance to the customers or other tenants of the Shopping Center or that may be unlawful, or in violation of this Lease, Tenant shall immediately discontinue such activity or take immediate action to cause the activity to be discontinued with all due diligence if it cannot be immediately discontinued. Tenant's failure to comply shall constitute a material breach and default of this Lease and entitle Landlord to pursue its remedies for such a breach and default.

4.2 Operations by Tenant. In regard to the use and occupancy of the Premises, Tenant will at its expense: (a) keep the inside and outside of all glass in the doors and windows of the Premises clean; (b) keep all exterior store surfaces of the Premises clean; (c) replace promptly any cracked or broken glass of the Premises with glass of like grade and quality; (d) maintain the Premises in a clean, orderly and sanitary condition and free of insects, rodents, vermin and other pests; (e) keep any garbage, trash, rubbish or other refuse in rat-proof containers within the interior of the Premises until removed; (f) have such garbage, trash, rubbish and refuse removed from the Shopping Center on a daily basis; (g) keep all mechanical apparatus free of vibration and noise which may be transmitted beyond the Premises; (h) comply with all laws, ordinances, rules and regulations of governmental authorities and all recommendations of Landlord's fire insurance rating organization now or hereafter in effect; (i) light the show windows of the Premises and exterior signs and turn the same off to the extent required by Landlord; (j) keep the Premises sufficiently heated to prevent freezing in water pipes; (k) comply with and observe any recorded restrictive covenants and all rules and regulations established by Landlord from time to time which apply generally to all retail tenants in the Shopping Center; (l) maintain sufficient and seasonal inventory and have sufficient number of personnel in the Premises; (m) conduct its business in all respects in a dignified manner in accordance with high standards of store operation consistent with the quality of operation of the Shopping Center as determined by Landlord and provide an appropriate mercantile quality comparable with the entire Shopping Center.

In regard to its use and occupancy of the Premises and the Common Areas, Tenant will not: (n) place or maintain any merchandise, trash, refuse or other articles in any vestibule or entry of the Premises, on the footwalks or corridors adjacent thereto or elsewhere on the exterior of the Premises so as to obstruct any driveway, corridor, footwalk, parking area or any other Common Areas; (o) use or permit the use of any objectionable advertising medium such as, without limitation, flashing lights, loudspeakers, phonographs, public address systems, sound amplifiers, reception of radio or television broadcasts within the boundaries of the Shopping Center, which is in any manner audible or visible outside of the Premises; (p) permit undue accumulations of or burn garbage, trash, rubbish or other refuse within or without the Premises; (q) cause or permit objectionable odors to emanate or to be dispelled from the Premises; (r) solicit

business in the parking area or any other Common Areas; (s) distribute handbills or other advertising matter to, in or upon any automobiles parked in the parking area or any other Common Areas; (t) permit the parking of vehicles so as to interfere with the use of any driveway, corridor, footwalk, parking area or other Common Areas; (u) receive or ship articles of any kind outside the designated loading areas for the Premises; (v) use any Common Areas for the sale or display of any merchandise or for any other business, occupation or undertaking; (w) conduct or permit to be conducted any auction, fire, going out of business, bankruptcy, or other similar type sale in or connected with the Premises or post or exhibit any signs advertising or promoting any such sale (but this provision shall not restrict the absolute freedom of Tenant in determining its own selling prices, nor shall it preclude the conduct of periodic seasonal, promotional or clearance sales); (x) use or permit the use of any portion of the Premises for any unlawful purpose or for any activity of a type which is not generally considered appropriate for similar shopping centers conducted in accordance with good and generally accepted standards of operation; (y) place a load upon any floor which exceeds the floor load which the floor was designed to carry; or (z) operate its heating or air-conditioning in such a manner as to drain heat or air-conditioning from the premises of any other tenant or other occupant of the Shopping Center.

Notwithstanding anything to the contrary contained in this Lease, Tenant shall not use or permit the use of space in the Premises for any of the following: (a) bowling alley; (b) arcade; (c) bar, tavern or cocktail lounge; (d) health club, spa or gymnasium; (e) any nightclub, discotheque, dance hall, billiard or pool hall; (f) secondhand or surplus store; (g) any mobile home park or trailer court; (h) any dumping, disposing, incineration or reduction of garbage (exclusive of appropriately screened dumpsters located in the rear of any building); (i) any fire sale, bankruptcy sale or auction house operation; (j) "wholesale" or "factory outlet" store, cooperative store, "second hand" store, "surplus" store or store commonly referred to as a "discount house"; (k) central laundry or dry cleaning plant or laundromat; (l) automobile, truck, trailer, R.V., boat, or other motor vehicle sales, rental, leasing, display, repair, maintenance, warehouse or car wash; (m) skating rink; (n) living quarters, sleeping apartments or lodging rooms; (o) veterinary hospital, animal raising facilities or pet shop; (p) mortuary; (q) massage parlor; (r) any establishment selling or exhibiting drug or pornographic materials as more particularly described below; (s) restaurant; (t) movie or other theater; (u) separately demised newsstand; or (v) any use which is in conflict with or may create rights pursuant to the exclusive or prohibited use rights of other tenants.

Tenant acknowledges that it is Landlord's intent that the Shopping Center be operated in a manner which is consistent with the highest standards of decency and morals prevailing in the community which it serves. Toward that end, Tenant agrees that it will not sell, distribute, display or offer for sale any item which, in Landlord's good faith judgment, is inconsistent with the quality of operation of the Shopping Center or may tend to injure or detract from the moral character or image of the Shopping Center within such community. Without limiting the generality of the foregoing, Tenant will not sell, distribute, display or offer for sale (i) any roach clip, water pipe, bong, toke, coke spoon, cigarette papers, hypodermic syringe or other paraphernalia commonly used in the use or ingestion of illicit drugs, or (ii) any pornographic, lewd, suggestive, or "adult" newspaper, book, magazine, film, videotapes, picture, representation or merchandise of any kind. The foregoing restriction shall not prohibit Tenant's normal operations for the Permitted Use consistent with the standards of typical municipal libraries; however, if Landlord receives any objection from a third party based on a recorded restrictive covenant agreement or a lease existing on the date of this Lease,

Tenant will promptly remove the objectionable material or otherwise resolve the objection to Landlord's reasonable satisfaction.

Tenant recognizes that the use and care provisions contained in this Section 4.2 are reasonable and necessary for the protection of the Shopping Center's operations and Landlord's legitimate business interests, goodwill with the public and relations with tenants. Tenant acknowledges that any breach or violation of the use and care provisions contained in this Section 4.2 will cause substantial damages and irreparable harm to Shopping Center and Landlord for which there may be no adequate remedy at law. Thus, in addition to any other remedies, Landlord will be entitled to temporary and/or permanent injunctive relief to enforce the provisions of this Lease without the necessity of proving actual damages or posting bond or other security.

4.3 Trade Name. Tenant shall operate in the Premises solely under the trade name Moreno Valley Library (the "Permitted Trade Name") and no other name without the written consent of Landlord. Landlord makes no representation or warranty and has given no assurance, express or implied, as to the availability or continued availability of the Permitted Trade Name. Tenant shall indemnify, defend and hold Landlord harmless from any and all losses, claims, causes of action, judgments and liabilities (including but not limited to costs of investigation, attorneys' fees and costs) arising out of or relating to Tenant's use of the Permitted Trade Name, including but not limited to trademark and service mark infringement and dilution claims. The foregoing obligation shall survive the expiration or earlier termination of this Lease.

4.4 Rules and Regulations. Tenant shall observe faithfully and comply strictly with the Rules and Regulations attached hereto as Exhibit E and made a part hereof by this reference, and with all other Rules and Regulations (and amendments and modifications to same) that Landlord may from time to time reasonably adopt for the safety, operation, care and cleanliness of the Shopping Center or the preservation of good order therein. Landlord shall not be liable to Tenant for any violation of the Rules and Regulations, or for the breach of any covenant or condition in any lease, by any other tenant in the Shopping Center.

4.5 Roof and Walls. Landlord shall have the exclusive right to use all or any part of the Premises for any purpose; to erect other structures over all or any part of the Premises; and to erect in connection with the construction thereof temporary scaffolds and other aids to construction on the exterior of the Premises, provided that access to the Premises shall not be denied. Tenant further agrees that Landlord may make any use it desires of the side or rear walls of the Premises, provided that there shall be no encroachment upon the interior of the Premises.

4.6 Common Area Control. Landlord grants to Tenant and Tenant's agents, employees and customers a non-exclusive revocable license to use the Common Areas in common with others during the term, subject to the exclusive control and management thereof at all times by Landlord. Landlord shall have the right at all times, in its sole discretion, to change the location, nature and/or use of any portion of the Common Areas, the Shopping Center or any part thereof as Landlord may from time to time determine.

4.7 Relocation. During the term hereof, Landlord shall have the right, upon thirty (30) days' notice to Tenant, to relocate the Premises to a reasonable location in the Shopping Center comparable in size to the Premises (as determined by Landlord) and on the same terms and

conditions as contained herein. Landlord shall tender the new location to Tenant in substantially the same condition as the Premises were in immediately prior to such relocation. Landlord may at its option (but without waiving other rights or remedies available under this Lease or otherwise), terminate this Lease if Tenant refuses to accept said new location. Landlord shall not be responsible for any lost business or other losses that may be suffered by Tenant as a result of the requirement that Tenant vacate the Premises, but Landlord shall reimburse Tenant for the actual reasonable out-of-pocket costs incurred in moving Tenant's inventory and trade fixtures to the new space. If Tenant is relocated, the Minimum Rental for the new space shall be the same as the current "per square foot" rate for the Premises. Upon the relocation of Tenant, the new space shall be considered the Premises under this Lease.

4.8 Management and Operation of Common Areas. Landlord will operate and maintain or will cause to be operated and maintained the Common Areas in a manner deemed by Landlord to be reasonable and appropriate and in the best interests of the Shopping Center. Landlord will have the right (a) to establish, modify and enforce reasonable rules and regulations with respect to the Common Areas; (b) to enter into, modify and terminate easements and other agreements pertaining to the use and maintenance of the parking areas and other Common Areas; (c) to enforce parking charges (by operation of meters or otherwise) with appropriate provisions for free parking ticket validation by tenants; (d) to close all or any portion of said parking areas or other Common Areas to such extent as may, in the opinion of Landlord, be necessary to prevent a dedication thereof or the accrual of any rights to any person or to the public therein; (e) to close temporarily any or all portions of the Common Areas; (f) to discourage non-customer parking; and (g) to do and perform such other acts in and to said areas and improvements as, in the exercise of good business judgment, Landlord shall determine to be advisable.

4.9 Employee Parking Areas. Tenant and its employees shall park their cars only in such areas designated for that purpose by Landlord. If Tenant or its employees shall fail to park their cars in the designated parking areas, then without limiting any other remedy which Landlord may pursue in the event of Tenant's default, Landlord, after giving notice to Tenant, shall have the right to charge Tenant, as Additional Rental, the sum of Twenty-Five and no/100 Dollars (\$25.00) per day per car parked in violation of the provisions of this paragraph. Tenant shall notify its employees in writing of the provisions of this paragraph.

4.10 Antenna. Tenant may, following notice to Landlord, install a radio antenna and cables (the "Antenna System") on the roof directly over the Premises, provided, however, that (a) such installation shall be performed by Landlord's roofing contractor or a contractor reasonably approved by Landlord, in accordance with plans and specifications approved in advance by Landlord, in a good and workmanlike manner in compliance with customary industry tolerances and practices, and otherwise in compliance with all applicable laws, codes and ordinances, (b) the Antenna System shall be a non-penetrating mount, properly secured and installed and properly grounded, shall not exceed the load limits of the rooftop of the Shopping Center and shall not void or impair Landlord's existing roof warranty, (c) no part of the Antenna System shall be visible to public view, and (d) the Antenna System and any future additions to or modifications of the Antenna System shall not unreasonably interfere with any currently existing communication equipment serving the Shopping Center or any tenant of the Shopping Center. Tenant agrees to indemnify, defend and hold Landlord harmless from and against any and all loss, cost, claim and liability reasonably incurred by Landlord (including reasonable attorneys' fees) for injuries to all persons and for damage to or loss of all property arising

from any act or omission of Tenant or Tenant's agents, employees or contractors relating to the installation, maintenance, operation or removal of the Antenna System, including, without limitation, (i) Tenant's failure to cause the same to comply at all times with all applicable governmental regulations, (ii) the invalidation or impairment of Landlord's roof warranty, and (iii) any damage to the roof caused by Tenant during the installation, repair, maintenance or operation of its Antenna System. Tenant shall, at its sole cost and expense, relocate the Antenna System if such relocation is necessary for Landlord to perform any maintenance or repairs with respect to the roof or if the Antenna System is damaging the roof in its then current location. At the expiration or earlier termination of this Lease, Tenant shall, unless Landlord consents otherwise in writing, remove the Antenna System and related equipment and cabling from the roof and promptly repair any damage to the roof caused by such removal.

SECTION 5

ALTERATIONS, REPAIRS AND MAINTENANCE

5.1 Alterations by Tenant. Tenant shall not make any alterations, additions, or improvements to the Premises (including but not limited to alterations to the exterior, the storefront, signs and/or utility lines or systems within or serving the Premises) nor secure any fixture or apparatus to the Premises without Landlord's prior written approval and Tenant shall promptly remove upon order from Landlord any decoration or alteration made or installed upon the Premises without Landlord's prior written consent. Upon completion of each alteration, addition, or improvement pursuant to this Section 5.1, Landlord shall promptly be provided with complete "as built" drawings and specifications. Tenant shall secure any and all governmental permits, approvals or authorizations required in connection with any such work, and all such work shall be performed in strict compliance with local, state, and federal laws, regulations, orders, and directives. All alterations, fixtures, betterments and improvements made to or installed upon the Premises (expressly including without limitation all light fixtures and floor coverings, but expressly excluding any inventory, furniture and other personal property which does not become a part of the Premises) shall remain upon the Premises, and shall become Landlord's property upon the expiration or earlier termination of this Lease unless Landlord shall require Tenant to restore all or a portion of the Premises to its original condition. If Landlord requires Tenant to remove any alterations, additions, or improvements from the Premises, Tenant shall, at Tenant's sole cost and expense, forthwith remove the same, and forthwith repair any damage to the Premises caused by such removal. Tenant's obligations hereunder shall survive the expiration or any earlier termination of this Lease.

Notwithstanding anything in this Lease to the contrary, if Tenant constructs, makes or installs or causes to be constructed, made or installed any improvement or alteration in or to the Premises (including but not limited to Tenant's Work), Tenant shall be solely responsible for ensuring that such improvements and/or alterations do not violate any provision in any local, state or federal law or regulation relating to accessibility for handicapped persons or the removal of architectural or communication barriers to accessibility ("Disability Law"), including but not limited to The Americans with Disabilities Act. Any approval by Landlord of Tenant's plans or specifications for any such improvements or alterations shall not be a representation or warranty, express or implied, by Landlord that such plans will comply with any Disability Law. If any claim is asserted against Landlord under any Disability Law which claim relates directly or indirectly to any alterations or improvements installed, made or constructed, directly or indirectly, by or for

Tenant in or to the Premises or any trade fixture or personal property item used by Tenant in the Premises, Tenant shall defend, indemnify and hold Landlord harmless from and against the claim and any and all charges, liabilities, obligations, penalties, damages, judgments, costs and expenses (including costs of investigation and attorneys' fees) arising or incurred against or suffered, directly or indirectly, by Landlord relating thereto. The foregoing obligation shall survive the expiration or earlier termination of this Lease. If it should be determined that any improvement or alteration constructed, made or installed in or to the Premises, directly or indirectly, by or for Tenant or any trade fixture or personal property item used by Tenant in the Premises is an illegal architectural or communication barrier under any Disability Law, Tenant shall immediately, at its sole cost and expense, remove the barrier or, to the extent allowed by the Disability Law, provide alternatives to the barrier so as to make the Premises accessible to handicapped persons. No alteration or improvement in the Premises will be approved by Landlord if it will require that barriers outside the Premises be removed under any Disability Law. Tenant shall not have any basis for objecting to Landlord's judgment regarding the probable application of any Disability Law provided Landlord does not act arbitrarily.

5.2 Repairs and Maintenance by Tenant. Landlord shall keep the structural portions of the Premises and the Shopping Center, as applicable, in reasonable repair, provided that Tenant shall give Landlord written notice of the necessity for such repair as same affects the Premises. In addition, Landlord may, at its option, through a preventative maintenance contract or otherwise, provide periodic maintenance, service and repair or replacement for the heating, cooling and ventilating units (the "HVAC") serving the Premises and/or the Common Areas of the Shopping Center. The cost of such maintenance, service and repairs or replacement may be invoiced directly to Tenant to the extent such costs relate to the Premises. Tenant shall keep the interior of the Premises, together with the storefront and all windows, plate glass and doors of the Premises, and all electrical, plumbing, sprinkler systems and any other mechanical installations serving the Premises, whether or not in or under the floor slab or on the roof of the Premises, in good working order and repair, at its expense. In the event Landlord elects not to maintain the HVAC of the Premises as set forth above, Tenant shall be obligated for the maintenance, repair and replacement of the HVAC, at its sole cost and expense pursuant to the provisions in Exhibit G attached hereto and by this reference made a part hereof, provided, however, that if any repairs or replacement are such that they will affect any structural portion of the Premises including the roof or floor slab or any common systems serving other leased space in the Shopping Center, then Tenant shall so notify Landlord in writing, and, in such event, Landlord may elect, in its sole discretion, to make such repairs or replacement without liability to Tenant and at Tenant's cost, payable within thirty (30) days of invoice as Additional Rent hereunder. Tenant agrees to employ during the term of this Lease a contractor approved by Landlord to perform Tenant's obligations for maintenance, repair and replacement of the HVAC of the Premises, including at least semiannual inspections and cleaning of the HVAC system together with such servicing as each such inspection discloses or as shall be reasonably required by Landlord. Tenant shall deliver to Landlord within ten (10) days after demand by Landlord a copy of Tenant's service agreement with an appropriate HVAC contractor. If Tenant ever enters into a different service agreement replacing the original agreement, Tenant shall deliver to Landlord within ten (10) days after entering into the replacement service agreement a copy of such replacement service agreement. Tenant shall promptly repair, at its expense, any damage to the Premises caused by bringing into the Premises any property for Tenant's use, or by the installation or removal of such property regardless of fault or by whom

such damage may be caused, unless caused solely by the affirmative acts or negligence of Landlord, its agents or employees. In the event Tenant fails to make such repairs, Landlord may, at its option and without waiving any other right or remedy available to Landlord under this Lease or otherwise, but need not, make same and Tenant agrees to pay Landlord as Additional Rent the cost thereof promptly upon demand by Landlord plus fifteen percent (15%) of such cost for Landlord's overhead and administrative costs. Tenant shall not overload the floor slab, electric wiring or utilities serving the Premises and shall install at Tenant's sole expense, after first obtaining Landlord's written approval, any additional electric wiring that may be required in connection with Tenant's apparatus, equipment or fixtures.

5.3 Liens. Tenant hereby defends, indemnifies and holds Landlord harmless from and against, and shall keep the Premises and the Shopping Center free from liens, and any costs or liabilities associated with any liens, for any work performed, material furnished, or obligations incurred by Tenant, which indemnity shall survive the expiration or earlier termination of this Lease. No work performed by, through, under or for Tenant pursuant to this Lease shall be deemed to be for the immediate use or benefit of Landlord to the end that no mechanic's or other liens shall be allowed against the estate of Landlord by reason of any consent given by Landlord to Tenant to improve the Premises. Prior to commencing any work on the Premises, Tenant shall provide to Landlord, at Tenant's sole expense, separate payment and performance bonds in an amount equal to either (i) the actual guaranteed maximum contract price or (ii) one and one-half (1-1/2) times the estimated cost of any improvements, additions, or alterations which Tenant desires to make within the Premises. Such bonds shall cover the faithful performance of the contract and payment of all obligations arising therefrom and insure Landlord against any liability for mechanics', materialmen's, or other construction liens and the completion of any such work. Should liens or claims be filed against the Premises or the Shopping Center by reason of Tenant's acts or omissions, Tenant shall cause same to be discharged by bond or otherwise within ten (10) days after filing. In the event such lien is not removed within the time set forth herein, Landlord, at its sole option, may, without waiving any other right or remedy available to Landlord under this Lease or otherwise, immediately take all action necessary to release and remove such lien. All sums, costs, liabilities and expenses, including costs of investigation and reasonable attorney's fees and costs incurred by Landlord in connection with such lien shall be deemed Additional Rent and shall be immediately due and payable.

5.4 Sign and Displays. Tenant shall not place or have placed or maintained on the exterior of or within the Premises, the Common Areas or at any other location within the boundaries of the Shopping Center any sign, awning or advertising without the prior written consent of Landlord. Tenant agrees to have erected and/or installed and fully operative on or before the Commencement Date a storefront sign which sign shall be in keeping with the character and standards of the improvements within the Shopping Center, as determined by Landlord. All interior and exterior signage shall comply with applicable state, municipal and county law and code, and with Landlord's Sign Criteria attached as Exhibit F and incorporated herein. Without limiting the foregoing, in no event shall Tenant post or exhibit any signs advertising or promoting any auction, fire, going out of business, bankruptcy or other similar type of sale. Landlord shall have the exclusive right to use the roof and Tenant shall not affix any sign or aerial to the roof of the Premises. Tenant may not display or sell merchandise outside the defined exterior walls and permanent doorways of the Premises, nor permit carts or racks or other similar devices within the control of Tenant to be placed or stored in such locations. Tenant further agrees not to install any

exterior lighting, amplifiers or similar devices or use in or about the Premises, such as flashing lights, searchlights, loudspeakers, phonographs or radio broadcasts. Tenant will install and maintain at all times, subject to other provisions of this section, displays of merchandise in the show windows (if any) of the Premises. All articles, displays, signs or other similar promotional materials and the arrangement, style, color and general appearance thereof, in the interior of the Premises including, without limitation, window displays, advertising and promotional matter, signs, banners, merchandise and store fixtures, shall be in keeping with the character and standards of the improvements within the Shopping Center, as determined by Landlord. Landlord reserves the right to require Tenant to correct any nonconformity with the requirements of this Section.

5.5 Sidewalks. Tenant agrees that it shall keep the sidewalks immediately abutting the Premises free from obstructions of all nature, properly swept, and snow and ice removed therefrom.

5.6 Contractors. All work described in this Section 5 shall be performed only by contractors and subcontractors approved in writing by Landlord. Tenant shall cause all contractors and subcontractors to procure and maintain insurance coverage against such risks, in such amounts, and with such companies as Landlord may reasonably require. All work affecting the roof of any building must be performed by Landlord's roofing contractor or a contractor approved by Landlord and no such work will be permitted if it would void or reduce the warranty on the roof.

SECTION 6 DAMAGE, DESTRUCTION OR CONDEMNATION

6.1 Casualty. Except as otherwise provided herein, if the Premises are damaged by fire or other insured casualty and such damage does not equal or exceed forty percent (40%) of the replacement cost thereof, the damage shall be promptly repaired by Landlord to the extent (i) that such repair would not be considered "construction" with respect to the Premises within the meaning of Treas. Reg. Section 1.856-6, (ii) of the insurance proceeds available therefor, and (iii) permitted under the terms of Landlord's Pooling and Servicing Agreement. Tenant at its sole expense shall restore thereto all work and improvements originally installed or performed by Tenant immediately upon the completion of Landlord's work or simultaneously with such work to the extent practicable. Until repairs to the Premises are completed by Landlord, Minimum Rental shall be abated in proportion to the part of the Premises, if any, which is unusable by Tenant in the conduct of its business, but if the damage is due to the fault or neglect of Tenant or its employees, agents or invitees, there shall be no abatement of rent. If: (a) the Premises is damaged to the extent of more than forty percent (40%) of the replacement cost thereof; or (b) the Shopping Center or building in which the Premises is located is damaged by fire or other insured casualty to the extent of twenty-five percent (25%) or more of the replacement cost thereof; or (c) any damage to the Premises cannot, in Landlord's sole discretion, be repaired within ninety (90) days of the date of such damage; or (d) the Premises is damaged or destroyed during the last thirty percent (30%) of the term hereof; then Landlord may at its sole option terminate this Lease by written notice to Tenant. Landlord shall notify Tenant of its election to terminate within thirty (30) days following its receipt of notification of the availability of insurance proceeds for such repairs or restorations. If Landlord does not elect to terminate this Lease, it will commence promptly such repairs and restorations and prosecute same to completion with due diligence.

If Landlord should elect or be obligated pursuant to this Section 6.1 to repair or rebuild because of any damage or destruction, Landlord's obligation shall be limited to the basic building and any other work or improvements which may have been originally performed or installed at Landlord's expense. If the cost of performing Landlord's obligation exceeds the actual proceeds of insurance paid or payable to Landlord on account of such casualty, Landlord may terminate this lease unless Tenant, within fifteen (15) days after demand therefor, deposits with Landlord a sum of money sufficient to pay the difference between the cost of repair and the proceeds of insurance available for such purpose.

Upon the termination of this Lease pursuant to the provisions of this Section 6.1, the parties shall be released thereby without further obligations to the other party coincident with the surrender of possession of the Premises to Landlord, except for items which have theretofore accrued and be then unpaid. In the event of such termination, all of Tenant's insurance proceeds covering Tenant's leasehold improvements, but excluding proceeds for trade fixtures, merchandise, signs and other personal property, shall be disbursed and paid to Landlord.

6.2 Condemnation. If the whole of the Premises, or so much thereof as to render the balance unusable by Tenant, shall be taken under power of eminent domain, or otherwise transferred in lieu thereof, or if any part of the Shopping Center is taken and its continued operation is not in Landlord's sole opinion, economical, this Lease shall automatically terminate as of the date possession is taken by the condemning authority. No award for any total or partial taking shall be apportioned to Tenant, and Tenant hereby unconditionally assigns to Landlord any award which may be made in such taking or condemnation; except that Tenant shall have the right to file a separate claim available to Tenant for moving expenses and any taking of Tenant's personal property, provided such award is separately payable to Tenant and does not diminish the award available to Landlord or any lender. In the event of a partial taking or condemnation which does not result in the termination of this Lease, Minimum Rental shall be apportioned according to the part of the Premises remaining useable by Tenant.

SECTION 7

UTILITIES

7.1 Payment. Tenant shall promptly pay before delinquency all charges for utilities and other services furnished to the Premises whether by Landlord or the applicable utility company. Landlord shall not be liable for any interruptions or curtailment in utility services and any such interruption or curtailment shall not constitute a termination of this Lease or eviction of Tenant. Tenant shall not at any time overburden or exceed the capacity of the mains, feeders, ducts, conduits or other facilities by which such utilities are supplied to, distributed in or serve the Premises and Tenant shall comply with the rules, regulations and requirements of all governmental and quasi-governmental agencies with respect thereto.

7.2 Utilities. Landlord shall have the right to run utility lines, pipes, roof drainage pipes, conduit, wire, ductwork or sprinkler systems where necessary, through, in or beneath the Premises and to maintain the same in a manner which does not unduly interfere with Tenant's use thereof. Tenant shall not install any equipment which exceeds or overloads the capacity of the utility facilities serving the Premises.

7.3 ENERGY STAR® Portfolio Manager Data Collection. Tenant understands that Landlord is required under applicable law to obtain, input and disclose certain benchmarking data for the U.S. Environmental Protection Agency's ENERGY STAR® Portfolio Manager. Accordingly, within ten (10) days following written request therefor from Landlord (and thereafter as set forth below), Tenant will complete, execute and deliver to Landlord a data release authorization for each utility serving the Premises maintained in Tenant's name or otherwise for the account of Tenant, in form and substance required by the relevant utility provider, permitting the relevant utility to disclose to Landlord Tenant's monthly billing data, building square footage, occupancy type, operational characteristics and other information reasonably required for purposes of inputting the benchmarking data required by the U.S. Environmental Protection Agency's ENERGY STAR® Portfolio Manager (the "Data Release Authorization"). In addition, if Tenant's name or entity changes, Tenant shall complete, execute and deliver to Landlord an additional Data Release Authorization within ten (10) days following receipt of written request therefor from Landlord. Tenant's failure to comply with the provisions of this Section 7.3 shall be a material default under this Lease.

SECTION 8 **INDEMNIFICATION**

8.1 Indemnification. Tenant hereby agrees to indemnify and hold and, at Landlord's election, defend Landlord, its partners, trustees, officers, directors, shareholders, beneficiaries, agents and employees harmless from any and all claims, damages, liabilities or expenses, including costs of investigation and attorneys' fees, arising out of (a) Tenant's use of the Premises; (b) any and all claims arising from any breach or default in the performance of any obligation of Tenant under this Lease; and (c) any act, omission or negligence of Tenant, its agents, contractors, licensees, invitees or employees. The foregoing indemnity shall survive the expiration or earlier termination of this Lease. Tenant further releases Landlord from liability for any damages sustained by Tenant or any other person claiming by, through or under Tenant due to the Premises, or any part thereof or any appurtenances thereto becoming out of repair, or due to the happening of any accident, including but not limited to any damage caused by water, snow, windstorm, tornado, gas, steam, electrical wiring, sprinkler system, plumbing, heating and air conditioning apparatus or from any acts or omissions of co-tenants or other occupants of the Shopping Center including acts or omissions of such co-tenants or other occupants which may violate their lease. To the maximum extent permitted by law, Tenant agrees to use and occupy the Premises and to use such other portions of the Shopping Center as Tenant is herein given the right to use, at Tenant's own risk. Landlord shall not be liable for any damage to or loss of Tenant's personal property, inventory, fixtures or improvements, from any cause whatsoever except the affirmative acts of proven negligence of Landlord, and then only to the extent not covered by insurance to be obtained by Tenant in accordance with Section 9 hereof.

SECTION 9 **INSURANCE**

9.1 Liability/Property Insurance. Tenant shall maintain at its sole expense during the term hereof, commercial general liability insurance with broad form contractual liability coverage, or self-insurance, with coverage limits of not less than One Million Dollars (\$1,000,000.00) per

occurrence and a general aggregate limit of at least Two Million Dollars (\$2,000,000.00) and Tenant shall provide, in addition, excess liability insurance on a following form basis, with overall excess limits of at least Five Million Dollars (\$5,000,000.00), specifically including liquor liability insurance covering consumption of alcoholic beverages purchased or received from Tenant, if the sale or distribution of alcoholic beverages is permitted in the Premises. Such policy shall insure Tenant's performance of the indemnity provisions of this Lease, but the amount of such insurance shall not limit Tenant's liability nor relieve Tenant of any obligations hereunder. Tenant shall also keep in force insurance against loss or damage to plate glass in or on the Premises and special form also known as "all risk" perils coverage insurance for the full replacement value of Tenant's improvements and Tenant's property, including, but not limited to, inventory, trade fixtures, furnishings and other personal property. Tenant shall also maintain boiler and machinery insurance on the heating, ventilating and air conditioning system serving the Premises. All such policies shall be written by companies reasonably satisfactory to Landlord and Tenant will cause such insurance policies to name (i) Landlord as additional insured for the liability insurance required hereunder, (ii) at Landlord's election, Landlord's property manager as designated by Landlord from time to time ("Property Manager") as additional insured for the liability insurance required hereunder and (iii) Landlord as a loss payee with respect to Tenant's improvements. All such insurance shall be written so as to provide that the insurer waives all right of recovery by way of subrogation against Landlord or Property Manager in connection with any loss or damage covered by the policy. In addition, Tenant shall keep in force Workers' Compensation or similar insurance to the extent required by law. Upon execution of this Lease, Tenant shall deliver copies of said policies or, pending issuance of such policies, certificates thereof to Landlord. Should Tenant fail to effect the insurance called for herein Landlord may, at its sole option, procure said insurance and pay the requisite premiums, in which event, Tenant shall pay all sums so expended to Landlord as Additional Rental following invoice and promptly upon demand. Each insurer under the policies required hereunder shall agree by endorsement on the policy issued by it or by independent instrument furnished to Landlord thirty (30) days' prior written notice to Landlord before the policy or policies in question shall be altered or cancelled. All insurance carried by Tenant must be "guaranteed cost" insurance coverage with no deductible allowed for real or personal property coverage greater than Twenty Five Thousand Dollars (\$25,000.00). No deductible or similar retention will be accepted for any third party coverage; including, without limitation, workers compensation, commercial general liability or auto liability. Tenant's insurance shall be primary, and any insurance maintained by Landlord or any other additional insureds hereunder shall be excess and noncontributory. Landlord shall have the right to reasonably increase the amount or expand the scope of insurance to be maintained by Tenant hereunder from time to time.

9.2 Increase in Insurance Premium. Tenant will not do or suffer to be done, or keep or suffer to be kept, anything in, upon or about the Premises which will violate Landlord's policies of hazard or liability insurance or otherwise violate any other insurance policy(ies) carried by Landlord on the Premises or on the Shopping Center or which will prevent Landlord from procuring such policies in companies acceptable to Landlord. If anything done, permitted to be done or suffered by Tenant to be kept in, upon or about the Premises shall cause the premium or rate of fire or other insurance on the Premises or on other property of Landlord or of others within the Shopping Center to be increased beyond the minimum rate from time to time applicable to the Premises or to any such other property for the use or uses made thereof, Tenant will pay, as additional rental, the amount of any such increase promptly upon Landlord's demand.

9.3 Subrogation. Landlord and Tenant each waive any claim it might have against the other for any damage to or theft, destruction, loss, or loss of use of any property, to the extent the same is insured against under any insurance policy that covers the Shopping Center, the Premises, Landlord's or Tenant's fixtures, personal property, leasehold improvements, or business, or is required to be insured against under the terms hereof, regardless of whether the negligence of the other party caused such loss. Landlord and Tenant each hereby waive any right of subrogation and right of recovery or cause of action for injury including death or disease to respective employees of either as covered by Worker's Compensation Insurance (or which would have been covered if Tenant or Landlord as the case may be, was carrying the insurance as required by this Lease). Each party shall cause its insurance carrier to endorse all applicable policies waiving the carrier's rights of recovery under subrogation or otherwise against the other party.

SECTION 10 **DEFAULT**

10.1 Default by Tenant. In the event that Tenant (a) fails to pay all or any portion of any sum due from Tenant hereunder or pursuant to any Exhibit hereto; (b) fails to cease all conduct prohibited hereby immediately upon receipt of written notice from Landlord; (c) fails to take actions in accordance with the provisions of written notice from Landlord to remedy Tenant's failure to perform any of the terms, covenants and conditions hereof; (d) fails to conduct business in the Premises as herein required; (e) becomes bankrupt, insolvent or files any debtor proceeding, takes or has taken against Tenant any petition of bankruptcy; takes action or has action taken against Tenant for the appointment of a receiver for all or a substantial portion of Tenant's assets; files a petition for a corporate reorganization; makes an assignment for the benefit of creditors, or if in any other manner Tenant's interest hereunder shall pass to another by operation of law (any or all of the occurrences in this Section 10.1(e) shall be deemed a default on account of bankruptcy for the purposes hereof); or (f) commits waste to the Premises; then Tenant shall be in default hereunder.

10.2 Remedies. In the event Tenant is in default under this Lease, in addition to all other rights and remedies which Landlord may have in equity or in law, Landlord shall have all of the following remedies:

(a) Landlord shall have the right, without any further demand or notice, to terminate this Lease, re-enter the Premises and eject all persons from the Premises, using all necessary force to do so, without prejudice to any other remedies that Landlord may have. In the event of any such termination, Landlord shall have all the rights and remedies of a landlord provided by law. The amount of damages which Landlord may recover includes: (a) the worth at the time of award of the unpaid rent or other charges which had been earned at the time of termination; (b) the worth at the time of award of the amount by which the unpaid rent or other charges which would have been earned after termination until the time of award exceeds the amount of loss of such rental and other charges that Tenant proves could have been reasonably avoided; (c) the worth at the time of award of the amount by which the unpaid rent and other charges for the balance of the term after the time of award exceeds the amount of the loss of such rental and other charges for such period that Tenant

proves could be reasonably avoided; (d) any other amount necessary to compensate Landlord for all detriment proximately caused by Tenant's failure to perform Tenant's obligations under this Lease, including, by way of illustration and not limitation, real estate commissions, or which in the ordinary course of events would be likely to result therefrom. The "worth at the time of award" as utilized in sub-parts (a), (b), (c) and (d) hereinabove shall be computed by allowing interest at the rate which is the maximum permitted by law.

(b) Landlord has the remedy described in California Civil Code Section 1951.4 (Landlord may continue this Lease in effect after Tenant's breach and abandonment and recover rent as it becomes due, if Tenant has right to sublet or assign, subject only to reasonable limitations). In the event Landlord gives Tenant written notice that Landlord elects not to terminate this Lease, Tenant shall have the right to sublease the Premises or assign Tenant's interest in this Lease, or both, subject to all other provisions of this Lease pertaining to assignments and subleasing, and Landlord shall have all the remedies of a lessor provided by law. Notwithstanding any such election by Landlord not to terminate this Lease, Landlord may at any time thereafter elect to terminate this Lease for any subsequent breach or default.

(c) Landlord shall have the right to cause a receiver to be appointed in any action against Tenant to take possession of the Premises and/or to collect the rents or profits derived therefrom. Said receiver may, if it is necessary or convenient in order to collect such rents or profits, take possession of any property belonging to Tenant and used in the conduct of such business and may use the same in conducting such business on the Premises without compensation to Tenant for such use. Neither the application for the appointment of such receiver nor the appointment of such receiver shall constitute an election on the part of Landlord to terminate this Lease unless a written notice of such intention is given to Tenant.

(d) Any action taken by Landlord under this Section shall not operate as a waiver of any right which Landlord would otherwise have against Tenant for rent hereby or otherwise, and Tenant shall remain responsible to Landlord for any loss and/or damage suffered by Landlord by reason of Tenant's default or breach. The words "reenter" and "reentry" as used in this Lease are not restricted to their technical legal meaning.

10.3 Rights and Remedies of Landlord. The various rights and remedies herein granted to Landlord shall be cumulative and in addition to any other Landlord may be entitled to by law or in equity, and the exercise of one or more rights or remedies shall not impair Landlord's right to exercise any other right or remedy. In all events, Landlord shall have the right upon notice to Tenant to cure any breach by Tenant at Tenant's sole cost and expense, and Tenant shall reimburse Landlord for such expense upon demand plus interest thereon at the rate of eighteen percent (18%) per annum (or the highest rate permitted by applicable law, whichever is lower), commencing on the date due through the date of payment.

