Attachments: Revised Calc Area 3.pdf

Hi Claudia:

Getting ready to make some final graphic changes. It is possible to either get a jpg or shape file for the revised Calc Area 3? In the graphic from the council packet (attached), it appears that the new parcel (APN 486280043) has two designations – open space and R30 – yes? And if yes, in the graphic did you draw in the split of the two uses? I just want to make sure we use the correct graphic/GIS files for the final IS document. Any help would be greatly appreciated. Thanks.

Collette

Thank you for the update.
I'll be working with Darisa on the invoice.

Claudia:

We still need to make those final changes, and should have that done within the next two weeks.

Hi Collette:

We received RBF's invoice for the additional environmental work on Alessandro Blvd's MND – just checking on the status of the last revision to include the parcel exchange in Area #3 of the R30 rezoning.

Thank you!

Sincerely,
Claudia