10.4 Bankruptcy. If Landlord shall not be permitted to terminate this Lease as hereinabove provided because of the provisions of Title 11 of the United States Code relating to Bankruptcy, as amended (the "Bankruptcy Code") or such other laws or regulations as may then be applicable, then Tenant as a debtor in possession or any trustee for Tenant agrees promptly, within no more than fifteen (15) days following request by Landlord to the Bankruptcy Court, to assume or reject this Lease and Tenant on behalf of itself, and any trustee agrees not to seek or request any extension or adjournment of any application to assume or reject this Lease by Landlord with such Bankruptcy Court. In such event, Tenant or any trustee for Tenant may only assume this Lease if it (a) cures or provides adequate assurance that the trustees will promptly cure any default hereunder; (b) compensates or provides adequate assurance that Tenant will promptly compensate Landlord for any actual pecuniary loss to Landlord resulting from Tenant's defaults; and (c) provides adequate assurance of performance during the fully stated term hereof of all of the terms, covenants, and provisions of this Lease to be performed by Tenant. In no event after the assumption of this Lease shall any then-existing default remain uncured for a period set forth herein. Adequate assurance of performance of this Lease as set forth hereinabove shall include, without limitation, adequate assurance (i) of the source of rent reserved hereunder; and (ii) that the assumption of this Lease will not breach any provision hereunder. In the event of a filing of a petition under the Bankruptcy Code, Landlord shall have no obligation to provide Tenant with any services or utilities as herein required unless Tenant shall have paid and be current in all payments of Additional Rent, utilities or other charges therefor.

10.5 Default by Landlord. If Landlord shall breach any warranty or fail to perform any covenant required to be performed by Landlord under the terms of this Lease and such breach or failure shall continue for a period of thirty (30) days after receipt by Landlord of written notice thereof from Tenant or if Landlord shall fail to pay any sums due to Tenant under this Lease on the date the same shall become due and payable hereunder, and such failure shall continue for a period of thirty (30) days after receipt by Landlord of written notice thereof from Tenant unless such default is of such a nature that it cannot be cured within said thirty (30) day period, in which event Landlord shall not be in default hereunder if it shall have commenced to cure said default within said thirty (30) day period and diligently prosecute said cure to completion, then Tenant may, as its sole remedy under this Lease, (a) cure any default or breach of warranty of Landlord hereunder, and perform any covenants which Landlord has failed to perform, and any sums expended by Tenant in curing such default or breach of warranty and performing such covenants shall be paid by Landlord to Tenant immediately upon demand; or (b) bring suit to recover from Landlord all sums due Tenant from Landlord.

SECTION 11 TRANSFERS, ASSIGNMENT AND SUBLETTING

11.1 Assignment and Subletting. Tenant shall not, either voluntarily or by operation of law, sell, assign, hypothecate or otherwise transfer, mortgage, pledge, encumber or permit any lien to attach to this Lease, or sublet the Premises or any part thereof, or permit the use of the Premises (whether by way of any document termed a management agreement, license agreement or otherwise) by anyone other than Tenant and its employees (all of the foregoing collectively referred to as a "Transfer") without Landlord's prior written consent, not to be unreasonable withheld, conditioned or delayed. Landlord and Tenant acknowledge and agree that the foregoing restriction on Transfer has been freely negotiated by the parties hereto and

that Landlord would not have entered into this Lease without Tenant's consent to the terms of this paragraph. Any attempted Transfer in violation of this Section 11 shall be void *ab initio* and, in any event, Tenant shall at all times remain primarily liable on this Lease and shall not be released from performing any of the terms, covenants and conditions of this Lease. Landlord's consent to any Transfer shall not be deemed consent to any subsequent Transfer. Whether or not Landlord grants consent, Tenant shall pay One Thousand Dollars (\$1,000.00) towards Landlord's review and processing expenses, as well as any reasonable legal fees incurred by Landlord in connection therewith.

11.2 Voting Control. If Tenant is a corporation and if the person, persons or entity(ies) who own a majority of its voting shares at the time of execution hereof cease to own a majority of such shares at any time hereafter, such cessation shall be deemed a Transfer and shall be subject to the restrictions set forth in Section 11.1.

11.3 Dissolution of Partnership. If Tenant is a partnership or limited liability company and if any partner or partners or member or members withdraw from the partnership or limited liability company, or if the partnership or limited liability company is otherwise dissolved, or control of the partnership or limited liability company changes, any such event shall be deemed a Transfer and shall be subject to the restrictions set forth in Section 11.1.

11.4 Landlord Consent. In determining whether to grant consent to the Transfer, Landlord may consider any factor, including but not limited to the experience and business reputation of the proposed assignee, sublessee, or transferee in operating a business for the uses set forth in this Lease; whether the clientele, personnel and foot traffic generated by such proposed assignee, sublessee, or transferee is satisfactory to Landlord; notwithstanding that Tenant and/or others remain liable under this Lease, whether the proposed assignee, sublessee, or transferee has a net worth, and financial strength and credit record, satisfactory to Landlord; use of the Premises by the proposed assignee, sublessee, or transferee must be identical to the use permitted by this Lease; use of the Premises by the proposed assignee, sublessee, or transferee will not violate or create any potential violation of any laws; whether the quality of the business to be operated or likely to be operated by the proposed assignee, sublessee, or transferee is satisfactory to Landlord and whether the customary level of sales volume is likely to be sustained by the prospective assignee, sublessee, or transferee; whether Landlord's consent might result in a breach of any other lease or agreement to which Landlord is a party; and whether the product mix and target customer base of the proposed assignee, sublessee, or transferee is consistent with the product mix and target customer base that Landlord is trying to maintain or achieve within the Shopping Center. In the event Landlord consents to a Transfer, Tenant shall pay Landlord fifty percent (50%) of all rent and other consideration which Tenant receives as a result of a Transfer that is in excess of the rent payable to Landlord for the portion of the Premises and term covered by the Transfer. Tenant shall pay Landlord's share of the excess to Landlord within thirty (30) days after Tenant's receipt of the excess. In determining the excess due Landlord, Tenant may deduct from the consideration Tenant receives, on a straight-line basis, all reasonable and customary expenses directly incurred by Tenant attributable to the Transfer. If Tenant is in default hereunder, Landlord may require that all sublease payments be made directly to Landlord, in which case Tenant shall receive a credit against rent in the amount of Tenant's share of payments received by Landlord.

11.5 Waiver; Termination. The acceptance by Landlord of any amounts following any transaction prohibited hereunder shall not be deemed to be a consent by Landlord nor shall the same be deemed to be a waiver of any right or remedy of Landlord hereunder. Consent to any Transfer shall not operate as a waiver of the necessity for consent to any subsequent Transfer. If Landlord's consent is requested for a Transfer, Landlord shall have the right to terminate this Lease with respect to that portion of the Premises for which such consent is requested, at the proposed effective date of such Transfer, and enter into the relationship of landlord and tenant with the proposed assignee, subtenant or transferee based on the rent (and/or other compensation) and term agreed to by such assignee, subtenant or transferee and otherwise upon the terms and conditions of this Lease. In connection with any Transfer, Tenant shall promptly provide Landlord with fully executed copies of all Transfer documents and agreements (such as assignment, sublease and assumption instruments.)

SECTION 12 SUCCESSION TO LANDLORD'S INTEREST

12.1 Attornment. Tenant shall attorn and be bound to any of Landlord's successors under all terms, covenants and conditions of this Lease for the balance of the remaining term.

12.2 Subordination. This Lease shall be subject and subordinate to the lien of any mortgages, deeds of trust or security agreements ("Mortgages") or the lien resulting from any other method of financing or refinancing now or hereafter in force against the Shopping Center, any portion thereof, or upon any buildings hereafter placed upon the land upon which the Premises are a part, and to any and all advances to be made under such Mortgages, and all renewals, modifications, extensions, consolidations and replacements thereof.

12.3 Instrument Evidencing Subordination and Attornment. The aforesaid provisions of Sections 12.1 and 12.2 shall be self-operative and no further instruments evidencing them shall be required. Tenant covenants and agrees, however, to execute and deliver, upon demand, such further instrument or instruments subordinating this Lease on the foregoing basis to the lien of any such Mortgages or other such financing as shall be desired by Landlord and any mortgages or proposed mortgagees, and/or attorning to a subsequent landlord, and hereby irrevocably appoints Landlord the attorney-in-fact of Tenant to execute and deliver such instrument or instruments within ten (10) days after written notice to Tenant to do so.

12.4 Mortgagee's Approval. If any mortgagee or beneficiary under a deed of trust or security agreement ("Mortgagee") of the Shopping Center requires any modification of the terms and provisions of this Lease as a condition to such financing as Landlord may desire, then Landlord shall have the right to cancel this Lease if Tenant fails or refuses to approve and execute such modification(s) within twenty (20) days after Landlord's request therefor. Upon cancellation by Landlord, this Lease shall be null and void and neither party shall have liability either for damages or otherwise to the other by reason of such cancellation. In no event, however, shall Tenant be required to agree, and Landlord shall not have any right of cancellation for Tenant's refusal to agree, to any modification of the provisions of this Lease relating to: (a) the amount of rent or other charges reserved herein; (b) the size of the Premises; (c) the duration and/or Commencement Date of the term; or (d) the construction of the improvements to be made by Landlord to the Premises prior to delivery of possession.

SECTION 13
SURRENDER OF PREMISES

13.1 **Surrender.** At the expiration or earlier termination of this Lease, Tenant shall surrender the Premises to Landlord in “broom clean” condition and in the condition required by Section 5.1 of this Lease, reasonable wear and tear and insured casualty alone excepted. Tenant shall promptly repair any damage to the Premises caused by the removal of any furniture, trade fixtures or other personal property placed in the Premises. All leasehold improvements and other fixtures, such as light fixtures and HVAC equipment, plumbing fixtures, hot water heaters, fire suppression and sprinkler systems, wall coverings, carpeting and drapes, in or serving the Premises, whether installed by Tenant or Landlord, shall be Landlord’s property and shall remain, all without compensation, allowance or credit to Tenant. However, if prior to such termination or within thirty (30) days thereafter Landlord so directs by notice, Tenant shall promptly remove such of the foregoing items as are designated in such notice and repair any damage to the Premises caused by such removal. If Tenant shall fail to perform any repairs or restoration, or fail to remove any items from the Premises as required hereunder, Landlord may do so, and Tenant shall pay Landlord the cost thereof upon demand. All property removed from the Premises by Landlord hereunder may be handled, discarded or stored by Landlord at Tenant’s expense, and Landlord shall in no event be responsible for the value, preservation or safekeeping thereof. All such property shall at Landlord’s option be conclusively deemed to have been conveyed by Tenant to Landlord as if by bill of sale without payment by Landlord. If Landlord arranges for storage of any such property, Landlord shall have a lien against such property for costs incurred in removing and storing the same.

13.2 **Cabling.** At the expiration or earlier termination of this Lease, Tenant shall remove any electronic, computer, telecommunications, data and/or any other cabling or wiring and related equipment (collectively, “Cabling”) which was installed by, or for the benefit of, Tenant and located in the Premises or any other portion of the Shopping Center, unless Landlord notifies Tenant in writing prior to such expiration (or, in the event of such earlier termination, as soon as reasonably practicable after such termination) that Landlord elects to have Tenant leave such Cabling in the Premises or in such other portion of the Shopping Center.

13.3 **Written Acceptance.** No act or thing done by Landlord, agent or employee of Landlord, during the Lease term shall be deemed to constitute an acceptance by Landlord of a surrender of Premises unless such intent is specifically acknowledged in writing signed by Landlord.

13.4 **Holding Over.** Tenant shall not occupy the Premises after the Expiration Date or earlier termination of this Lease without Landlord’s consent. If, after the Expiration Date or earlier termination of this Lease, Tenant remains in possession of the Premises with Landlord’s permission (express or implied), Tenant shall become a tenant from month to month only upon all the provisions of this Lease (except as to term and Minimum Rental). Monthly installments of Minimum Rental payable by Tenant during this period shall be increased by One Hundred Percent (100%) of the monthly Minimum Rental payable by Tenant in the final month of the Term. Such monthly rent shall be payable as set forth herein. In addition, Tenant shall be liable for all damages incurred by Landlord by reason of Tenant’s retention of the Premises.

SECTION 14
MISCELLANEOUS

14.1 Attorney's Fees. The non-prevailing party in any suit between the parties shall reimburse the reasonable attorney's fees incurred by the prevailing party in the enforcement of any of the terms, covenants or provisions hereof.

14.2 Interest. In the event Tenant fails to make any payment to Landlord when due, then in addition to all rights, powers and remedies provided herein, by law or otherwise, Tenant will also pay to Landlord on demand, interest at the rate of eighteen percent (18%) per annum (or the highest rate permitted by applicable law, whichever is lower) on all overdue installments of Rent and on overdue amounts of any other monetary obligations of Tenant, in each case from the due date thereof until paid in full.

14.3 Accord and Satisfaction. No payment by Tenant or receipt by Landlord of a lesser amount than the charges herein stipulated shall be deemed to be other than on account of the earliest stipulated charges, nor shall any endorsement or statement on any check or letter accompanying any check or payment be deemed an accord and satisfaction, and Landlord may accept such check or payment without prejudice to Landlord's right to recover subsequently the balance of any amounts due hereunder or to pursue any other remedy provided herein.

14.4 Time of Essence. TIME IS OF THE ESSENCE WITH RESPECT TO THE TERMS, CONDITIONS AND PROVISIONS OF THIS LEASE.

14.5 Severability. If any clause or provision of this Lease is illegal, invalid, or unenforceable under present or future laws, then the remainder of this Lease shall not be affected thereby and in lieu of such clause or provision, there shall be added as a part of this Lease a clause or provision as similar in terms to such illegal, invalid, or unenforceable clause or provision as may be possible and be legal, valid, and enforceable.

14.6 Brokers. Tenant warrants that it has had no dealing with any broker or agent in connection with the negotiation or execution of this Lease except Spinoso Real Estate Group, and Tenant agrees to indemnify, defend and hold Landlord harmless from and against any claims, and any costs or liabilities arising out of any claims (including costs of investigation and attorneys' fees), by any other broker, agent or other person claiming a commission or other form of compensation by virtue of having dealt with Tenant with regard to this leasing transaction. The foregoing indemnity shall survive the expiration or earlier termination of this Lease.

14.7 Waiver. No waiver by Landlord of any provision of this Lease shall be deemed to be a waiver of any other provision hereof or of any subsequent breach by Tenant of the same provision. Landlord's consent to or approval of any act by Tenant shall not be deemed to render unnecessary the obtaining of Landlord's consent to or approval of any subsequent act. No agreement by Landlord to accept Tenant's surrender of the Premises shall be valid unless in writing.

14.8 Right of Entry. Landlord shall have free access to the Premises at all reasonable times to inspect same and to make such repairs, additions, improvements, changes or alterations to the Premises or the Shopping Center, as Landlord may elect to make. Tenant agrees that on and

after one hundred eighty (180) days next preceding the expiration date of the term hereof, Landlord or its agents shall have the right to show the Premises to potential tenants and to place notices offering the Premises for lease or sale on any part of the Premises.

14.9 Successors and Assigns. Except as otherwise provided herein, this Lease shall be binding and inure to the benefit of parties hereto and their respective heirs, personal representatives, executors, successors and permitted assigns.

14.10 Headings, Captions and References. The section captions contained in this Lease are for convenience only and do not in any way limit or amplify any term or provision hereof. The use of the terms “hereof,” “hereunder” and “herein” shall refer to this Lease as a whole except where noted otherwise. Additionally, feminine or neuter pronouns may be substituted for masculine and the plural may be substituted for singular or singular for plural.

14.11 Survival of Obligations. The provisions of this Lease with respect to any obligation of Tenant to pay any sum owing in order to perform any act after the expiration or other termination of this Lease (including, without limitation, indemnification obligations) shall survive the expiration or other termination of this Lease.

14.12 Landlord and Tenant Relationship. Nothing herein contained shall be deemed or construed by the parties hereto, nor by any other party, as creating the relationship of principal and agent or of partnership or of joint venture between the parties hereto.

14.13 Quiet Enjoyment. Landlord hereby covenants and agrees that if Tenant shall fully and faithfully perform all of the covenants and agreements herein stipulated to be performed on Tenant’s part, Tenant shall at all times during the term hereof have the peaceable and quiet enjoyment and possession of the Premises without hindrance from Landlord or any person or persons lawfully claiming the Premises.

14.14 Notices.

(a) Any notice required or permitted to be given hereunder shall be in writing and may be given by personal delivery, by recognized overnight courier (such as Federal Express), or by U.S. certified or registered mail, postage prepaid, return receipt requested, addressed to: 1) Tenant, at the address as hereinbefore given, or by posting such notice on the Premises; and 2) Landlord, 2250 Town Circle Holdings LLC c/o CWCapital Asset Management, 7501 Wisconsin Avenue, Suite 500, West, Bethesda, Maryland 20814, Attention: Legal Department; with a copy to the Property Manager at: Moreno Valley Mall c/o Spinoso Management Group, 112 Northern Concourse, North Syracuse, New York 13212. Notices and demands shall be deemed to have been given (i) upon the date of the executed return receipt if sent by certified or registered mail, provided that if delivery cannot be made or if any party shall refuse delivery, notices shall be deemed given when mailed; (ii) one business day after deposit with a recognized overnight courier; (iii) upon delivery if personally delivered; or (iv) upon posting if posted to the Premises.

(b) If any Mortgagee of Landlord shall notify Tenant that it is the holder of a Mortgage affecting the Premises, no notice, request or demand thereafter sent by Tenant to Landlord

shall be effective unless and until a copy of the same shall also be sent to such Mortgagee in the manner prescribed herein, and to such address as such Mortgagee shall designate.

14.15 Representations. Tenant acknowledges that neither Landlord nor Landlord's agents, employees or contractors have made any representations or promises with respect to the Premises, the Shopping Center or this Lease except as expressly set forth herein.

14.16 Limitation on Right of Recovery Against Landlord. Tenant acknowledges and agrees that the liability of Landlord under this Lease or any matter relating to or arising out of the occupancy or use of the Premises and/or other areas of the Shopping Center shall be limited to Tenant's actual direct, but not consequential, damages therefor and shall be recoverable only from Landlord's interest in the Shopping Center and any judgments rendered against Landlord shall be satisfied solely out of the proceeds of sale of its interest in the Shopping Center. No personal judgment shall lie against Landlord upon extinguishment of its rights in the Shopping Center and any judgment so rendered shall not give rise to any right of execution or levy against Landlord's assets. For the purposes of this paragraph only, the term "Landlord" shall mean and include all partners of Landlord (if Landlord is a partnership) and all members and managers of Landlord (if Landlord is a limited liability company). Additionally, to the extent allowed by law, Tenant hereby waives any statutory lien it may have against Landlord or its assets, including without limitation, the Shopping Center. The provisions hereof shall inure to Landlord's successors and assigns, including any Mortgagee. The foregoing provisions are not intended to relieve Landlord from the performance of any of Landlord's obligations under this Lease, but only to limit the personal liability of Landlord in case of recovery of a judgment against Landlord.

14.17 Joint and Several Liability. If two or more individuals, corporations, limited liability companies, partnerships or other business associations or trusts (or any combination of two or more thereof) shall sign this Lease as Tenant, the liability of each such individual, corporation, limited liability company, partnership or other business association or trust to pay rent and perform all other obligations hereunder shall be deemed to be joint and several with the other signatories, and all notices, payments and agreements given or made by, with or to all of them. In like manner, if Tenant shall be a partnership or other business association, the members of which are, by virtue or statute or federal law, subject to personal liability, then each such member shall be jointly and severally liable hereunder.

14.18 No Discrimination. It is intended that the Shopping Center shall be developed so that all prospective tenants thereof, and all customers, employees, licensees and invitees of all tenants shall have the opportunity to obtain all the goods, services, accommodations, advantages, facilities and privileges of the Shopping Center without discrimination because of race, creed, color, sex, age, national origin or ancestry or other basis prohibited by federal, state or local law. To that end, Tenant shall not discriminate in the conduct and operation of its business in the Premises against any person or group of persons because of the race, creed, color, sex, age, national origin or ancestry of such person or group of persons or other basis prohibited by federal, state or local law.

14.19 Corporate Tenants. In the event Tenant is a corporation, limited liability company, or other entity, the persons executing this Lease on behalf of Tenant hereby covenant and warrant that: (a) Tenant is a duly constituted entity qualified to do business in the state in

which the Shopping Center is located; (b) all Tenant's franchise and corporate taxes have been paid to date; (c) all future forms, reports, fees and other documents necessary for Tenant to comply with applicable laws will be filed by Tenant when due; and (d) such persons are duly authorized by the board of directors or equivalent governing body of such entity to execute and deliver this Lease on behalf of the entity.

14.20 Force Majeure. In the event either Landlord or Tenant shall be delayed, hindered or prevented from the performance of any act required hereunder, by reason of war, governmental restrictions, civil commotion, shortage of labor or materials, strikes, fire, or any other reason beyond their reasonable control, the performance of such act shall be excused for the period of delay, and the period for performance of any such act shall be extended as reasonably necessary to complete performance after the delayed period. However, the provisions of this paragraph shall in no way be applicable to Tenant's obligations to pay rental or any other sums, monies, costs, charges or expenses required by this Lease.

14.21 Jurisdiction. The laws of the State where the Shopping Center is located shall govern the interpretation, validity, performance and enforcement of this Lease.

14.22 Entire Agreement. This Lease constitutes the entire agreement between the parties hereto with respect to the subject matter hereof and no subsequent amendment or agreement shall be binding upon either party unless it is signed by each party. The submission of this Lease shall not constitute a reservation of or option for the Premises or an offer to lease by Landlord and this Lease shall not be binding unless and until it is signed by Landlord and Tenant.

14.23 Lease. Neither this Lease nor any memorandum of lease or short form lease shall be recorded by Tenant.

14.24 Mortgage Protection. Tenant acknowledges that there is currently or may hereafter be a deed of trust on the Shopping Center, and upon being furnished with the name and address of the holder of such deed of trust, Tenant agrees to give the holder of such deed of trust, together with any ground lessors and future mortgage and/or deed of trust holders, as to all or a portion of the Shopping Center, by registered mail, a copy of any notice of default served upon Landlord, provided that prior to such notice Tenant has been notified in writing (by way of notice or assignment of rents and leases, or otherwise) of the addresses of such parties. Tenant agrees not to exercise any remedies available by virtue of a Landlord's failure to cure a default within thirty (30) days after receipt of notice of default (or such additional time as may be reasonably necessary to cure such default) unless Tenant has also given such parties a reasonable opportunity to cure such default (including but not limited to foreclosure proceedings if necessary to effect such cure).

14.25 Hazardous Materials. Tenant shall not cause or permit the use, generation, storage or disposal in or about the Premises or Shopping Center of any substances, materials or wastes subject to regulation under any federal, state or local statute, law, rule, regulation, ordinance, code, policy or rule of common law now or hereafter in effect and in each case as amended, and any judicial or administrative interpretation thereof, including any judicial or administrative order, consent decree or judgment, relating to the environment, health, safety or hazardous, toxic or radioactive materials (hereinafter "Hazardous Material") unless Tenant shall

have received Landlord's prior written consent, which consent Landlord may withhold or at any time revoke at its sole discretion. If Tenant uses, generates, stores or disposes of any Hazardous Materials in or about the Premises in accordance with this Section 14.25, Tenant shall obtain all necessary permits and comply with all statutes, regulations, and rules applicable to such activity. Furthermore, Landlord shall have the right to require that Tenant deliver periodic environmental audits of the Premises evidencing that no violations have occurred. Tenant shall indemnify and hold Landlord harmless from and against all liability, cost, claim, penalty, expense and fees (including costs of investigation, remediation costs, court costs and attorney's fees) arising from Tenant's use, generation, storage or disposal of Hazardous Materials in or about the Premises. This section shall survive the expiration or earlier termination of this Lease.

14.26 Transfer of Landlord's Interest. In the event of any transfer or transfers of Landlord's interest in the Premises or the Shopping Center, other than a transfer for security purposes only, the transferor shall be automatically relieved of any and all obligations and liabilities on the part of Landlord accruing from and after the date of such transfer, and Tenant agrees to attorn to such transferee.

14.27 OFAC Certification. Tenant certifies that: (i) it is not acting, directly or indirectly, for or on behalf of any person, group, entity, or nation named by any Executive Order or the United States Treasury Department as a terrorist, "Specially Designated National and Blocked Person," or other banned or blocked person, entity, nation, or transaction pursuant to any law, order, rule, or regulation that is enforced or administered by the Office of Foreign Assets Control; and (ii) it is not engaged in this transaction, directly or indirectly on behalf of, or instigating or facilitating this transaction, directly or indirectly on behalf of, any such person, group, entity, or nation. Tenant hereby agrees to defend, indemnify, and hold harmless Landlord from and against any and all claims, damages, losses, risks, liabilities, and expenses (including attorney's fees and costs) arising from or related to any breach of the foregoing certification. The foregoing obligation shall survive the expiration or earlier termination of this Lease.

14.28 Waivers. TENANT HEREBY WAIVES THE BENEFIT OF ALL WARRANTIES, EXPRESS OR IMPLIED, WITH RESPECT TO THE PREMISES INCLUDING, WITHOUT LIMITATION, ANY IMPLIED WARRANTY THAT THE PREMISES ARE SUITABLE FOR ANY PARTICULAR PURPOSE. LANDLORD HAS MADE NO REPRESENTATIONS, COVENANTS OR WARRANTIES WITH RESPECT TO THE PREMISES EXCEPT AS EXPRESSLY SET FORTH IN THIS LEASE.

14.29 Waiver of Jury Trial. TO THE MAXIMUM EXTENT PERMITTED BY LAW, LANDLORD AND TENANT EACH WAIVE ANY RIGHT TO TRIAL BY JURY IN ANY LITIGATION OR TO HAVE A JURY PARTICIPATE IN RESOLVING ANY DISPUTE ARISING OUT OF OR WITH RESPECT TO THIS LEASE OR ANY OTHER INSTRUMENT, DOCUMENT OR AGREEMENT EXECUTED OR DELIVERED IN CONNECTION HERewith OR THE TRANSACTIONS RELATED HERETO.

14.30 Confidentiality. Tenant acknowledges that the terms and conditions of this Lease are to remain confidential for Landlord's benefit, and may not be disclosed by Tenant to anyone, by any manner or means, directly or indirectly, without Landlord's prior written consent. The

consent by Landlord to any disclosures shall not be deemed to be a waiver on the part of Landlord of any prohibition against any future disclosure.

14.31 Landlord's Lien. LANDLORD SHALL HAVE AND TENANT HEREBY GRANTS TO LANDLORD A CONTINUING SECURITY INTEREST FOR ALL RENT AND OTHER SUMS OF MONEY BECOMING DUE HEREUNDER FROM TENANT, UPON ALL GOODS, WARES, EQUIPMENT, FIXTURES, FURNITURE, INVENTORY, ACCOUNTS, CONTRACT RIGHTS, CHATTEL PAPER AND OTHER PERSONAL PROPERTY OF TENANT SITUATED ON THE PREMISES (COLLECTIVELY, THE "COLLATERAL"), AND SUCH COLLATERAL SHALL NOT BE REMOVED THEREFROM WITHOUT THE CONSENT OF LANDLORD UNTIL ALL ARREARAGES IN RENT AS WELL AS ANY AND ALL OTHER SUMS OF MONEY THEN DUE TO LANDLORD HEREUNDER SHALL FIRST HAVE BEEN PAID AND DISCHARGED. PRODUCTS OF COLLATERAL ARE ALSO COVERED. FOLLOWING A DEFAULT BY TENANT UNDER THIS LEASE, LANDLORD SHALL HAVE, IN ADDITION TO ANY OTHER REMEDIES PROVIDED HEREIN OR BY LAW, ALL RIGHTS AND REMEDIES UNDER THE UNIFORM COMMERCIAL CODE, INCLUDING WITHOUT LIMITATION THE RIGHT TO SELL THE COLLATERAL AT PUBLIC OR PRIVATE SALE UPON FIVE (5) DAYS NOTICE TO TENANT. ANY STATUTORY LIEN FOR RENT IS NOT HEREBY WAIVED, THE EXPRESS CONTRACTUAL LIEN HEREIN GRANTED BEING IN ADDITION AND SUPPLEMENTARY THERETO. LANDLORD AND TENANT AGREE THAT A COPY OR OTHER REPRODUCTION OF THIS LEASE SHALL BE SUFFICIENT TO SERVE AS A FINANCING STATEMENT, PROVIDED THAT LANDLORD MAY FILE A UCC FINANCING STATEMENT IF THE JURISDICTION WHERE THE PROPERTY IS LOCATED SO REQUIRES, AND THAT A COPY OR PHOTOGRAPHIC OR OTHER REPRODUCTION OF THIS PORTION OF THIS LEASE MAY BE FILED OF RECORD BY LANDLORD AND HAVE THE SAME FORCE AND EFFECT AS THE ORIGINAL. THIS SECURITY AGREEMENT AND FINANCING STATEMENT ALSO COVERS FIXTURES LOCATED AT THE PREMISES ATTACHED HERETO, AND MAY BE FILED OF RECORD BY LANDLORD. TENANT WARRANTS THAT THE COLLATERAL SUBJECT TO THE SECURITY INTEREST GRANTED HEREIN IS NOT PURCHASED OR USED BY TENANT FOR PERSONAL, FAMILY OR HOUSEHOLD PURPOSES. WITHIN TEN (10) DAYS FOLLOWING WRITTEN REQUEST THEREFOR, TENANT SHALL EXECUTE FINANCING STATEMENTS TO BE FILED OF RECORD TO PERFECT LANDLORD'S SECURITY INTEREST IN THE COLLATERAL. LANDLORD'S LIEN SHALL SURVIVE THE EXPIRATION OR EARLIER TERMINATION OF THIS LEASE, UNTIL ALL OBLIGATIONS OF TENANT HAVE BEEN FULLY PERFORMED.

14.32 Rule Against Perpetuities Savings Clause. If possession of the Premises has not been delivered to Tenant within twenty one (21) years after the execution of this Lease by Landlord and Tenant, this Lease will automatically terminate without liability of either party, unless delayed by the act or omission of Tenant, in which event possession of the Premises to Tenant shall be deemed delivered as of the date that it would have been delivered but for Tenant's act or omission.

14.33 No Offer. The submission of this Lease to Tenant shall not be construed as an offer, and Tenant shall not have any rights under this Lease unless Landlord executes a copy of this Lease and delivers it to Tenant.

14.34 Counterparts. This Lease may be executed in any number of identical counterparts, each of which shall be deemed to be an original and all, when taken together, shall constitute one and the same instrument. A PDF, facsimile or similar transmission of a counterpart signed by a party hereto shall be regarded as signed by such party for purposes hereof.

14.35 State Law Provisions

(a) Waiver of Statutory Provisions.

(1) Tenant hereby waives the provisions of California Civil Code Section 1932(1) due to an interruption, failure or inability to provide any services.

 - f. Tenant’s contractor shall obtain Landlord’s approval regarding all drilling, welding or other attachment to Landlord’s structural system. Approval by Landlord shall be in writing before the start of Tenant’s Work, and must be clearly identified on Tenant’s drawings. Landlord approval of the drawings does not relieve Tenant’s contractor of the responsibility to make a request in writing prior to starting Tenant’s Work.
 - g. Tenant’s contractor shall supply fire extinguishers during construction, in accordance with code.
6. Tenant’s Work
- a. Tenant shall conform to and comply with all federal, state, county and local laws, ordinances, permits, ` and regulations in the performance of Tenant’s Work or in the performance of any alterations, additions or modifications.
 - b. Tenant’s Work shall be coordinated with any work by Landlord as well as with the work of other tenants in the Shopping Center so that Tenant’s Work shall not interfere with or delay completion of other construction in the Shopping Center.
 - c. In the event Tenant’s Work and any work by Landlord shall progress simultaneously, Landlord shall not be liable for any injury to persons or damage to property of Tenant, or of Tenant’s employees, licensees or invitees from any cause whatsoever occurring upon or about the Premises, and Tenant shall and will indemnify, defend and save Landlord harmless from any and all liability and claims arising out of or connected with any injury or damage. Tenant acknowledges that these provisions become effective beginning upon the date Tenant or its agents first enter the Premises. This obligation to indemnify shall include reasonable attorneys’ fees and other reasonable costs, expenses and liabilities incurred by Landlord and its attorneys from the first notice that any claim or demand is to be made or may be made.
 - d. Work performed by Tenant or Tenant’s contractor shall be performed so as to avoid a labor dispute. If there is a labor dispute, Tenant shall immediately

- undertake whatever action may be necessary to eliminate the dispute including, but not limited to, (i) removing all disputants from the job site until the labor dispute is over, (ii) seeking an injunction in the event of a breach of contract action between Tenant and Tenant's contractor and (iii) filing appropriate unfair labor practice charges in the event of a union jurisdictional dispute. If, during the period of initial construction of the Premises, any of Tenant's employees, agents or contractors strike, or if picket lines or boycotts or other visible activities objectionable to Landlord are conducted or carried out against Tenant or its employees, agents or contractors, Tenant shall immediately close the Premises and remove all employees until the dispute giving rise to the strike, picket line, boycott or objectionable activity has been settled to Landlord's satisfaction.
- e. Tenant agrees that it will not, at any time prior to or during this Lease, including the period of the performance of Tenant's Work, either directly or indirectly employ or permit the employment of any contractor, or use any materials in the Premises, if the use of the contractor or the materials would, in Landlord's sole opinion, create a difficulty, strike or jurisdictional dispute with other contractors engaged by Tenant or Landlord or others, or would in any way disturb the construction, maintenance or operation of the Shopping Center. If any interference or conflict occurs, Tenant, upon demand by Landlord, shall cause all contractors or all materials causing the interference, difficulty or conflict, to leave or be removed from the Shopping Center immediately.
- f. Tenant's Work shall be subject to inspection by Landlord during the course of construction for the purpose of determining the quality of the workmanship and adherence to Landlord requirements. Tenant shall require its contractor to cooperate with Landlord and correct any deficiencies noted by Landlord. All work performed by Tenant during the Term of the Lease shall be performed in accordance with this Lease, all exhibits thereto, the Tenant Design Manual and as directed by Landlord's representative.
- g. All work by Tenant, including repair work, shall be performed in a first-class workmanlike manner and shall be in a good and usable condition at completion. Tenant shall require any person performing work to guarantee that the work is free from any and all defects in workmanship and materials for one (1) year from the date of completion. Tenant shall also require any such person to be responsible for the replacement or repair, without additional charge, of work done or furnished by or through such person which shall become defective within one (1) year after substantial completion of the work. The correction of work shall include, without additional charge, all expenses and damages in connection with the removal, replacement or repair of any part of work which may be damaged or disturbed. All warranties or guarantees for materials or workmanship on or regarding Tenant's Work shall be contained in the contract or

subcontract. The contract shall be written so that all warranties and guarantees shall inure to the benefit of both Landlord and Tenant, as their respective interests appear, and so that either party can directly enforce the contract.

- h. In the event Tenant or Tenant's contractor fails to perform Tenant's Work, or any part of Tenant's Work, in a manner satisfactory to Landlord within 10 days after receipt of Landlord's punch list, Landlord shall have the right, in addition to and not in lieu of Landlord's other rights and remedies, to perform the work and Tenant shall pay Landlord for costs incurred by Landlord in such performance.

O. INSURANCE REQUIREMENTS

Tenant's contractor must fulfill the following insurance requirements, and shall maintain at no expense to Landlord:

- a. Workers' Compensation Insurance within statutory limits and Employer's Liability Insurance with limits of not less than \$100,000.

- d. Tenant shall cause each of its contractors to agree to name Landlord, the parents, subsidiaries and affiliates of Landlord and if Landlord elects, any owner or other occupant in or adjoining the Shopping Center, as Additional Insureds on Contractor's Commercial General Liability Insurance and Motor Vehicle Liability Insurance. In addition to the insurance Tenant is required to maintain under Section 9 of the Lease, Tenant shall maintain Builders Risk Insurance including water damage and earth movement for the full replacement cost of Tenant's Work.
- e. Each of Tenant's contractors shall also, to the fullest extent permitted under the law, protect, defend, save harmless and indemnify Landlord, the parents, subsidiaries and affiliates of Landlord, and if Landlord elects, any owner or other occupant in or adjoining the Shopping Center, and their employees, officers and agents against any and all liability claims, demands or expenses

incurred on account of any injury or damage, alleged or real, arising out of or in any way connected with any act or omission to act on the part of the indemnitor.

2. Additional Landlord's Work

Landlord shall have the right to charge Tenant for certain improvements and other work performed by Landlord or caused to be performed by Landlord at Tenant's request within the Premises although they may not be itemized in the Lease. This work shall be paid for by Tenant as additional rental upon notice by Landlord. Landlord has no duty, however, to do any work which Landlord is not specifically and expressly required to perform under this Lease or which, under any provisions of this Lease, Tenant may be required to perform. The performance of work by Landlord shall not constitute a waiver of Tenant's default in failing to perform the work

3. Hazardous Materials

Tenant shall comply with any existing or future city, state, county or federal regulations or legislation regarding the control of pollution. Tenant shall not use or install, nor shall permit its contractors to use or install, any building materials containing asbestos or other Hazardous Material. Upon expiration of the Term or the earlier termination of this Lease, Tenant shall provide Landlord with a statement signed by Tenant that the Premises do not contain any Hazardous Material. If Tenant fails to do so, Landlord shall have the right to have the Premises inspected for the presence of Hazardous Material, and if Hazardous Materials are present in the Premises, to take all actions which are necessary to return the Premises to the condition it was in prior to the presence of Hazardous Material in the Premises, all at Tenant's expense. This obligation by Tenant shall survive the Expiration Date or earlier termination of this Lease and shall survive any transfer of Landlord's interest in the Shopping Center.

4. Tenant's Refuse

Tenant is responsible for keeping the Premises, the corridor, mall or arcade adjacent

to the Premises broom clean and free of trash. If Landlord removes Tenant's or Tenant's contractor's trash, the charge to Tenant will be three (3) times Landlord's cost. Any material, whether trash or otherwise, placed outside of the Premises for more than 24 hours shall be subject to removal and disposal without notice.

5. Certificate of Occupancy

Tenant is responsible for obtaining a Certificate of Occupancy promptly following completion of Tenant's Work, and shall promptly forward a copy of it to Landlord prior to Tenant opening for business in the Premises. Tenant shall not be permitted to open for business without a Certificate of Occupancy. Upon completion of Tenant's Work or any alterations under Section 5 of the Lease, Tenant shall submit an original contractor's notarized affidavit, all subcontractors' original notarized affidavits and original notarized final waivers of lien, as well as any original notarized lien waivers that Landlord may require from contractors, subcontractors, laborers, and material suppliers. The documents must be in a form and detail satisfactory to Landlord.

6. Lien Protection

a. Neither Landlord nor any mortgage lender of Landlord shall be liable for any labor or materials furnished to Tenant upon credit, and no mechanics or other lien for labor or materials shall attach to or affect any interest of Landlord or the mortgage lender in the Premises or the Shopping Center. Nothing in this Lease shall be deemed or construed to constitute Tenant as Landlord's agent or contractor for the performance of Tenant's Work. Tenant acknowledges that Tenant's Work is to be performed solely for the benefit of Tenant. Nothing in this Lease shall be construed as constituting the consent or request of Landlord to any contractor for the performance of labor or the furnishing of any materials for Tenant, nor as giving Tenant authority to contract as the agent of or for the benefit of Landlord.

b. If Landlord's insurance premium or real estate tax assessment increases as a result of Tenant's improvements to the Premises, Tenant shall pay the increase as additional rental upon notice from Landlord.

7. Square Footage Calculations

The calculations of the dimensions and square footage of the Premises are from the centerline of interior partitions, from the outside face of exterior walls, and from the full thickness of corridor and shaft walls. No deductions are allowed for the space occupied by columns, interior partitions, or other interior construction or equipment installed or placed in the Premises. The Premises shall not include any space above the bottom of the structural framework supporting the upper level or roof of the Shopping Center, as the case may be, or below the floor level of the Premises.

EXHIBIT F

LANDLORD'S SIGN CRITERIA

This EXHIBIT F establishes criteria for Tenant signage to enhance the visual quality of the Shopping Center. Tenant is required to provide creative signage consistent with its overall storefront design and in accordance with the criteria contained in EXHIBIT F, the Tenant Design Manual ("Design Manual") and the Tenant Print Package ("Print Package").

A. ADMINISTRATION

Tenant shall submit 4 copies of shop manufacturer's drawings to Landlord, showing the size of lettering, overall size of the sign, neon color, porcelain enamel color, baked enamel color, plastic or plexiglass colors and their numbers, materials and samples, mounting details and location of the sign in relation to each elevation. The drawings shall show other elements such as soffits, canopies and the relationship of the sign to the other elements of the storefront, especially the vertical fascia. The drawings must be submitted in conjunction with storefront design information. Landlord's written approval is required prior to sign fabrication. Hard copy shop drawings shall be submitted to Landlord as well for final approval. Tenant shall not be permitted to open for business in the Premises without a sign which has been approved in writing by Landlord.

B. INTERIOR STOREFRONT SIGN

Refer to the Design Manual for specific criteria. Signage is subject to the following general guidelines:

1. Signs may be vertical, horizontal, have multiple reflected images and be illuminated. Multiple signing may be permitted on multi-directional storefronts.
2. The length of horizontal lettering shall not exceed 50% of the horizontal storefront length without Landlord's prior written consent. The proportional ratio of the proposed signage length to the overall horizontal storefront length shall be left to the sole discretion of Landlord however.
3. No sign may be within 3'-0" of the facade of any department store. Landlord reserves the right to further regulate signage near department stores.
4. Wording is limited to the trade name of the store. Logos shall be reviewed on a case by case basis by Landlord.
5. All electrical penetrations through the storefront fascia for sign installation shall include PK housings.
6. Each storefront sign shall have an easily accessible local disconnect and be on a separate timer.

7. No sign manufacturer's identification, decals or registered trademark shall be permitted.

C. EXTERIOR BUILDING SIGNS

If Tenant has an exterior customer entrance it may be permitted to have an exterior sign. (Landlord may, at its sole discretion, allow a Tenant to have an exterior sign if there is no exterior storefront entrance however). Exterior signs shall be restricted in location to the exterior storefront proper, and each exterior frontage shall be considered separately. If Tenant is permitted to have an exterior sign, the sign shall be self-illuminated plexiglass letters with metal sides mounted on the wall of the storefront so that no light shows except through the plexiglass face. Tenant shall keep the sign in good repair at all times. Refer to the Design Manual for further details.

D. GENERAL

1. Doors and Windows

No paper or cardboard signs shall be permitted to be applied to the face of storefront glass or other storefront material or hung from the bulkhead within 4' -0 from the leaseline.

2. Sidewalks

No signs shall be allowed in the exterior sidewalk or beyond the interior lease line of the Premises.

3. Service Courts

Service entrance signs will be provided by Landlord.

4. Action Signs and Video Screens

No flashing, action, moving or audible signs are permitted.

5. Colors

Colors shall be compatible with the colors and materials for Tenant's storefront and must be submitted to Landlord for approval.

6. Responsibility

All signs, permits and related or resulting construction shall be Tenant's responsibility, and all signs shall be installed under the supervision of Landlord. The sign contractor shall repair damage caused by its work. Signs shall conform to applicable building and electrical codes.

EXHIBIT G
HEATING, VENTILATION,
AIR CONDITIONING, WATER AND SEWER

I. OPERATING CHARGE FOR HEATING, VENTILATION AND AIR CONDITIONING SUPPLIED BY LANDLORD

A. GENERAL

1. The operating charge provides for and is limited to heating, ventilation and air conditioning. The operating charge, when established with this EXHIBIT G (the "Operating Charge"), shall become part of the Additional Rental due under the Lease.
2. Tenant shall be charged its pro rata share for heating, ventilation and air conditioning services to be calculated in accordance with the terms of this EXHIBIT G. Tenant agrees to accept and use the services, and to pay for the services without deduction or set-off of any kind on the first day of each month.
3. The Operating Charge for each year shall include all items of cost and expense which in usual accounting practice are treated as operating costs and expenses, including but not limited to, water and sewer service costs, personal property and equipment depreciation, electricity, supplies, wages and other compensation (including those of supervisory personnel), worker's compensation insurance, payroll taxes, compressor insurance and ordinary maintenance repairs, to which costs and expenses (excluding water and sewer costs) shall be added 15%. The Operating Charge shall include all costs and expenses of operation during hours when the Shopping Center is open, and all costs and expenses of operation which may be necessary to bring the Premises to the proper temperature determined by Landlord during hours when the Shopping Center is not open.

B. METHOD OF CALCULATING THE OPERATING CHARGE

1. As part of Tenant's plans, Tenant shall provide to Landlord a complete description of all electrical and gas consuming devices, showing the quantities and capacities of the equipment.
2. Landlord's engineer shall calculate the pro rata share of the Operating Charge based on quantities and capacities of Tenant's electrical and gas consuming devices. The calculations shall be based upon 320 hours of operation of the Premises per month. The base cooling load of 35 BTUH per square foot shall then be multiplied by the total square footage of the Premises. The product will be used as the numerator of a fraction for determining Tenant's pro rata share of the Operating Charge. This number shall be adjusted as provided below.

C. ADJUSTMENTS TO OPERATING CHARGE

- 1. The Operating Charge shall be increased or decreased if Landlord’s engineer finds that the calculated cooling load is greater or less than 35 BTUH per square foot, or if the monthly operation of equipment exceeds 320 hours per month (no decrease will be considered for hours of operation), and shall be calculated as follows:

$$\frac{\text{Calculated Cooling Load}}{35 \text{ BTUH}} \times \frac{\text{Actual Hours}}{320 \text{ Hours}} \times \text{Total BTU's (From B Above)} = \text{Adjusted Cooling Load}$$

This shall be Tenant’s adjusted numerator for determining its pro rata share of the Operating Charge.

Tenant’s proportionate share for the purposes of the Operating Charge is defined as that part of any cost allocable to Tenant under the terms and provisions of this EXHIBIT G. The pro rata share shall be computed by multiplying such costs by a fraction, the numerator of which shall be determined in accordance with the provisions of this EXHIBIT G and the denominator of which shall be the total of all numerators for spaces using Landlord’s HVAC system in the Shopping Center.

- 2. Prior to Tenant adding or removing equipment or otherwise modifying the Premises to either increase or decrease usage of air conditioning or ventilation in the Premises, Tenant shall notify Landlord of the change in writing and shall provide Landlord’s engineer with a detailed description of the change. Landlord’s engineer shall then recalculate the Operating Charge as described above. The charge shall become effective on the date the modifications are made. Landlord, at Landlord’s option, may choose to check Tenant’s consumption of air conditioning and ventilation from time to time and adjust the charges accordingly.
- 3. Tenant shall have the option to verify the adjusted cooling load calculation by employing Landlord’s engineer at Tenant’s expense to seek a reasonable explanation of the adjusted cooling load calculation. Landlord’s decision shall prevail.

II. HVAC SUPPLIED BY TENANT

- 1. For any HVAC unit exclusively serving the Premises, Landlord may require Tenant to use Landlord’s pre-approved contractor for maintenance of Tenant’s HVAC unit at Tenant’s sole expense.
- 2. If Tenant is required to maintain the HVAC system, maintenance shall be by Tenant at Tenant’s sole expense. Tenant shall supply Landlord with evidence of a maintenance contract with a mechanical contractor pre-approved by Landlord.

III. OPERATING CHARGE FOR WATER AND SEWER

METHOD OF CALCULATING THE OPERATING CHARGE FOR WATER AND SEWER

1. Tenant shall provide Landlord with complete plumbing plans and specifications which shall show the quantities and capacities of all water consuming devices.
2. Tenant shall be required to furnish and install, at Tenant's expense, a water meter for determination of charges for water service. The Tenant's water and sewer operating charge shall include but not be limited to taxes, assessments, charges, fees and surcharges.

Report to City Council

TO: Mayor and City Council

FROM: Rick C. Hartmann, Acting Public Works Director

AGENDA DATE: August 15, 2017

TITLE: APPROVAL OF A \$1.2 MILLION PHASE 1 CITYWIDE SLURRY SEAL PROJECT

RECOMMENDED ACTION

1. Approve a Phase 1 Citywide Slurry Seal Project to repair roadways in all areas of the City of Moreno Valley.
2. Approve an appropriation of up to \$1,200,000 from State Gas Tax Funds (Senate Bill No. 1 Revenues) for the Phase 1 Citywide Slurry Seal Project, as part of the citywide Capital Improvement Plan.
3. Adopt a Resolution approving the Local Streets and Roads Project List for submission to the California Transportation Commission.
4. Approve the amended budget as set forth in the Fiscal Impact Section of this report.
5. Authorize the Public Works Director to make any minor modifications to the project list to comply with the California Transportation Commission submission forms and filing requirements, once available.

SUMMARY

Roadway maintenance remains a top priority for the City Council. Approval of the proposed Phase 1 Citywide Slurry Seal Project would enhance roadways in all areas of our City. The project would be funded through new State Gas Tax revenues generated by Senate Bill 1 (SB 1) as recently approved by the State Legislature and signed by the Governor. The report also recommends approval to add the Phase 1 Citywide Slurry Seal Project as part of the amended Capital Improvement Plan budget for Fiscal Years 17/18 – 18/19.

DISCUSSION

The City Council's *Momentum MoVal* strategic plan identifies management of public infrastructure as a key quality of life priority for the community. Initiative 4.3.3 specifically directs that resources be directed to complete slurry seal maintenance projects on City roadways. Use of newly available Gas Tax revenue allows the City to jump start this important program.

Slurry Seal is a homogenous mixture of emulsified asphalt, water, well-graded fine aggregate and mineral filler that has a creamy fluid-like appearance when applied to pavements. Slurry Seals are highly effective for sealing aged and raveled pavements, filling minor cracks, restoring skid resistance and restoring aesthetic appeal. By preserving pavement, Slurry Seal extends long-term durability while reducing lifecycle maintenance costs.

On April 28, 2017 the Governor signed SB 1, which is known as the Road Repair and Accountability Act of 2017, to address basic road maintenance, rehabilitation and critical safety needs on state highways as well as local streets and roads. Funds are generated via fuel excise taxes and vehicle registration fees and allocated by formula to eligible cities and counties for basic road maintenance, rehabilitation, and critical safety projects.

It is estimated that the City would receive an initial allocation of up to \$1.2 million in SB 1 funding in or after January 2018. Staff proposes to target the Phase 1 Citywide Slurry Seal Project based on the pavement conditions that are appropriate for slurry seal application. Project areas have also been grouped by proximity to ensure cost effective construction.

Proposed Streets per District for Slurry Seal (see attached Resolution for actual location areas within each district):

District 1 – 28 Streets
 District 2 – 26 Streets
 District 3 – 26 Streets
 District 4 – 25 Streets

As infrastructure maintenance is a top priority for the Council, staff will make every effort to accelerate the design and construction of the Phase 1 Citywide Slurry Seal Project. The useful life of the slurry seal is estimated at five years.

At the State level, SB 1 revenues are placed into the Road Maintenance and Rehabilitation Account (RMRA). Prior to receiving this funding, a city or county must submit a list of proposed projects to the California Transportation Commission ("Commission") prior to October 16, 2017; all projects must also be reflected in the local agency's approved budget. The list of projects must include a description and the location of each proposed project, a proposed schedule for project completion, and the estimated useful life of the improvements. The project list does not limit the flexibility of

an eligible city to fund projects in accordance with local needs and priorities so long as the projects are consistent with RMRA priorities.

Cities must submit annual documentation to the Commission regarding completed projects, including a description and location of each project, amount of funds expended, completion date, and the estimated useful life of the improvement. All completed project expenditure reports submitted will be posted to the Commission's SB 1 Accountability website. In addition to the RMRA completed project reporting requirements, each city is required to file an annual report of expenditures for street or road purposes with the State Controller's Office.

Each city that receives SB 1 funds must sustain a Maintenance of Effort (MOE) by spending at least the annual average of its general fund expenditures during the 2009-10, 2010-11, and 2011-12 fiscal years for street, road, and highway purposes from the City's general fund. By July 1, 2023, cities receiving RMRA funds must follow guidelines developed by the California Workforce Development Board that address participation and investment in, or partnership with, new or existing pre-apprenticeship training programs.

Consistent with the approved Momentum MoVal Strategic Plan, staff is taking proactive steps to create an ongoing annual slurry seal program. For FY 2017/18, the program is being budgeted for up to \$1.2 million. The ongoing program is estimated to cost approximately \$2.0 million annually. Staff is planning to utilize \$2.0 million annually from the City's future SB1 appropriations, when available. For FY 2018/19, the total SB 1 appropriation is estimated to be \$3.5 million.

ALTERNATIVES

1. Approve the recommended actions as presented in this staff report. *This alternative will commence the Phase 1 Citywide Slurry Seal Project to enhance roadways in all areas of our City.*
2. Do not approve the Phase 1 Citywide Slurry Seal Project as recommended and provide alternate direction to staff. *This alternative would delay use of State funding to meet the Council's priority to enhance the condition of local roadways.*

FISCAL IMPACT

The estimated SB 1 funding in the amount of \$1.2 million will provide sufficient resources to complete the Phase 1 Citywide Slurry Seal Project. Staff recommends the authorization to appropriate up to \$1.2 million from the State Gas Tax SB 1 funding, when it is available, to the interim Citywide Slurry Seal project. **There is no impact to the General Fund.**

The following sets forth the proposed budget adjustments based on the revised State budget estimates as of May 11, 2017.

Description:
 Our City Council's Momentum MoVal strategic plan identifies management of public infrastructure as a key quality of life priority for the community. Initiative 4.3.3 specifically directs that resources be directed to complete slurry seal maintenance projects on City roadways. Use of newly available Gas Tax revenue allows the City to jump start this important program.
 Slurry Seal is a homogenous mixture of emulsified asphalt, water, well-graded fine aggregate and mineral filler that has a creamy fluid-like appearance when applied to pavements. Slurry Seals are highly effective for sealing aged and raveled pavements, filling minor cracks, restoring skid resistance and restoring aesthetic appeal. By preserving pavement, Slurry Seal extends long-term durability while reducing lifecycle maintenance costs.
 Staff proposes to target the Phase 1 Citywide Slurry Seal Project based on the pavement conditions that are appropriate for slurry seal application. Project areas have been grouped by proximity to ensure cost effective construction. The Phase 1 Citywide Slurry Seal Project is scheduled for completion by September 2018. The useful life of the Slurry Seal is estimated at five years.

Resolution No. 2017-⁵_____
Date Adopted: August 15, 2017

Report to City Council

TO: Mayor and City Council

FROM: Marshall Eyerman, Chief Financial Officer

AGENDA DATE: August 15, 2017

TITLE: A RESOLUTION OF THE SUCCESSOR AGENCY TO THE FORMER COMMUNITY REDEVELOPMENT AGENCY OF THE CITY OF MORENO VALLEY APPROVING A FORM OF PRELIMINARY OFFICIAL STATEMENT IN CONNECTION WITH THE SALE AND DELIVERY OF ITS SUBORDINATE TAX ALLOCATION REFUNDING BONDS; CONFIRMING ACTIONS PREVIOUSLY TAKEN, INCLUDING APPROVAL OF A FORM OF BOND PURCHASE CONTRACT; MAKING CERTAIN DETERMINATIONS RELATING THERETO; AND AUTHORIZING CERTAIN OTHER ACTIONS IN CONNECTION THEREWITH

RECOMMENDED ACTION

Recommendations: That the City Council as Successor Agency:

1. Adopt the resolution approving a Form of Preliminary Official Statement in connection with the sale and delivery of its subordinate tax allocation refunding bonds and authorizing actions related to the issuance of refunding bonds..

SUMMARY

On May 16, 2017, the City Council approved the initial steps to refund the Successor Agency's 2007 Tax Allocation Bonds. This bond refunding opportunity was further reviewed by the Oversight Board to the Successor Agency, at their meeting of May 17, 2017. On July 10, 2017, the City has received an authorization to proceed with the refunding plan from the State of California Department of Finance (DOF).

Additionally, in an effort to receive the best (lowest) interest rates for the refunding City Staff has also been working with Standard & Poor's (S&P) to review the credit rating for the Bonds. We have been notified that S&P has assigned its 'AA-' long-term rating to

the 2017 Refunding Bonds. This is a rating increase of three steps from 'A-' to 'AA-' and is reflective of strong financials and an outlook of continued growth.

As a result of the rating increase, based on market conditions as of July 11, 2017 the refunding of the outstanding 2007 Bonds will provide an average annual reduction in bond payments of \$682,155 for the first seven years, resulting in an increase of available property tax revenues of \$86,065 for the City on an average annual basis.

The report this evening recommends the adoption of the resolution to authorize the form of the Preliminary Official Statement in connection with the sale and delivery of the tax allocation refunding bonds and authorizing actions related to the issuance of refunding bonds.

DISCUSSION

In November 2007, the Community Redevelopment Agency of the City of Moreno Valley issued \$43,495,000 in 2007 Tax Allocation Bonds (the "Prior Bonds") of which \$40,855,000 aggregate principal amount will be outstanding as of August 2, 2017. The proceeds were used to fund redevelopment projects. Repayment of the 2007 Bonds was secured by a pledge on the tax increment revenues from Moreno Valley Redevelopment Project Area.

Section 34177.5(f) of the Redevelopment Dissolution Law (California Health and Safety Code Sections 34170 et seq.) (the "Dissolution Law") provides that the Oversight Board may direct the Successor Agency to the Community Redevelopment Agency of the City of Moreno Valley (the "Successor Agency") to commence proceedings for the issuance of bonds to refund bonds or other indebtedness of the Former Agency as permitted by Section 34177.5(a)(1) of the Dissolution Law, so long as the Successor Agency is able to recover its related costs in connection with the transaction.

The Successor Agency has a total of \$40,855,000 aggregate principal amount of the Prior Bonds that will be outstanding as of August 2, 2017. Staff has determined, in consultation with Fieldman, Rolapp & Associates, the Successor Agency's financial advisor, that current bond market conditions allow for the issuance of refunding bonds to refinance the outstanding Prior Bonds to lower the debt service costs. The market for post Dissolution Law tax allocation bonds is favorable, with more than 285 such bonds issued to date. The estimated average annual debt service savings are anticipated to be approximately \$227,828 per year based on market conditions as of July 11, 2017 when the Bond Refunding Financing Plan was prepared. These savings are distributed to all taxing entities as additional property tax revenues. The City will receive more than 12.6 cents of every dollar of debt service costs saved, resulting in an annual increase of available property tax revenues to the City of approximately \$28,744. The Refunding is currently structured to produce upfront savings, with majority of savings generated in the first seven years and minor savings thereafter. The average annual reduction in bond payments is \$682,155 for the first seven years, resulting in an increase of available property tax revenues of \$86,065 for the City on an average annual basis. The savings analyses are based on current market conditions, subject to change.

The State of California Department of Finance (DOF) has reviewed the refunding plan and on July 10, 2017, provided authorization to proceed.

MILESTONES

Tonight's action is the last step in the process to refund the Prior Bonds. It is anticipated that the refunding will be completed in August. The key milestones to complete the refunding are identified below:

- Successor Agency approval of the Preliminary Official Statement and authorizing actions related to the issuance of refunding bonds (Tonight's Action)
- Negotiated sale of Bonds (August, 2017)
- Bond closings (September, 2017)

TONIGHT'S ACTIONS

Approval of tonight's resolution will authorize actions as follows:

- Acknowledgement of Prior Approval of Issuance of Bonds – The City Council acting for the Agency, adopted its resolution on May 16, 2017, and through such resolution it approved the issuance of the Bonds and related financing documents.
- Approval of Preliminary Official Statement – The form of the Preliminary Official Statement is approved and the document is deemed final within the meaning of Rule 15c2-12 of the Securities Exchange Act of 1934, with its distribution by Stifel Nicolaus & Company as underwriter for the bonds.
- Ratification of Bond Purchase Contract – The form, terms and provisions of the Bond Purchase Contract previously approved by the Agency on May 16, 2017 and thereafter by the Oversight Board of the Agency is ratified and approved.
- Other Acts – The resolution authorizes the Authorized Officers to do any and all things and take any and all actions, which they, or any of them, may deem necessary or advisable in order to consummate the lawful issuance and sale of the refunding bonds.

ALTERNATIVES

1. Adopt the resolution approving a Form of Preliminary Official Statement and authorizing actions related to the issuance of refunding bonds. ***Staff recommends this alternative since this will allow for the timely issuance of the refunding bonds and will result in cost savings related to debt service.***
2. Do not adopt the proposed resolution and provide staff with additional direction. ***Staff does not recommend this action since this will result in a delay in the issuance of the refunding bonds which may result in the reduction in debt service savings.***

FISCAL IMPACT

The refinancing of the Prior Bonds is anticipated to generate gross savings in excess of \$4.78 million over the remaining life of the indebtedness. The average annual savings are estimated to be approximately \$227,828 per year based on market conditions as of July 11, 2017 when the Bond Refunding Financing Plan was prepared. The annual savings will be distributed to the taxing entities by the Riverside County Auditor Controller. This will result in an annual increase of available property tax revenues to the City of approximately \$28,744.

The Refunding is currently structured to produce upfront savings, with majority of savings generated in the first seven years and minor savings thereafter. The average annual reduction in bond payments is \$682,155 for the first seven years, resulting in an increase of available property tax revenues of \$86,065 for the City on an average annual basis. The savings analyses are based on current market conditions, subject to change.

These savings are net of the cost of refunding the outstanding bonds, which will be incorporated into the issuance cost of the refunding bonds.

In the opinion of Orrick, Herrington & Sutcliffe LLP, Bond Counsel to the Agency (“Bond Counsel”), based upon an analysis of existing laws, regulations, rulings and court decisions, and assuming, among other matters, the accuracy of certain representations and compliance with certain covenants, interest on the Series 2017 Bonds is excluded from gross income for federal income tax purposes under Section 103 of the Internal Revenue Code of 1986 and is exempt from State of California personal income taxes. In the further opinion of Bond Counsel, interest on the Series 2017 Bonds is not a specific preference item for purposes of the federal individual or corporate alternative minimum taxes, although Bond Counsel observes that such interest is included in adjusted current earnings when calculating corporate alternative minimum taxable income. Bond Counsel expresses no opinion regarding any other tax consequences related to the ownership or disposition of, or the amount, accrual or receipt of interest on, the Series 2017 Bonds. ("AGM" or the "Insurer") for deposit into a debt service reserve account (the "Reserve Account") for the Series 2017 Bonds; and (iii) to pay certain costs of issuance of the Series 2017 Bonds, including but not limited to the premium for a municipal bond insurance policy (the "Policy") to be issued by the Insurer insuring the payment of principal and interest on the Series 2017 Bonds. See the caption "REFUNDING PLAN—Sources and Uses of Funds."

The Series 2017 Bonds are secured by the Tax Revenues deposited in the Redevelopment Property Tax Trust Fund (referred to at times herein as the "RPTTF") and payable from amounts on deposit therein after payments of certain County of Riverside administrative costs and payments to certain taxing agencies, as more fully described under the captions "SECURITY FOR THE SERIES 2017 BONDS—Pass-Through Agreements," "—Statutory Pass-Through Amounts" and "PROPERTY TAXATION IN CALIFORNIA—Property Tax Collection Procedures—*Property Tax Administrative Costs*." Additionally, debt service on certain "Senior Bonds" will be payable from Tax Revenues senior to the Series 2017 Bonds. The "Senior Bonds" consist of (i) the City of Moreno Valley Towngate Community Facilities District No. 87-1, 2007 Special Tax Refunding Bonds, originally issued in the amount of \$10,665,000, of which \$4,545,000 are outstanding (the "Towngate Bonds") and (ii) the City of Moreno Valley Community Facilities District No. 87-1 (Towngate) Improvement Area No. 1, Special Tax Refunding Bonds, originally issued in the amount of \$4,075,000, of which \$2,115,000 are outstanding (the "Improvement Area No. 1 Bonds"). See the caption "THE PROJECT AREA—Estimated Debt Service Coverage."

The City and the Agency

The City is located in western Riverside County (the “County”), approximately 66 miles east of Los Angeles and 100 miles north of San Diego, California, in proximity to California Route 60 and Interstate 215. The City had a population of approximately 206,750 as of January 1, 2017 and covers approximately 51.5 square miles. Incorporated on December 3, 1984, the City operates as a general law city under California law. The City has a council-manager form of government, with the Mayor and four Council members elected by district for overlapping four-year terms. The City Council acted as the governing board of the Former Agency and now serves as the governing board of the Agency. See the caption “THE COMMUNITY REDEVELOPMENT AGENCY OF THE CITY OF MORENO VALLEY” herein.

The Former Agency was established pursuant to the Redevelopment Law. The Former Agency was activated on February 18, 1986, by City Ordinance No. 50. The Former Agency adopted and approved the Redevelopment Plan for the Project Area by Ordinance 87-154 of the City on December 29, 1987.

The Project Area consists of approximately 4,676 acres and is made up of commercial, industrial, housing and public land uses including the City’s Civic Center. See the caption “THE PROJECT AREA—General.”

On June 29, 2011, Assembly Bill No. 26 (“AB X1 26”) was enacted as Chapter 5, Statutes of 2011, together with a companion bill, Assembly Bill No. 27 (“AB X1 27”). A lawsuit entitled *California Redevelopment Association, et al. v. Matosantos, et al.*, was brought in the State Supreme Court challenging the constitutionality of AB X1 26 and AB X1 27. In a published decision (53 Cal. 4th 231 (Dec. 29, 2011)), the State Supreme Court largely upheld AB X1 26, invalidated AB X1 27, and held that AB X1 26 may be severed from AB X1 27 and enforced independently. As a result of AB X1 26 and the decision of the State Supreme Court, as of February 1, 2012, all redevelopment agencies in the State, including the Former Agency, were dissolved, and successor agencies were designated as successor entities to the former redevelopment agencies to expeditiously wind down the affairs of the former redevelopment agencies.

The primary provisions of AB X1 26 relating to the dissolution and winding down of former redevelopment agency affairs are Parts 1.8 (commencing with Section 34161) and 1.85 (commencing with Section 34170) of Division 24 of the Health & Safety Code of the State, as amended on June 27, 2012 by Assembly Bill No. 1484 (“AB 1484”), enacted as Chapter 26, Statutes of 2012 and as further amended on September 22, 2015 by Senate Bill 107 (“SB 107”), enacted as Chapter 325, Statutes of 2015 (collectively, as amended from time to time, the “Dissolution Act”).

On January 10, 2012, by Resolution No. 2012-04 and pursuant to Section 34173 of the Dissolution Act, the City Council of the City confirmed its election to serve as the successor agency to the Former Agency. Subdivision (g) of Section 34173 of the Dissolution Act, which was added by AB 1484, expressly affirms that the Agency is a separate public entity from the City, that the two entities shall not merge and that the liabilities of the Former Agency will not be transferred to the City, nor will the assets of the Former Agency become assets of the City.

The Redevelopment Plan

The Series 2017 Bonds are principally payable from Tax Revenues attributable to the Project Area (defined under the caption “THE PROJECT AREA”). The Project Area is subject to a redevelopment plan; see the caption “THE PROJECT AREA” for detailed information regarding the Redevelopment Plan (defined below under the caption “THE PROJECT AREA—General”), certain amendments to the Redevelopment Plan, and the Project Area.

Pursuant to the Indenture, the Agency will deposit moneys derived from the Project Area constituting Tax Revenues promptly upon receipt thereof into the Redevelopment Obligation Retirement Fund established

pursuant to Section 34170.5(a) of the Dissolution Act. Moneys held in the Redevelopment Obligation Retirement Fund will be transferred to the Trustee at the times specified in the Indenture to make payments of principal of and interest on the Series 2017 Bonds, all as described under the caption “SECURITY FOR THE SERIES 2017 BONDS.”

Tax Allocation Financing

Prior to the enactment of AB X1 26, the Redevelopment Law authorized the financing of redevelopment projects through the use of tax increment revenues. This method provided that the taxable valuation of the property within a redevelopment project area on the property tax roll last equalized prior to the effective date of the ordinance which adopts the redevelopment plan becomes the base year valuation. Assuming that the taxable valuation never drops below the base year level, the taxing agencies thereafter received that portion of the taxes produced by applying then current tax rates to the base year valuation, and the redevelopment agency was allocated the remaining portion produced by applying then current tax rates to the increase in valuation over the base year. Such incremental tax revenues allocated to a redevelopment agency were authorized to be pledged to the payment of agency obligations.

The Dissolution Act authorizes refunding bonds, including the Series 2017 Bonds, to be secured by a pledge of moneys deposited from time to time in a Redevelopment Property Tax Trust Fund held by a county auditor-controller with respect to a successor agency, which are equivalent to the tax increment revenues that were formerly allocated under the Redevelopment Law to the redevelopment agency and formerly authorized under the Redevelopment Law to be used for the financing of redevelopment projects.

Under the Indenture, Tax Revenues consist of all taxes annually allocated and paid to the Agency pursuant to Article 6 of Chapter 6 (commencing with Section 33670) of the Law, Section 16 of Article XVI of the Constitution of the State and other applicable state laws and as provided in the Redevelopment Plan available for or deposited into the RPTTF, to the extent not payable to Senior Bonds, payable with respect to Pass Through Obligations and subject to the equal and senior claims of indebtedness, if any. The Indenture further provides that if, and to the extent, that the provisions of Section 34172 or paragraph (2) of subdivision (a) of Section 34183 of the Dissolution Act are invalidated by a final judicial decision, then Tax Revenues will include all tax revenues allocated to the payment of indebtedness pursuant to California Health and Safety Code Section 33670 or such other section as may be in effect at the time providing for the allocation of tax increment revenues in accordance with Article XVI, Section 16 of the California Constitution. See the caption “—Security for the Series 2017 Bonds.”

Successor agencies have no power to levy property taxes and must look specifically to the allocation of taxes as described above. See the caption “RISK FACTORS.”

Security for the Series 2017 Bonds

The Dissolution Act requires the County Auditor-Controller to determine the amount of property taxes that would have been allocated to the Former Agency had the Former Agency not been dissolved pursuant to the operation of AB X1 26, using current assessed values on the last equalized roll on August 20, and to deposit such amount in the Redevelopment Property Tax Trust Fund. Section 34177.5(g) of the Dissolution Act provides that any bonds authorized to be issued by the Agency will be considered indebtedness incurred by the dissolved Former Agency, with the same legal effect as if such bonds had been issued prior to the effective date of AB X1 26, in full conformity with the applicable provisions of the Redevelopment Law that existed prior to that date, will be included in the Agency’s Recognized Obligation Payment Schedule, and will be secured by a pledge of, and lien on, and will be repaid from moneys deposited from time to time in the Redevelopment Property Tax Trust Fund established pursuant to, and in accordance with, the Dissolution Act. See Appendix B and the caption “SECURITY FOR THE SERIES 2017 BONDS—Recognized Obligation Payment Schedule.”

The Dissolution Act further provides that property tax revenues pledged to any bonds authorized under the Dissolution Act, such as the Series 2017 Bonds, are taxes allocated to the Agency pursuant to the provisions of the Redevelopment Law and the State Constitution which provided for the allocation of tax increment revenues under the Redevelopment Law, as described in the foregoing paragraph.

In accordance with the Dissolution Act, the Series 2017 Bonds and any Parity Debt (defined in Appendix B) which may be issued in the future are payable from and secured by, and Tax Revenues include, moneys deposited, from time to time, in the Redevelopment Property Tax Trust Fund.

The Series 2017 Bonds are payable from and secured by the Tax Revenues, whether held in the Redevelopment Property Tax Trust Fund or by the Agency or the Trustee. Tax Revenues are defined in the Indenture generally as all taxes annually allocated and paid to the Agency pursuant to Article 6 of Chapter 6 (commencing with Section 33670) of the Law, Section 16 of Article XVI of the Constitution of the State and other applicable state laws and as provided in the Redevelopment Plan available for or deposited into the RPTTF, to the extent not payable to Senior Bonds, payable with respect to Pass Through Obligations, and subject to the equal and senior claims of indebtedness, if, any. "Pass Through Obligations" are defined as (i) the statutory pass-through obligations of the Agency described under Section 33607.5 of the California Health and Safety Code, and (ii) the Pass-Through Agreements, and shall include amounts elected to be allocated pursuant to subdivision (a) of Section 33676 and Section 33607.7 or of the California Health and Safety Code. "Pass-Through Agreements" means each pass-through agreement and tax sharing agreement entered into by the Agency with respect to the Project Area. "Senior Bonds" are defined as (i) the City of Moreno Valley Towngate Community Facilities District No. 87-1, 2007 Special Tax Refunding Bonds, originally issued in the amount of \$10,665,000, of which \$4,545,000 are outstanding (the "Towngate Bonds") and (ii) the City of Moreno Valley Community Facilities District No. 87-1 (Towngate) Improvement Area No. 1, Special Tax Refunding Bonds, originally issued in the amount of \$4,075,000, of which \$2,115,000 are outstanding (the "Improvement Area No. 1 Bonds").

The City and the Former Agency did not amend the Redevelopment Plan (defined herein) in a manner which would have created an obligation to make payments of statutory pass-through obligations. See the caption "SECURITY FOR THE SERIES 2017 BONDS — Statutory Pass-Through Amounts."

The pledge of the Tax Revenues constitutes a first and exclusive lien on and security interest in the Tax Revenues and the Redevelopment Obligation Retirement Fund, including the Special Fund therein, and all amounts in the Redevelopment Property Tax Trust Fund, and will attach, be perfected and be valid and binding against all parties having claims of any kind in tort, contract or otherwise against the Agency, irrespective of whether such parties have notice of the Indenture. Such pledge permits the payment by the County Auditor-Controller of the County's administrative costs to the County as allowed under Section 34182 and Section 95.3 of the Revenue and Taxation Code and to various taxing agencies pursuant to the Pass-Through Agreements, Statutory Pass-Through Amounts and 33676 Amounts (as those terms are defined under the caption "SECURITY FOR THE SERIES 2017 BONDS—Tax Increment Financing—*Tax Sharing*") prior to payment of the principal and interest on the Series 2017 Bonds (unless such payments to taxing agencies are subordinated to payments on the Series 2017 Bonds). Taxes levied on the property within the Project Area on that portion of the taxable valuation over and above the taxable valuation of the applicable base year property tax roll with respect to the Project Area, to the extent that such taxes constitute Tax Revenues as described in this Official Statement, will be deposited in the Redevelopment Property Tax Trust Fund for transfer by the County Auditor-Controller to the Agency's Redevelopment Obligation Retirement Fund on January 2 and June 1 of each year to the extent required for payments listed in the Agency's Recognized Obligation Payment Schedule in accordance with the requirements of the Dissolution Act. See the captions "SECURITY FOR THE SERIES 2017 BONDS—Tax Increment Financing—*Tax Sharing*" and "—Recognized Obligation Payment Schedule." Moneys deposited by the County Auditor-Controller into the Agency's Redevelopment Obligation Retirement Fund will be transferred by the Agency to the Trustee for deposit in the Tax Increment Fund established under the Indenture and administered by the Trustee in accordance with the Indenture.

The Agency has no power to levy property taxes and must look specifically to the allocation of taxes as described above. See the captions “SECURITY FOR THE SERIES 2017 BONDS” and “RISK FACTORS.”

Prior Payment Obligations

In addition to debt service on the Senior Bonds, the use of Tax Revenues from the Project Area to pay debt service on the Series 2017 Bonds is subject to the prior payment of permitted administrative costs of the County Auditor-Controller and payments to certain taxing entities under certain Pass-Through Agreements. See the captions “PROPERTY TAXATION IN CALIFORNIA—Property Tax Collection Procedures—*Property Tax Administrative Costs*” for a description of the County’s administrative costs and “SECURITY FOR THE SERIES 2017 BONDS—Pass-Through Agreements” and “—Tax Increment Financing—*Tax Sharing*.”

Subordinate Debt Obligations

In connection with the development of the Moreno Valley Mall at TownGate, the Former Agency executed and delivered the following three promissory notes: (i) a Promissory Note dated December 11, 1992 in the original principal amount of \$3,000,000, in favor of TownGate Regional Mall Company; (ii) a Promissory Note dated December 11, 1992 in the original principal amount of \$6,000,000, in favor of TownGate Regional Mall Company; and (iii) a Promissory Note dated February 1, 1993 in the original principal amount of \$4,000,000, in favor of TownGate Regional Mall Company (collectively, the “Mall Notes”). The Agency remains obligated to make payments to the City of Moreno Valley, as holder of the Mall Notes, in connection with the Mall Notes from property taxes from the Project Area. As of June 1, 2017, the outstanding balance under the Mall Notes was [\$14,042,341]. The City has subordinated its right to receive payments under the Mall Notes to the Series 2017 Bonds.

The Former Agency, pursuant to various agreements with the City, was indebted to the City in the approximate amount of \$_____, [inclusive] [exclusive] of the Mall Notes; in all such cases, the obligation of the Successor Agency to make payments to the City is subordinate to the Series 2017 Bonds.

The Agency has other ongoing obligations to private parties and to defray certain costs of employees based upon activities of the Former Agency; all such obligations are subordinate to the Series 2017 Bonds. Such other obligations are paid pursuant to the process established under the Dissolution Act for recognized obligation payments schedules. See the caption “SECURITY FOR THE SERIES 2017 BONDS—Recognized Obligation Payment Schedule.”

Bond Insurance

Concurrently with the issuance of the Series 2017 Bonds, the Insurer will issue the Policy. The Policy guarantees the scheduled payment of principal and interest on the Series 2017 Bonds when due as set forth in the form of the Policy included as Appendix I to this Official Statement. See the caption “BOND INSURANCE.”

Reserve Policy

A Reserve Account for the Series 2017 Bonds has been established pursuant to the Indenture. The Insurer has committed to issue, concurrently with the issuance of the Series 2017 Bonds, the Reserve Policy for the benefit of the Series 2017 Bonds in the initial principal amount of \$_____, which constitutes the Reserve Account Requirement. The Reserve Policy will be deposited in the Reserve Account. The Reserve Policy secures only the Series 2017 Bonds and is not available for the benefit of any other obligations of the Agency. The Agency is not obligated: (i) to make any additional deposits into the Reserve Account in the event that the Insurer defaults on its obligation to make payments under the Reserve Policy; or (ii) to replace

the Reserve Policy in the event of a rating downgrade of the Insurer. See the caption “SECURITY FOR THE SERIES 2017 BONDS—Transfer of Amounts by Trustee—Reserve Account” and Appendix B.

THE SERIES 2017 BONDS

Authority for Issuance

The Series 2017 Bonds are authorized for issuance pursuant to the Indenture, the Bond Law, the Redevelopment Law and the Dissolution Act. Direction to undertake the issuance of the Series 2017 Bonds and the execution of the related documents was authorized by the Agency pursuant to Resolution No. SA 2017-03 adopted on May 16, 2017 (the “Resolution”), and by the Oversight Board of the Agency pursuant to Resolution No. OB2017-02 adopted on May 17, 2017 (the “Oversight Board Action”).

Written notice of the Oversight Board Action was provided to the State Department of Finance (the “DOF”) pursuant to the Dissolution Act, and the DOF requested a review within five business days of such written notice. On _____, 2017, which is within the time period allotted under the Dissolution Act for the DOF to review the Oversight Board’s approving resolution, the DOF provided a letter to the Agency stating that based on the DOF’s review and application of the law, the Oversight Board Action approving the Series 2017 Bonds is approved by the DOF. A copy of the DOF’s letter is set forth in Appendix F.

Description of the Series 2017 Bonds

The Series 2017 Bonds will be issued in fully registered form without coupons in denominations of \$5,000 or any integral multiple thereof, so long as no Series 2017 Bond will have more than one maturity date. The Series 2017 Bonds will be dated as of their Closing Date.

Interest on the Series 2017 Bonds will be payable semiannually on February 1 and August 1 in each year, commencing on February 1, 2018 (each, an “Interest Payment Date”). The Series 2017 Bonds shall bear interest from the Interest Payment Date next preceding the date of authentication thereof, unless such date of authentication is an Interest Payment Date, in which event they shall bear interest from such Interest Payment Date, or unless such date of authentication is prior to the first Interest Payment Date, in which event they shall bear interest from _____, 2017; provided, however, that if, at the time of authentication of the Series 2017 Bond, interest is then in default on such Series 2017 Bond, such Series 2017 Bond shall bear interest from the Interest Payment Date to which interest previously has been paid or made available for payment. Interest on the Series 2017 Bonds shall be computed on the basis of a 360-day year of twelve 30-day months.

Payment of interest on the Series 2017 Bonds shall be made to Cede & Co. as registered owner, or such other person whose name appears on the bond registration books of the Trustee as the registered owner of the Series 2017 Bonds, as of the close of business on the fifteenth (15th) day of the calendar month preceding

the Interest Payment Date (the “Record Date”), or if otherwise instructed, by check mailed to such registered owner at its address as it appears on such books or at such other address as it may have filed with the Trustee for that purpose prior to the Record Date.

Book-Entry System

DTC will act as securities depository for the Series 2017 Bonds. The Series 2017 Bonds will be issued as fully-registered securities registered in the name of Cede & Co. (DTC’s partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully-registered certificate will be issued for each maturity of the Series 2017 Bonds, each in the aggregate principal amount of such maturity, and will be deposited with DTC. See Appendix D for further information with respect to DTC and its book-entry system.

Redemption

Optional Redemption*. [The Series 2017 Bonds maturing on or after August 1, 2028, are subject to optional redemption before maturity on or after August 1, 2027, at the option of the Agency, in whole or in part, on any date, at a redemption price equal to the principal amount of the Series 2017 Bonds to be redeemed, plus accrued but unpaid interest to the redemption date.]

Mandatory Sinking Fund Redemption. [TO COME]

Notice of Redemption; Rescission. In the case of any redemption of Series 2017 Bonds, the Trustee shall give notice that the Series 2017 Bonds, identified by serial numbers and maturity date (and interest rate in the case of bifurcated maturities), have been called for redemption and, in the case of Series 2017 Bonds to be redeemed in part only, the portion of the principal amount thereof that has been called for redemption (or if all the Outstanding Series 2017 Bonds are to be redeemed, so stating, in which event such serial numbers may be omitted), that they will be due and payable on the date fixed for redemption (specifying such date) upon surrender thereof at the Principal Corporate Trust Office, at the redemption price (specifying such price), together with any accrued interest to such date, and that all interest on the Series 2017 Bonds so to be redeemed will cease to accrue on and after such date and that from and after such date such Series 2017 Bond or such portion shall no longer be entitled to any lien, benefit or security under the Indenture, and the Owner thereof shall have no rights in respect of such redeemed Series 2017 Bond or such portion except to receive payment from such moneys of such redemption price plus accrued interest to the date fixed for redemption.

Such notice shall be mailed by first class mail, postage prepaid, at least 20 but not more than 60 days before the date fixed for redemption, to the Security Depository, the MSRB and the Owners of such Series 2017 Bonds, or portions thereof, so called for redemption, at their respective addresses as the same shall last appear on the Bond Register. No notice of redemption need be given to the Owner of a Series 2017 Bond to be called for redemption if such Owner waives notice thereof in writing, and such waiver is filed with the Trustee prior to the redemption date. Neither the failure of an Owner to receive notice of redemption of Series 2017 Bonds nor any error in such notice shall affect the validity of the proceedings for the redemption of Series 2017 Bonds.

Any notice of redemption may be expressly conditional and may be rescinded by written request of the Agency given to the Trustee not later than the date fixed for redemption. Upon receipt of such written request of the Agency, the Trustee shall promptly mail notice of such rescission to the same parties that were mailed the original notice of redemption.

Partial Redemption of Bonds. Whenever less than all the Outstanding Series 2017 Bonds of any one maturity are to be redeemed on any one date, the Trustee shall select the particular Bonds to be redeemed by

* *Preliminary, subject to change.*

lot (subject in the case of such redemption of Insured Series 2017 Bonds to the prior written approval of the Insurer), and in selecting the Series 2017 Bonds for redemption the Trustee shall treat each Series 2017 Bond of a denomination of more than \$5,000 as representing that number of Series 2017 Bonds of \$5,000 denomination which is obtained by dividing the principal amount of such Series 2017 Bond by \$5,000, and the portion of any Series 2017 Bond of a denomination of more than \$5,000 to be redeemed shall be redeemed in an Authorized Denomination. The Trustee shall promptly notify the Agency in writing of the numbers of the Series 2017 Bonds so selected for redemption in whole or in part on such date.

Effect of Redemption. If any Bond or any portion thereof shall have been duly called for redemption and payment of the redemption price, together with unpaid interest accrued to the date fixed for redemption, shall have been made or provided for by the Agency, then interest on such Series 2017 Bond or such portion shall cease to accrue from such date, and from and after such date such Series 2017 Bond or such portion shall no longer be entitled to any lien, benefit or security under the Indenture, and the Owner thereof shall have no rights in respect of such Series 2017 Bond or such portion except to receive payment of such redemption price, and unpaid interest accrued to the date fixed for redemption.

Purchase in Lieu of Redemption. In lieu of optional redemption of any Series 2017 Bond, amounts on deposit in the Term Bonds Sinking Account may also be used and withdrawn by the Trustee at any time prior to selection of Series 2017 Bonds for redemption having taken place with respect to such amounts, upon a written request of the Agency, for the purchase of such Series 2017 Term Bonds at public or private sale as and when and at such prices (including brokerage and other charges) as the Agency may in its discretion determine, but not in excess of par plus accrued interest. Any accrued interest payable upon the purchase of Series 2017 Bonds shall be paid from amounts held in the Tax Increment Fund for the payment of interest on the next following Interest Payment Date. Any Series 2017 Term Bonds so purchased shall be cancelled by the Trustee forthwith and shall not be reissued. The principal of any Series 2017 Term Bonds so purchased by the Trustee in any twelve-month period ending 60 days prior to any Sinking Account Payment Date in any year shall be credited towards and shall reduce the principal of such Term Bonds required to be redeemed on such Sinking Account Payment Date in such year.

SECURITY FOR THE SERIES 2017 BONDS

General

The Dissolution Act requires the County Auditor-Controller to determine the amount of property taxes that would have been allocated to the Former Agency (pursuant to subdivision (b) of Section 16 of Article XVI of the State Constitution) had the Former Agency not been dissolved pursuant to the operation of AB X1 26, using current assessed values on the last equalized roll on August 20, and to deposit such amount in the

Redevelopment Property Tax Trust Fund for the Agency established and held by the County Auditor-Controller pursuant to the Dissolution Act. Section 34177.5(g) of the Dissolution Act provides that any bonds authorized to be issued by the Agency will be considered indebtedness incurred by the dissolved Former Agency, with the same legal effect as if the bonds had been issued prior to the effective date of AB X1 26, in full conformity with the applicable provision of the Redevelopment Law that existed prior to that date; will be included in the Agency's Recognized Obligation Payment Schedule and will be secured by a pledge of, and lien on, and will be repaid from moneys deposited from time to time in the Redevelopment Property Tax Trust Fund established pursuant to the Dissolution Act. Property tax revenues pledged to any bonds authorized to be issued by the Agency under the Dissolution Act, including the Series 2017 Bonds, are taxes allocated to the Agency pursuant to subdivision (b) of Section 33670 of the Redevelopment Law and Section 16 of Article XVI of the State Constitution. See Appendix B and the caption "—Recognized Obligation Payment Schedule."

Pursuant to Section 33670(b) of the Redevelopment Law and Section 16 of Article XVI of the State Constitution, and as provided in the Redevelopment Plan for the Project Area, taxes levied upon taxable property in the Project Area each year by or for the benefit of the State, any city, county, district, or other public corporation (herein sometimes collectively called "taxing agencies") after the effective date of the ordinance approving the redevelopment plan, or the respective effective dates of ordinances approving amendments to the redevelopment plan that added territory to the Project Area, as applicable, are to be divided as follows:

(a) To Taxing Agencies: That portion of the taxes which would be produced by the rate upon which the tax is levied each year by or for each of the taxing agencies upon the total sum of the assessed value of the taxable property in the applicable Project Area as shown upon the assessment roll used in connection with the taxation of such property by such taxing agency last equalized prior to the effective date of the ordinance adopting the redevelopment plan, or the respective effective dates of ordinances approving amendments thereto that added territory to the Project Area, as applicable (each, a "base year valuation"), will be allocated to, and when collected will be paid into, the funds of the respective taxing agencies as taxes by or for the taxing agencies on all other property are paid; and

(b) To the Former Agency/Agency: Except for that portion of the taxes in excess of the amount identified in (a) above which are attributable to a tax rate levied by a taxing agency for the purpose of producing revenues in an amount sufficient to make annual repayments of the principal of, and the interest on, any bonded indebtedness approved by the voters of the taxing agency on or after January 1, 1989 for the acquisition or improvement of real property, which portion shall be allocated to, and when collected shall be paid into, the fund of that taxing agency (as discussed under the caption "PROPERTY TAXATION IN CALIFORNIA—Article XIII A of the State Constitution"), that portion of the levied taxes each year in excess of such amount, annually allocated within the redevelopment plan limit, when collected will be paid into a special fund of the Former Agency. Section 34172(a) of the Dissolution Act provides that, for purposes of Section 16 of Article XVI of the State Constitution, the Redevelopment Property Tax Trust Fund will be deemed to be a special fund of the Agency to pay the debt service on indebtedness incurred by the Former Agency or the Agency to finance or refinance the redevelopment projects of the Former Agency.

That portion of the levied taxes described in paragraph (b) above constitutes the amount required under the Dissolution Act to be deposited by the County Auditor-Controller into the Redevelopment Property Tax Trust Fund. In addition, Section 34183 of the Dissolution Act effectively eliminates the January 1, 1989 date referred to in paragraph (b) above.

The Series 2017 Bonds are payable from and secured by deposits into the Redevelopment Property Tax Trust Fund to be derived from the Project Area on a subordinate basis to debt service on the Senior Bonds and amounts required to pay certain County administrative costs to the County and to pay amounts due to certain taxing entities under the Pass-Through Agreements. See the captions "—Tax Increment Financing—"

Tax Sharing” and “PROPERTY TAXATION IN CALIFORNIA—Property Tax Collection Procedures—*Property Tax Administrative Costs.*”

The Agency has no power to levy and collect taxes, and various factors beyond its control could affect the amount of Tax Revenues available in any fiscal year (defined as July 1 through June 30) to pay the principal of and interest on the Series 2017 Bonds. See the captions “—Tax Increment Financing,” “—Recognized Obligation Payment Schedule,” “PROPERTY TAXATION IN CALIFORNIA” and “RISK FACTORS.”

The Series 2017 Bonds are not a debt of the City, the State, or any of its political subdivisions (other than the Agency), and neither said City, said State, nor any of its political subdivisions is liable thereon (other than the Agency), nor in any event will the Series 2017 Bonds be payable out of any funds or properties other than those of the Agency. The Series 2017 Bonds do not constitute an indebtedness within the meaning of any constitutional or statutory debt limitation or restriction.

Tax Revenues

Subject to the terms and conditions set forth in the Indenture, the Indenture provides that all of the Tax Revenues and all amounts on deposit from time to time in the funds and accounts established under the Indenture (other than the Expense Account and the Rebate Fund) are pledged to the payment of the principal of and interest on the Series 2017 Bonds and any additional refunding obligations issued pursuant to the conditions set forth in the Indenture (“Parity Debt”). See the caption “—Limitation on Additional Indebtedness.” The Agency irrevocably grants to the Trustee for the benefit of the Insurer, the issuer of the Reserve Policy and the Owners of the Series 2017 Bonds and any Parity Debt a first charge and lien on, and a security interest in, and pledges and assigns, the Tax Revenues, whether held by the Agency, the County Auditor-Controller or the Trustee, and all amounts in the funds and accounts established under the Indenture (other than the Expense Account and the Rebate Fund), including the Tax Increment Fund, which is created pursuant to the Indenture by the Agency.

The Agency covenants and agrees to maintain the Tax Increment Fund with the Trustee so long as any Series 2017 Bonds or any Parity Debt are outstanding or amounts are owed to the Insurer, to the Trustee for the benefit of the Insurer and the Owners of any Series 2017 Bonds or any Parity Debt.

Other than the Senior Bonds, no additional bonds payable from Tax Revenues on a basis senior to or on a parity with the Series 2017 Bonds and any Parity Debt will be issued except pursuant to the Indenture. Parity Debt shall not be issued except for the purpose of refunding any outstanding Series 2017 Bonds or Parity Debt. See the caption “—Limitation on Additional Indebtedness.”

“Tax Revenues” mean all taxes annually allocated and paid to the Agency pursuant to Article 6 of Chapter 6 (commencing with Section 33670) of the Redevelopment Law, Section 16 of Article XVI of the Constitution of the State and other applicable state laws and as provided in the Redevelopment Plan available for or deposited into the Redevelopment Property Tax Trust Fund, to the extent not payable to Senior Bonds, payable with respect to Pass Through Obligations, and subject to the equal and senior claims of indebtedness, if any. If, and to the extent, that the provisions of Section 34172 or paragraph (2) of subdivision (a) of Section 34183 of the Dissolution Act are invalidated by a final judicial decision, then Tax Revenues will include all tax revenues allocated to the payment of indebtedness pursuant to California Health and Safety Code Section 33670 or such other section as may be in effect at the time providing for the allocation of tax increment revenues in accordance with Article XVI, Section 16 of the California Constitution.

The Agency covenants and agrees that, subject to the prior application and lien in favor of the Senior Bonds, all Tax Revenues when and as received, will be received by the Agency in trust and will be transferred to the Trustee within a reasonable period of time from the receipt by the Agency thereof, for deposit by the Trustee in the Tax Increment Fund and will be accounted for through and held in trust in the Tax Increment

Fund, and the Agency shall have no beneficial right or interest in any of such money, except only as specifically provided otherwise in the Indenture.

All such Tax Revenues, whether received by the Agency and held in trust pending transfer or deposited with the Trustee, shall nevertheless be disbursed, allocated and applied solely to the uses and purposes set forth in the Indenture, and shall be accounted for separately and apart from all other money, funds, accounts or other resources of the Agency. Any Tax Revenues received by the Trustee in the Tax Increment Fund (other than amounts deposited in the Reserve Account) in excess of the amounts required to be held by the Trustee in the Tax Increment Fund shall be released from the pledge and lien under the Indenture and transferred to the Agency and may be used for any lawful purpose of the Agency.

Pursuant to the laws of the State of California, including California Health and Safety Code Sections 34183 and 34170.5(b), the County Auditor-Controller is obligated to deposit the Tax Revenues into the Redevelopment Property Tax Trust Fund. In accordance with the Indenture and the Dissolution Act, and in accordance with the County Auditor-Controller's obligations as set forth in California Health and Safety Code Section 34183, the Agency shall take all steps to ensure that the County Auditor-Controller (1) deposits the Tax Revenues into the Redevelopment Property Tax Trust Fund, (2) allocates funds for the principal and interest payments due on the Outstanding Series 2017 Bonds and any Parity Debt and any deficiency in the Reserve Account (including amounts due to the issuer of the Reserve Policy) pursuant to each valid Recognized Obligation Payment Schedule in accordance with the Dissolution Act, and (3) make the transfers to the Trustee required under the Indenture.

The Agency will take all actions required under the Dissolution Act to include on its Recognized Obligation Payment Schedule the amounts described below to be transmitted to the Trustee for the applicable ROPS Period in order to satisfy the requirements of the Indenture, including any amounts required to pay principal and interest payments due on the Senior Bonds, Outstanding Bonds and any Parity Debt, any Compliance Costs, any deficiency in the Reserve Account to the full amount of the Reserve Account Requirement (including amounts due to the issuer of the Reserve Policy) and any deficiency in the reserve accounts under the indentures for the Senior Bonds. The Agency shall submit an Oversight Board-approved Recognized Obligation Payment Schedule to the County Auditor-Controller and the Department of Finance on or before February 1 with respect to the ROPS Period commencing the following July 1.

In furtherance of such pledge, and in preparing a given Recognized Obligation Payment Schedule, the Agency shall reflect on each annual Recognized Obligation Payment Schedule that the amount due to the Trustee, received in trust from the County Auditor-Controller for deposit in the Tax Increment Fund on June 1 of the then-current calendar year from Tax Revenues required to be deposited into the Redevelopment Property Tax Trust Fund shall equal (1) the sum of (a) all scheduled principal payments and Sinking Account Installments due and payable on the Outstanding Bonds and any Parity Debt during the then-current calendar year, and (b) all scheduled interest payments due and payable on the outstanding Series 2017 Bonds and any Parity Debt during the then-current calendar year, plus (2) the amount of any deficiency in the Reserve Account (including amounts due to the issuer of the Reserve Policy), less (3) the amounts, if any, on deposit in the Tax Increment Fund as of the date of submission for the Recognized Obligation Payment Schedule that are in excess of the amounts required to be applied to payment of principal of or interest or sinking account payments on the outstanding Series 2017 Bonds and any Parity Debt in the then current calendar year.

The amount due to the Trustee from the County Auditor-Controller for deposit in the Tax Increment Fund on January 2 of the following calendar year from amounts required to be deposited into the Redevelopment Property Tax Trust Fund shall be equal to the remainder due and payable on the outstanding Series 2017 Bonds and any Parity Debt during the following calendar year in an amount equal to not less than (1) the remaining the sum of (a) all scheduled principal payments and Sinking Account Installments due and payable on the outstanding Series 2017 Bonds and any Parity Debt during the following calendar year, and (b) all scheduled interest payments due and payable on the Outstanding Bonds and any Parity Debt during the following calendar year, plus (2) the amount of any remaining deficiency in the Reserve Account.

Tax Revenues received by the Agency during a ROPS Period in excess of the amount required to be deposited in the Tax Increment Fund shall, immediately following the deposit with the Trustee of the amounts required to be so deposited as provided in the Indenture on each such date, be released from the pledge, security interest and lien for the security of the Outstanding Bonds, and may be applied by the Agency for any lawful purpose of the Agency, including but not limited to the payment of subordinate debt, or the payment of any amounts due and owing to the United States of America pursuant to the Indenture. Prior to the payment in full of the principal of and interest and redemption premium (if any) on the Outstanding Bonds and any Parity Debt and the payment in full of all other amounts payable under the Indenture, the Agency shall not have any beneficial right or interest in the moneys on deposit in the Tax Increment Fund, except as may be provided in the Indenture and in any Supplemental Indenture.

Expected Compliance Costs, if any, will be included in each Recognized Obligation Payment Schedule in accordance with the Dissolution Act. "Compliance Costs" mean those costs incurred by the Agency or the Trustee in connection with their compliance with the Indenture and the Continuing Disclosure Certificate that are chargeable against the Redevelopment Property Tax Trust Fund, including legal fees and charges, other related administrative costs of the Agency, fees and disbursements of consultants and professionals, rating agency fees, amounts to reimburse the Insurer for draws on its Bond Insurance Policy (including any other amounts due to the Insurer), and Qualified Reserve Account Credit Instruments, and all amounts required to be rebated to the United States pursuant to Section 148(f) of the Code.

Pursuant to the Dissolution Act, former tax increment revenues generated in the Project Area are no longer required to be deposited into the Low and Moderate Income Housing Fund. Accordingly, and because the Agency has no obligations that are payable from the Low and Moderate Income Housing Fund, such revenues are now available and pledged to the repayment of the Series 2017 Bonds and any Parity Debt. See the caption "—Tax Increment Financing—*Elimination of Housing Set-Aside.*"

Redevelopment Obligation Retirement Fund; Deposit of Tax Revenues

The Agency has established the Redevelopment Obligation Retirement Fund and the Special Fund therein pursuant to Section 34170.5(a) of the Dissolution Act, which the Agency will continue to hold so long as any of the Series 2017 Bonds are Outstanding. Under the Indenture, the Agency covenants, subject to the prior application and lien in favor of the Senior Bonds, to credit all Tax Revenues withdrawn from the Redevelopment Property Tax Trust Fund by the County Auditor-Controller and remitted to the Trustee for the payment of the Senior Bonds, the Series 2017 Bonds and any Parity Debt to the Redevelopment Obligation Retirement Fund established pursuant to Section 34170.5(a) of the California Health and Safety Code.

Transfer of Amounts by Trustee

The Agency covenants and agrees that, subject to the prior application and lien in favor of the Senior Bonds, all Tax Revenues, when and as received, will be received by the Agency in trust under the Indenture and shall be deemed to be held by the Agency as agent for the Trustee and will, not later than 10 Business Days following such receipt, be deposited by the Agency with the Trustee in the Tax Increment Fund and will be accounted for through and held in trust in the Tax Increment Fund, and the Agency shall have no beneficial right or interest in any of such money, except only as provided in the Indenture; provided that the Agency shall not be obligated to deposit in the Tax Increment Fund in any calendar year an amount which exceeds the amounts required to be transferred to the Trustee for deposit into the Tax Increment Fund. All such Tax Revenues, whether received by the Agency in trust or deposited with the Trustee, shall nevertheless be disbursed, allocated and applied solely to the uses and purposes set forth in the Indenture, and shall be accounted for separately and apart from all other money, funds, accounts or other resources of the Agency.

Subject to the prior application and lien in favor of the Senior Bonds, all Tax Revenues in the Tax Increment Fund shall be set aside by the Trustee in each Bond Year when and as received in the following respective special accounts within the Tax Increment Fund, in the following order of priority: (1) Interest

Account; (2) Principal Account; (3) Term Bonds Sinking Account; (4) Reserve Account; and (5) Expense Account.

Interest Account. The Trustee shall set aside from the Tax Increment Fund and deposit in the Interest Account an amount of money which, together with any money contained therein, is equal to the aggregate amount of the interest becoming due and payable on all Outstanding Bonds on the Interest Payment Dates in such Bond Year. No deposit need be made into the Interest Account if the amount contained therein is at least equal to the aggregate amount of the interest becoming due and payable on all Outstanding Bonds on the Interest Payment Dates in such Bond Year. All moneys in the Interest Account shall be used and withdrawn by the Trustee solely for the purpose of paying the interest on the Bonds as it shall become due and payable (including accrued interest on any Bonds purchased or redeemed prior to maturity).

Principal Account. The Trustee shall set aside from the Tax Increment Fund and deposit in the Principal Account an amount of money which, together with any money contained therein, is equal to the aggregate amount of principal becoming due and payable on all Outstanding Serial Bonds on the Principal Payment Date in such Bond Year. No deposit need be made into the Principal Account if the amount contained therein is at least equal to the aggregate amount of principal of all Outstanding Serial Bonds becoming due and payable on the Principal Payment Date in such Bond Year. All money in the Principal Account shall be used and withdrawn by the Trustee solely for the purpose of paying principal of the Serial Bonds as they shall become due and payable.

In the event that there shall be insufficient money in the Tax Increment Fund to pay in full all such principal and Sinking Account Installments due in such Bond Year, then the money available in the Tax Increment Fund shall be applied *pro rata* to the payment of such principal and Sinking Account Installments in the proportion which all such principal and Sinking Account Installments bear to each other.

Term Bonds Sinking Account. The Trustee shall deposit in the Term Bonds Sinking Account an amount of money which, together with any money contained therein, is equal to the Sinking Account Installments payable on the Sinking Account Payment Date in such Bond Year. No deposit need be made in the Term Bonds Sinking Account if the amount contained therein is at least equal to the aggregate amount of all Sinking Account Installments required to be made on the Sinking Account Payment Date in such Bond Year. All moneys in the Term Bonds Sinking Account shall be used and withdrawn by the Trustee solely for the purpose of purchasing or redeeming the Term Bonds.

Reserve Account. The Trustee shall set aside from the Tax Increment Fund and deposit in the Reserve Account such amount as may be necessary to maintain on deposit therein an amount equal to the Reserve Account Requirement, which in the Indenture shall mean as of the date of any calculation, with respect to all Outstanding Bonds an amount equal to the lesser of (i) the Maximum Annual Debt Service attributable to the Outstanding Bonds or (ii) 125% of Average Annual Debt Service attributable to the Outstanding Bonds; provided, however, that the Reserve Account Requirement when issuing a new Series of Bonds shall be the lesser of (i) or (ii) above, but limited to the addition to the Reserve Account of no more than 10% of the proceeds from the sale of such new Series of Bonds. No deposit need be made into the Reserve Account so long as there shall be on deposit therein an amount equal to the Reserve Account Requirement. All money in or credited to the Reserve Account shall be used and withdrawn by the Trustee solely for the purpose of replenishing the Interest Account, the Principal Account or the Term Bonds Sinking Account in such order, in the event of any deficiency in any of such accounts occurring on any Interest Payment Date, Principal Payment Date or Sinking Account Payment Date, or for the purpose of paying the interest on or the principal of the Bonds in the event that no other money of the Agency is lawfully available therefor, or for the retirement of all Bonds then Outstanding, except that for so long as the Agency is not in default under the Indenture, any amount in the Reserve Account in excess of the Reserve Account Requirement shall be transferred to the Tax Increment Fund.

On any date on which Bonds are defeased in accordance with the Indenture, the Trustee shall, if so directed in a written request of the Agency, transfer any moneys in the Reserve Account in excess of the Reserve Account Requirement resulting from such defeasance to be applied to such defeasance.

If at any time the Trustee fails to pay principal or interest due on any scheduled payment date for the Bonds and any Parity Debt or withdraws funds from the Reserve Account to pay principal and interest on the Bonds and any Parity Debt, the Trustee shall notify the Agency in writing of such failure or withdrawal, as applicable.

A Qualified Reserve Account Credit Instrument may be deposited in the Reserve Account. [The prior written consent of the Insurer shall be a condition precedent to the deposit of any Qualified Reserve Account Credit Instrument credited to the Reserve Account established for the Series 2017 Bonds (other than the Reserve Policy) in lieu of a cash deposit into the Reserve Account. Amounts drawn under the Reserve Policy shall be available only for the payment of scheduled principal and interest on the Series 2017 Bonds when due.]

A “Qualified Reserve Account Credit Instrument” means: (i) the Reserve Policy; or (ii) an irrevocable standby or direct-pay letter of credit or surety bond issued by a commercial bank or insurance company and deposited with the Trustee into the Reserve Account, provided that all of the following requirements are met by the Agency at the time of delivery thereof to the Trustee:

- (a) S&P or Moody’s has assigned a long-term credit rating to such bank or insurance company of “A” (without regard to modifier) or higher;
- (b) such letter of credit or surety bond has a term of at least twelve (12) months;
- (c) such letter of credit or surety bond has a stated amount at least equal to the portion of the Reserve Account Requirement with respect to which funds are proposed to be released pursuant to the Indenture;
- (d) the Trustee is authorized pursuant to the terms of such letter of credit or surety bond to draw thereunder an amount equal to any deficiencies which may exist from time to time in the Interest Account, the Principal Account or the Term Bonds Sinking Account for the purpose of making payments required pursuant to the Indenture; and
- (e) prior written notice is given to the Trustee before the effective date of any such Qualified Reserve Account Credit Instrument.

The Insurer will issue the Reserve Policy for the purpose of funding the Reserve Account for the Series 2017 Bonds. The Reserve Policy will be issued by the Insurer in an amount equal to the Reserve Account Requirement applicable to the Series 2017 Bonds. The Reserve Policy is a Qualified Reserve Account Credit Instrument. The premium for the Reserve Policy is to be fully paid at or prior to the issuance of the Series 2017 Bonds. Under the terms of the Reserve Policy, the Insurer will unconditionally and irrevocably guarantee to pay that portion of the scheduled principal and interest on the Series 2017 Bonds that becomes due for payment but shall be unpaid by reason of nonpayment by the Agency.

The Trustee shall ascertain the necessity for a claim upon the Reserve Policy in accordance with the Indenture and provide notice to the Insurer in accordance with the terms of the Reserve Policy at least five Business Days prior to each date upon which interest or principal is due on the Series 2017 Bonds, respectively. Where deposits are required to be made by the Agency with the Trustee to the Interest Account and Principal Account of the Tax Increment Fund for the Series 2017 Bonds, respectively, more often than semi-annually, the Trustee shall be instructed to give notice to the Insurer of any failure of the Agency to make timely payment in full of such deposits within two Business Days of the date due.

Tax Increment Financing

General. Prior to the enactment of AB X1 26, the Redevelopment Law authorized the financing of redevelopment projects through the use of tax increment revenues. This method provided that the taxable valuation of the property within a redevelopment project area on the property tax roll last equalized prior to the effective date of the ordinance which adopts the redevelopment plan becomes the base year valuation. Assuming that the taxable valuation exceeds the base year level, the taxing agencies thereafter received that portion of the taxes produced by applying then current tax rates to the base year valuation, and the redevelopment agency was allocated the remaining portion produced by applying then current tax rates to the increase in valuation over the base year. Such incremental tax revenues allocated to a redevelopment agency were authorized to be pledged to the payment of agency obligations.

The Dissolution Act authorizes refunding bonds, including the Series 2017 Bonds, that are issued by a successor agency to be secured by a pledge of moneys deposited from time to time in a Redevelopment Property Tax Trust Fund held by a county auditor-controller with respect to that successor agency, which are equivalent to the tax increment revenues that were formerly allocated under the Redevelopment Law to the redevelopment agency and formerly authorized under the Redevelopment Law to be used for the financing of redevelopment projects, less amounts deducted pursuant to Section 34183(a) of the Dissolution Act for permitted administrative costs of the county auditor-controller. Under the Indenture, Tax Revenues consist of the amounts deposited from time to time in the Redevelopment Property Tax Trust Fund established pursuant to and as provided in the Dissolution Act. Successor agencies have no power to levy property taxes and must look specifically to the allocation of taxes as described above. See the caption “RISK FACTORS.”

Tax Sharing. The Redevelopment Law authorized redevelopment agencies to make payments to school districts and other taxing agencies to alleviate any financial burden or detriments to such taxing agencies caused by a redevelopment project. The Former Agency entered into eight agreements for this purpose. (See the caption “—Pass-Through Agreements” below.) Additionally, Sections 33607.5 and 33607.7 of the Redevelopment Law required mandatory tax sharing applicable to redevelopment projects adopted after January 1, 1994, or amended thereafter in certain manners specified in such statutes (the “Statutory Pass-Through Amounts”). (See the caption “—Statutory Pass-Through Amounts” below.) Further, redevelopment project areas adopted between January 1, 1985 and January 1, 1994 were subject to payments to schools and to other affected taxing agencies that elected to receive tax revenue payments set forth under Section 33676 of the Law (“33676 Amounts”). (See the caption “—Section 33676 Election” below.)

The Dissolution Act requires the County Auditor-Controller to distribute from the Redevelopment Property Tax Trust Fund amounts required to be distributed pursuant to Pass-Through Agreements or as Statutory Pass-Through Amounts or 33676 Amounts to the taxing entities on each January 2 and June 1 before amounts are distributed by the County Auditor-Controller from the Redevelopment Property Tax Trust Fund to the Agency’s Redevelopment Obligation Retirement Fund, unless: (i) pass-through payment obligations have been made subordinate to debt service payments for the bonded indebtedness of the Agency; (ii) the Agency has reported, no later than the December 1 and May 1 preceding the applicable January 2 or June 1 distribution date, that the total amount available to the Agency from the Redevelopment Property Tax Trust Fund allocation to the Agency’s Redevelopment Obligation Retirement Fund, from other funds transferred from the Former Agency and from funds that have or will become available through asset sales and all redevelopment operations, is insufficient to fund the Agency’s enforceable obligations, pass-through payments and the Agency’s administrative cost allowance for the applicable six-month period; and (iii) the State Controller has concurred with the Agency that there are insufficient funds for such purposes for the applicable six-month period.

The Dissolution Act provides for a procedure by which the Agency may make Statutory Pass-Through Amounts and 33676 Amounts subordinate to the Series 2017 Bonds. The City and the Former Agency did not amend the Redevelopment Plan (defined herein) in a manner which would have created an obligation to make payments of statutory pass-through obligations. See the caption “SECURITY FOR THE SERIES 2017

BONDS — Statutory Pass-Through Amounts.” The Agency has not undertaken the requisite procedures to obtain subordination of the 33676 Amounts and, therefore, amounts due as 33676 Amounts, as well as payments under an agreement between the Former Agency and the Riverside County Flood Control and Water Conservation District are senior in payment priority to the Series 2017 Bonds. See the caption “—Pass-Through Agreements—*The Flood Agreement*,” see also the caption “THE PROJECT AREA” for information regarding assessed values and tax revenues generated in the Project Area.

Elimination of Housing Set-Aside. Before the dissolution of the Former Agency, the Redevelopment Law required the Former Agency to set aside not less than 20% of the gross tax increment allocated to the Former Agency from the Project Area, i.e., the “Housing Set-Aside,” in the Former Agency’s Low and Moderate Income Housing Fund, to be expended for low and moderate income housing purposes. Generally, the Former Agency was authorized to use the Housing Set-Aside to pay debt service on bonds solely to the extent that the proceeds of such bonds were used to finance or refinance low and moderate income housing projects. In contrast, under the Redevelopment Law, the Former Agency was authorized to use the portion of tax increment that was not part of the Housing Set-Aside (the “Non-Housing Portion”) to pay debt service on all bonds and other indebtedness of the Former Agency incurred to finance or refinance redevelopment projects for the Project Area, subject to limitations set forth in the indentures or other governing documents.

The Dissolution Act has eliminated the Low and Moderate Income Housing Fund and the requirement to deposit the Housing Set-Aside into such fund. None of the property tax revenues deposited in the Redevelopment Property Tax Trust Fund are designated as the Housing Set-Aside because the Agency has no obligations that are payable from the Housing Set-Aside. The Redevelopment Property Tax Trust Fund flow of funds under the Dissolution Act makes no distinction between bonds that were, in whole or in part, secured by and payable from the Housing Set-Aside and bonds that were solely secured by and payable from the Non-Housing Portion. In effect, after the Former Agency’s dissolution, all of the Agency’s outstanding bonds are paid from Redevelopment Property Tax Trust Fund disbursements without distinction between obligations related to housing and non-housing projects.

Recognized Obligation Payment Schedule

On or before each February 1, with respect to each fiscal year, the Dissolution Act requires successor agencies to prepare and approve, and submit to the successor agency’s oversight board and the DOF for approval, a Recognized Obligation Payment Schedule pursuant to which enforceable obligations (as such term is defined in the Dissolution Act) of the successor agency are listed, together with the source of funds to be used to pay for each enforceable obligation. As defined in the Dissolution Act, “enforceable obligation” includes bonds, including the required debt service, reserve set-asides and any other payments required under an indenture or similar documents governing the issuance of the outstanding bonds of the former redevelopment agency, as well as other obligations such as loans, judgments or settlements against the former redevelopment agency, any legally binding and enforceable agreement that is not otherwise void as violating the debt limit or public policy, contracts necessary for the administration or operation of the successor agency, and amounts borrowed from the Low and Moderate Income Housing Fund. A reserve may be included on the Recognized Obligation Payment Schedule and held by the successor agency when required by the bond indenture or when the next property tax allocation will be insufficient to pay all obligations due under the provisions of the bond for the next payment due in the following half of the calendar year.

Under the Dissolution Act, the categories of sources of payments for enforceable obligations listed on a Recognized Obligation Payment Schedule are the following: (i) the Low and Moderate Income Housing Fund; (ii) bond proceeds; (iii) reserve balances; (iv) administrative cost allowance; (v) the Redevelopment Property Tax Trust Fund (but only to the extent that no other funding source is available or when payment from property tax revenues is required by an enforceable obligation or otherwise required under the Dissolution Act); or (vi) other revenue sources (including rents, concessions, asset sale proceeds, interest earnings, and any other revenues derived from the former redevelopment agency, as approved by the oversight board).

The Dissolution Act provides that, commencing on the date that the first Recognized Obligation Payment Schedule is valid, only those payments listed in the Recognized Obligation Payment Schedule may be made by the Agency from the funds specified in the Recognized Obligation Payment Schedule. Each annual Recognized Obligation Payment Schedule may be amended once, provided that (i) the Agency submits the amendment to DOF no later than October 1, (ii) the Oversight Board makes a finding that the amendment is necessary for the payment of approved enforceable obligations during the second half of the Recognized Obligation Payment Schedule period (from January 1 to June 30, inclusive), and (iii) the Agency may only amend the amount requested for payment of approved enforceable obligations. The DOF shall notify the Agency and the County Auditor-Controller as to whether the Agency's requested amendment is approved at least 15 days before the January 2 property tax distribution.

The Recognized Obligation Payment Schedule must be submitted by the Agency, after approval by the Oversight Board, to the County Administrative Officer, the County Auditor-Controller, the DOF and the State Controller by February 1 in each year with respect to the Agency's payment obligations during the next fiscal year. If the Agency does not submit an Oversight Board-approved Recognized Obligation Payment Schedule by such deadline, the City will be subject to a civil penalty equal to \$10,000 per day for every day that the schedule is not submitted. Additionally, the Agency's administrative cost allowance will be reduced by 25% for any fiscal year for which the Agency does not submit an Oversight Board-approved Recognized Obligation Payment Schedule within 10 days of the February 1 deadline. If the Agency fails to submit a Recognized Obligation Payment Schedule by the February 1 deadline, any creditor of the Agency or the DOF or any affected taxing entity shall have standing to, and may request a writ of mandate to, require the Agency to immediately perform this duty. For additional information regarding procedures under the Dissolution Act relating to late Recognized Obligation Payment Schedules and implications thereof on the Series 2017 Bonds, see the caption "RISK FACTORS—Recognized Obligation Payment Schedule."

With respect to each Recognized Obligation Payment Schedule submitted by the Agency, the Dissolution Act requires the DOF to make a determination of the enforceable obligations and the amounts and funding sources available to pay approved enforceable obligations no later than April 15. Within five business days of the determination by the DOF, the Agency may request additional review by the DOF and an opportunity to meet and confer on disputed items, if any. The DOF will notify the Agency and the County Auditor-Controller as to the outcome of its review at least 15 days before the June 1 property tax distribution date preceding the applicable Recognized Obligation Payment Schedule period. Additionally, the County Auditor-Controller may review a submitted Recognized Obligation Payment Schedule and object to the inclusion of any items that are not demonstrated to be enforceable obligations and may object to the funding source proposed for any items, provided that the County Auditor-Controller must provide notice of any such objections to the Agency, the Oversight Board and the DOF at least 60 days prior to the next property tax distribution date.

See the caption "—Last and Final Recognized Obligation Payment Schedule" for a description of the Last and Final Recognized Obligation Payment Schedule authorized by the Dissolution Act pursuant to SB 107.

In connection with the allocation and distribution by the County Auditor-Controller of property tax revenues deposited in the Redevelopment Property Tax Trust Fund, under the Dissolution Act the County Auditor-Controller must prepare estimates of the amounts of: (i) property tax to be allocated and distributed; and (ii) the amounts of pass-through payments to be made for the upcoming fiscal year, and provide those estimates to the entities receiving the distributions and the DOF by no later than October 1 and April 1 of each year, as applicable. If, after receiving such estimate from the County Auditor-Controller, the Agency determines and reports, no later than December 1 or May 1, as applicable, that the total amount available to the Agency from the Redevelopment Property Tax Trust Fund allocation to the Agency's Redevelopment Obligation Retirement Fund, from other funds transferred from the Former Agency and from funds that have or will become available through asset sales and all redevelopment operations, is insufficient to fund the payment of pass-through obligations, Agency enforceable obligations listed on the Recognized Obligation

Payment Schedule and the Agency's administrative cost allowance, the County Auditor-Controller must notify the State Controller and the DOF by no later than 10 days from the date of the Agency's notification. If the State Controller concurs that there are insufficient funds to pay required debt service, and if the Agency's tax sharing obligations described in Section 34183(a)(1) of the Dissolution Act have been subordinated to the Agency's enforceable obligations, then the Dissolution Act provides for certain adjustments to be made to the estimated distributions, as described in more detail under the caption "*—Tax Increment Financing—Tax Sharing.*"

The Dissolution Act provides that any bonds authorized to be issued by the Agency will be considered indebtedness incurred by the dissolved Former Agency, with the same legal effect as if such bonds had been issued prior to the effective date of AB X1 26, in full conformity with the applicable provision of the Redevelopment Law that existed prior to such date, will be included in the Agency's Recognized Obligation Payment Schedule and will be secured by a pledge of, and lien on, and will be repaid from moneys deposited from time to time in the Redevelopment Property Tax Trust Fund established pursuant to the Dissolution Act. Additionally, if an enforceable obligation provides for an irrevocable commitment of property tax revenue and where allocation of revenues is expected to occur over time, the Dissolution Act provides that a successor agency may petition the DOF to provide written confirmation that its determination of such enforceable obligation as approved in a Recognized Obligation Payment Schedule is final and conclusive, and reflects the DOF's approval of subsequent payments made pursuant to the enforceable obligation. If the confirmation is granted by the DOF, then the DOF's review of such payments in each future Recognized Obligation Payment Schedule will be limited to confirming that they are required by the prior enforceable obligation.

In order to ensure the timely payment of debt service on the Series 2017 Bonds, on or before each February 1 following the Closing Date (or at such earlier time as may be required by the Dissolution Act), for so long as any Bonds are outstanding, the Agency shall submit an Oversight Board-approved Recognized Obligation Payment Schedule to the DOF and to the County Auditor-Controller that shall include, from the first available Tax Revenues (subject to payments to the County for administrative expenses and to certain taxing entities, as provided in the Indenture): (i) all debt service due on all Outstanding Parity Debt coming due during the applicable ROPS Period (with one-half of such year's debt service to be distributed from the Redevelopment Property Tax Trust Fund on June 1 and the remainder of such year's debt service to be distributed from the Redevelopment Property Tax Trust Fund on January 2), as well as all amounts due and owing to any Insurer under the Indenture, and (ii) any amount required to cure any deficiency in the Reserve Account pursuant to the Indenture or a reserve account established under any Parity Debt Instrument (including any amounts required due to a draw on the Qualified Reserve Account Credit Instrument as well as all amounts due and owing to any Insurer under the Indenture).

The Agency covenants in the Indenture that it will comply with the requirements of the Dissolution Act, including without limitation to file all required statements and seek all necessary approvals required under the Dissolution Act to assure compliance by the Agency with its covenants under the Indenture. See Appendix B.

Last and Final Recognized Obligation Payment Schedule

SB 107 amended the Dissolution Act to permit a successor agency to submit a Last and Final Recognized Obligation Payment Schedule (a "Last and Final ROPS") for approval by the oversight board and the DOF if: (i) the successor agency's only remaining debt is administrative costs and payments pursuant to enforceable obligations with defined payment schedules, (ii) all remaining obligations have been previously listed on a Recognized Obligation Payment Schedule and approved by the DOF, and (iii) the successor agency is not a party to outstanding or unresolved litigation. The Last and Final ROPS must list the remaining enforceable obligations of the successor agency in the following order: (A) enforceable obligations to be funded from the Redevelopment Property Tax Trust Fund, (B) enforceable obligations to be funded from bond proceeds or other legally or contractually dedicated or restricted funding sources, and (C) loans or deferrals authorized for repayment to the city that created the redevelopment agency or the successor to the former

redevelopment agency's housing functions and assets. The Last and Final ROPS must also include the total outstanding obligation and a schedule of remaining payments for each enforceable obligation described in (A) and (B) above, and the total outstanding obligation and an interest rate of 4%, for any loans or deferrals listed pursuant to (C) above. The Last and Final ROPS shall also establish the maximum amount of Redevelopment Property Tax Trust Funds to be distributed to the successor agency for each remaining fiscal year until all obligations have been fully paid. DOF approval is required for any Last and Final ROPS to become effective. The county auditor-controller shall also review the Last and Final ROPS and provide any objection to the inclusion of any items or amounts to the DOF.

Successor agencies may only amend an approved Last and Final ROPS twice. Approval by the oversight board and the DOF is required for any amendment to a Last and Final ROPS to become effective. The DOF shall have 100 days to approve or deny a request for approval of an amendment to a Last and Final ROPS. Each amended Last and Final ROPS approved by the DOF shall become effective in the subsequent Redevelopment Property Tax Trust Fund distribution period. If an amended Last and Final ROPS is approved less than 15 days before the date of the property tax distribution, the Last and Final ROPS shall not be effective until the subsequent Redevelopment Property Tax Trust Fund distribution period. The Agency does not intend to seek approval of a Last and Final ROPS.

Any revenues, interest, and earnings of the successor agency, including proceeds from the disposition of real property, that are not authorized for use pursuant to the approved Last and Final ROPS shall be remitted to the county auditor-controller for distribution to the affected taxing entities. A successor agency shall not expend more than the amount approved for each enforceable obligation listed on the approved Last and Final ROPS. The county auditor-controller shall no longer distribute property tax to the successor agency's Redevelopment Property Tax Trust Fund once the aggregate amount of property tax allocated to the successor agency equals the total outstanding obligation approved in the Last and Final ROPS. Commencing on the effective date of the approved Last and Final ROPS, the successor agency shall not prepare or transmit annual Recognized Obligation Payment Schedules.

After the Last and Final ROPS is approved by DOF, the county auditor-controller shall continue to allocate moneys in the successor agency's Redevelopment Property Tax Trust Fund pursuant to Section 34183 of the Dissolution Act; however, the county auditor-controller shall allocate such moneys in each fiscal period, after deducting the county auditor-controller's administrative costs, in the following order of priority: (A) pass through payments pursuant to Section 34183(a)(1) of the Dissolution Act, (B) scheduled debt service payments on tax allocation bonds listed and approved in the Last and Final ROPS, (C) scheduled payments on revenue bonds listed and approved in the Last and Final ROPS, but only to the extent the revenues pledged for them are insufficient to make the payments and only if the successor agency's tax increment revenues were also pledged for the repayment of bonds, (D) scheduled payments for debts and obligations listed and approved in the Last and Final ROPS to be paid from the Redevelopment Property Tax Trust Fund, (E) payments listed and approved on the Last and Final ROPS that were authorized but unfunded in prior periods, (F) repayment of loans and deferrals to the city that created the redevelopment agency or the successor to the former redevelopment agency's housing functions and assets that are listed and approved on the Last and Final ROPS, and (G) any moneys remaining in the Redevelopment Property Tax Trust Fund after the payments and transfers described in (A) to (F), above, shall be distributed to taxing entities in accordance with Section 34183(a)(4) of the Dissolution Act.

If the successor agency reports to the county auditor-controller that the total available amounts in the Redevelopment Property Tax Trust Fund will be insufficient to fund the successor agency's current or future fiscal year obligations, and if the county auditor-controller concurs that there are insufficient funds to pay the required obligations, the county auditor-controller may distribute funds pursuant to Section 34183(b) of the Dissolution Act. See the caption "—Tax Increment Financing."

Pass-Through Agreements

Prior to 1994, under the Law, a redevelopment agency could enter into an agreement to pay former tax increment revenues to any affected taxing agency that has territory located within a redevelopment project in an amount which in the redevelopment agency's determination is appropriate to alleviate any financial burden or detriment caused by the redevelopment project. These Pass-Through Agreements normally provided for payment or pass-through of tax increment revenue directed to the affected taxing agency, and, therefore, are commonly referred to as pass-through agreements or tax sharing agreements.

The Former Agency entered into two Pass-Through Agreements with certain taxing agencies with respect to the Project Area, as noted below, and one of those Pass-Through Agreements was amended. These Pass-Through Agreements are briefly summarized below. Except for the "County Agreement," as described under the caption "*The County Agreement*," Pass-Through Agreements are treated as senior to the Series 2017 Bonds due to the pledge of RPTTF revenues granted to the Series 2017 Bonds under the Indenture and to reflect the cash flow provisions set forth in Health and Safety Code Section 34183(a)(1). Limitations upon payments to the Former Agency apply to the Agency following dissolution of the Former Agency.

The County Agreement. The Former Agency entered into an agreement with the County of Riverside (the "County") dated as of December 15, 1987 (the "County Agreement"). The County Agreement provides: (1) from the first \$7,000,000 in tax increment revenues realized annually in respect to the Project Area, that portion of the tax increment which would have been paid to the County had the Redevelopment Plan not been adopted shall be allocated to the Former Agency; (2) during the effective life of the Redevelopment Plan, in each Fiscal Year in which the tax increment revenues exceed \$7,000,000, all of such excess, but not more than \$5,000,000 in any one year up to a maximum of \$75,000,000 in the aggregate, shall be allocated to the County; and (3) all tax increment revenues in excess of that described under clauses (1) and (2) above shall be allocated in equal portions to the Former Agency and the County. During 2007, the County unilaterally reduced the tax increment revenues disbursed to the Former Agency based upon an amount which the County contended was due to the County for two prior years because Tax Increment Revenues had exceeded \$7,000,000 in 2003-04. Payments under the County Agreement are subordinate to the Series 2017 Bonds.

The Flood Agreement. The Former Agency entered into an agreement with the Riverside County Flood Control and Water Conservation District ("Flood") and the City dated as of April 12, 1988 (the "Flood Agreement"). The Flood Agreement provides: (1) commencing with fiscal year 1988-89 and continuing for each fiscal year until the total annual tax increment revenue for a fiscal year is \$12 million, the County Auditor-Controller shall allocate to the Former Agency one hundred percent (100%) of tax increment revenues that would have been paid to Flood had the Redevelopment Plan not been adopted (the "Flood Share"); (2) commencing with the first fiscal year in which the total annual tax increment revenue is \$12 million, fifty percent (50%) of the Flood Share shall be disbursed to Flood by the County Auditor-Controller and fifty percent (50%) is to be disbursed by the County Auditor-Controller to the Agency; and (3) it is the intent of the parties to the Flood Agreement that over the effective life of the Redevelopment Plan, the cumulative amount of the Flood Share paid to the Former Agency shall not exceed the cumulative total of amounts approved by the Former Agency for certain improvements described in the Flood Agreement. Through Fiscal Year 2004-05, the Former Agency had received a cumulative total of \$4,828,695 as the Flood Share. Total annual Tax Increment exceeded \$12 million in 2005-06. The Former Agency caused the amounts received as the Flood Share to be expended for flood control facilities and improvements. Payments under the Flood Agreement are senior to the Series 2017 Bonds.

For fiscal year 2016-17, Flood accounted for approximately [5.1%] of Tax Increment Revenues from the Project Area, see APPENDIX A—"FISCAL CONSULTANT'S REPORT."

Statutory Pass-Through Amounts

Assembly Bill 1290 (Chapter 942, Statutes of 1993) (“AB 1290”), effective January 1, 1994, eliminated the statutory authority for negotiated pass-through agreements and provided a formula for mandatory tax sharing, applicable to projects adopted after January 1, 1994 or amended after that date to add territory or make certain other amendments. These payments, which are to begin the fiscal year following the year a redevelopment plan was adopted (if after January 1, 1994) or the fiscal year following the year that a redevelopment plan’s original plan limitations would have taken effect (in the case of pre-1994 redevelopment plans), are calculated using the increase in revenue less the amount of revenue generated by the project area in the year that the redevelopment plan was adopted or the former limit would have been reached, as applicable. Under the Dissolution Act, in particular Section 34183, the County Auditor-Controller is obligated to remit these Statutory Pass-Through Amounts to the affected taxing entities from the Agency’s RPTTF for each ROPS period.

The City and the Former Agency did not amend the Redevelopment Plan in a manner which would have created an obligation to make payments of Statutory Pass-Through Amounts.

Section 33676 Election

Section 33676 of the Redevelopment Law used to allow taxing entities to elect to claim for themselves (and thus exclude from tax increment revenues available to an agency) the portion of tax increment revenues attributable to inflationary growth as determined under Section 110.1(f) of the Revenue and Taxation Code. School districts and community college districts were directed by Section 33676 to make such election pursuant to a specific procedure prior to adoption of any redevelopment plan or amendment, unless a tax sharing agreement existed between the redevelopment agency and the taxing entity.

In the case of *Santa Ana Unified School District v. Orange County Development Agency*, the State Court of Appeals upheld the determination of a trial court that where the County of Orange had adopted a redevelopment project in 1986 and a school district which served the project area had failed to submit a resolution electing to receive a proportionate share of property tax revenues attributable to inflationary growth as determined under Section 110.1(f) of the Revenue and Taxation Code, the school district should nevertheless be deemed entitled to receive such revenues under Health and Safety Code Section 33676 as in effect as of 1986. Section 33676 has been the subject of amendments both before and after 1986 but was in substantially the same form between 1984 and 1993. In connection with the Redevelopment Plan, which was adopted on December 29, 1987, the Agency has no agreement with the Moreno Valley Unified School District (the “School District”), the Riverside Community College District or the Riverside Superintendent of Schools, and none of those three entities submitted a resolution electing to receive payments under Health and Safety Code section 33676. If one or more of those entities were to receive additional moneys by virtue of the principle set forth in the *Santa Ana Unified School District* case in connection with the Project Area, this would reduce the Tax Revenues available to the Agency. In October 2007, the School District informed the Agency that it had notified the County Auditor-Controller that it is electing to receive payments under the *Santa Ana Unified School District* case prospectively. However, no claim was made with respect to such revenues. Given the passage of time, the projections of amounts payable under Pass-Through Agreements (see, for example, Table 6 and Table 7 under the caption “THE PROJECT AREA — Projected Tax Revenues”) do not include any payments based upon an election under Health and Safety Code section 33676.

Limitation on Additional Indebtedness

Senior Obligations. Under the Indenture, the Agency has covenanted that it will not issue additional bonds or incur additional obligations that are payable from moneys deposited in the Redevelopment Property Tax Trust Fund on a senior basis to the Series 2017 Bonds.

However, debt service on the Senior Bonds will be payable from Tax Revenues senior to the Series 2017 Bonds. See the caption “THE PROJECT AREA—Estimated Debt Service Coverage.”

Parity Debt. Section 34177.5(a) of the Dissolution Act presently permits successor agencies to issue bonds or incur other indebtedness secured by property tax revenues comprised of former tax increment revenues required by the Dissolution Act to be deposited into the respective Redevelopment Property Tax Trust Fund for the applicable successor agency under limited circumstances, including to provide savings to the successor agency, provided that (A) the total interest cost to maturity on the refunding bonds plus the principal amount of the refunding bonds shall not exceed the total remaining interest cost to maturity on the bonds or other indebtedness to be refunded plus the remaining principal of the bonds or other indebtedness to be refunded, and (B) the principal amount of the refunding bonds or the indebtedness will not exceed the amount required to defease the refunded bonds or other indebtedness, to establish customary debt service reserves, and to pay related costs of issuance. If the foregoing conditions are satisfied, the initial principal amount of the refunding bonds or indebtedness may be greater than the outstanding principal amount of the bonds or other indebtedness to be refunded. The successor agency may pledge to the refunding bonds or other indebtedness the revenues pledged to the bonds or other indebtedness being refunded, having the same lien priority as the pledge of the bonds or other obligations to be refunded.

In addition to the Series 2017 Bonds, the Agency may issue Parity Debt to refund any outstanding Series 2017 Bonds, or other Parity Debt in such principal amount as will be determined by the Agency. The Agency may issue and deliver any such Parity Debt subject to the following conditions precedent:

(a) A Written Request of the Agency shall have been filed with the Trustee containing a statement to the effect that the Agency shall be in compliance with all covenants set forth in the Indenture and any Supplemental Indentures, and no Event of Default shall have occurred and be continuing.

(b) The issuance of tax allocation bonds of the Agency authorized and executed pursuant to the Indenture and issued and delivered in accordance with the Indenture (“Additional Bonds”) shall have been duly authorized pursuant to the Law and all applicable laws, and the issuance of such Additional Bonds shall have been provided for by a Supplemental Indenture as defined in the Indenture; which shall specify the following:

(i) The authorized principal amount of such Additional Bonds;

(ii) The date and maturity date or dates of such Additional Bonds; provided that (i) Principal Payment Dates and Sinking Account Payment Dates may occur only on Interest Payment Dates, and (ii) fixed serial maturities or mandatory Sinking Accounting Installments, or any combination thereof, shall be established to provide for the retirement of all such Additional Bonds on or before their respective maturity dates;

(iii) The Interest Payment Dates for such Additional Bonds; provided that Interest Payment Dates shall be on the same semiannual dates as the Interest Payment Dates for Series 2017 Bonds;

(iv) The denomination and method of numbering of such Additional Bonds;

(v) The redemption premiums, if any, and the redemption terms, if any, for such Additional Bonds;

(vi) The amount and due date of each mandatory Sinking Account Installment, if any, for such Additional Bonds;

(vii) The amount, if any, to be deposited from the proceeds of such Additional Bonds in the Reserve Account; provided that the amount deposited in or credited to such Reserve Account shall be

increased at or prior to the time such Additional Bonds become Outstanding to an amount at least equal to the Reserve Account Requirement on all then Outstanding Bonds and such Additional Bonds, and that an amount at least equal to the Reserve Account Requirement on all Outstanding Bonds shall thereafter be maintained in or credited to such Reserve Account;

(viii) The form of such Additional Bonds; and

(ix) Such other provisions, as are necessary or appropriate and not inconsistent with the Indenture.

(c) Such Additional Bonds may be issued only for the purpose of refunding bonds or other indebtedness of the Agency or the Former Agency (including, without limitation, refunding Bonds outstanding under the Indenture) in accordance with the Law, including payment of all costs incidental to or connected with such refunding and funding or providing for the funding of related reserves, and the payment of all costs incidental to or connected with such refunding, provided that the issuance of such Additional Bonds shall comply with the terms of California Health and Safety Code Section 34177.5.

The Agency shall refund outstanding Senior Bonds on a parity with the Bonds only to the extent such refunding would be permitted by Section 34177.5(a) of the Dissolution Act. Nothing contained in the Indenture shall limit the issuance of any tax increment bonds or other obligations of the Agency secured by a lien and charge on Tax Revenues junior to that of the Bonds.

Subordinate Obligations. Nothing contained in the Indenture prevents the Agency from issuing additional bonds or incurring other loans, advances or indebtedness payable from Tax Revenues on a subordinate basis to the Series 2017 Bonds.

BOND INSURANCE

The information under this caption has been prepared by the Insurer for inclusion in this Official Statement. Neither the Agency nor the Underwriter has reviewed this information, nor does the Agency or the Underwriter make any representation with respect to the accuracy or completeness thereof. The following information is not a complete summary of the terms of the Policy and reference is made to Appendix I for a specimen of the Policy.

Bond Insurance Policy

Concurrently with the issuance of the Series 2017 Bonds, Assured Guaranty Municipal Corp. (“AGM”) will issue its Municipal Bond Insurance Policy for the Bonds (the “Policy”). The Policy guarantees the scheduled payment of principal of and interest on the Series 2017 Bonds when due as set forth in the form of the Policy included as Appendix I to this Official Statement.

The Policy is not covered by any insurance security or guaranty fund established under New York, California, Connecticut or Florida insurance law.

Assured Guaranty Municipal Corp.

AGM is a New York domiciled financial guaranty insurance company and an indirect subsidiary of Assured Guaranty Ltd. (“AGL”), a Bermuda-based holding company whose shares are publicly traded and are listed on the New York Stock Exchange under the symbol “AGO”. AGL, through its operating subsidiaries, provides credit enhancement products to the U.S. and global public finance, infrastructure and structured finance markets. Neither AGL nor any of its shareholders or affiliates, other than AGM, is obligated to pay any debts of AGM or any claims under any insurance policy issued by AGM.

AGM's financial strength is rated "AA" (stable outlook) by S&P Global Ratings, a business unit of Standard & Poor's Financial Services LLC ("S&P"), "AA+" (stable outlook) by Kroll Bond Rating Agency, Inc. ("KBRA") and "A2" (stable outlook) by Moody's Investors Service, Inc. ("Moody's"). Each rating of AGM should be evaluated independently. An explanation of the significance of the above ratings may be obtained from the applicable rating agency. The above ratings are not recommendations to buy, sell or hold any security, and such ratings are subject to revision or withdrawal at any time by the rating agencies, including withdrawal initiated at the request of AGM in its sole discretion. In addition, the rating agencies may at any time change AGM's long-term rating outlooks or place such ratings on a watch list for possible downgrade in the near term. Any downward revision or withdrawal of any of the above ratings, the assignment of a negative outlook to such ratings or the placement of such ratings on a negative watch list may have an adverse effect on the market price of any security guaranteed by AGM. AGM only guarantees scheduled principal and scheduled interest payments payable by the issuer of bonds insured by AGM on the date(s) when such amounts were initially scheduled to become due and payable (subject to and in accordance with the terms of the relevant insurance policy), and does not guarantee the market price or liquidity of the securities it insures, nor does it guarantee that the ratings on such securities will not be revised or withdrawn.

Current Financial Strength Ratings. On June 26, 2017, S&P issued a research update report in which it affirmed AGM's financial strength rating of "AA" (stable outlook). AGM can give no assurance as to any further ratings action that S&P may take.

On December 14, 2016, KBRA issued a financial guaranty surveillance report in which it affirmed AGM's insurance financial strength rating of "AA+" (stable outlook). AGM can give no assurance as to any further ratings action that KBRA may take.

On August 8, 2016, Moody's published a credit opinion affirming its existing insurance financial strength rating of "A2" (stable outlook) on AGM. AGM can give no assurance as to any further ratings action that Moody's may take.

For more information regarding AGM's financial strength ratings and the risks relating thereto, see AGL's Annual Report on Form 10-K for the fiscal year ended December 31, 2016.

Such amount includes (i) 100% of the net unearned premium reserves of AGM and AGM's wholly owned subsidiary Assured Guaranty (Europe) Ltd. and (ii) 60.7% of the net unearned premium reserve of MAC.

The policyholders' surplus of AGM and the contingency reserves and net unearned premium reserves of AGM and MAC were determined in accordance with statutory accounting principles. The net unearned premium reserves of Assured Guaranty (Europe) Ltd were determined in accordance with accounting principles generally accepted in the United States of America.

PROPERTY TAXATION IN CALIFORNIA

Property Tax Collection Procedures

Classification. In the State, property which is subject to *ad valorem* taxes is classified as “secured” or “unsecured.” Secured and unsecured property is entered on separate parts of the assessment roll maintained by county assessors. The secured classification includes property on which any property tax levied by a county becomes a lien on that property. A tax levied on unsecured property does not become a lien against the taxed unsecured property, but may become a lien on certain other property owned by the taxpayer. Every tax which becomes a lien on secured property has priority over all other liens on the secured property arising pursuant to State law, regardless of the time of the creation of other liens. See the caption “RISK FACTORS—Bankruptcy and Foreclosure” for certain limitations on the priority of secured tax liens under federal law, however.

Generally, *ad valorem* taxes are collected by a county for the benefit of the various taxing agencies (cities, schools and special districts) that share in the *ad valorem* tax (each, a taxing entity) and successor agencies eligible to receive distributions from the respective Redevelopment Property Tax Trust Fund.

Collections. The method of collecting delinquent taxes is substantially different for secured and unsecured property. Counties have four ways of collecting unsecured personal property taxes: (i) initiating a civil action against the taxpayer; (ii) filing a certificate in the office of the county clerk specifying certain facts

in order to obtain a judgment lien on certain property of the taxpayer; (iii) filing a certificate of delinquency for record in the county recorder's office to obtain a lien on certain property of the taxpayer; and (iv) seizing and selling personal property, improvements or possessory interests belonging or assessed to the assessee. The exclusive means of enforcing the payment of delinquent taxes with respect to property on the secured roll is the sale of the property securing the taxes to the State for the amount of taxes which are delinquent.

Penalty. A 10% penalty is added to delinquent taxes which have been levied with respect to property on the secured roll. In addition, property on the secured roll on which taxes are delinquent is declared in default by operation of law and declaration of the tax collector on or about June 30 of each fiscal year. Such property may thereafter be redeemed by payment of the delinquent taxes and a delinquency penalty, plus a redemption penalty of 1.5% per month to the time of redemption. If taxes are unpaid for a period of five years or more, the property is deeded to the State and then is subject to sale by the county tax collector. A 10% penalty also applies to delinquent taxes with respect to property on the unsecured roll, and further, an additional penalty of 1.5% per month accrues with respect to such taxes beginning on varying dates related to the tax bill mailing date.

Delinquencies. The valuation of property is determined as of the January 1 lien date as equalized in August of each year and equal installments of taxes levied upon secured property become delinquent on the following December 10 and April 10. Taxes on unsecured property are due January 1 and become delinquent August 31. The County has adopted the Alternative Method of Distribution of Tax Levies and Collections and of Tax Sale Proceeds (known as the "Teeter Plan"), as provided for in Section 4701 et seq. of the Revenue and Taxation Code of the State. Under Teeter Plan, each participating local agency, including cities, levying property taxes in a county receives the amount of uncollected taxes credited to its fund, in the same manner as if the amount credited had been collected. In return, the county receives and retains delinquent payments, penalties and interest as collected, that would have been due the local agency. However, although a local agency receives the total levy for its property taxes without regard to actual collections, to the extent of a reserve established and held by its county for this purpose, the basic legal liability for property tax deficiencies at all times remains with the local agency.

The Teeter Plan is to remain in effect unless the County Board of Supervisors orders its discontinuance or unless, prior to the commencement of any Fiscal Year of the County, the Board of Supervisors receives a petition for its discontinuance from two-thirds of the participating revenue districts in the County. The Board of Supervisors may, after holding a public hearing on the matter, discontinue the procedures under the Teeter Plan with respect to any tax levying agency in its County.

As a result of its participation in the Teeter Plan, delinquent property taxes do not impact the Agency's tax increment revenues. To the extent the Teeter Plan continues in existence and is carried out as adopted, the Teeter Plan may help protect the Owners from the risk of delinquencies in ad valorem taxes.

Supplemental Assessments. California Revenue and Taxation Code Section 75.70 provides for the supplemental assessment and taxation of property as of the occurrence of a change of ownership or completion of new construction. Prior to the enactment of this law, the assessment of such changes was permitted only as of the next tax lien date following the change, which delayed the realization of increased property taxes from the new assessments for up to 14 months. Revenue and Taxation Code Section 75.70 provides increased revenue to the Redevelopment Property Tax Trust Fund to the extent that supplemental assessments of new construction or changes of ownership occur within the boundaries of the Project Area subsequent to the January 1 lien date. To the extent that such supplemental assessments occur within the Project Area, Tax Revenues may increase. However, because supplemental assessments cannot be accurately projected, no provision has been made by the Fiscal Consultant to reflect the impact of supplemental assessments on Tax Revenues. See Appendix A.

Property Tax Administrative Costs. In 1990, the State Legislature enacted Senate Bill ("SB") 2557 (Chapter 466, Statutes of 1990) which allows counties to charge for the cost of assessing, collecting and

allocating property tax revenues to local government jurisdictions in proportion to the tax-derived revenues allocated to each. SB 1559 (Chapter 697, Statutes of 1992) explicitly includes redevelopment agencies among the jurisdictions which are subject to such charges. In addition, Sections 34182(e) and 34183(a) of the Dissolution Act allow administrative costs of the County Auditor-Controller for the cost of administering the provisions of the Dissolution Act, as well as the foregoing SB 1559 amounts, to be deducted from Tax Revenues. The County's total administrative charge for the Project Area, deducted from the Fiscal Year 2016-17 Redevelopment Property Tax Trust Fund allocation to the Agency, amounted to approximately 1.31% of the total gross tax revenue allocation for such period. The Fiscal Consultant assumes that the County property tax administration will continue to be annually charged at this percentage factor to the gross tax revenue generated by the Project Area in subsequent fiscal years. See the projections set forth in the Fiscal Consultant's Report attached as Appendix A and under the caption "THE PROJECT AREA—Projected Tax Revenues" herein.

Pass-Through Agreements. Prior to 1994, under the Redevelopment Law, a redevelopment agency could enter into an agreement to pay tax increment revenues to any taxing agency that has territory located within a redevelopment project in an amount which in the redevelopment agency's determination was appropriate to alleviate any financial burden or detriment caused by the redevelopment project. Such agreements normally provide for payment or pass-through of tax increment revenue directed to the affected taxing agency, and, therefore, are commonly referred to as pass-through agreements or tax sharing agreements. The Agency's agreements with affected taxing agencies are referred to herein as "Pass-Through Agreements." See the caption "SECURITY FOR THE SERIES 2017 BONDS—Pass-Through Agreements" for a discussion of Pass-Through Agreements for the Project Area and the treatment of Pass-Through Agreements under the Dissolution Act.

Statutory Pass-Through Amounts. The payment of Statutory Pass-Through Amounts results from: (i) redevelopment plan amendments which add territory in existing project areas on or after January 1, 1994; and (ii) redevelopment plan amendments which eliminate, extend or increase one or more limitations within a redevelopment plan (such as the removal of the time limit on the establishment of loans, advances and indebtedness). The calculation of the amount due to affected taxing entities is described in Sections 33607.5 and 33607.7 of the Redevelopment Law. See the caption "SECURITY FOR THE SERIES 2017 BONDS—Tax Increment Financing—Tax Sharing."

33676 Amounts. Certain successor agencies are required to pay certain inflationary increases in tax increment revenues referred to herein as 33676 Amounts to certain educational taxing agencies. See the caption "SECURITY FOR THE BONDS—Section 33676 Election" for a discussion of the Agency's obligation to pay 33676 Amounts. Also see the caption "SECURITY FOR THE SERIES 2017 BONDS—Tax Increment Financing—Tax Sharing."

Recognized Obligation Payment Schedule. The Dissolution Act provides that, commencing on the date that the first Recognized Obligation Payment Schedule is valid, only those payments listed in the Recognized Obligation Payment Schedule may be made by the Agency from the funds specified in the Recognized Obligation Payment Schedule. Before each February 1, with respect to the following fiscal year, the Dissolution Act requires successor agencies to prepare and submit to the successor agency's oversight board and the DOF for approval, a Recognized Obligation Payment Schedule pursuant to which enforceable obligations (as defined in the Dissolution Act) of the successor agency are listed, together with the source of funds to be used to pay for each enforceable obligation. Tax Revenues will not be distributed from the Redevelopment Property Tax Trust Fund by the County Auditor-Controller to the Agency's Redevelopment Obligation Retirement Fund without a duly approved and effective Recognized Obligation Payment Schedule obtained in sufficient time prior to each June 1 property tax distribution date. See the caption "SECURITY FOR THE SERIES 2017 BONDS—Recognized Obligation Payment Schedule" and "RISK FACTORS—Recognized Obligation Payment Schedule." See also "SECURITY FOR THE SERIES 2017 BONDS—Last and Final Recognized Obligation Payment Schedule" for a description of the Last and Final ROPS authorized by the Dissolution Act pursuant to SB 107.

Unitary Property

Assembly Bill (“AB”) 2890 (Statutes of 1986, Chapter 1457) provides that, commencing with fiscal year 1988-89, assessed value derived from State-assessed unitary property (consisting mostly of operational property owned by utility companies) is to be allocated county-wide as follows: (i) each tax rate area will receive the same amount from each assessed utility received in the previous fiscal year unless the applicable county-wide values are insufficient to do so, in which case values will be allocated to each tax rate area on a pro rata basis; and (ii) if values to be allocated are greater than in the previous fiscal year, each tax rate area will receive a pro rata share of the increase from each assessed utility according to a specified formula. Additionally, the lien date on State-assessed property was changed from March 1 to January 1.

AB 454 (Statutes of 1987, Chapter 921) further modified Chapter 1457 regarding the distribution of tax revenues derived from property assessed by the State Board of Equalization. AB 454 provides for the consolidation of all State-assessed property, except for regulated railroad property, into a single tax rate area in each county. AB 454 further provides for a new method of establishing tax rates on State-assessed property and distribution of property tax revenue derived from State-assessed property to taxing jurisdictions within each county in accordance with a new formula. Railroads will continue to be assessed and revenues allocated to all tax rate areas where railroad property is located. The intent of AB 2890 and AB 454 is to provide redevelopment agencies with their appropriate share of revenue generated from property assessed by the State Board of Equalization.

The Fiscal Consultant estimates the tax on unitary property to be allocated to the Agency at \$212,542 for fiscal year 2017-18, based on the County’s actual unitary tax for fiscal year 2016-17.

Article XIII A of the State Constitution

On June 6, 1978, State voters approved an amendment (commonly known as Proposition 13 or the Jarvis-Gann Initiative) which added Article XIII A to the State Constitution. Article XIII A limits the amount of *ad valorem* taxes on real property to 1% of “full cash value” of such property, as determined by the county assessor. Article XIII A defines “full cash value” to mean “the county assessor’s valuation of real property as shown on the State fiscal year 1975-76 tax bill under ‘full cash value,’ or, thereafter, the appraised value of real property when purchased, newly constructed, or a change in ownership has occurred after the 1975 assessment.” Furthermore, the “full cash value” of all real property may be increased to reflect the rate of inflation, as shown by the consumer price index, not to exceed 2% per year, or may be reduced.

Article XIII A has subsequently been amended to permit reduction of the “full cash value” base in the event of declining property values caused by substantial damage, destruction or other factors, and to provide that there would be no increase in the “full cash value” base in the event of reconstruction of property damaged or destroyed in a disaster and in other special circumstances.

Article XIII A: (i) exempts from the 1% tax limitation taxes to pay debt service on: (a) indebtedness approved by the voters prior to July 1, 1978; or (b) bonded indebtedness for the acquisition or improvement of real property approved on or after July 1, 1978, by two-thirds of the votes cast by the voters voting on the proposition; (ii) requires a vote of two-thirds of the qualified electorate to impose special taxes, or certain additional *ad valorem* taxes; and (iii) requires the approval of two-thirds of all members of the State Legislature to change any State tax laws resulting in increased tax revenues.

The validity of Article XIII A has been upheld by both the State Supreme Court and the United States Supreme Court.

In the general election held on November 4, 1986, voters of the State approved two measures, Propositions 58 and 60, which further amended Article XIII A. Proposition 58 amended Article XIII A to provide that the terms “purchase” and “change of ownership,” for the purposes of determining full cash value

of property under Article XIII A, do not include the purchase or transfer of: (1) real property between spouses; and (2) the principal residence and the first \$1,000,000 of other property between parents and children. This amendment to Article XIII A may reduce the rate of growth of local property tax revenues.

Proposition 60 amended Article XIII A to permit the State Legislature to allow persons over the age of 55 who sell their residence and buy or build another of equal or lesser value within two years in the same county to transfer the old residence assessed value to the new residence. As a result of the State Legislature's action, the growth of property tax revenues may decline.

Legislation enacted by the State Legislature to implement Article XIII A provides that all taxable property is shown at full assessed value as described above. In conformity with this procedure, all taxable property value included in this Official Statement is shown at 100% of assessed value and all general tax rates reflect the \$1 per \$100 of taxable value (except as noted). Tax rates for voter-approved bonded indebtedness and pension liabilities are also applied to 100% of assessed value.

Appropriations Limitation – Article XIII B

On November 6, 1979, State voters approved Proposition 4 (also known as the Gann Initiative), which added Article XIII B to the State Constitution. Article XIII B limits the annual appropriations of the State and its political subdivisions to the level of appropriations for the prior fiscal year, as adjusted for changes in the cost of living, population and services rendered by the government entity. The “base year” for establishing such appropriations limit is State fiscal year 1978-79, and the limit is to be adjusted annually to reflect changes in population, consumer prices and certain increases in the cost of services provided by these public agencies.

Section 33678 of the Redevelopment Law provides that the allocation of taxes to a redevelopment agency for the purpose of paying principal of, or interest on, loans, advances, or indebtedness is not deemed to be the receipt by an agency of proceeds of taxes levied by or on behalf of an agency within the meaning of Article XIII B, nor will such portion of taxes be deemed receipt of proceeds of taxes by, or an appropriation subject to the limitation of, any other public body within the meaning or for the purpose of the Constitution and laws of the State, including Section 33678 of the Redevelopment Law. The constitutionality of Section 33678 has been upheld in two State appellate court decisions. On the basis of these decisions, the Agency does not believe that it is subject to Article XIII B and has not adopted an appropriations limit.

Articles XIII C and XIII D of the State Constitution

At the election held on November 5, 1996, Proposition 218 was passed by the voters of California. The initiative added Articles XIII C and XIII D to the State Constitution. Provisions in the two articles affect the ability of local government to raise revenues. The Series 2017 Bonds are secured by sources of revenues that are not subject to limitation by Proposition 218. See the caption “—Propositions 218 and 26.”

Proposition 87

On November 8, 1988, the voters of the State approved Proposition 87, which amended Article XVI, Section 16 of the State Constitution to provide that property tax revenue attributable to the imposition of taxes on property within a redevelopment project area for the purpose of paying debt service on certain bonded indebtedness issued by a taxing entity (not the Former Agency or the Agency) and approved by the voters of the taxing entity after January 1, 1989 will be allocated solely to the payment of such indebtedness, and *not* to redevelopment agencies. SB 107, which became effective on September 22, 2015, amended Section 34183(a)(1) of the Dissolution Act to provide that such debt service override revenues approved by the voters for the purpose of supporting pension programs or capital projects or programs related to the State Water Project that are not pledged to or not needed for debt service on Agency debt will be allocated and paid to the entity that levies the override. See “SECURITY FOR THE SERIES 2017 BONDS—General.”

Redevelopment Plan Limits

In 1993, the State legislature passed AB 1290 which, among other things, required redevelopment agencies to adopt time limits in each redevelopment plan specifying: (i) the last date to incur debt for a redevelopment project; (ii) the last date to undertake redevelopment activity within a project area; (iii) the last date to collect tax increment revenue from a project area to repay debt; and (iv) a limitation on the number of dollars of taxes that could be allocated to the Former Agency from the applicable Project Area. See the caption “THE PROJECT AREA.”

SB 107, which became effective September 22, 2015, amended the Dissolution Act to provide that the time limits for receiving property tax revenues and the limitation on the amount of property tax revenues that may be received by the Former Agency and the Agency set forth in the Redevelopment Plan are not effective for purposes of paying the Agency’s enforceable obligations. Accordingly, the projections set forth in this Official Statement and in the Fiscal Consultant’s Report attached to this Official Statement as Appendix A do not take into account the time and financial limitations set forth in the Redevelopment Plan for the Project Area. See the caption “THE PROJECT AREA—General.”

Appeals of Assessed Values

Pursuant to State law, a property owner may apply for a reduction of the property tax assessment for such owner’s property by filing a written application, in a form prescribed by the State Board of Equalization, with the appropriate county board of equalization or assessment appeals board.

In the County, a property owner desiring to reduce the assessed value of such owner’s property in any one year must submit an application to the County Assessment Appeals Board (the “Appeals Board”). Applications for any tax year must be submitted by November 30 of such tax year. Following a review of each application by the staff of the County Assessor’s Office, the staff makes a recommendation to the Appeals Board on each application which has not been rejected for incompleteness or untimeliness or withdrawn. The Appeals Board holds a hearing and either reduces or confirms the assessment. The Appeals Board generally is required to determine the outcome of appeals within two years of each appeal’s filing date. Any reduction in the assessment ultimately granted applies only to the year for which application is made and during which the written application is filed. The assessed value increases to its pre-reduction level for fiscal years following the year for which the reduction application is filed. However, if the taxpayer establishes through proof of comparable values that the property continues to be overvalued (known as “ongoing hardship”), the Assessor has the power to grant a reduction not only for the year for which application was originally made, but also for the then current year as well. Appeals for reduction in the “base year” value of an assessment, which generally must be made within three years of the date of change in ownership or completion of new construction that determined the base year, if successful, reduce the assessment for the year in which the appeal is taken and prospectively thereafter. Moreover, in the case of any reduction in any one year of assessed value granted for “ongoing hardship” in the then current year, and also in any cases involving stipulated appeals for prior years relating to base year and personal property assessments, the property tax revenues from which Tax Revenues are derived attributable to such properties will be reduced in the then current year. In practice, such a reduced assessment may remain in effect beyond the year in which it is granted. See Appendix A for information regarding the appeals pending with respect to the assessed valuations of the top ten property owners within the Project Area.

Proposition 8

Proposition 8, approved in 1978 (California Revenue and Taxation Code Section 51(b)), provides for the assessment of real property at the lesser of its originally determined (base year) full cash value compounded annually by the inflation factor, or its full cash value as of the lien date, taking into account reductions in value due to damage, destruction, obsolescence or other factors causing a decline in market

value. Reductions pursuant to Proposition 8 may be initiated by the County Assessor or requested by the property owner, and such reductions apply only to a single tax year.

After a roll reduction is granted pursuant to Proposition 8, the property is reviewed on an annual basis to determine its full cash value and the valuation is adjusted accordingly. This may result in further reductions or in value increases. Such increases must be in accordance with the full cash value of the property and may exceed the maximum annual inflationary growth rate allowed on other properties under Article XIII A of the State Constitution. Once the property has regained its prior value, adjusted for inflation, it once again is subject to the annual inflationary factor growth rate allowed under Article XIII A.

The County Assessor has the ability to use Proposition 8 criteria to apply blanket reductions in valuation to classes of property affected by particular negative economic conditions. The Agency is aware that the County Assessor made such reductions to assessed values of residential property in the Project Area and the City generally in recent fiscal years, a portion of which reductions have now been restored. The Fiscal Consultant's Report does not assume any future reductions in assessed valuations as a result of Proposition 8, but there can be no assurance that such reductions will not be made in the future. See the caption "THE PROJECT AREA" for further information with respect to reductions in assessed value within the Project Area in the last ten fiscal years.

Proposition 26

On November 2, 2010, California voters approved Proposition 26, the "Supermajority Vote to Pass New Taxes and Fees Act." Proposition 26 amended Article XIII C of the State Constitution by adding an expansive definition for the term "tax," which previously was not defined under the State Constitution. Tax Revenues securing the Series 2017 Bonds are derived from property taxes which are outside the scope of taxes, which are limited by Proposition 26.

Future Initiatives

Articles XIII A, XIII B, XIII C and XIII D to the State Constitution and certain other propositions affecting property tax levies were each adopted as measures which qualified for the ballot pursuant to the State's initiative process. From time to time other initiative measures could be adopted, further affecting Agency revenues or the Agency's ability to expend revenues.

THE SUCCESSOR AGENCY TO THE COMMUNITY REDEVELOPMENT AGENCY OF THE CITY OF MORENO VALLEY

The Former Agency was established by the City Council of the City and was activated by Ordinance adopted by the City Council on February 29, 1972, pursuant to the Redevelopment Law. On June 29, 2011, AB X1 26 was enacted as Chapter 5, Statutes of 2011, together with a companion bill, AB X1 27. A lawsuit entitled California Redevelopment Association, et al. v. Matosantos, et al., was brought in the State Supreme Court challenging the constitutionality of AB X1 26 and AB X1 27. In a published decision (53 Cal. 4th 231 (Dec. 29, 2011)), the State Supreme Court largely upheld AB X1 26, invalidated AB X1 27, and held that AB X1 26 may be severed from AB X1 27 and enforced independently. As a result of AB X1 26 and the decision of the State Supreme Court, as of February 1, 2012, all redevelopment agencies in the State, including the Former Agency, were dissolved, and successor agencies were designated as successor entities to the former redevelopment agencies to expeditiously wind down the affairs of the former redevelopment agencies.

On January 10, 2012, by Resolution No. 2012-04 and pursuant to Section 34173 of the Dissolution Act, the City Council of the City confirmed its election to serve as the successor agency to the Former Agency. Subdivision (g) of Section 34173 of the Dissolution Act, added by AB 1484, expressly affirms that the Agency is a separate public entity from the City, that the two entities shall not merge and that the liabilities of the

Former Agency will not be transferred to the City nor will the assets of the Former Agency become assets of the City.

The Agency is governed by the five-member legislative body (the “Board”) which consists of the City Council of the City. The Mayor acts as the Chair of the Board, the City Manager as its Executive Director, the City Clerk as its Secretary and the Finance Director of the City as its chief financial officer.

Agency Powers

All powers of the Agency are vested in the Board. Pursuant to the Dissolution Act, the Agency is a separate public body from the City and successor to the organizational status of the Former Agency, but without any legal authority to participate in redevelopment activities except to complete any work related to an approved enforceable obligation. The Agency is tasked with expeditiously winding down the affairs of the Former Agency pursuant to the procedures and provisions of the Dissolution Act. Under the Dissolution Act, many Agency actions are subject to approval by the Oversight Board, as well as review by the DOF. The State has strict laws regarding public meetings (known as the Ralph M. Brown Act) which generally make all Board and Oversight Board meetings open to the public in a similar manner as City Council meetings.

Previously, Section 33675 of the Redevelopment Law required the Former Agency to file not later than the first day of October of each year with the County Auditor a statement of indebtedness certified by the chief fiscal officer of the Former Agency for each redevelopment plan which provides for the allocation of taxes (i.e., the Redevelopment Plan). The statement of indebtedness was required to contain the date on which the bonds were delivered, the principal amount, term, purposes and interest rate of the bonds and the outstanding balance and amount due on the bonds. Similar information was required to be given for each loan, advance or indebtedness that the Former Agency had incurred or entered into which is payable from tax increment. Section 33675 also provided that payments of tax increment revenues from the County Auditor-Controller to the Former Agency could not exceed the amounts shown on the Former Agency’s statement of indebtedness. The Dissolution Act eliminates this requirement and provides that, commencing on the date that the first Recognized Obligation Payment Schedule is valid thereunder, the Recognized Obligation Payment Schedule supersedes the statement of indebtedness previously required under the Redevelopment Law, and that, commencing on such date, the statement of indebtedness will no longer be prepared nor have any effect under the Redevelopment Law. See the caption “SECURITY FOR THE SERIES 2017 BONDS—Recognized Obligation Payment Schedule.”

THE PROJECT AREA

Under the Redevelopment Law, a city or county that activated a redevelopment agency was required to adopt, by ordinance, a redevelopment plan for each redevelopment project to be undertaken by the redevelopment agency. A redevelopment agency could only undertake those activities within a redevelopment project specifically authorized in the adopted redevelopment plan. A redevelopment plan is a legal document, the content of which is largely prescribed in the Redevelopment Law, rather than a “plan” in the customary sense of the word. Each redevelopment plan originally included separate time and financial limitations applicable to the Project Area. SB 107, which became effective September 22, 2015, amended the Dissolution Act to provide that the time limits for receiving property tax revenues and the limitation on the amount of property tax revenues that may be received by the Former Agency and the Agency set forth in the applicable redevelopment plan are not effective for purposes of paying the Agency’s enforceable obligations. Accordingly, the projections set forth in this Official Statement and in the Fiscal Consultant’s Report attached to this Official Statement as Appendix A were prepared without regard to the time and financial limitations set forth in the Redevelopment Plan for the Project Area. Also, the County Auditor-Controller will only deposit revenues into the RPTTF after a Project Area reaches a plan limit set forth in the redevelopment plan if and to the extent the Agency provides evidence that the revenues are needed to pay enforceable obligations. See below under this caption for additional information regarding the Project Area, including information on land

use, property ownership, assessed valuation and Tax Revenues generated within the Project Area. See the caption "SECURITY FOR THE SERIES 2017 BONDS—Tax Revenues."

General

The Agency adopted the redevelopment plan for the Moreno Valley Redevelopment Project and the project area designated thereunder (the "Project Area") by Ordinance No. 87-154 on December 29, 1987. As defined under the Indenture, "Redevelopment Plan" means the Redevelopment Plan for the Moreno Valley Redevelopment Project, together with any amendments thereof at any time duly authorized pursuant to the Redevelopment Law. The Project Area consists of approximately 4,676 acres and consists of commercial, industrial, housing and public land uses including the City's Civic Center. There are pockets of vacant land within the Project Area.

Project Area Characteristics

The County Auditor-Controller is responsible for the aggregation of the assessed values assigned by the County Assessor for properties within the boundaries of the Project Area. The reported current year Project Area assessed value, less the frozen Base Year assessed value, becomes the basis for determining the computed gross property tax revenue allocable to the RPTTF. The reported assessed value of property within the combined Project Area for fiscal year 2017-18 is as follows:

| | <i>Fiscal Year 2017-18⁽¹⁾</i> | <i>% of Total</i> |
|--------------------------|--|-------------------|
| Secured Value | \$ 3,019,232,957 | 93.71% |

Ten Largest Taxpayers

The ten largest property taxpayers in the Project Area represent approximately 20.22% of the total value in the Project Area for fiscal year 2017-18 and are comprised primarily of commercial and residential land uses. When compared against the incremental assessed value of the Project Area, these ten largest property taxpayers represent approximately 24.56% of the total incremental assessed value within the Project Area.

Levy and Collections

The prior year allocation of tax increment revenues and the County Auditor-Controller’s distribution of property taxes to the RPTTF are a reflection of actual property tax collections experienced within the Project Area. Under the County’s Teeter Plan, the County distributes the total amount of property taxes levied to taxing agencies and the Agency without regard to actual collections, subject to supplemental tax adjustments.

Assessment Appeals

There are two basic types of assessment appeals provided for under California law. The first type of appeal, commonly referred to as a base year assessment appeal, involves a dispute on the valuation assigned by the County Assessor following a change in ownership or completion of new construction. If the base year value assigned by the County Assessor is reduced, the valuation of the property cannot increase in subsequent years more than 2% annually unless and until another change in ownership and/or additional new construction activity occurs. The second type of appeal, commonly referred to as a Proposition 8 appeal, can result if factors occur causing a decline in the market value of the property to a level below the property’s then current taxable value. See the caption “PROPERTY TAXATION IN CALIFORNIA—Appeals of Assessed Values.”

Property taxable values determined by the County Assessor may be subject to an appeal by the property owner. Assessment appeals are annually filed with the County Assessment Appeals Board for a hearing and resolution. The resolution of an appeal may result in a reduction to the County Assessor’s original taxable value and a tax refund to the property owner. A property owner can file for a regular assessment appeal with the County between July 2 and November 30. Revenue and Taxation Code Section 1604 allows up to two years for an assessment appeal to be decided. Three of the top ten taxpayers within the Project Area have filed assessment appeals that are currently pending. Additional appeals to assessed values in the Project Area may be filed from time to time in the future. The Agency cannot predict the extent of these appeals or their likelihood of success.

The Fiscal Consultant researched the status of assessment appeals filed by property owners in the Project Area based upon the latest information available from the County Appeals Board database through July 20, 2017. The Fiscal Consultant’s estimates are based upon the historical averages of successful appeals and amounts of value reductions. Actual appeals, reductions and refunds may vary from historical averages. The Fiscal Consultant’s estimated reductions in values are reflected in its projections.

The following table, showing appeal data for fiscal years 2012-13 through 2016-17, summarizes the potential losses that are incorporated into the Fiscal Consultant's projections:

Tax refunds payable from resolved appeals (to the extent applicants are not delinquent in their property tax payments) are deducted by the County Auditor-Controller from current year gross property taxes before the County's allocation to the RPTTF. The Fiscal Consultant's estimated tax refund based on pending appeals shown in the above tables is reflected in the projections of Tax Revenues set forth in Tables 6 and 7 under the caption "THE PROJECT AREA—Projected Tax Revenues."

Actual resolution of appeals are determined by a number of factors including vacancy and rental rates, circumstances of hardship and other real estate comparables, all of which are unique to the individual assessment. Therefore, actual reductions, if any, may be higher or lower than the reductions incorporated in the Fiscal Consultant's projections. An appeal may be withdrawn by the applicant, the Appeals Board may deny or modify the appeal at hearing or by stipulation, or the final value may be adjusted to an amount other than the stated opinion of value. See the caption "—Assessed Valuation" above for a summary of historical assessed property valuations in the Project Area. For more information about appeals and the Fiscal Consultant's assumptions, see the Fiscal Consultant's Report attached to this Official Statement as Appendix A.

Projected Tax Revenues

The following Table 6 shows the current and projected valuation of taxable property in the Project Area and the projected Tax Revenues. Table 6 assumes the assessed value of property within the Project Area

will grow at a rate of 2% per year. Such projections are estimates only and no assurance can be given that such projections will be achieved. For a discussion of certain matters that will or could cause reductions in the Tax Revenues available in future years, see the captions “PROPERTY TAXATION IN CALIFORNIA” and “RISK FACTORS.”

(1) Totals may not add due to rounding.
 (2) Taxable values as reported by the County for fiscal year 2017-18. Real property consists of land and improvements. Taxable values are increased for inflation at 2% for fiscal year 2018-19 and annually thereafter. Values for fiscal year 2018-19 are increased by \$27,084,124 due to 248 transfers of ownership during 2017 and decreased by \$73,449,549 for projected value loss due to pending assessment appeals. See the caption “—Assessment Appeals.” Personal Property values are held constant at the fiscal year 2016-17 level.
 (3) Represents total taxable value less base year value of \$568,836,168.
 (4) Adjusted Gross Tax Revenues is based on incremental values factored against the general levy tax rate of \$1.00 per \$100 of taxable value.
 (5) County Administrative Charges include charges under SB 2557. The Fiscal Consultant estimates the charges under SB 2557 at 1.15% of Gross Revenues. See the caption “PROPERTY TAXATION IN CALIFORNIA—Property Tax Collection Procedures—*Property Tax Administrative Costs*.” The Fiscal Consultant does not consider charges by the Auditor-Controller under AB X1 26 since these amounts are minimal and vary from RPTTF allocation to RPTTF allocation.
 (6) Includes amounts due under the Pass-Through Agreements and 33676 Amounts that are senior to the payment of debt service on the Series 2017 Bonds. See the caption “SECURITY FOR THE SERIES 2017 BONDS—Pass-Through Agreements” for additional information.
 (7) Debt service on the Towngate Bonds and the Improvement Area 1 Bonds. Debt service on these bonds is senior to the payment of debt service on the Series 2017 Bonds.

Estimated Debt Service Coverage

The following table sets forth the debt service and coverage ratio for the Series 2017 Bonds, assuming taxable values are increased for inflation at 2% for fiscal year 2017-18 and annually thereafter. There can be no assurance that such projected Tax Revenues will be realized. Such projections assume the issuance of the Series 2017 Bonds and the redemption of the Refunded Bonds. RISK FACTORS

The following information should be considered by prospective investors in evaluating the Series 2017 Bonds. However, the following does not purport to be an exhaustive listing of risks and other considerations which may be relevant to investing in the Series 2017 Bonds. In addition, the order in which the following information is presented is not intended to reflect the relative importance of any such risks.

Reduction in Taxable Value

Tax Revenues allocated to the Redevelopment Property Tax Trust Fund are determined by the amount of incremental taxable value in the Project Area and the current rate or rates at which property in the Project Area is taxed. The reduction of taxable values of property in the Project Area caused by economic factors beyond the Agency's control, such as relocation out of the Project Area by one or more major property owners, sale of property to a non-profit corporation exempt from property taxation or the complete or partial destruction of such property caused by, among other eventualities, earthquake or other natural disaster, could cause a reduction in the Tax Revenues that provide for the repayment of and secure the Series 2017 Bonds.

Such reduction in Tax Revenues could have an adverse effect on the Agency's ability to make timely payments of principal of and interest on the Series 2017 Bonds.

As described in greater detail under the caption "PROPERTY TAXATION IN CALIFORNIA—Article XIII A of the State Constitution," Article XIII A provides that the full cash value base of real property used in determining taxable value may be adjusted from year to year to reflect the inflation rate, not to exceed a 2% increase for any given year, or may be reduced to reflect a reduction in the consumer price index, comparable local data or any reduction in the event of declining property value caused by damage, destruction or other factors (as described above). Such measure is computed on a calendar year basis. Any resulting reduction in the full cash value base over the term of the Series 2017 Bonds could reduce Tax Revenues securing the Series 2017 Bonds.

In addition to the other limitations on and required application under the Dissolution Act of Tax Revenues on deposit in the Redevelopment Property Tax Trust Fund, as described in this Official Statement, the State electorate or Legislature could adopt a constitutional or legislative property tax reduction with the effect of reducing Tax Revenues allocated to the Redevelopment Property Tax Trust Fund and available to the Agency. Although the federal and State Constitutions include clauses generally prohibiting the Legislature's impairment of contracts, there are also recognized exceptions to these prohibitions. There is no assurance that the State electorate or Legislature will not at some future time approve additional limitations that could reduce the Tax Revenues and adversely affect the source of repayment and security of the Series 2017 Bonds.

Concentration of Ownership

The ten largest property taxpayers in the Project Area, based upon the fiscal year 2016-17 locally assessed tax roll reported by the County Assessor, owned approximately 20.04% of the total Project Area value and approximately 24.64% of the total incremental assessed value within the Project Area. See the Fiscal Consultant's Report attached to this Official Statement as Appendix A. Concentration of ownership presents a risk in that if one or more of the largest property owners were to default on their taxes, or were to successfully appeal the tax assessments on property within the Project Area, a substantial decline in Tax Revenues could result. See the caption "THE PROJECT AREA—Ten Largest Taxpayers" for more information about these ten largest property taxpayers and see the caption "THE PROJECT AREA—Assessment Appeals" for information as to pending appeals of tax assessments.

Risks to Real Estate Market

The Agency's ability to make payments on the Series 2017 Bonds is dependent upon the economic strength of the Project Area. The general economy of the Project Area is subject to all of the risks generally associated with urban real estate markets. Real estate prices and development may be adversely affected by changes in general economic conditions, fluctuations in the real estate market and interest rates, unexpected increases in development costs, the supply of or demand for competitive properties in such area, the market value of property in the event of sale or foreclosure and other similar factors. Furthermore, real estate development within the Project Area could be adversely affected by limitations of infrastructure or future governmental policies, including governmental policies to restrict or control development, changes in real estate tax rates and other operating expenses, zoning laws and laws relating to threatened and endangered species and hazardous materials and fiscal policies, as well as natural disasters (including, without limitation, earthquakes, wildfires and floods), which may result in uninsured losses. In addition, if there is a decline in the general economy of the Project Area, the owners of property within the Project Area may be less able or less willing to make timely payments of property taxes or may petition for reduced assessed valuation causing a delay or interruption in the receipt of Tax Revenues by the Agency from the Project Area.

Because assessed values do not necessarily indicate fair market values, the declines in fair market values in recent years may have been even greater than the declines in assessed valuations, although it is also possible that market values could be greater than assessed valuations at any given time. No assurance can be

given that the individual parcel owners will pay property taxes in the future or that they will be able to pay such taxes on a timely basis. See the caption “—Bankruptcy and Foreclosure” for a discussion of certain limitations on the City’s ability to pursue judicial proceedings with respect to delinquent parcels.

Reduction in Inflation Rate

As described in greater detail above, Article XIII A of the State Constitution provides that the full cash value of real property used in determining taxable value may be adjusted from year to year to reflect the rate of inflation, not to exceed a 2% increase for any given year, or may be reduced to reflect a reduction in the consumer price index or comparable local data. Such measure is computed on a calendar year basis. Because Article XIII A limits inflationary assessed value adjustments to the lesser of the actual inflationary rate or 2%, there have been years in which the assessed values were adjusted by actual inflationary rates, which were less than 2%. The State Board of Equalization directed county assessors to use 1.998%, 1.525% and 2.000% as the inflation factors for purposes of preparing the Fiscal Year 2015-16, 2016-17 and 2017-18 tax rolls, respectively.

The Agency is unable to predict if any adjustments to the full cash value of real property within the Project Area, whether an increase or a reduction, will be realized in the future.

Levy and Collection of Taxes

The Agency has no independent power to levy or collect property taxes. Any reduction in the tax rate or the implementation of any constitutional or legislative property tax decrease could reduce the Tax Revenues, and accordingly, could have an adverse impact on the security for and the ability of the Agency to repay the Series 2017 Bonds.

Likewise, delinquencies in the payment of property taxes by the owners of land in the Project Area, and the impact of bankruptcy proceedings on the ability of taxing agencies to collect property taxes, could have an adverse effect on the Agency’s ability to make timely payments on the Series 2017 Bonds. As discussed under the caption “PROPERTY TAXATION IN CALIFORNIA—Property Tax Collection Procedures—Delinquencies,” under the Teeter Plan, the County Auditor-Controller distributes 100% of tax increment revenues allocated to each redevelopment successor agency in the County without regard to delinquencies in the payment of property taxes. Any reduction in Tax Revenues, regardless of the reason, could have an adverse effect on the Agency’s ability to pay the principal of and interest on the Series 2017 Bonds.

State Budget Issues

AB X1 26 and AB 1484 were enacted by the State Legislature and Governor as trailer bills necessary to implement provisions of the State’s budget acts for its fiscal years 2011-12 and 2012-13, respectively, as efforts to address structural deficits in the State general fund budget. In general terms, these bills implemented a framework to transfer cash assets previously held by redevelopment agencies to cities, counties, and special districts to fund core public services, with assets transferred to schools offsetting State general fund costs.

SB 107, which made extensive amendments to the Dissolution Act, was enacted following the adoption of the fiscal year 2015-16 Budget, after having initially been presented as AB 113, a trailer bill to the fiscal year 2015-16 Budget. SB 107 changed the process for submitting Recognized Obligation Payment Schedules from a six-month to an annual process, authorizes successor agencies to submit and obtain DOF approval of a Last and Final ROPS to govern all remaining payment obligations of the successor agency, altered the provisions governing the distribution of Redevelopment Property Tax Trust Fund moneys attributable to pension and State Water Project tax rate overrides, and eliminated the impact of financial and time limitations in redevelopment plans for purposes of paying enforceable obligations, among other changes to the Dissolution Act. These statutory amendments impact the manner in which successor agencies claim

Redevelopment Property Tax Trust Fund moneys for enforceable obligations and, for some successor agencies, impacts the amount of Redevelopment Property Tax Trust Fund moneys that will be available for payment of the successor agency's enforceable obligations.

There can be no assurance that additional legislation will not be enacted in the future to additionally implement provisions relating to the State budget or otherwise that may affect successor agencies or tax increment revenues, including Tax Revenues.

Information about the State budget and State spending is available at various State maintained websites. Text of the fiscal year 2017-18 Budget and other documents related to the State budget may be found at the website of the State Department of Finance, www.dof.ca.gov. A nonpartisan analysis of the budget is posted by the Legislative Analyst's Office at www.lao.ca.gov. In addition, various State official statements, many of which contain a summary of the current and past State budgets may be found at the website of the State Treasurer, www.treasurer.ca.gov.

None of the websites or webpages referenced above is in any way incorporated into this Official Statement. They are cited for informational purposes only. The Agency makes no representation whatsoever as to the accuracy or completeness of any of the information on such websites.

Recognized Obligation Payment Schedule

The Dissolution Act provides that, commencing on the date that the first Recognized Obligation Payment Schedule is valid thereunder, only those obligations listed in the Recognized Obligation Payment Schedule may be paid by the Agency from the funds specified in the Recognized Obligation Payment Schedule. Before each February 1, with respect to the following fiscal year, the Dissolution Act requires successor agencies to prepare and submit to the successor agency's oversight board and the DOF for approval, a Recognized Obligation Payment Schedule pursuant to which enforceable obligations (as described under the caption "SECURITY FOR THE SERIES 2017 BONDS—Recognized Obligation Payment Schedule") of the successor agency are listed, together with the source of funds to be used to pay for each enforceable obligation. Tax Revenues will not be distributed from the Redevelopment Property Tax Trust Fund by the County Auditor-Controller to the Agency's Redevelopment Obligation Retirement Fund without a duly approved and effective Recognized Obligation Payment Schedule obtained in sufficient time prior to the June 1 property tax distribution date. See the caption "SECURITY FOR THE SERIES 2017 BONDS—Recognized Obligation Payment Schedule" and "PROPERTY TAXATION IN CALIFORNIA—Property Tax Collection Procedures—Recognized Obligation Payment Schedule." In the event that the Agency fails to file a Recognized Obligation Payment Schedule with respect to a fiscal year, the availability of Tax Revenues to the Agency could be adversely affected for such period.

In the event that a successor agency fails to submit to the DOF an oversight board-approved Recognized Obligation Payment Schedule complying with the provisions of the Dissolution Act within five business days of the date upon which the Recognized Obligation Payment Schedule is to be used to determine the amount of property tax allocations, the DOF may determine if any amount should be withheld by the applicable county auditor-controller for payments for enforceable obligations from distribution to taxing entities pursuant to clause (iv) below, pending approval of a Recognized Obligation Payment Schedule. Upon notice provided by the DOF to the county auditor-controller of an amount to be withheld from allocations to taxing entities, the county auditor-controller must distribute to taxing entities any moneys in the Redevelopment Property Tax Trust Fund in excess of the withholding amount set forth in the notice, and the county auditor-controller must distribute withheld funds to the successor agency only in accordance with a Recognized Obligation Payment Schedule when and as approved by the DOF.

Typically, under the Redevelopment Property Tax Trust Fund distribution provisions of the Dissolution Act, the county auditor-controller is to distribute funds for each six-month period in the following order specified in Section 34183 of the Dissolution Act:

(i) First, to each local agency and school entity, to the extent applicable, amounts required for pass-through payments that such entity would have received under provisions of the Redevelopment Law, as those provisions read on January 1, 2011, including pursuant to the Statutory Pass-Through Amounts. Pension or State Water Project override revenues that are not pledged to or not needed for debt service on Agency debt will be allocated and paid to the entity that levies the override;

(ii) Second, to the Agency for payments listed in its Recognized Obligation Payment Schedule;

(iii) Third, to the Agency for the administrative cost allowance, as defined in the Dissolution Act; and

(iv) Fourth, the remainder is distributed to the taxing entities in an amount proportionate to such taxing entity's share of property tax revenues in the tax rate area in such fiscal year (without adjustment for pass-through obligations).

If the Agency does not submit an Oversight Board-approved Recognized Obligation Payment Schedule within five business days of the date upon which the Recognized Obligation Payment Schedule is to be used to determine the amount of property tax allocations and the DOF does not provide a notice to the County Auditor-Controller to withhold funds from distribution to taxing entities, amounts in the Redevelopment Property Tax Trust Fund for such fiscal year would be distributed to taxing entities pursuant to clause (iv) above.

Additionally, in the event Redevelopment Property Tax Trust Fund moneys are insufficient to pay all pass-through amounts and enforceable obligations, the County Auditor-Controller will disburse moneys to taxing agencies for pass-through payments prior to disbursing any moneys to the Agency for debt service on the Series 2017 Bonds or other enforceable obligations, unless the Agency has complied with the procedures set forth in Section 34177.5(c) of the Dissolution Act to subordinate such pass-through payments to the Series 2017 Bonds. The City and the Former Agency did not amend the Redevelopment Plan in a manner which would have created an obligation to make payments of statutory pass-through obligations. See the caption "SECURITY FOR THE SERIES 2017 BONDS — Statutory Pass-Through Amounts." The Agency has not taken the required actions to subordinate the 33676 Amounts to the Series 2017 Bonds and therefore the 33676 Amounts, as well as payments under the Flood Agreement, are senior to debt service on the Series 2017 Bonds. See the caption "SECURITY FOR THE SERIES 2017 BONDS—Tax Increment Financing—*Tax Sharing*."

The Agency covenants in the Indenture that it will comply with all of the requirements of the Redevelopment Law and the Dissolution Act, including without limitation to file all required statements and seek all necessary approvals required under the Dissolution Act to assure compliance by the Agency with its covenants under the Indenture.

Further, the Agency covenants in the Indenture to take all actions required under the Dissolution Act to include: (i) scheduled debt service on the Series 2017 Bonds and any Parity Debt and any amount required under the Indenture to replenish the Reserve Account established hereunder or the reserve account established under any Parity Debt Instrument, and (ii) amounts due to any Insurer under the Indenture or under an insurance or surety bond agreement, in Recognized Obligation Payment Schedules for each ROPS Period so as to enable the County Auditor-Controller to distribute from the Redevelopment Property Tax Trust Fund to the Agency's Redevelopment Obligation Retirement Fund on each January 2 and June 1 amounts required for the Agency to pay principal of, and interest on, the Series 2017 Bonds coming due in the respective ROPS Period and to pay amounts owed to any Insurer, as well as the other amounts set forth above.

In order to accomplish the foregoing, on or before each February 1 (or at such earlier time as may be required by the Dissolution Act), for so long as any Bonds are outstanding, the Agency shall submit an Oversight Board-approved Recognized Obligation Payment Schedule to the DOF and to the County Auditor-

Controller that shall include, from the first available Tax Revenues (subject to prior payments described in the Indenture): (i) all debt service due on all Outstanding Parity Debt coming due during the applicable ROPS Period (with one-half of such year's debt service to be distributed from the Redevelopment Property Tax Trust Fund on June 1 and the remainder of such year's debt service to be distributed from the Redevelopment Property Tax Trust Fund on January 2), as well as all amounts due and owing to any Insurer under the Indenture, and (ii) any amount required to cure any deficiency in the Reserve Account pursuant to the Indenture or a reserve account established under any Parity Debt Instrument (including any amounts required due to a draw on the Qualified Reserve Account Credit Instrument as well as all amounts due and owing to any Insurer under the Indenture). See Appendix B.

The Dissolution Act also imposes certain penalties in the event that the Agency does not timely submit a Recognized Obligation Payment Schedule for each fiscal year. Specifically, a Recognized Obligation Payment Schedule must be submitted by the Agency, after approval by the Oversight Board, to the County Administrative Officer, the County Auditor-Controller, the DOF and the State Controller by February 1 in each year with respect to the following Fiscal Year. If the Agency does not submit an Oversight Board-approved Recognized Obligation Payment Schedule by such deadline, the City will be subject to a civil penalty equal to \$10,000 per day for every day that the schedule is not submitted. Additionally, the Agency's administrative cost allowance will be reduced by 25% for any fiscal year for which the Agency does not submit an Oversight Board-approved Recognized Obligation Payment Schedule within 10 days of the February 1 deadline. If the Agency fails to submit a Recognized Obligation Payment Schedule by the February 1 deadline, any creditor of the Agency or DOF or any affected taxing entity shall have standing to, and may request a writ of mandate to, require the Agency to immediately perform this duty. For additional information regarding procedures under the Dissolution Act relating to late Recognized Obligation Payment Schedules and implications thereof on the Series 2017 Bonds, see the caption "SECURITY FOR THE SERIES 2017 BONDS—Recognized Obligation Payment Schedule."

Last and Final Recognized Obligation Payment Schedule

SB 107 amended the Dissolution Act to permit certain successor agencies with limited remaining obligations to submit a Last and Final ROPS for approval by the oversight board and DOF. The Last and Final ROPS must list the remaining enforceable obligations of the successor agency, including the total outstanding obligation amount and a schedule of remaining payments for each enforceable obligation. The Last and Final ROPS shall also establish the maximum amount of Redevelopment Property Tax Trust Funds to be distributed to the successor agency for each remaining fiscal year until all obligations have been fully paid.

Any revenues, interest, and earnings of the successor agency, including proceeds from the disposition of real property, that are not authorized for use pursuant to the approved Last and Final ROPS shall be remitted to the county auditor-controller for distribution to the affected taxing entities. A successor agency shall not expend more than the amount approved for each enforceable obligation listed on the approved Last and Final ROPS and once the successor agency has received Redevelopment Property Tax Trust Fund moneys equal to the amount of the total outstanding obligations approved in the Last and Final ROPS, the county auditor-controller will not allocate further Redevelopment Property Tax Trust Fund moneys to the successor agency.

Successor agencies may only amend an approved Last and Final ROPS twice. If the Agency prepares and obtains DOF approval of a Last and Final ROPS and subsequently amends the Last and Final ROPS two times, the Agency may be unable to make unexpected or unscheduled reserve deposits or payments due to the Insurers of Bonds or other Parity Debt.

See the caption "SECURITY FOR THE SERIES 2017 BONDS—Last and Final Recognized Obligation Payment Schedule" for a discussion of the requirements for a Last and Final Recognized Obligation Payment Schedule and the mechanics for allocation of Redevelopment Property Tax Trust Fund moneys pursuant to an approved Last and Final Recognized Obligation Payment Schedule. The Successor Agency does not intend to seek approval of a Last and Final ROPS.

Parity and Subordinate Debt

The Indenture permits the issuance by the Agency of certain refunding indebtedness which may have a lien upon the Tax Revenues on parity with the lien of the Series 2017 Bonds. While the Senior Bonds have a lien on Tax Revenues senior to that of the Series 2017 Bonds, the Agency has covenanted not to issue any additional obligations with a lien on former tax increment revenues senior to the lien of the Series 2017 Bonds. See the caption “SECURITY FOR THE SERIES 2017 BONDS—Limitations on Additional Indebtedness” for a description of the conditions precedent to issuance of such additional obligations. The Indenture does not limit the issuance of tax allocation bonds or other indebtedness secured by a pledge of tax increment revenues subordinate to the pledge of Tax Revenues securing the Series 2017 Bonds.

Challenges to Dissolution Act

Several successor agencies, cities and other entities have filed judicial actions challenging the legality of various provisions of the Dissolution Act. One such challenge is an action filed on August 1, 2012, by Syncora Guarantee Inc. and Syncora Capital Assurance Inc. (collectively, “Syncora”) against the State, the State Controller, the State Director of Finance, and the Auditor-Controller of Riverside County on his own behalf and as the representative of all other County Auditors in the State (Superior Court of the State of California, County of Sacramento, Case No. 34-2012-80001215). Syncora is a monoline financial guaranty insurer domiciled in the State of New York and has provided bond insurance and other related insurance policies for bonds issued by former California redevelopment agencies.

The complaint alleged that the Dissolution Act, and specifically the “Redistribution Provisions” thereof (i.e., California Health and Safety Code sections 34172(d), 34174, 34177(d), 34183(a)(4), and 34188) violate the “contract clauses” of the United States and California Constitutions (U.S. Const. art. 1, §10, cl.1; Cal. Const. art. 1, §9) because they unconstitutionally impair the contracts among the former redevelopment agencies, bondholders and Syncora. The complaint also alleged that the Redistribution Provisions violate the “Takings Clauses” of the United States and California Constitutions (U.S. Const. amend. V; Cal Const. art. 1 §19) because they unconstitutionally take and appropriate bondholders’ and Syncora’s contractual right to critical security mechanisms without just compensation.

After hearing by the Sacramento County Superior Court on May 3, 2013, the Superior Court ruled that Syncora’s constitutional claims based on contractual impairment were premature. The Superior Court also held that Syncora’s takings claims, to the extent based on the same arguments, were also premature. Pursuant to a Judgment stipulated to by the parties, the Superior Court on October 3, 2013, entered its order dismissing the action. The Judgment, however, provides that Syncora preserves its rights to reassert its challenges to the Dissolution Act in the future. The Agency does not guarantee that any reassertion of challenges by Syncora or that the final results of any of the judicial actions brought by others challenging the Dissolution Act will not result in an outcome that may have a material adverse effect on the Agency’s ability to timely pay debt service on the Series 2017 Bonds.

Bankruptcy and Foreclosure

The payment of the property taxes from which Tax Revenues are derived and the ability of the County to foreclose the lien of a delinquent unpaid tax may be limited by bankruptcy, insolvency or other laws generally affecting creditors’ rights (such as the Soldiers’ and Sailors’ Relief Act of 1940 discussed below) or by the laws of the State relating to judicial foreclosure. In addition, the prosecution of a foreclosure action could be delayed due to crowded local court calendars or delays in the legal process. The various legal opinions to be delivered concurrently with the delivery of the Series 2017 Bonds (including Bond Counsel’s approving legal opinions) will be qualified as to the enforceability of the various legal instruments by bankruptcy, insolvency, reorganization, moratorium, or other similar laws affecting creditors’ rights, by the application of equitable principles and by the exercise of judicial discretion in appropriate cases.

Although bankruptcy proceedings would not cause the liens to become extinguished, bankruptcy of a property owner could result in a delay in prosecuting superior court foreclosure proceedings because federal bankruptcy laws may provide for an automatic stay of foreclosure and sale of tax sale proceedings. Such delay would increase the possibility of delinquent tax installments not being paid in full and thereby increase the likelihood of a delay or default in payment of the principal of and interest on the Series 2017 Bonds. Moreover, if the value of the subject property is less than the lien of property taxes, such excess could be treated as an unsecured claim by the bankruptcy court. Further, should remedies be exercised under the federal bankruptcy laws, payment of property taxes may be subordinated to bankruptcy law priorities. Thus, certain claims may have priority over property taxes in a bankruptcy proceeding even though they would not outside of a bankruptcy proceeding.

In addition, the United States Bankruptcy Code might prevent moneys on deposit in the Redevelopment Obligation Retirement Fund from being applied to pay interest on the Series 2017 Bonds and/or to redeem Bonds if bankruptcy proceedings were brought by or against a landowner and if the court found that such landowner had an interest in such moneys within the meaning of Section 541(a)(1) of the United States Bankruptcy Code.

Other laws generally affecting creditors' rights or relating to judicial foreclosure may affect the ability to enforce payment of property taxes or the timing of enforcement thereof. For example, the Soldiers and Sailors Civil Relief Act of 1940 affords protections such as a stay in enforcement of the foreclosure covenant, a six-month period after termination of military service to redeem property sold to enforce the collection of a tax or assessment and a limitation on the interest rate on the delinquent tax or assessment to persons in military service if a court concludes that the ability to pay such taxes or assessments is materially affected by reason of such service.

As discussed under the caption "PROPERTY TAXATION IN CALIFORNIA—Property Tax Collection Procedures—*Delinquencies*," the County has adopted a "Teeter Plan" alternative method for collection of taxes. See the caption "THE PROJECT AREA—Levy and Collections."

Estimated Revenues

In estimating that Tax Revenues will be sufficient to pay debt service on the Series 2017 Bonds, the Agency has made certain assumptions with regard to present and future assessed valuation in the Project Area, future tax rates and percentage of taxes collected. The Agency believes these assumptions to be reasonable, but there is no assurance that these assumptions will be realized. To the extent that the assessed valuation and the tax rates are less than expected, the Tax Revenues available to pay debt service on the Series 2017 Bonds will be less than those projected and such reduced Tax Revenues may be insufficient to provide for the payment of principal of, premium (if any) and interest on the Series 2017 Bonds.

Hazardous Substances

While governmental taxes, assessments, and charges are a common claim against the value of a taxable parcel, other less common claims may be relevant. One example is a claim with regard to a hazardous substance.

The presence of hazardous substances on a parcel may result in a reduction in the value of a parcel. In general, the owners and operators of a taxable parcel may be required by law to remedy conditions of the parcel relating to releases or threatened releases of hazardous substances. The federal Comprehensive Environmental Response, Compensation and Liability Act of 1980, sometimes referred to as "CERCLA" or the "Superfund Act," is the most well-known and widely applicable of these laws, but State and local laws with regard to hazardous substances are also stringent and similar. Under many of these laws, the owner (or operator) is obligated to remedy a hazardous substance condition of property whether or not the owner (or operator) has anything to do with creating or handling the hazardous substance. The effect, therefore, should

any of the taxable parcels be affected by a hazardous substance is to reduce the marketability and value of the parcel by the costs of remedying the condition, because the purchaser, upon becoming owner, will become obligated to remedy the condition just as is the seller. Further, such liabilities may arise not simply from the existence of a hazardous substance but from the method of handling it. All of these possibilities could significantly affect the value of the property that is realizable upon a delinquency and foreclosure.

Further, it is possible that liabilities may arise in the future with respect to any of the taxable parcels resulting from the existence, currently, on the parcel of a substance presently classified as hazardous but which has not been released or the release of which is not presently threatened, or may arise in the future resulting from the existence, currently, on the parcel of a substance not presently classified as hazardous but which may in the future be so classified. Further, such liabilities may arise not only from the existence of a hazardous substance but from the method of handling it. All of these possibilities could significantly affect the value of a taxable parcel that is realizable upon a delinquency.

Natural Disasters

Natural disasters, including floods, high winds, wildfires, landslides and earthquakes, could damage improvements and/or property in the Project Area, or impair the ability of landowners within the Project Area to develop their properties or to pay property taxes.

Several active fault zones lie within Southern California. No known earthquake fault crosses the Project Area; however, the nearest known fault to the City is the San Jacinto Fault, the most historically active fault zone in Southern California. The San Jacinto Fault crosses the southwest corner of the City and is outside the Project Area. Since 1986, there have been eight notable earthquakes in Southern California, each having a magnitude of five or greater on the Richter Scale. None of these resulted in injury or damage in the City. The City is within Seismic Zone 4 of the 1997 Uniform Building Code. According to the Division of Mines and Geology, the San Jacinto Fault is the only active fault in the City. Seismic activity also can occur on previously undetected faults. In the event of a significant earthquake, substantial damage could occur to the property within the Project Area.

If an earthquake were to substantially damage or destroy taxable property within the Project Area, the assessed valuation of such property would be reduced. Such a reduction of assessed valuations could result in a reduction of the Tax Revenues that secure the Series 2017 Bonds.

The property within the Project Area may also be at risk from other events of force majeure, such as damaging storms, floods, high winds, wildfires, landslides, fires and explosions, strikes, sabotage, riots and spills of hazardous substances, among other events. The Agency cannot predict what force majeure events may occur in the future.

Changes in the Law

There can be no assurance that the State electorate will not at some future time adopt initiatives or that the State Legislature will not enact legislation that will amend the Dissolution Act, the Redevelopment Law or other laws or the Constitution of the State resulting in a reduction of Tax Revenues, which could have an adverse effect on the Agency's ability to pay debt service on the Series 2017 Bonds.

Investment Risk

Funds held under the Indenture are required to be invested in Permitted Investments as provided under the Indenture. See Appendix B for a summary of the definition of Permitted Investments. The funds and accounts of the Agency, into which a portion of the proceeds of the Series 2017 Bonds will be deposited and into which Tax Revenues are deposited, may be invested by the Agency in any investment authorized by law. All investments, including the Permitted Investments and those authorized by law from time to time for

investments by municipalities, contain a certain degree of risk. Such risks include, but are not limited to, a lower rate of return than expected and loss or delayed receipt of principal. See also the caption “—Bankruptcy and Foreclosure.”

Secondary Market

There can be no guarantee that there will be a secondary market for the Series 2017 Bonds, or, if a secondary market exists, that the Series 2017 Bonds can be sold for any particular price. Although the Agency has committed to provide certain financial and operating information on an annual basis, there can be no assurance that such information will be available to Owners of the Series 2017 Bonds on a timely basis. See the caption “CONCLUDING INFORMATION—Continuing Disclosure” and Appendix G. Any failure to provide annual financial information, if required, does not give rise to monetary damages but merely an action for specific performance. Occasionally, because of general market conditions or because of adverse history or economic prospects connected with a particular issue, secondary marketing practices in connection with a particular issue are suspended or terminated. Additionally, prices of issues for which a market is being made will depend upon the then prevailing circumstances. Such prices could be substantially different from the original purchase price.

No Validation Proceeding Undertaken

Code of Civil Procedure Section 860 authorizes public agencies to institute a process, otherwise known as a “validation proceeding,” for purposes of determining the validity of a resolution or any action taken pursuant thereto. Section 860 authorizes a public agency to institute validation proceedings in cases where another statute authorizes its use. Relevant to the Series 2017 Bonds, Government Code Section 53511 authorizes a local agency to “bring an action to determine the validity of its bonds, warrants, contracts, obligations or evidences of indebtedness.” Pursuant to Code of Civil Procedure Section 870, a final favorable judgment issued in a validation proceeding shall, notwithstanding any other provision of law, be forever binding and conclusive, as to all matters therein adjudicated or which could have been adjudicated, against all persons: “The judgment shall permanently enjoin the institution by any person of any action or proceeding raising any issue as to which the judgment is binding and conclusive.”

The Agency has not undertaken or endeavored to undertake any validation proceeding in connection with the issuance of the Series 2017 Bonds. The Agency and Bond Counsel have relied on the provisions of AB 1484 authorizing the issuance of the Series 2017 Bonds and specifying the related deadline for any challenge to the Series 2017 Bonds to be brought. Specifically, Section 34177.5(e) of the Dissolution Act provides that notwithstanding any other law, an action to challenge the issuance of bonds (such as the Series 2017 Bonds), the incurrence of indebtedness, the amendment of an enforceable obligation, or the execution of a financing agreement authorized under Section 34177.5, must be brought within 30 days after the date on which the oversight board approves the resolution of the successor agency approving such financing. Such challenge period expired with respect to the Series 2017 Bonds and the Oversight Board Resolution on _____, 2017.

It is possible that the definition of Tax Revenues could be affected by changes in law or judicial decisions relating to the dissolution of redevelopment agencies. However, any action by a court to invalidate provisions of the Dissolution Act required for the timely payment of principal of, and interest on, the Series 2017 Bonds could be subject to issues regarding unconstitutional impairment of contracts and unconstitutional taking without just compensation. The Agency believes this constitutional provision would provide some protection against the adverse consequences upon the Agency and the availability of Tax Revenues for the payment of debt service on the Series 2017 Bonds in the event of successful challenges to the Dissolution Act or portions thereof. However, the Agency provides no assurance that any other lawsuit challenging the Dissolution Act or portions thereof will not result in an outcome that may have a detrimental effect on the Agency’s ability to timely pay debt service on the Series 2017 Bonds.

Bonds Are Limited Obligations

Neither the faith and credit nor the taxing power of the Agency (except to the limited extent set forth in the Indenture), the City, the State or any political subdivision thereof is pledged to the payment of the Series 2017 Bonds. The Series 2017 Bonds are special obligations of the Agency; and, except as provided in the Indenture, they are payable solely from Tax Revenues. Tax Revenues could be insufficient to pay debt service on the Series 2017 Bonds as a result of delinquencies in the payment of property taxes or the insufficiency of proceeds derived from the sale of land within the Agency following a delinquency in the payment of the applicable property taxes. As discussed under the caption “PROPERTY TAXATION IN CALIFORNIA—Property Tax Collection Procedures—*Delinquencies*,” while the County has not adopted a “Teeter Plan” alternative method for collection of taxes, it has implemented internal procedures that are similar in effect. See the caption “THE PROJECT AREA—Levy and Collections.” The Agency has no obligation to pay debt service on the Series 2017 Bonds in the event of insufficient Tax Revenues, except to the extent that money is available for such purpose in the Redevelopment Obligation Retirement Fund, the Tax Increment Fund and the Reserve Account.

Limitations on Remedies

Remedies available to the Owners of the Series 2017 Bonds may be limited by a variety of factors and may be inadequate to assure the timely payment of principal of and interest on the Series 2017 Bonds or to preserve the tax-exempt status of the Series 2017 Bonds.

Bond Counsel has limited its opinion as to the enforceability of the Series 2017 Bonds and of the Indenture to the extent that enforceability may be limited by bankruptcy, insolvency, reorganization, fraudulent conveyance or transfer, moratorium or other similar laws affecting generally the enforcement of creditors’ rights, by equitable principles and by the exercise of judicial discretion. The lack of availability of certain remedies or the limitation of remedies may entail risks of delay, limitation or modification of the rights of the Owners.

Enforceability of the rights and remedies of the Owners of the Series 2017 Bonds, and the obligations incurred by the Agency, may become subject to the United States Bankruptcy Code and applicable bankruptcy, insolvency, reorganization, moratorium or similar laws relating to or affecting the enforcement of creditors’ rights generally, now or hereafter in effect, equity principles which may limit the specific enforcement under State law of certain remedies, the exercise by the United States of America of the powers delegated to it by the federal Constitution, the reasonable and necessary exercise, in certain exceptional situations, of the police powers inherent in the sovereignty of the State and its governmental bodies in the interest of serving a significant and legitimate public purpose and the limitations on remedies against governmental entities in the State. See the caption “—Bankruptcy and Foreclosure.”

Risks Associated with Bond Insurance

In the event that the Agency defaults in the payment of principal or interest on the Series 2017 Bonds when due, the Owners of the Series 2017 Bonds will have a claim under the Policy for such payments. See the caption “BOND INSURANCE.” In the event that the Insurer becomes obligated to make payments with respect to the Series 2017 Bonds, no assurance can be given that such event will not adversely affect the market for the Series 2017 Bonds. In the event that the Insurer is unable to make payments of principal or interest on the Series 2017 Bonds when due under the Policy, the Series 2017 Bonds will be payable solely from Tax Revenues and amounts held in certain funds and accounts established under the Indenture, as described under the caption “SECURITY FOR THE SERIES 2017 BONDS.”

The insured long-term rating on the Series 2017 Bonds is dependent in part on the financial strength of the Insurer and its claims-paying ability. The Insurer’s financial strength and claims-paying ability are predicated upon a number of factors which could change over time. If the long-term ratings of the Insurer are

lowered, such event could adversely affect the market for the Series 2017 Bonds. See the caption “CONCLUDING INFORMATION—Ratings.”

Neither the Agency nor the Underwriter has made an independent investigation of the claims-paying ability of the Insurer, and no assurance or representation regarding the financial strength or projected financial strength of the Insurer is being made by the Agency or the Underwriter in this Official Statement. Therefore, when making an investment decision with respect to the Series 2017 Bonds, potential investors should carefully consider the ability of the Agency to pay principal and interest on the Series 2017 Bonds, assuming that the Policy is not available for that purpose, and the claims-paying ability of the Insurer through final maturity of the Series 2017 Bonds.

So long as the Policy remains in effect and the Insurer is not in default of its obligations thereunder, the Insurer has certain notice, consent and other rights under the Indenture and will have the right to control all remedies in the event of a default under the Indenture. The Insurer is not required to obtain the consent of the Owners of the Series 2017 Bonds with respect to the exercise of remedies. See Appendix B.

TAX MATTERS

In the opinion of Orrick, Herrington & Sutcliffe LLP, Bond Counsel to the Agency (“Bond Counsel”), based upon an analysis of existing laws, regulations, rulings and court decisions, and assuming, among other matters, the accuracy of certain representations and compliance with certain covenants, interest on the Series 2017 Bonds is excluded from gross income for federal income tax purposes under Section 103 of the Internal Revenue Code of 1986 (the “Code”) and is exempt from State of California personal income taxes. Bond Counsel is of the further opinion that interest on the Series 2017 Bonds is not a specific preference item for purposes of the federal individual or corporate alternative minimum taxes, although Bond Counsel observes that such interest is included in adjusted current earnings when calculating corporate alternative minimum taxable income. A complete copy of the proposed form of opinion of Bond Counsel is set forth in Appendix C hereto.

To the extent the issue price of any maturity of the Series 2017 Bonds is less than the amount to be paid at maturity of such Series 2017 Bonds (excluding amounts stated to be interest and payable at least annually over the term of such Series 2017 Bonds), the difference constitutes “original issue discount,” the accrual of which, to the extent properly allocable to each Beneficial Owner thereof, is treated as interest on the Series 2017 Bonds which is excluded from gross income for federal income tax purposes and State of California personal income taxes. For this purpose, the issue price of a particular maturity of the Series 2017 Bonds is the first price at which a substantial amount of such maturity of the Series 2017 Bonds is sold to the public (excluding bond houses, brokers, or similar persons or organizations acting in the capacity of underwriters, placement agents or wholesalers). The original issue discount with respect to any maturity of the Series 2017 Bonds accrues daily over the term to maturity of such Series 2017 Bonds on the basis of a constant interest rate compounded semiannually (with straight-line interpolations between compounding dates). The accruing original issue discount is added to the adjusted basis of such Series 2017 Bonds to determine taxable gain or loss upon disposition (including sale, redemption, or payment on maturity) of such Series 2017 Bonds. Beneficial Owners of the Series 2017 Bonds should consult their own tax advisors with respect to the tax consequences of ownership of Series 2017 Bonds with original issue discount, including the treatment of Beneficial Owners who do not purchase such Series 2017 Bonds in the original offering to the public at the first price at which a substantial amount of such Series 2017 Bonds is sold to the public.

Series 2017 Bonds purchased, whether at original issuance or otherwise, for an amount higher than their principal amount payable at maturity (or, in some cases, at their earlier call date) (“Premium Bonds”) will be treated as having amortizable bond premium. No deduction is allowable for the amortizable bond premium in the case of bonds, like the Premium Bonds, the interest on which is excluded from gross income for federal income tax purposes. However, the amount of tax-exempt interest received, and a Beneficial Owner’s basis in a Premium Bond, will be reduced by the amount of amortizable bond premium properly allocable to such

Beneficial Owner. Beneficial Owners of Premium Bonds should consult their own tax advisors with respect to the proper treatment of amortizable bond premium in their particular circumstances.

The Code imposes various restrictions, conditions and requirements relating to the exclusion from gross income for federal income tax purposes of interest on obligations such as the Series 2017 Bonds. The Agency has made certain representations and covenanted to comply with certain restrictions, conditions and requirements designed to ensure that interest on the Series 2017 Bonds will not be included in federal gross income. Inaccuracy of these representations or failure to comply with these covenants may result in interest on the Series 2017 Bonds being included in gross income for federal income tax purposes, possibly from the date of original issuance of the Series 2017 Bonds. The opinion of Bond Counsel assumes the accuracy of these representations and compliance with these covenants. Bond Counsel has not undertaken to determine (or to inform any person) whether any actions taken (or not taken), or events occurring (or not occurring), or any other matters coming to Bond Counsel's attention after the date of issuance of the Series 2017 Bonds may adversely affect the value of, or the tax status of interest on, the Series 2017 Bonds. Accordingly, the opinion of Bond Counsel is not intended to, and may not, be relied upon in connection with any such actions, events or matters.

Although Bond Counsel is of the opinion that interest on the Series 2017 Bonds is excluded from gross income for federal income tax purposes and is exempt from State of California personal income taxes, the ownership or disposition of, or the accrual or receipt of amounts treated as interest on, the Series 2017 Bonds may otherwise affect a Beneficial Owner's federal, state or local tax liability. The nature and extent of these other tax consequences depends upon the particular tax status of the Beneficial Owner or the Beneficial Owner's other items of income or deduction. Bond Counsel expresses no opinion regarding any such other tax consequences.

Current and future legislative proposals, if enacted into law, clarification of the Code or court decisions may cause interest on the Series 2017 Bonds to be subject, directly or indirectly, in whole or in part, to federal income taxation or to be subject to or exempted from state income taxation, or otherwise prevent Beneficial Owners from realizing the full current benefit of the tax status of such interest. The introduction or enactment of any such legislative proposals or clarification of the Code or court decisions may also affect, perhaps significantly, the market price for, or marketability of, the Series 2017 Bonds. Prospective purchasers of the Series 2017 Bonds should consult their own tax advisors regarding the potential impact of any pending or proposed federal or state tax legislation, regulations or litigation, as to which Bond Counsel is expected to express no opinion.

The opinion of Bond Counsel is based on current legal authority, covers certain matters not directly addressed by such authorities, and represents Bond Counsel's judgment as to the proper treatment of the Series 2017 Bonds for federal income tax purposes. It is not binding on the Internal Revenue Service ("IRS") or the courts. Furthermore, Bond Counsel cannot give and has not given any opinion or assurance about the future activities of the Agency, or about the effect of future changes in the Code, the applicable regulations, the interpretation thereof or the enforcement thereof by the IRS. The Agency has covenanted, however, to comply with the requirements of the Code.

Bond Counsel's engagement with respect to the Series 2017 Bonds ends with the issuance of the Series 2017 Bonds, and, unless separately engaged, Bond Counsel is not obligated to defend the Agency or the Beneficial Owners regarding the tax-exempt status of the Series 2017 Bonds in the event of an audit examination by the IRS. Under current procedures, parties other than the Agency and their appointed counsel, including the Beneficial Owners, would have little, if any, right to participate in the audit examination process. Moreover, because achieving judicial review in connection with an audit examination of tax-exempt bonds is difficult, obtaining an independent review of IRS positions with which the Agency legitimately disagrees, may not be practicable. Any action of the IRS, including but not limited to selection of the Series 2017 Bonds for audit, or the course or result of such audit, or an audit of bonds presenting similar tax issues may affect the

market price for, or the marketability of, the Series 2017 Bonds, and may cause the Agency or the Beneficial Owners to incur significant expense.

CONCLUDING INFORMATION

Underwriting

The Series 2017 Bonds are being purchased by Stifel, Nicolaus & Company, Incorporated (the “Underwriter”) pursuant to a Bond Purchase Agreement, dated _____, 2017 (the “Purchase Agreement”), by and between the Underwriter and the Agency. The Underwriter has agreed to purchase the Series 2017 Bonds at a price of \$_____ (being the aggregate principal amount thereof, plus/less an original issue premium/discount of \$_____ and less an Underwriter’s discount of \$_____). The Purchase Agreement provides that the Underwriter will purchase all of the Series 2017 Bonds if any are purchased. The obligation to make such purchase is subject to certain terms and conditions set forth in the Purchase Agreement, the approval of certain legal matters by counsel and certain other conditions.

The initial public offering prices stated on the inside front cover page of this Official Statement may be changed from time to time by the Underwriter. The Underwriter may offer and sell the Series 2017 Bonds to certain dealers (including dealers depositing Bonds into investment trusts), dealer banks, banks acting as agents and others at prices lower than said public offering prices.

Municipal Advisor

Fieldman Rolapp & Associates, Irvine, California, has served as municipal advisor (“Municipal Advisor”) to the Agency in connection with the Series 2017 Bonds. The Municipal Advisor is not obligated to undertake, and has not undertaken to make, an independent verification or to assume responsibility for the accuracy, completeness or fairness of the information contained in this Official Statement. The Municipal Advisor is an independent advisory firm and is not engaged in the business of underwriting, trading or distributing municipal or other public securities.

Legal Opinion

The opinion of Orrick, Herrington & Sutcliffe LLP, Bond Counsel, approving the validity of the Series 2017 Bonds and stating that interest on the Series 2017 Bonds is exempt from California personal income taxes under present State income tax laws will be furnished to the purchaser at the time of delivery of the Series 2017 Bonds at the expense of the Agency. Compensation for Bond Counsel’s services is entirely contingent upon the sale and delivery of the Series 2017 Bonds.

A copy of the proposed form of Bond Counsel’s final approving opinion with respect to the Series 2017 Bonds is attached hereto as Appendix C. The legal opinion is only as to legality and is not intended to be nor is it to be interpreted or relied upon as a disclosure document or an express or implied recommendation as to the investment quality of the Series 2017 Bonds.

In addition, certain legal matters will be passed on for the Underwriter by Nixon Peabody LLP, Los Angeles, California, as Underwriter’s Counsel, for the Agency by the City Attorney of the City of Moreno Valley, as counsel to the Agency, and by Stradling Yocca Carlson & Rauth, a Professional Corporation, Newport Beach, California, as disclosure counsel, for the Insurer by its counsel and for the Trustee by its counsel.

Litigation

There is no action, suit or proceeding known to the Agency to be pending and notice of which has been served upon and received by the Agency, or threatened, restraining or enjoining the execution or delivery

of the Series 2017 Bonds or the Indenture or in any way contesting or affecting the validity of the foregoing or any proceedings of the Agency taken with respect to any of the foregoing.

Ratings

S&P has assigned its rating of “AA” to the Series 2017 Bonds based upon the delivery of the Policy by the Insurer at the time of issuance of the Bonds. S&P has also assigned the underlying rating of “AA-” to the Series 2017 Bonds notwithstanding the delivery of the Policy. There is no assurance that any credit rating given to the Series 2017 Bonds will be maintained for any period of time or that a rating may not be lowered or withdrawn entirely by S&P if, in the judgment of S&P, circumstances so warrant. Any downward revision or withdrawal of either of such ratings may have an adverse effect on the market price of the Series 2017 Bonds. Such ratings reflect only the views of S&P and an explanation of the significance of such ratings may be obtained from S&P. Generally, rating agencies base their ratings on information and materials furnished to them (which may include information and material from the Agency which is not included in this Official Statement) and on investigations, studies and assumptions by the rating agencies.

Neither the Agency nor the Underwriter makes any representation as to the Insurer’s creditworthiness or any representation that the Insurer’s credit rating will be maintained in the future. The rating agencies have previously taken action to downgrade the ratings of certain municipal bond insurers and have published various releases outlining the processes that they intend to follow in evaluating the ratings of financial guarantors. For some financial guarantors, the result of such evaluations could be a rating affirmation, a change in rating outlook, a review for downgrade or a downgrade. Potential investors are directed to the rating agencies for additional information on the applicable rating agencies’ evaluations of the financial guaranty industry and individual financial guarantors, including the Insurer. See the caption “BOND INSURANCE” for further information relating to the Insurer.

Continuing Disclosure

The Agency has covenanted in a Continuing Disclosure Certificate (the “Continuing Disclosure Certificate”) for the benefit of the holders and Beneficial Owners of the Series 2017 Bonds to provide certain financial information and operating data relating to the Agency by March 31 following the end of the Agency’s fiscal year (currently its fiscal year ends on June 30) (the “Annual Report”), commencing with the report for fiscal year ending June 30, 2017, and to provide notices of the occurrence of certain enumerated events.

The Annual Report and the notices of enumerated events will be filed by the Agency with the Municipal Securities Rulemaking Board’s Electronic Municipal Market Access System for municipal securities disclosures, maintained on the Internet at <http://emma.msrb.org/>. The specific nature of the information to be contained in the Annual Report and the notices of enumerated events are set forth in Appendix G. These covenants have been made in order to assist the Underwriter in complying with Rule 15c2-12(b)(5) promulgated under the Securities Exchange Act of 1934 (“Rule 15c2-12”).

The City and its related governmental entities – specifically those entities (such as the Former Agency and the Agency) for whom City staff is responsible for undertaking compliance with continuing disclosure undertakings – have previously entered into disclosure undertakings under Rule 15c2-12 in connection with the issuance of long-term obligations.

Within the last five years, the Former Agency has not failed to comply with its prior undertakings in any material respect. The Agency has appointed Willdan Financial Services, to act as Dissemination Agent and file the annual reports and notices related to the Series 2017 Bonds with the MSRB through EMMA as required by the Continuing Disclosure Certificate.

This Official Statement does not constitute a contract with the purchasers of the Series 2017 Bonds. Any statements made in this Official Statement involving matters of opinion or estimates, whether or not so expressly stated, are set forth as such and not as representations of fact, and no representation is made that any of the estimates will be realized.

BOOK-ENTRY ONLY SYSTEM

The information in this Appendix concerning The Depository Trust Company (“DTC”), New York, New York, and DTC’s book-entry system has been obtained from DTC and the Agency takes no responsibility for the completeness or accuracy thereof. The Agency cannot and does not give any assurances that DTC, DTC Participants or Indirect Participants will distribute to the Beneficial Owners (a) payments of interest, principal or premium, if any, with respect to the Series 2017 Bonds, (b) certificates representing ownership interest in or other confirmation or ownership interest in the Series 2017 Bonds, or (c) redemption or other notices sent to DTC or Cede & Co., its nominee, as the registered owner of the Series 2017 Bonds, or that they will so do on a timely basis, or that DTC, DTC Participants or DTC Indirect Participants will act in the manner described in this Appendix. The current “Rules” applicable to DTC are on file with the Securities and Exchange Commission and the current “Procedures” of DTC to be followed in dealing with DTC Participants are on file with DTC.

The Depository Trust Company (“DTC”), New York, NY, will act as securities depository for the Series 2017 Bonds. The Series 2017 Bonds will be issued as fully-registered securities registered in the name of Cede & Co. (DTC’s partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully-registered certificate will be issued for each maturity of the Series 2017 Bonds, each in the aggregate principal amount of such maturity, and will be deposited with DTC.

DTC, the world’s largest securities depository, is a limited-purpose trust company organized under the New York Banking Law, a “banking organization” within the meaning of the New York Banking Law, a member of the Federal Reserve System, a “clearing corporation” within the meaning of the New York Uniform Commercial Code, and a “clearing agency” registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds and provides asset servicing for over 3.5 million issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments (from over 100 countries) that DTC’s participants (“Direct Participants”) deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between Direct Participants’ accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation (“DTCC”). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly (“Indirect Participants”). DTC has a Standard & Poor’s rating of AA+. The DTC Rules applicable to its Participants are on file with the Securities and Exchange Commission. More information about DTC can be found at www.dtcc.com.

Purchases of Bonds under the DTC system must be made by or through Direct Participants, which will receive a credit for the Series 2017 Bonds on DTC’s records. The ownership interest of each actual purchaser of each Bond (“Beneficial Owner”) is in turn to be recorded on the Direct and Indirect Participants’ records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the Series 2017 Bonds are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in Bonds, except in the event that use of the book-entry system for the Series 2017 Bonds is discontinued.

To facilitate subsequent transfers, all Bonds deposited by Direct Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co., or such other name as may be requested by an authorized representative of DTC. The deposit of Bonds with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the Series 2017 Bonds; DTC's records reflect only the identity of the Direct Participants to whose accounts such Bonds are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time. Beneficial Owners of Bonds may wish to take certain steps to augment the transmission to them of notices of significant events with respect to the Series 2017 Bonds, such as redemptions, tenders, defaults, and proposed amendments to the Series 2017 Bond documents. For example, Beneficial Owners of Bonds may wish to ascertain that the nominee holding the Series 2017 Bonds for their benefit has agreed to obtain and transmit notices to Beneficial Owners. In the alternative, Beneficial Owners may wish to provide their names and addresses to the registrar and request that copies of notices be provided directly to them.

Redemption notices shall be sent to DTC. If less than all of the Series 2017 Bonds within a maturity are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such maturity to be redeemed.

Neither DTC nor Cede & Co. (nor any other DTC nominee) will consent or vote with respect to Bonds unless authorized by a Direct Participant in accordance with DTC's MMI Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to the Agency as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts Bonds are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Principal, premium (if any), and interest payments on the Series 2017 Bonds will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts upon DTC's receipt of funds and corresponding detail information from the Agency or the Trustee, on payable date in accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of DTC, the Trustee, or the Agency, subject to any statutory or regulatory requirements as may be in effect from time to time. Principal, premium (if any), and interest payments with respect to the Series 2017 Bonds to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the responsibility of the Agency or the Trustee, disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners will be the responsibility of Direct and Indirect Participants.

DTC may discontinue providing its services as depository with respect to the Series 2017 Bonds at any time by giving reasonable notice to the Agency or the Trustee. Under such circumstances, in the event that a successor depository is not obtained, certificates representing the Series 2017 Bonds are required to be printed and delivered.

The Agency may decide to discontinue use of the system of book-entry-only transfers through DTC (or a successor securities depository). In that event, representing the Series 2017 Bonds will be printed and delivered to DTC in accordance with the provisions of the Indenture.

The information in this Appendix concerning DTC and DTC's book-entry system has been obtained from sources that the Agency believes to be reliable, but the Agency takes no responsibility for the accuracy thereof.

A default under this Disclosure Certificate shall not be deemed an Event of Default under the Indenture, and the sole remedy under this Disclosure Certificate in the event of any failure of the Successor Agency to comply with this Disclosure Certificate shall be an action to compel performance.

Section 12. Duties, Immunities and Liabilities of Dissemination Agent.

(a) The Dissemination Agent shall have only such duties as are specifically set forth in this Disclosure Certificate, and the Successor Agency agrees to indemnify and save the Dissemination Agent, its officers, directors, employees and agents, harmless against any loss, expense and liabilities which they may incur arising out of or in the exercise or performance of its powers and duties hereunder, including the costs and expenses (including attorneys' fees) of defending against any claim of liability, but excluding liabilities due to the Dissemination Agent's negligence or willful misconduct. Agriculture

Agriculture is a significant source of income in the County. In 2015, principal agricultural products were milk, nursery stock, table grapes, hay, lemons, bell peppers, eggs, grapefruit, dates and avocados.

Four areas in the County account for the major portion of agricultural activity: the Riverside/Corona and San Jacinto/Temecula Valley Districts in the western portion of the County, the Coachella Valley in the central portion and the Palo Verde Valley near the County's eastern border. The County, and all of Southern California, is experiencing a severe drought. The County cannot predict the impact that a prolonged drought would have on agricultural production in the County.

The Agency will undertake pursuant to the Indenture and a Continuing Disclosure Certificate, dated the Closing Date (the "Continuing Disclosure Certificate"), by and between the

Agency and _____ as dissemination agent, to provide certain annual information and notices of the occurrence of certain enumerated events. A description of the undertaking is set forth in the Preliminary Official Statement and will also be set forth in the Official Statement (as defined below).

Concurrently with the issuance of the Bonds, the Agency will execute an Irrevocable Refunding Instructions (Series 2007A Bonds) (the “Instructions”).

The Indenture, the Instructions, the Continuing Disclosure Certificate, and this Purchase Contract are collectively referred to herein as the “Legal Documents.”

Section 3. Offering by the Underwriter; Establishment of Issue Price. It shall be a condition to the Agency’s obligations to sell and to deliver the Bonds to the Underwriter, and to the Underwriter’s obligation to purchase, to accept delivery of and to pay for the Bonds that the entire principal amount of the Bonds shall be issued, sold and delivered by the Agency to the Underwriter, and purchased, accepted and paid for by the Underwriter at the Closing. It is understood that the Underwriter proposes to offer the Bonds for sale to the public (which may include selected dealers and special purchasers) at the yield as set forth in Exhibit A hereto and on the inside cover page of the Official Statement. Concessions from the public offering price may be allowed to selected dealers and special purchasers. It is understood that the initial public offering price and concessions set forth in the Official Statement may vary after the initial public offering. It is further understood that the Bonds may be offered to the public at prices other than the par value thereof. The Underwriter also reserves the right to: (i) over-allot or effect transactions which stabilize or maintain the market price of the Bonds at levels above those that might otherwise prevail in the open market and (ii) discontinue such stabilizing, if commenced, at any time without prior notice. The Underwriter hereby represents that it has the full right, power and authority to enter into this Purchase Contract.

The Underwriter agrees to assist the Agency in establishing the issue price of the Bonds and shall execute and deliver to the Agency at Closing an “issue price” or similar certificate, together with the supporting pricing wires or equivalent communications, substantially in the form attached hereto as Exhibit G, with such modifications as may be appropriate or necessary, in the reasonable judgment of the Underwriter, the Agency and Bond Counsel, to accurately reflect, as applicable, the sales price or prices or the initial offering price or prices to the public of the Bonds. All actions to be taken by the Agency under this section to establish the issue price of the Bonds may be taken on behalf of the Agency by the Agency’s financial advisor identified herein and any notice or report to be provided to the Agency may be provided to the Agency’s financial advisor.

[Except as otherwise set forth in Schedule I attached hereto,] the Agency will treat the first price at which 10% of each maturity of the Bonds (the “10% test”) is sold to the public as the issue price of that maturity (if different interest rates apply within a maturity, each separate CUSIP number within that maturity will be subject to the 10% test). At or promptly after the execution of this Purchase Contract, the Underwriter shall report to the Agency the price or prices at which it has sold to the public each maturity of Bonds. If at that time the 10% test has not been satisfied as to any maturity of the Bonds, the Underwriter agrees to promptly report to the Agency the prices at which it sells the unsold Bonds of that maturity to the public. That

reporting obligation shall continue, whether or not the Closing Date has occurred, until the 10% test has been satisfied as to the Bonds of that maturity or until all Bonds of that maturity have been sold to the public.

[TO BE INCLUDED ONLY IF THE UNDERWRITER AGREES TO APPLY THE HOLD-THE-OFFERING PRICE RULE] [The Underwriter confirms that it has offered the Bonds to the public on or before the date of this Purchase Contract at the offering price or prices (the “initial offering price”), or at the corresponding yield or yields, set forth in Schedule I attached hereto, except as otherwise set forth therein. Schedule I also sets forth, as of the date of this Purchase Contract, the maturities, if any, of the Bonds for which the 10% test has not been satisfied and for which the Agency and the Underwriter agree that the restrictions set forth in the next sentence shall apply, which will allow the Agency to treat the initial offering price to the public of each such maturity as of the sale date as the issue price of that maturity (the “hold-the-offering-price rule”). So long as the hold-the-offering-price rule remains applicable to any maturity of the Bonds, the Underwriter will neither offer nor sell unsold Bonds of that maturity to any person at a price that is higher than the initial offering price to the public during the period starting on the sale date and ending on the earlier of the following:

- (1) the close of the fifth (5th) business day after the sale date; or
- (2) the date on which the Underwriter has sold at least 10% of that maturity of the Bonds to the public at a price that is no higher than the initial offering price to the public.

The Underwriter shall promptly advise the Agency when it has sold 10% of that maturity of the Bonds to the public at a price that is no higher than the initial offering price to the public, if that occurs prior to the close of the fifth (5th) business day after the sale date.]

The Underwriter confirms that any selling group agreement and any retail distribution agreement relating to the initial sale of the Bonds to the public, together with the related pricing wires, contains or will contain language obligating each dealer who is a member of the selling group and each broker-dealer that is a party to such retail distribution agreement, as applicable, to (1) report the prices at which it sells to the public the unsold Bonds of each maturity allotted to it until it is notified by the Underwriter that either the 10% test has been satisfied as to the Bonds of that maturity or all Bonds of that maturity have been sold to the public and (2) comply with the hold-the-offering-price rule, if applicable, in each case if and for so long as directed by the Underwriter. The Agency acknowledges that, in making the representation set forth in this subsection, the Underwriter will rely on (i) in the event a selling group has been created in connection with the initial sale of the Bonds to the public, the agreement of each dealer who is a member of the selling group to comply with the hold-the-offering-price rule, if applicable, as set forth in a selling group agreement and the related pricing wires, and (ii) in the event that a retail distribution agreement was employed in connection with the initial sale of the Bonds to the public, the agreement of each broker-dealer that is a party to such agreement to comply with the hold-the-offering-price rule, if applicable, as set forth in the retail distribution agreement and the related pricing wires. The Agency further acknowledges that the Underwriter shall not be liable for the failure of any dealer who is a member of a selling

group, or of any broker-dealer that is a party to a retail distribution agreement, to comply with its corresponding agreement regarding the hold-the-offering-price rule as applicable to the Bonds.

The Underwriter acknowledges that sales of any Bonds to any person that is a related party to the Underwriter shall not constitute sales to the public for purposes of this section. Further, for purposes of this section:

(1) “public” means any person other than an underwriter or a related party,

(2) “underwriter” means (A) any person that agrees pursuant to a written contract with the Agency (or with the lead underwriter to form an underwriting syndicate) to participate in the initial sale of the Bonds to the public and (B) any person that agrees pursuant to a written contract directly or indirectly with a person described in clause (A) to participate in the initial sale of the Bonds to the public (including a member of a selling group or a party to a retail distribution agreement participating in the initial sale of the Bonds to the public),

(3) a purchaser of any of the Bonds is a “related party” to an underwriter if the underwriter and the purchaser are subject, directly or indirectly, to (i) at least 50% common ownership of the voting power or the total value of their stock, if both entities are corporations (including direct ownership by one corporation of another), (ii) more than 50% common ownership of their capital interests or profits interests, if both entities are partnerships (including direct ownership by one partnership of another), or (iii) more than 50% common ownership of the value of the outstanding stock of the corporation or the capital interests or profit interests of the partnership, as applicable, if one entity is a corporation and the other entity is a partnership (including direct ownership of the applicable stock or interests by one entity of the other), and

(4) “sale date” means the date of execution of this Purchase Contract by all parties.

Section 4. Official Statement, Delivery of Other Documents, Use of Documents.

(a) The Agency hereby authorizes the use by the Underwriter of the Preliminary Official Statement and the Official Statement (including any supplements or amendments thereto), the Indenture, the Instructions and the Continuing Disclosure Certificate and the information therein contained, in connection with the public offering and sale of the Bonds. The Preliminary Official Statement is deemed final by the Agency as of its date and as of the date hereof, except for the omission of such information as is permitted to be omitted in accordance with paragraph (b)(1) of Rule 15c2-12 promulgated by the U.S. Securities and Exchange Commission under the Securities Exchange Act of 1934 (“Rule 15c2-12”). The Agency has delivered to the Underwriter a certification to such effect in the form attached hereto as Exhibit E.

(b) The Agency shall deliver to the Underwriter, within seven (7) business days from the date hereof, such number of copies (including in electronic form) of the final

Official Statement executed on behalf of and approved for distribution by the Agency as the Underwriter may reasonably request in order for the Underwriter to comply with the rules of the Municipal Securities Rulemaking Board (the “MSRB”) and paragraph (b)(4) of Rule 15c2-12.

(c) As soon as practicable following receipt thereof, the Underwriter shall deliver the Official Statement, and any supplements or amendments thereto, to a nationally recognized municipal securities information repository.

Section 5. Representations, Warranties and Agreements of the Agency. The Agency represents, warrants and agrees as follows:

(a) The Agency is a public entity, duly organized and existing under the Constitution and laws of the State of California, including the Dissolution Act.

(b) The Agency has full legal right, power and authority (i) to enter into, execute and deliver the Legal Documents and to execute and deliver the Official Statement; (ii) to sell, issue and deliver the Bonds to the Underwriter under the Dissolution Act and the Refunding Law, as provided in this Purchase Contract; and (iii) to carry out and consummate the transactions on its part contemplated by the Legal Documents.

(c) By all necessary official action, the Agency has duly authorized and approved the Legal Documents and the Official Statement, has duly authorized and approved the execution and delivery of, and the performance by the Agency of the obligations in connection with the issuance of the Bonds on its part contained in the Indenture and this Purchase Contract, and the consummation by it of all other transactions contemplated by the Legal Documents in connection with the issuance of the Bonds.

(d) As of the date hereof, to the best of its knowledge, the Agency is not in any material respect in breach of or default under any applicable constitutional provision, law or administrative regulation of any state or of the United States, or any agency or instrumentality of either, or any applicable judgment or decree, or any loan agreement, indenture, bond, note, resolution, agreement (including, without limitation, the Bonds and the Indenture) or other instrument to which the Agency is a party which breach or default has or may have a materially adverse effect on the ability of the Agency to perform its obligations under the Legal Documents, and no event has occurred and is continuing which with the passage of time or the giving of notice, or both, would constitute such a default or event of default under any such instrument; and the execution and delivery of the Legal Documents and the Official Statement, and compliance with the provisions on the Agency’s part contained in the Legal Documents, will not conflict in any material way with or constitute a material breach of or a material default under any constitutional provision, law, administrative regulation, judgment, decree, loan agreement, indenture, bond, note, resolution, agreement or other instrument to which the Agency is a party nor will any such execution, delivery, adoption or compliance result in the creation or imposition of any lien, charge or other security interest or encumbrance of any nature whatsoever upon any of the property or assets of the Agency or under the terms of any such law, regulation or instrument, except as provided by the Bonds and the Indenture.

(e) To the best of the Agency's knowledge, except as described in or contemplated by the Official Statement, all authorizations, approvals, licenses, permits, consents and orders of any governmental authority, legislative body, board, agency or commission having jurisdiction of the matter which are required for the due authorization by, or which would constitute a condition precedent to or the absence of which would materially adversely affect the due performance by, the Agency of its obligations under the Legal Documents or in connection with the issuance of the Bonds as contemplated in this Purchase Contract or the Indenture have been duly obtained, except for such approvals, consents and orders as may be required under the Blue Sky or securities laws of any state in connection with the offering and sale of the Bonds.

(f) The Indenture, the Continuing Disclosure Certificate, the Instructions, and the Bonds when issued, will conform to the descriptions thereof contained in the Official Statement under the captions "INTRODUCTION," "2017 BONDS," "PLAN OF REFUNDING," "SECURITY AND SOURCES OF PAYMENT FOR 2017 BONDS," "CONCLUDING INFORMATION – Continuing Disclosure," "APPENDIX D – SUMMARY OF CERTAIN PROVISIONS OF INDENTURE" and "APPENDIX F – FORM OF CONTINUING DISCLOSURE CERTIFICATE."

(g) The Bonds, when issued, authenticated and delivered in accordance with the Indenture will be validly issued and outstanding obligations of the Agency, entitled to the benefits of the Indenture, and upon such issuance and delivery, the Indenture will provide, for the benefit of the owners from time to time of the Bonds, the legally valid and binding pledge of and lien and security interest they purport to create.

(h) Except as disclosed in the Official Statement, as of the date hereof, there is no action, suit, proceeding, inquiry or investigation, notice of which has been served on the Agency, at law or in equity before or by any court, government agency, public board or body, pending or to the best knowledge of the officer of the Agency executing this Purchase Contract, threatened against the Agency, affecting the existence of the Agency or the titles of its officers to their respective offices, or affecting or seeking to prohibit, restrain or enjoin the sale, issuance or delivery of the Bonds or the pledge and lien on the Tax Revenues or any other monies pledged to the payment of the Bonds pursuant to the Indenture, or contesting or affecting as to the Agency the validity or enforceability of the Dissolution Act, the Bonds, or the Legal Documents or contesting the federal tax-exempt status of interest on the Bonds, or contesting the completeness or accuracy of the Preliminary Official Statement or the Official Statement, or contesting the powers of the Agency for the issuance of the Bonds, or the execution and delivery or adoption by the Agency of the Resolution and the Legal Documents, or in any way contesting or challenging the consummation of the transactions contemplated hereby or thereby or challenging the rights of the Agency to receive Tax Revenues pledged to the payment of the Bonds; nor, to the best knowledge of the Agency, is there any basis for any such action, suit, proceeding, inquiry or investigation, wherein an unfavorable decision, ruling or finding would materially adversely affect the validity of the Dissolution Act or the Refunding Law, the issuance of the Bonds, or the authorization, execution, delivery or performance by the Agency of the Bonds or the Legal Documents.

(i) The Moreno Valley Redevelopment Project (the “Project Area”) conforms to the descriptions thereof contained in the Official Statement under the captions “INTRODUCTION” and “PROJECT AREA.”

(j) The Agency will furnish such information, execute such instruments and take such other action in cooperation with the Underwriter as the Underwriter may reasonably request in order (i) to qualify the Bonds for offer and sale under the Blue Sky or other securities laws and regulations of such states and other jurisdictions of the United States as the Underwriter may designate (ii) to determine the eligibility of the Bonds for investment under the laws of such states and other jurisdictions, and will use its best efforts to continue such qualifications in effect so long as required for the distribution of the Bonds; provided, however, that the Agency shall not be required to execute a general or special consent to service of process or qualify to do business in connection with any such qualification or determination in any jurisdiction, and provided, further, that the Underwriter shall bear all costs in connection with the Agency’s action under (i) and (ii) herein, and (iii) assure or maintain the federal tax-exempt status of the interest on the Bonds.

(k) As of the time of acceptance hereof and as of the Closing Date, the Agency does not and will not have outstanding any indebtedness (and other than as disclosed in the Official Statement), which indebtedness is secured by a lien on the Tax Revenues of the Agency superior to or on a parity with the lien of the Indenture on the Tax Revenues.

(l) As of the date of the Preliminary Official Statement, the descriptions in the Preliminary Official Statement pertaining to the Agency, the Project Area, the Bonds, and the Legal Documents do not, except for the omission of certain information permitted to be omitted in accordance with Rule 15c2-12, contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements therein, in light of the circumstances under which they were made, not misleading.

(m) At the time of the Agency’s acceptance hereof, and (unless an event occurs of the nature described in paragraph (o) of this Section 5) at all times subsequent thereto up to and including the Closing Date, the Official Statement does not and will not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements therein, in light of the circumstances under which they were made, not misleading.

(n) If the Official Statement is supplemented or amended pursuant to paragraph (o) of this Section 5, at the time of each supplement or amendment thereto and (unless subsequently again supplemented or amended pursuant to such paragraph) at all times subsequent thereto up to and including the Closing Date, the Official Statement as so supplemented or amended will not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements therein, in light of the circumstances under which they were made, not misleading.

(o) If between the date of this Purchase Contract and that date which is twenty-five (25) days after the end of the underwriting period (as determined in accordance with Section 13 hereof) any event known to the Agency shall occur affecting the Agency which might adversely affect the marketability of the Bonds or the market prices thereof, or which might

cause the Official Statement, as then supplemented or amended, to contain any untrue statement of a material fact or to omit to state a material fact necessary to make the statements therein, in light of the circumstances under which they were made, not misleading, the Agency shall notify the Underwriter thereof, and if in the opinion of the Underwriter such event requires the preparation and publication of a supplement or amendment to the Official Statement, the Agency will at its expense prepare and furnish to the Underwriter a reasonable number of copies of such supplement to, or amendment of, the Official Statement in a form and in a manner approved by the Underwriter.

(p) The Agency will refrain from taking any action, or permitting any action to be taken, with regard to which the Agency may exercise control, that results in the loss of the federal tax-exempt status of the interest on the Bonds.

(q) Any certificate signed by any officer of the Agency and delivered to the Underwriter pursuant to the Legal Documents or any document contemplated thereby shall be deemed a representation and warranty by the Agency to the Underwriter as to the statements made therein.

(r) The Agency will cause the proceeds from the sale of the Bonds to be used for the purposes specified in the Indenture and the Official Statement. So long as any of the Bonds are outstanding and except as may be authorized by the Indenture, the Agency will not issue or sell any bonds or other obligations, other than the Bonds sold hereby, the interest on and premium, if any, or principal of which will be payable from the payments to be made under the Indenture.

(s) The Agency shall honor all other covenants on its part contained in the Indenture.

(t) At or prior to the Closing, the Agency shall have duly authorized, executed and delivered the Continuing Disclosure Certificate substantially in the form presented as Appendix F to the Official Statement.

(u) The Agency has received a “finding of completion” issued by the State Department of Finance pursuant to Health and Safety Code Section 34179.7.

Section 8. Termination. The Underwriter shall have the right to terminate the Underwriter's obligations under this Purchase Contract to purchase, to accept delivery of and to pay for the Bonds by notifying the Agency, in writing, of their election to do so, if, after the execution hereof and prior to the Closing:

(a) The United States has become engaged in new hostilities (or an escalation of hostilities) which have resulted in a declaration of war or a national emergency affecting the normal operation of the government of, or in the financial community in, the United States of America in a manner that makes it impracticable for the Underwriter, in its reasonable opinion, to market the Bonds or enforce the contracts for sale of the Bonds;

(b) There shall have occurred the declaration of a general banking moratorium by any authority of the United States or the States of New York or California;

(c) An event shall have occurred or been discovered as described in paragraph (o) of Section 5 hereof which, in the reasonable opinion of the Underwriter, requires the preparation and publication of disclosure material or a supplement or amendment to the Official Statement, and (i) the Agency refuses to prepare and furnish such disclosure material, or supplement or amendment to the Official Statement, or (ii) in the reasonable judgment of the Underwriter, the occurrence or discovery of such event materially and adversely affect the marketability of the Bonds or render the enforcement of contracts for sale of the Bonds impracticable;

(d) Any legislation, ordinance, rule or regulation shall be introduced in, or be enacted by any governmental body, department or agency in the State of California, or a decision by any court of competent jurisdiction within the State of California shall be rendered which, in the Underwriter's reasonable opinion, materially adversely affects the market price of the Bonds;

(e) Legislation shall be introduced, by amendment or otherwise, or be enacted by the House of Representatives or the Senate of the Congress of the United States, or a decision by a court of the United States shall be rendered, or a stop order, ruling, regulation or official statement by or on behalf of the Securities and Exchange Commission or other governmental agency having jurisdiction of the subject matter shall be made or proposed, to the effect that the issuance, offering or sale of obligations of the general character of the Bonds, or the Bonds, as contemplated hereby or by the Official Statement, is or would be in violation of any provision of the Securities Act of 1933, as amended and as then in effect, or the Securities Exchange Act of 1934, as amended and as then in effect, or the Trust Indenture Act of 1939, as amended and as then in effect, or with the purpose or effect of otherwise prohibiting the issuance, offering or sale of the Bonds or obligations of the general character of the Bonds, as contemplated hereby or by the Official Statement;

(h) Trading in securities on the New York Stock Exchange or the American Stock Exchange shall have been suspended or limited or minimum prices have been established on either such exchange which, in the Underwriter's reasonable opinion, materially adversely affects the marketability or market price of the Bonds;

(j) Any decision of any federal or State of California court or any ruling or regulation (final, temporary or proposed) or official statement on behalf of the United States Treasury Department, the Internal Revenue Service, or other federal or State of California authority materially adversely affecting the federal or State of California tax status of the Bonds or the interest on bonds or notes or obligations of the general character of the Bonds; or

(k) Any action shall have been taken by any government in respect of its monetary affairs which, in the reasonable opinion of the Underwriter, has a material adverse effect on the United States securities market, rendering the marketing and sale of the Bonds, or enforcement of sale contracts with respect thereto impracticable.

If this Purchase Contract shall be terminated pursuant to Section 7 or this Section 8 or if the purchase provided for herein is not consummated because any condition to the Underwriter's obligation hereunder is not satisfied or because of any refusal, inability or failure on the part of the Agency to comply with any of the terms or to fulfill any of the conditions of this Purchase Contract, or if for any reason the Agency shall be unable to perform all of its respective obligations under this Purchase Contract, the Agency shall not be liable to the Underwriter for damages alleged as loss of anticipated profits arising out of the transactions covered by this Purchase Contract.

Ladies and Gentlemen:

This letter is addressed to Stifel, Nicolaus & Company, Incorporated, as Underwriter (the “Underwriter”), pursuant to Section 7(e)(5) of the Bond Purchase Contract, dated _____, 2017 (the “Purchase Contract”), between you and the Successor Agency to the Community Redevelopment Agency of the City of Moreno Valley (the “Agency”), providing for the purchase of \$ _____ principal amount of Successor Agency to the Community Redevelopment Agency of the City of Moreno Valley Tax Allocation Refunding Bonds, Series 2017 (the “Bonds”). The Bonds are being issued pursuant to an Indenture of Trust, dated as of _____ 1, 2017 (the “Indenture”), by and between the Agency and Wells Fargo Bank, National Association, as trustee (the “Trustee”). Capitalized terms not otherwise defined herein shall have the meanings ascribed thereto in the Indenture or, if not defined in the Indenture, in the Purchase Contract.

We have delivered our final legal opinion (the “Bond Opinion”) as bond counsel to the Agency concerning the validity of the Bonds and certain other matters, dated the date hereof and addressed to the Agency. You may rely on the Bond Opinion as though the same were addressed to you.

In connection with our role as bond counsel to the Agency, we have reviewed the Purchase Contract, the Indenture, the Tax Certificate relating to the Bonds (the “Tax Certificate”), opinions of counsel to the Agency and the Trustee, certificates of the Agency, the Trustee and others, and such other documents, opinions and matters to the extent we deemed necessary to provide the opinions or conclusions set forth herein.

The opinions expressed herein are based on an analysis of existing laws, regulations, rulings and court decisions and cover certain matters not directly addressed by such authorities. Such opinions may be affected by actions taken or omitted or events occurring after the date hereof. We have not undertaken to determine, or to inform any person, whether any such actions are taken or omitted or events do occur or any other matters come to our attention after the date hereof. We have assumed the genuineness of all documents and signatures presented to us (whether as originals or as copies) and the due and legal execution and delivery thereof by, and validity against, any parties other than the Agency. We have assumed, without undertaking to verify, the accuracy of the factual matters represented, warranted or certified in the documents, and of the legal conclusions contained in the opinions, referred to in the third paragraph hereof. We have further assumed compliance with all covenants and agreements contained in such documents. In addition, we call attention to the fact that the rights and obligations under the Bonds, the Indenture, the Tax Certificate and the Purchase Contract and their enforceability may be subject to bankruptcy, insolvency, reorganization, receivership, arrangement, fraudulent conveyance, moratorium and other laws relating to or affecting creditors' rights, to the application of equitable principles, to the exercise of judicial discretion in appropriate cases and to the limitations on legal remedies against successor agencies to redevelopment agencies in the State of California. We express no opinion with respect to any indemnification, contribution, liquidated damages, penalty (including any remedy deemed to constitute a penalty), right of set-off, arbitration, judicial reference, choice of law, choice of forum, choice of venue, non-exclusivity of remedies, waiver or severability provisions contained in the foregoing documents, nor do we express any opinions with respect to the state or quality of title to or interest in any real or personal property described in or as subject to the lien of the Indenture or the accuracy or sufficiency of the description contained therein of, or the remedies available to enforce liens on, any such property. Finally, we undertake no responsibility for the accuracy, except as expressly set forth in numbered paragraph 3 below, completeness or fairness of the Official Statement, dated _____, 2017 (the "Official Statement"), or other offering material relating to the Bonds and express no opinion relating thereto.

Based on and subject to the foregoing, and in reliance thereon, as of the date hereof, we are of the following opinions:

1. The Bonds are not subject to the registration requirements of the Securities Act of 1933, as amended, and the Indenture is exempt from qualification pursuant to the Trust Indenture Act of 1939, as amended. [No opinion is expressed with respect to the 2017 Bond Insurance Policy or the 2017 Reserve Policy.]
2. The Purchase Contract has been duly executed and delivered by, and is a valid and binding agreement of, the Agency.
3. The statements contained in the Official Statement under the captions "THE [SERIES 2017] BONDS" (except matters under "Book-Entry System"), "SECURITY FOR THE [SERIES 2017] BONDS," "TAX MATTERS," and in APPENDIX __ – "SUMMARY OF THE INDENTURE" and APPENDIX __ – "FORM OF BOND COUNSEL OPINION," excluding any material that may be treated as included under such captions by cross-reference or reference to other documents or sources, insofar as such statements expressly summarize certain provisions of the Indenture and the form and content of our Bond Opinion, are accurate in all material respects.

This letter is furnished by us as bond counsel to the Agency. No attorney-client relationship has existed or exists between our firm and you in connection with the Bonds or by virtue of this letter. We disclaim any obligation to update this letter. This letter is delivered to you as Underwriter of the Bonds, is solely for your benefit as such Underwriter and is not to be used, circulated, quoted or otherwise referred to or relied upon for any other purpose or by any other person. This letter is not intended to, and may not, be relied upon by owners of Bonds or by any other party to whom it is not specifically addressed.

We express no opinion with respect to matters covered by such opinions.

Our services as disclosure counsel to the Agency did not involve the rendering of financial or other non-legal advice to you, the Agency or any other party to the transaction.

Although we have not undertaken to determine independently or verify and are not passing upon and do not assume responsibility for, the accuracy, completeness or fairness of the statements contained in the Official Statement, and are therefore unable to make any representation to you in that regard, we have participated in conferences prior to the date of the Official Statement with your representatives, including separate counsel retained by you, and representatives of the Agency, including the Agency’s General Counsel and Bond Counsel, the Agency’s financial advisor and fiscal consultant, and others, during which conferences the contents of the Official Statement and related matters were discussed. Based upon the information made available to us in the course of our participation in such conferences as disclosure counsel to the Agency, our review of the documents referred to above, our reliance on the oral and written statements of the Agency and others, the documents, certificates, instructions and records and the opinions of counsel described above and our understanding of applicable law, and subject to the limitations on our role as disclosure counsel to the Agency, we advise you as a matter of fact but not opinion that no information has come to the attention of the attorneys in the firm representing the Agency as disclosure counsel on this matter which caused us to believe that the Official Statement as of its date contained, or as of the date hereof contains, any untrue statement of a material fact, or as of its date omitted, or as of the date hereof omits, to state a material fact required to be stated therein or necessary to make the statements therein, in

Finally, we advise you that, other than reviewing the various certificates and opinions required by Section 7(e) of the Purchase Contract, we have not taken any steps since the date of the Official Statement to verify the accuracy of the statements contained in the Official Statement as of the date hereof. No responsibility is undertaken or opinion rendered with respect to any other disclosure document, materials or activity, or as to any information from another document or source referred to by, or incorporated by reference in, the Official Statement.

By acceptance of this letter you recognize and acknowledge that: (i) the negative assurance above is not an opinion and is based on certain limited activities performed by specific attorneys in our firm in our role as disclosure counsel to the Agency; (ii) the scope of the activities performed by such attorneys in our role as disclosure counsel to the Agency and for purposes of delivering such negative assurances were inherently limited and do not purport to encompass all activities necessary for compliance by you or others in accordance with applicable state and federal securities laws; and (iii) the activities performed by such attorneys in our role as disclosure counsel to the Agency rely in part on representations, warranties, certifications and opinions of other parties to the transaction, including representations, warranties and certifications made by the Agency.

This letter is being furnished to you solely for your benefit in connection with your purchase of the Bonds in accordance with the Purchase Contract and is not to be used, circulated, quoted or otherwise referred to for any other purpose without our prior written consent; provided, however, a copy may be included in the transcript of the proceedings for the Bonds. No attorney-client relationship has existed or exists between our firm and you in connection with the issuance of the Bonds or by virtue of this letter. We note that you were represented by separate counsel retained by you in connection with the transaction described in the Official Statement. This letter is limited to matters governed by the laws of the State of California and

Report to City Council

TO: Mayor and City Council

FROM: Rick C. Hartmann, Acting Public Works Director

AGENDA DATE: August 15, 2017

TITLE: ADOPT AN ORDINANCE AMENDING THE MUNICIPAL CODE TO ADD CHAPTER 14.40 ADOPTING REGULATIONS FOR THE PLANTING AND MAINTENANCE OF TREES WITHIN THE CITY AND AUTHORIZE THE MAYOR TO SIGN THE APPLICATION FOR TREE CITY USA DESIGNATION

RECOMMENDED ACTION

Recommendations: That the City Council

1. Introduce and conduct first reading by title only of Ordinance No. _____. An Ordinance of the City Council of the City of Moreno Valley, California, amending the Municipal Code to add Chapter 14.40 adopting regulations for the planting and maintenance of trees within the City.
2. Authorize the Mayor to sign the Application for Tree City USA Designation.

SUMMARY

This report recommends introduction and first reading of an Ordinance to amend the Municipal Code to add Chapter 14.40, adopting regulations for the planting and maintenance of trees within the City. The Ordinance establishes regulations and policies necessary to consistently and objectively manage the City's urban forest and designates the Public Works and Parks and Community Services Departments as the responsible departments for public tree care. Adoption of the Ordinance at the next Council meeting satisfies two of the standards established by the Arbor Day Foundation required for application for Tree City USA designation and satisfies two of the Momentum MoVal Strategic Plan initiatives.

DISCUSSION

During development of the Momentum MoVal Strategic Plan, stakeholders identified beautification of the City (e.g. planting more trees) and preservation of the City's trees as priorities. Receiving Tree City USA designation was included in the Strategic Plan, which was adopted on August 16, 2016, as Objective 5.3. Tree City USA is a national program sponsored by the Arbor Day Foundation that awards the designation to agencies who show great care for their public trees. Designation as a Tree City USA will demonstrate the City's commitment to the environment, quality of life for its citizens, and beautification efforts. The City may also be eligible to apply for specialized urban forestry funds and will receive support from the Arbor Day Foundation and other Tree City USA designated agencies. Information on the Tree City USA program is included as Attachment 2.

The Arbor Day Foundation requires completion of four standards to apply for Tree City USA designation. The City has satisfied two of the standards (Arbor Day Event and Forestry Program and Budget). Adoption of a Tree Care Ordinance will satisfy the final two standards. The standards must be met prior to December 31 of each year to apply for and continue designation.

| <u>Tree USA Designation</u> | |
|--|---|
| Standard | Status |
| 1. Conduct an Arbor Day observance and proclamation | A tree planting event occurred as part of the Community Day of Service on February 25, 2017 and the City Council issued a proclamation on April 18, 2017. |
| 2. Establish a Community Forestry Program with an annual budget of at least \$2 per capita | The fiscal year 2017/18 budget includes an allocation of over \$738,000 (\$3.52 per capita) for tree trimming/removal services within the City's parks, landscape maintenance districts, and public right-of-way. |
| 3. Establish a Tree Board or Department | Proposed Ordinance designates the Public Works and Parks and Community Services Departments as the responsible departments for public tree care. |
| 4. Adopt a Tree Care Ordinance | Proposed Ordinance submitted for consideration to add tree maintenance to the Municipal Code. |

There are approximately 28,000 trees owned and maintained by the City. The trees are located in City parks, landscape maintenance districts or other public right-of-way. Responsibility for their maintenance is shared between the Parks & Community Services Department, Special Districts Division, and Maintenance and Operations Division. The proposed Tree Care Ordinance amends the Municipal Code to provide guidance for planting, maintaining, and removing public trees. It also includes the authorization, regulations and policy necessary to consistently and objectively manage the City's urban forest. The Planning Division made a determination that this project is categorically exempt under California Environmental Quality Act Guidelines as a Class 8 exemption (Section 15308).

ALTERNATIVES

1. Introduce and conduct first reading by title only of the proposed ordinance.

Schedule second reading and adoption for the September 5th, 2017 Council meeting. *Staff recommends this alternative, as it is consistent with the Momentum MoVal Strategic Plan and is required to submit for Tree City USA designation.*

2. Do not move forward with the adoption process for the proposed ordinance. *Staff does not recommend this alternative as it is not consistent with Momentum MoVal Strategic Plan and may prevent the City from applying for the Tree City USA designation in 2017.*

FISCAL IMPACT

There is no additional fiscal impact associated with adoption of the Ordinance. Maintenance costs associated with the care of trees in the City's Park, landscape maintenance districts, and other public right-of-way are included within the City Council adopted budgets of the Parks & Community Services Department, Maintenance and Operations Division, and Special Districts Division.

Section 14.40.020. Authorized Tree Species for Planting

Only trees that are indigenous to the area, and/or suitable for the local climate shall be used. Site layout shall take into consideration Moreno Valley's climate by including trees, landscaping and architectural elements to provide shade, as appropriate for the available root and tree canopy space.

Section 14.040.040. Public Tree Care

Public right-of-way and Park Trees shall be maintained by the responsible party or entity. For the City of Moreno Valley, the responsibility and authority for public tree care shall be vested with the Public Works and Parks and Community Services Departments.

Report to City Council

TO: Mayor and City Council

FROM: Pat Jacquez-Nares, City Clerk

AGENDA DATE: August 15, 2017

TITLE: MORENO VALLEY COLLEGE PROMISE INITIATIVE

RECOMMENDED ACTION

Recommendations: That the City Council:

1. Approve support for first year Moreno Valley resident students attending Moreno Valley College via the Promise Initiative. Support for the Moreno Valley College Promise Initiative would be offered as a pilot program for fiscal year 2017/18.
2. Authorize the City Manager to execute the attached agreement with Moreno Valley College and authorize the one-time \$50,000 expenditure.
3. Authorize a budget adjustment to the General Fund budget as set forth in Table 1 in the Fiscal Impact section of this report.

SUMMARY

This report recommends approval of an agreement with Moreno Valley College (MVC) to support Moreno Valley resident students enrolled in the MVC Promise Initiative. The agreement commits \$50,000 to help provide gap funding to offset first year college costs such as tuition, various fees and textbooks.

The goal of the MVC Promise Initiative is to ensure that students complete their associate degree transfer, and/ or workforce certificate requirements in a timely and efficient manner.

DISCUSSION

There is a direct correlation between attainment of higher education and economic prosperity for families and communities. It is projected that by 2020, 66% of all new jobs in California will require at least two years of college level education. The rising costs of

higher education make it less accessible to low and middle income students. Even those who attend by receiving student loans, accumulate more debt than their more affluent peers.

About the Moreno Valley College Promise Initiative

Recognizing the need for financial assistance for many of the incoming students, MVC launched the MVC Promise Initiative in school year 2016/ 2017. Its goal is to ensure that graduating students from Moreno Valley and Val Verde Unified School Districts have access to financial resources for a successful first year of college. MVC plans to assist 500 students the Fall of 2017.

The Promise Initiative is part of the First Year Experience program which provides an institutional framework for the positive transition of students from high school to college. According to Moreno Valley College, students with a positive foundation in the first year of college are significantly more likely to complete the first two years and transfer to a University. The framework includes structural and financial support.

Structural support includes:

- Mandatory enrollment in the MVC Summer Bridge program. This summer program provides a guidance success class that prepares students for college-level coursework and helps them establish positive relationships on campus.
- A Comprehensive Student Educational Plan, which guides students' educational path.
- Priority registration guaranteeing students 12-15 units per semester for the first year.
- Student success coach.
- Connection opportunities with peers on the same path.

Financial support:

- Covers costs that are not covered by financial aid including tuition, fees, and textbooks.
 - 77% (385) of Promise Students are fully covered by financial aid.
 - 14% (70) of Promise Students only qualify for the Board of Governors Fee Waiver (BOGW) creating a \$1,827 gap in funding.
 - 9% (45) of Promise Students receive no financial aid.

Promise Initiative eligibility includes:

- At least 18 years of age, high school diploma or GED, or be a graduating senior in high school;
- First-time college student;
- Completed FAFSA or California Dream Act Application with MVC;
- Completed College and Summer Bridge application; and
- Completed enrollment as a full-time student including math and English courses.

City of Moreno Valley Proposal

Momentum MoVal, the City of Moreno Valley's strategic plan adopted by the Moreno Valley City Council on August 16, 2016 includes economic development as one of six strategic plan priorities for achieving the established vision for the City's future. The Promise Initiative meets the intent of expanding workforce development efforts. Mayor Gutierrez and staff met with Moreno Valley College president, Dr. Robin Steinback and her staff to explore opportunities for maximizing the potential of the program through the City's participation.

The following proposal will help approximately 27 students successfully complete their first year of college. Because the Promise Initiative is a mechanism to minimize the financial obstacles for first year students, the number of students assisted will be determined by the amount of financial aid students are eligible for. Mayor Gutierrez' proposal provides \$50,000 for the 2017/18 school year as a pilot program. The funds will only be made available to students who are Moreno Valley residents. Residency must be established 12 months prior to receipt of funds.

The proposed agreement establishes requirements for participation by the City of Moreno Valley. The following is a summary of key points:

- Disbursement of funds must be tracked by MVC for audit purposes;
- City funds must be distributed in compliance with all applicable State and Federal anti-discrimination laws; and
- City will receive periodic updates from MVC regarding progress of the program including the number of students assisted and student success rate.
- Students failing to complete the semester successfully will be required to reimburse the program the entire amount of funding provided for that semester.

ALTERNATIVES

1. Approve a \$50,000 contribution to the Moreno Valley College Promise Initiative to assist Moreno Valley residents who enrolled at MVC and authorize execution of the agreement with MVC. Authorization of this expenditure is tangible support and leverage of other community resources for the goals as outlined in the strategic plan to expand economic and workforce development efforts.
2. Do not approve support for the Moreno Valley College Promise Initiative. This alternative would be a lost opportunity to be a proactive partner with Moreno Valley College leveraging resources to create positive economic impacts in the lives of Moreno Valley families and in the community.

FISCAL IMPACT

The pilot program to support the Moreno Valley College Promise Initiative students will require a General Fund budget adjustment of \$50,000 for FY 2017/18 increasing the Council Discretionary account from \$53,000 to \$103,000.

| Appropriations/ Budget Adjustments | | | | | | |
|--|---------|-------------------------|------|-----------------|----------------------|-------------------------|

| Moreno Valley College Promise Initiative | General | 1010-10-01-10010-620199 | Exp. | \$53,000 | \$50,000 | \$103,000 |

NOTIFICATION

Mayor Yxstian Gutierrez met with Robin Steinback, President, Moreno Valley College. Moreno Valley College is grateful for the City of Moreno Valley’s interest and potential partnership in preparing Moreno Valley college students for success. Agenda was posted in accordance with the Brown Act.

Report to City Council

TO: Mayor and City Council

FROM: Michelle Dawson, City Manager

AGENDA DATE: August 15, 2017

TITLE: REQUEST FOR CITY SPONSORSHIP OF CINEMA CULTURAS 4TH ANNUAL FILM FEST

RECOMMENDED ACTION

Recommendations:

1. Consider a request by Cinema Culturas for City sponsorship for the 4th Annual Film Fest.
2. Approve budget adjustment as set forth in the Fiscal Impact section of this report.

SUMMARY

This report recommends that the City Council review a request for City sponsorship of the 4th Annual Cinema Culturas Film Fest celebrating contemporary Latino film, local heritage and community. The Film Fest is scheduled to be held October 27-29, 2017 at the Harkins Theatres at the Moreno Valley Mall.

DISCUSSION

The Cinema Culturas Film Fest/Inland Empire (CCFFIE) is an annual event committed to promoting the artistic, academic, and professional advancement of Hispanics and providing a forum for the richness and variety of all cultures, Spanish-speaking and non-Spanish speaking, in the Inland Empire and Southern California. The event organizers are bringing their 4th Annual Film Fest to Moreno Valley and are requesting \$5,379 in sponsorship support from the City.

According to information provided by Cinema Culturas, the Film Fest will showcase award-winning contemporary Mexican films and co-productions with Latin American countries, the U.S., and Europe, providing a local forum with a global vision. The program will include feature-length films, documentaries, shorts, and animated films. Community components of CCFFIE are its Mini Cinema Culturas and annual student

film competition showcasing the best films of local high school and college students and offering film workshops to local youth led by filmmakers, other industry professionals, and local academics. A copy of the program from the 2016 event is attached.

The proposed sponsorship of this cultural event supports two of the six top priorities identified in the Momentum MoVal Strategic Plan: Economic Development and Beautification, Community Engagement, and Quality of Life.

ALTERNATIVES

1. Consider a request by Cinema Culturas for City sponsorship for the 4th Annual Film Fest and approve a budget adjustment of \$5,379 in support of this event. *Staff recommends this alternative as the requested support will bring an important and unique cultural event to the Moreno Valley community.*
2. Consider a request by Cinema Culturas for City sponsorship for the 4th Annual Film Fest and not approve a budget adjustment of \$5,379 in support of this event. *Staff does not recommend this alternative.*

FISCAL IMPACT

The City Sponsorship program was defunded several years ago, therefore the City does not have a specific budget for this use. Should the City Council approve the requested \$5,379 sponsorship, the funding would be provided from the General Fund balance.

A TRIBUTE TO THE LEGACY OF Tomás Rivera

in Partnership with UC Riverside College of Humanities, Arts, and Social Sciences

at: 2016 Latino Film Festival Program (2744 : CITY SPONSORSHIP OF CINEMA CULTURAS FILM

LETTER FROM OUR FOUNDER

Our theme this year, Life in Motion: A Tribute to the Legacy of Dr. Tomás Rivera, reflects the man, his professional life and the stories he wrote on Latinos and their struggles; nevertheless, there is a common denominator in all of Dr. Rivera's stories, that of "esperanza", hope. This universal theme of hope that we can all relate to regardless of where we come from, was manifested in Dr. Rivera's prolific life as a scholar, author and Latino leader, not only in theory, but also in the motion required to overcome obstacles and propel dreams: "I'm going to keep my eyes on the stars til the last one disappears" (*Y no se lo tragó la tierra*).

And his dreams were meant to be shared. As Chancellor of UC Riverside and visionary scholar who embraced his Latino origin, Dr. Rivera's enthusiastic and tireless efforts made it possible for UC Mexus (University of California Institute for Mexico & the United States) to be brought to UCR. This Institute has enriched Mexico-U.S. academic exchange and it was his vision that was at the forefront of the current UC Mexico Initiative. At a local level, UC Mexus has made this event possible.

This year's gala night film, *The Thin Yellow Line*, just like in Dr. Rivera's stories on migrant families, is significant in that it reflects and honors the work we do in our daily lives, the sacrifices we make, and the spirit and heritage of Latinos. Cinema Culturas & The Tomás Rivera Tribute strives to honor and preserve this life in motion. The festival's films were chosen to emphasize diversity and the courage to embrace oneself, and in this year's children's film workshops we focused on Dr. Rivera's life and legacy, and the continuation of his dreams in future generations.

On behalf of Cinema Culturas Advisory Board & myself, we would like to express our deepest gratitude to Dean Milagros Peña, UC Riverside College of Humanities, Arts, and Social Sciences, and Concha Rivera, who keeps Dr. Rivera's legacy alive.

Dr. Cony Martínez
 Founder & General Director
 Cinema Culturas Film Festival

ABOUT THE FESTIVAL

Cinema Culturas Film Fest is an annual event committed to promoting the artistic, academic, and professional advancement of Hispanics and providing a forum for the richness and variety of all cultures, Spanish-speaking and non-Spanish speaking, in the Inland Empire and Southern California.

Our project is unprecedented in the Inland Empire as it uses a celebration of the artistic visions of Mexican and Latino filmmakers to initiate fruitful dialogue among communities about

the dynamics of living in the multicultural world of Southern California. We showcase award-winning contemporary Mexican films and co-productions with Latin American countries, the U.S., and Europe, providing a local forum with a global vision.

The program will include feature-length films, documentaries, shorts, and animated films. Community components of CCFE are its Mini Cinema Culturas and annual student film competition showcasing the best films of local high school and college students and offering film workshops to local youth led by filmmakers, other industry professionals, and local academics.

LIFE IN MOTION: A TRIBUTE TO THE LEGACY OF TOMÁS RIVERA

The Tomás Rivera 28th Annual Tribute, initiated in 1988, honors the legacy of Tomás Rivera by providing an

international forum for reflection on the contributions of Chicanos and Latinos in the worlds of the arts, literature, creative writing, culture, business, medicine, and education. The Tribute is purposefully cross-disciplinary, bridging the disciplines to highlight and explore the diversity of issues and concerns that are important to the Latino community as well as the community at-large.

ABOUT DR. TOMÁS RIVERA

Tomás Rivera (1935 - 1984) grew up as the son of migrant farmworkers and his humble beginnings helped fuel his passionate pursuit of higher education, and sharpened his vision of a better life for himself and the Latino community. Dr. Rivera's love and pride of his Hispanic heritage is evident in the unfolding of his life's work. Dr. Rivera became the first Latino Chancellor of UC Riverside; and his love & gift of storytelling from a very early age lead to his acclaim as an award-winning poet and novelist. Throughout his life, Dr. Rivera encouraged Latinos to follow their dreams and to keep moving forward in spite of life's obstacles. He wanted his people to have better lives, and to be successful. His example of determination & perseverance continues to help pave the way for Latinos, and his message of hope is one that will continue to resonate within each of us . . . til the last star disappears.

The Thin Yellow Line is the journey of five men who are hired to paint the median line of a road that connects two villages in Mexico. Required to paint more than 200 kilometers with outdated equipment in the sweltering heat of the sun in less than fifteen days, they do the job. In painting the yellow thin line, the men realize that there is a thin line that exists between right and wrong, laughter and crying; between giving up and persevering, and life and death. They acknowledge that life is always changing, and the only thing to do is keep moving forward.
